

1 Page 2-lines 1 through 11 Delete entirely including the  
2 Senate standing committee amendment  
3 (SF0069SS001/A) to these lines and insert:  
4

5 "(c) The commission may recommend financing be provided to  
6 an eligible public entity for an otherwise eligible water project  
7 whether or not the public entity owns the proposed project or holds  
8 an easement or fee title to all lands upon which the project would  
9 be situated. The commission shall not disqualify a proposed project  
10 from consideration based upon a public entity's failure to own a  
11 proposed project, or to hold an easement or title to all lands  
12 upon which a project would be situated, without providing the  
13 public entity an opportunity to establish the portion of the  
14 project funding anticipated to be expended on project components  
15 on private lands or which are anticipated to benefit private  
16 interest and the anticipated public benefit resulting from the  
17 project. The commission shall not recommend financing for a project  
18 subject to this paragraph if:

19  
20 (i) It finds the primary object of the project is to  
21 promote private interests;  
22

23 (ii) It finds in light of the amount of project funds  
24 that would be expended on project components on private land or  
25 which would benefit private interests, that the public benefit of  
26 the project is insufficient to support the expenditure of public  
27 funds; or  
28

29 (iii) The public benefit is too speculative in light of  
30 the project costs.". ANSELMI-DALTON
