

**FISCAL NOTE**

The overall fiscal impact to the state is indeterminable but is not expected to be significant.

There will be no change to the expenses of the Lottery Corporation. The legislation creates a mechanism whereby the Lottery Corporation can save a small portion of revenue to establish savings. Currently the statutory language does not permit the Lottery Corporation to accrue any type of savings. If the Lottery Corporation were to exercise the ability to save, it could have a temporary short-term impact on revenue. However, it is unlikely the amount would have a significant impact to the overall distribution to the state.
