9 "(xxxvii) "Qualifying well" means a well in which:

10  
11 (A) A well site is already connected to a  
12 pipeline, pipeline capacity is unavailable on the existing  
13 pipeline and the producer and the pipeline operator jointly have  
14 filed an application with the Wyoming oil and gas conservation  
15 commission attesting to the lack of existing pipeline takeaway  
16 capacity;  
17

18 (B) A producer's well is not connected to an  
19 existing pipeline but the producer's lands, leases, wells or gas  
20 are contractually dedicated to a pipeline operator and the producer  
21 and the pipeline operator to which the lands, leases, well, or gas  
22 are dedicated jointly have filed an application with the Wyoming  
23 oil and gas conservation commission attesting that it is either  
24 technically or commercially unfeasible to connect a pipeline to  
25 the producer's well; or  
26

27 (C) A producer's well is not already connected to  
28 an existing pipeline and the producer's lands, leases, wells or  
29 gas are not contractually dedicated but the producer unilaterally  
30 has filed an application with the Wyoming oil and gas conservation  
31 commission attesting to these facts."

39 (p) Natural gas which, if not for on-site consumption or sale,  
40 would otherwise be vented or flared under the authority of the  
41 Wyoming oil and gas conservation commission has no value and is  
42 exempt from taxation if the natural gas is certified by the Wyoming  
43 oil and gas conservation commission as to have originated from a  
44 qualifying well.".HARSHMAN, CHAIRMAN
