Statement of Principal Reasons

Chapter 2 – Licensure/Certification Requirements

The Wyoming State Board of Nursing is proposing to amend Chapter 2 - Licensure/Certification Requirements. The revisions in Chapters 2 are intended to address concerns from the Wyoming Nurses Association (WNA) related to competency for continued licensure. Other revisions clarify existing language and add language to align with the Nurse Practice Act (NPA).

For clarification, definitions were added for “active nursing practice,” “continuing competency,” and “continuing education.” Specifically, “active nursing practice” recognizes paid, unpaid, and volunteer activity as methods to achieve continuing competency. These additional methods allow retired nurses the opportunity to maintain their nursing licenses while engaged in unpaid or volunteer activity that utilizes their wealth of nursing knowledge, judgment, and skills.

The term “continuing competency” was defined to emphasize the importance of maintaining, updating, and demonstrating sufficient knowledge, skills, judgment, and qualifications necessary to practice safely and ethically in a designated role and setting. Also, the term “continuing education” was added to identify learning experiences obtained after initial licensure or certification.

In addition, to align with the NPA, the State Board Test Pool Exam option was removed for “licensure by examination” because it is no longer an available examination, and it was added for “licensure by endorsement.” Finally, the Advanced Practice Registered Nurse (APRN) grandfathering date was also changed to align with the NPA. Other minor revisions restructured the MAC application process, simplified APRN renewal language, corrected grammatical errors, and clarified existing language.

We are requesting the revisions to Chapter 2 be approved.

Respectfully submitted,

Cynthia LaBonde MN, RN
Executive Director, WSBN
