

FISCAL NOTE

The fiscal impact is indeterminable.

The bill requires a school district to include within its average daily membership (ADM), a student enrolled in a private school for which a parent or guardian seeks reimbursement for allowable educational expenditures. The amount reimbursed to a parent or guardian is the actual allowable educational expenditures for the private school, up to 50 percent of the school district's per student foundation program amount, less reimbursements.

The Department of Education indicates there are approximately 5,100 students not enrolled in public schools that may be eligible to be included in school districts' ADM. If all 5,100 students were included in the school districts' ADM, it would increase the statewide foundation program amount by approximately \$64.8 million in FY 2022, \$65.9 million in FY 2023 and \$67.5 million in FY 2024, using the education resource block grant model's per ADM cost before reimbursements.

This will have an indeterminable expenditure increase in the form of entitlement payments and an indeterminable revenue decrease in the form of recapture payments to the school foundation program account.

NOTICE-AGENCY ESTIMATE OF ADMINISTRATIVE IMPACT REQUESTED

This bill has administrative impact that appears to increase duties or responsibilities of one or more state agencies and may impact agency spending or staffing requirements. As introduced, the bill does not modify any state agency budget or current personnel authorizations.

The following state agencies will be asked to provide their estimate of the administrative fiscal impact prior to the first committee meeting held to consider the bill:
