A BILL

for

AN ACT relating to oil and gas; modifying surety provisions for seismic activities; modifying rule requirements; conforming provisions; and providing for an effective date.

Be It Enacted by the Legislature of the State of Wyoming:

Section 1. W.S. 30-5-104(d)(v)(A) and 30-5-404(b) and (c) are amended to read:

30-5-104. Oil and gas conservation commission; powers and duties; investigations; rules and regulations.

(d) The commission has authority:

(v) To adopt rules and regulations to:
(A) Regulate the plugging, sealing or capping of seismic shot holes, and to require, and fix the amount of, a surety bond or other guaranty to ensure compliance with regulations governing all geophysical operations and to ensure compliance with W.S. 30-5-401 through 30-5-410. When oil and gas operations as defined in W.S. 30-5-401(a)(iv) involve seismic activities, the rules shall require a surety or other guaranty which is sufficient to protect and for the purpose of addressing the interests of the surface owners affected by the activities and which, in all events, shall be in an amount of not less than five thousand dollars ($5,000.00) for the first one thousand (1,000) acres or portion thereof per surface owner for which access is sought for seismic activities and not less than one thousand dollars ($1,000.00) for each additional one thousand (1,000) acres or portion thereof per surface owner for which access is sought for seismic activities. For the purpose of assuring compliance with this minimum bonding requirement, the commission may pool parcels of land of different surface owners where no single parcel exceeds forty (40) acres;
30-5-404. Surety bond or guaranty; approval; objections; release of surety bond or guaranty.

(b) The surety bond or other guaranty shall be in an amount of not less than two thousand dollars ($2,000.00) per well site on the land unless the operations involve seismic activities. If the operations involve seismic activities, the surety bond shall be as provided in W.S. 30-5-104(d)(v)(A). As used in this subsection, seismic activities do not include waves or vibrations originating outside the property in question. At the request of the oil and gas operator, after attempted consultation with the surface owner the commission may establish a blanket bond or other guaranty in an amount covering oil and gas operations on the surface owner's land as identified by an oil and gas operator in the written notice required under W.S. 30-5-402(e). Neither the minimum amount of the per well site bond or other guaranty specified or referenced in this subsection nor a blanket bond or other guaranty established by the commission is intended to establish any amount for reasonable and foreseeable damages. A permit issued under this section shall include a statement that it shall not constitute authorization or permission to trespass on the surface estate. The commission shall not...
accept a surety bond for seismic activities for land which
the oil and gas operator or seismic activity operator has
no right to enter. The operator shall provide evidence of
the right to enter by:

(i) A pertinent surface use agreement or
authorization signed by the owner of the surface estate of
the land in question; or

(ii) Authorization from a mineral owner or
lessee of the land in question.

(c) Within seven (7) days following receipt of a per
well-site surety bond or other guaranty or the
establishment of a blanket bond or other guaranty specified
or referenced in this section, the commission shall notify
the surface owner of receipt of the per-well-site surety
bond or other guaranty or the establishment of a blanket
bond or other guaranty based on the oil and gas operator's
request and the written notice required under W.S.
30-5-402(e). The commission's notice shall also include a
description of the amount and the type of the bond or
guaranty received or established and provide to the surface
owner a copy of the statement required under W.S.
30-5-403(a). If, at the expiration of thirty (30) days after receipt of the commission's notice by the surface owner, he makes no objection to the amount or the type of the surety bond or guaranty, the commission shall approve the surety bond or guaranty. If the surface owner objects in writing to the amount or the type of the surety bond or guaranty, the commission shall give immediate consideration to the surety bond or guaranty objected to and the accompanying papers filed by the oil and gas operator in support of the surety bond or guaranty amount and the type of surety bond or guaranty submitted or established, and the surface owner's objections, and the commission shall render a final decision as to the acceptability of the amount and type of the surety bond or guaranty and shall notify the parties of the decision. Proof of any additional surety bond or guaranty required by the commission shall be filed with the commission within thirty (30) days of the commission's final decision. Any aggrieved party may appeal the final decision of the commission to the district court in accordance with the Wyoming Administrative Procedure Act.
Section 2. This act is effective July 1, 2013.
