

FISCAL NOTE

The fiscal impact, in the form of potential General Fund expenditure increases for convening special sessions, is indeterminable.

These potential General Fund expenditure increases would depend on the frequency of public health emergencies declared by the Governor and the type and duration of special sessions held by the Wyoming Legislature.

The 2020 Special Session (held virtually) cost approximately \$72,000. The 2021 Special Session (held in person) cost \$233,146, which included legislator salary, per diem, mileage, the cost of part-time session staff and logistical costs.

The Governor's Office indicated that this bill would have no significant fiscal or personnel impact to the Governor's Office.
