

FISCAL NOTE

This bill contains an authorization of 1 at-will contract employee position.

The fiscal impact is indeterminable as the Department of Education is unsure if it will be successful to secure necessary non-state funds, as required by this bill. The Department of Education estimates an annual amount of \$158,150 is necessary to hire a nurse practitioner and other related costs to implement the requirements of this bill. If non-state funds are secured, the bill provides for these funds to be accepted and transferred to the Department of Education through the B-11 process.
