

FISCAL NOTE

The fiscal impact is indeterminable.

The Game and Fish Department (Department) indicated that this bill would result in a revenue decrease due to the issuance of free lifetime fishing, small game and game bird licenses to qualifying residents, resulting in a decrease in annual and daily fishing license sales and annual game bird/small game license sales. The number of residents who would qualify for the free lifetime licenses is unknown.

The Department also indicated that there would be an expenditure increase due to license recoupment from the increased annual allocation of free lifetime fishing, small game, and game bird licenses to qualifying residents. The number of residents who would qualify for the free lifetime licenses is unknown.
