

**FISCAL NOTE**

The State of Wyoming utilizes a consultant to perform condition assessments for K-12 and buildings managed by State Construction Management. In order to be consistent with other projects under state supervision, the University of Wyoming (UW) assumes that a university-wide facility assessment may have to be performed by outside consultants, with an anticipated cost in excess of \$100,000. It is likely that such an assessment for all university facilities, whether performed by consultants or by UW, will involve significant participation by UW facilities and engineering staff. The assessment could take a year or more to perform. It is assumed the assessment cost would be incurred as the assessment proceeds in FY 2019, and that UW would be required to absorb the cost of a university-wide facility assessment.

**NOTICE-AGENCY ESTIMATE OF ADMINISTRATIVE IMPACT REQUESTED**

This bill has administrative impact that appears to increase duties or responsibilities of one or more state agencies and may impact agency spending or staffing requirements. As introduced, the bill does not modify any state agency budget or current personnel authorizations.

The following state agencies will be asked to provide their estimate of the administrative fiscal impact prior to the first committee meeting held to consider the bill:

State Construction Department
