**ADDRESS BY PRESIDENT OF THE SENATE
DREW PERKINS**

My Fellow senators, honored guests and family, welcome.

We come here today to honor democracy and our great American tradition - one that is happening all over the country, of the peaceful transfer of power. The elections are done, the votes are counted, and we are sworn in.

Five state elected offices, the entire House of Representatives, and one-half of the Senate, have all stood for election and have now taken their oaths of office. Not shots were fired. No palace coups. Just the assumption of a

mantle of public service and leadership. Truly remarkable and all too rare in the world in which we live.

I am humbled and honored, as I am sure you are, to be elected to the offices we hold. It is a privilege to be entrusted by a majority of our neighbors in our respective districts, to come here to represent them.

I am also humbled by your vote and selection as your President. I have big shoes to fill. Not just because President Eli Bebout has big feet, but because he is an effective leader. Surely a tough act to follow. Thank you. It is an honor, and I will try my best for the next two years to continue the traditions of the Wyoming Senate that make it the great institution that it is; and to work with you to leave it and Wyoming better than when we came here.

I want to thank and recognize my wife, Kristie. We will have our 33rd anniversary this year. For the last 12 years, she remained at home, kept the wolves from the door, ran our office, took care of the kids and kept it all together, with grace and dignity, and occasionally a little bailing wire and chewing gum at times, but got the job done. Thank you.

I want to thank and recognized my wife's mother and best friend, Marline. Marline is such a great support to Kristie and me. She is a great mother-in-law. I don't get mother-in-law jokes, because they just don't apply in my experience.

I want to thank and recognize the parents of my grandchildren. Our son, Dallas. We are proud of him and his family. He is a CPA and Senior Audit Manager for PricewaterhouseCoopers in their Jacksonville, Florida office. His wife Kirstin and son Daxton, are at home.

Also, our daughter, Ashleigh Brown is listening in. We are proud of her. She is a professional photographer, owner of Ashleigh Brown Photography, in Ogden, Utah. Her daughter, Brynnlee, is at home and in school—where she should be.

I love and appreciate them. My family, like some of yours, are scattered across this great country, and it means so much that they would make time to come or listen in today.

And just a shout-out to my Father, Ty Perkins, who is just a few weeks shy of 92, and living in an assisted living center in Meridian, Idaho.

Finally, I just note that we have one House Composite in the Senate Chamber, here to my left. It is the composite from the 1983-1984 Wyoming House of Representatives. My mother's first of 8 terms that she served at the other end of the Capitol. I wanted her here to keep an eye on me. She is one of the predecessors on whom we build. She and Senator Scott served as Co-Chairs of the Health and Labor Committee for many years.

Congratulations to the Minority Floor Leader, Senator Rothfuss and Minority Whip, Senator Anselmi-Dalton. Thank you and the minority party for your support. We look forward to our continued association and work as the leadership team of the Senate.

And congratulations to Senator Dockstader and Senator Driskill. Thank you for your support. I am excited about the Senate leadership and look forward to working with you as we all work for Wyoming.

Abraham Lincoln once said, "As I would not be a slave, so I would not be a master. This expresses my idea of democracy."

In our Republican form of democracy, we are elected from our peers by our peers to represent our peers. The only qualification to be a Senator is to meet the

minimum constitutional age requirement, and to be eligible to vote in our home district - a qualified elector. So, in the words of Hans Solo in the first Star Wars movie (not the first episode) - "Good work kid, now don't get cocky". Mother Teresa said, "You can do what I cannot. I can do what you cannot. Together, we can do great things".

We are here as a collective of elected individuals to represent the interests of our districts and our duty to all Wyomingites. Our oath was not only to be the parochial advocates for our district or our party, but represent the people of Wyoming to uphold, defend and protect our Constitutions. We align with parties because, in the liberty of free association and political expression, they most closely represent our individual values. We then associate with other like-minded neighbors in our community and around the state, which forms our party allegiances. However, the oath we took today, or for others two years ago, is to our constitutions, which is the expression and declaration of all the people of Wyoming. Our political power stems from the people. It is the right of the governed, the people of Wyoming, not the state, that delegate their power to us. If we keep these principles in mind, then we will act more like statesmen and less like politicians.

The tools at our disposal are our collective intellect, experience, and knowledge; coupled with the competent support of our LSO and session staff. Individually, it would be impossible. Together, it is not only possible, but essential to our mission to be true to the oath that we have taken today.

The hallmarks of our session and the Senate of the 65th Legislature should be, civil, rigorous and open debate, transparency and openness in the legislative process, and proactive and innovative approaches to the problems of Wyoming and her people. More information, not less; more debate and discussion, not less; better legislation, not more; should be our touchstone.

Former President Phillip Nicholas told me years ago when I was a new legislator, that I assume that if others have the same information that I do, then they will make the same decision I would make. Abraham Lincoln, said it a different way, "I am a firm believer in the people. If given the truth, they can be depended upon to meet any national crisis. The great point is to bring them the real facts, and beer." While I am a complete teetotaler, I do agree with the first part of that statement - I leave it to you as to the last two words.

A little more recently John F. Kennedy had similar sentiments. He said it this way, "We are not afraid to entrust the American people with unpleasant facts, foreign ideas, alien philosophies, and competitive values. For a nation that is afraid to let its people judge the truth and falsehood in an open market is a nation that is afraid of its people."

The Senate has 30 people -- half the number of the House. We serve for 4-year terms, the House for 2. Only half of the Senate stands for election every two years. It is referred to as the upper chamber. This is not by happenstance but is deliberate of our founding fathers and mothers. The senate has the obligation and role of being more deliberate. More constant in institutional knowledge and usually more experiences in life and legislation. We need to be more deliberate and intensive in our approach to what we do. Our work product should be ready for "prime time." It should mitigate and minimize the unexpected consequences of legislation. It should make sense and, more importantly, it should help Wyoming before it moves forward.

Agenda

Just a few words on what I hope we can work on together for the next two years, and especially the next seven weeks.

Closing the Deficit

We need to take a hard look at modernizing Wyoming's tax structure. The nation's and Wyoming's economy have changed in recent decades, and continue to exercise restraint of state expenditures.

We have seen a very slow change in our economy's mix in services vs. goods. The other 7 or so non-income tax states tax significantly more services than Wyoming does. We need to have out-of-state and visitors pay their fair share for the community and government services that they use or take advantage of on their visits to this great state.

We can do that by looking for ways that broaden our tax base while lowering the tax rate. The object is not to raise more revenue, the object is to stabilize revenue. It is about changing the tax structure in light of a different economy, not about increasing the tax burden to our citizens. It is about having the visitors to our state pay a fair share of the costs of the services they enjoy while visiting. They need to help pay for those services - from good roads, to better managed wildlife, from road-side rest stops to tourist information services.

We also do that by exercising fiscal responsibility - living within our means. We must and will continue to look at government programs and processes. Improving those that need it, looking for and removing those that have run their course, are obsolete, or that can be done a better way.

We do that by working with the other two branches of government to improve the operations of government to achieve responsive and responsible streamlined regulation; increasing speed of government, to speed of business and speed of life. We need to increase the efficiency and effectiveness of our governmental services by investing in people - paying them fairly and training them to do the job better. Investing in improved processes that will recognize and implement the speed that is needed while improving the effectiveness of the services and removing duplication. Upgrading and modernizing technologies and systems so that the better and improved processes are done more efficiently while providing the tools need by users and improving transparency that is our hallmark.

Economic Diversity

ENDOW was broad. If I remember correctly, over 2,300 Wyomingites attended ENDOW listening sessions and presentations across Wyoming in the last 2 years. Over 100,000 social media hits about ENDOW. There are broadbased reports that have been submitted on that work. Now comes the hard part. We must select the best ideas and start to move them forward. We have decisions to make on broadband and air service, fostering new technologies like distributed ledger technology, also called blockchain, and other parts of ENDOW that we should move forward. We should consider building on the foundations that we have laid to maintain Wyoming's leadership in limited liability companies and trust law, and the people that use them. Wyoming is consistently rated as a top 10 jurisdiction, (business friendly and trust law), we need to continue to maintain that but capitalize on those foundations by additional innovation.

Education and workforce development needs some work. We need ideas and programs that will increase the educational opportunities so that we have a trained and productive workforce. Education and training will help our citizens realize their dreams and provide the financial stability needed by Wyoming's families.

We need to help the University of Wyoming and our Community Colleges coordinate on broader and far reaching education and training. We need to dramatically improve access to baccalaureate level degrees - not necessarily increase the number of programs - across Wyoming through UW-community college collaboration and improved long-distance learning. Non-traditional students need other options than attending in Laramie.

We need to expand career and technical training. We can do that by providing some financial assistance. Whether on its own or tweaking the Hathaway Scholarship Program, we need to examine it. Let's improve, not dilute Hathaway. We need better non-degree certificate programs at our community colleges that will teach marketable skills like truck driving and welding.

We need to continue to work at improving, and in some cases maintaining, access to care. We can make progress in those areas by continuing the work to control costs. Continuing the collection, analysis and transparency of the cost data to provide transparency in pricing. That is being done in 3P for employer health care data and deserves additional consideration. We need to explore the opportunities to use our broadband and rural systems to deploy state-of-the-art medical diagnostic systems. We need to look at allowing our health care providers the opportunity to allow their practice acts to expand to the extent of their training. We ought to look at embracing the overlap of health care provider disciplines as a chance to enhance competition in and access to medical care without having to recruit a single new health care provider.

In broad brush strokes, that is the job that lies before us. I ask that we work together as the Senate, and then with the House, the Executive Branch and the Judicial Branch to help Wyoming meet its challenges. As an aside, I am excited about the new executive leadership team. Governor Gordon, Secretary Buchannan, Auditor Racines, Treasurer Meier, and Superintendent Balow have a fresh energy. Watching them together, I think they will be a collaborative and effective leadership team. I believe we will have willing partners in the work we have before us. We can't do it alone, but we can make progress on these issues together. We can create a better tomorrow, while keeping the best of what Wyoming is today.

I am humbled and honored by your trust in me. May God bless us and our families. May God bless Wyoming, and may God bless the United States of America and all her people.

Senator Dockstader nominated Senator Driskill, of Senate District Number 1 for Vice President.

President Perkins announced that it had been moved and seconded that Senator Driskill be unanimously elected Vice President of the State Senate of the 65th Legislature of Wyoming. The motion carried.

Chief Justice Davis administered the oath to Senator Driskill.

**ADDRESS BY VICE PRESIDENT OF THE SENATE
OGDEN DRISKILL**

Big thank to Majority Floor Leader Dockstader and as I look over this body a big thank you to all of you. I have called each one of you. Your support, your encouragement has meant a huge amount to me. Rosanne, she has been there all the time, her and my kids. For all you freshman as you get here you realize the sacrifice of your family that they give. It makes it hard. Humbled and honored to have the opportunity to be here. I think we are part of one of the best Senate teams we have ever had. We have a great team of people coming in. We have been trained by the best. I go back from when I started, looking back at President Bebout, thank you. Senator Case, Senator Scott and I go back to Senator Schiffer in the back row my first year. There is a history that is incredible. You guys are going to make it a better place and a better place to be. I am here to serve you and the President. Look forward to a great couple of years coming up. Thank all of you very much.

**ADDRESS BY SENATE MAJORITY FLOOR LEADER
DAN DOCKSTADER**

Thank you, Mr. President. Members of the Senate I will be brief. First of all, thank to my wonderful wife, Kim. She has stuck with me for three and a half decades. We have four wonderful children and ten wonderful grandchildren with another one on the way. And through it all she has been there to help us run a family business, a Wyoming family business, for three and a half decades. And while I am gone taking care of these responsibilities she steps in to make sure this business, which expanded several times over in the last two to three years to multiples towns and other locations in Wyoming and some in Idaho, she makes sure that it all flows evenly and successfully while I am gone to Cheyenne.

Members of the sixty-fifth, first congratulations to all of those who have been elected and re-elected to the Wyoming Legislature and more importantly to this body, the Wyoming Senate. Let's never forget members of the Senate what an incredible honor it is to serve in the Wyoming Legislature and specifically, this body the Wyoming Senate. Let's work together to make sure that we access and use the knowledge of those who have successfully been a part of the Senate body for many years. They bring wisdom and experience to the discussion. Let's listen to them carefully. And just as important let's ensure that we allow time for our newly elected members access to the discussion and decision making process. And finally, each of us has been elected from a very specific area, we have been chosen to represent those who have sent us here. Our votes will reflect that at a time and at times our votes may differ as we acknowledge those who put us in office. However, let's ensure respect and dignity for all those people who are involved here with the process and keep that respect and dignity as we work through our differences.

Let me conclude by sharing with you my great love for Wyoming. Not only do my legislative responsibilities take me across the State on a regular basis, but my occupation takes me to the four corners of the Cowboy State to broadcast athletic events for our communities and our schools of all sizes in every location. If there is a community out there, I have probably been there. It's on these many trips that I often stop on my way home, day or night, and get out of the vehicle and just admire all that Wyoming has and all that Wyoming stands for. And I quietly offer a prayer of gratitude. I give thanks for the opportunity to call Wyoming my home. This is an absolute incredible state, nothing compares. I love Wyoming. I thank everyone of you for allowing me to work with you and to serve you in the Wyoming Senate. Thank you!

**ADDRESS BY SENATE MINORITY FLOOR LEADER
CHRIS ROTHFUSS**

"Thank-you Mr. President. Mr. President, Mr. Vice-President, Mr. Majority Floor Leader, members of the 65th Legislature, it's an honor to be back as your minority floor leader. It's incredible to see all of the new faces, the folks that have come over from the House that have joined us here in the senior chamber, and I look forward to working with all of you once again to do what we share as a common objective in this chamber. Every last one of us has the same objective and that is to do what is in the best interest of the people of Wyoming. It's a common goal, a common objective, and the only differences in the chamber really are what we think at any given time are the best paths towards those objectives or the nuances in what that might look like, but based on the fact that we share that common vision, we have an opportunity to work together towards that vision and find common ground between the minority, the majority, the folks from rural communities, the folks from urban communities, from the North-East to the South-West portion of the state.

And we know that it's not partisanship that governs in the Wyoming Legislature and that's something that is still a bit of a unique thing here. We know that

it's not just about whether we are Republicans or Democrats and we build barriers between us and we have acrimony and we fight and we look for media opportunities to belittle the other party. That's not how it works here, and I hope that it never works that way here. John Adams said, quite a long time ago back in 1789, a viewpoint that I share which is, 'There is nothing which I dread so much as a division of the Republic into two great parties. Each arranged under its leader concerning measure in opposition to each other. Thus, in my humble apprehension, is to be dreaded as the greatest political evil under the Constitution.' Our objective is not to make our parties better. It's to make the state better for the people of Wyoming, so first and foremost, we look for that.

But at the same time there is a role, and I've mentioned this role before, the role of the laurel opposition. The concept that it's not enough to just throw an idea out there and have everybody agree with it. The role of the minority party is to provide opposition and to identify flaws and chinks and characteristics that might have unintended consequences and aspects of legislation that's brought forward that might not have been as well thought through. It's difficult when you're in the majority party working with leadership and they want to get something done, to stand up and voice that opposition, and we understand that. We can do that and we are here to do that and we are happy to do that because that's the role we play in the political process, so don't be offended if we stand up in opposition to your legislation because it's not opposition to you. It's simply opposition to an idea, or a policy, that we don't necessarily think is best for the people of Wyoming, and we want the body to look at it and work towards it and consider if there's a better way to get that done. So I ask each of you recognizing that, regrettably, the minority voice is not as large this year as we might like it to be based on a consensual role that it plays in the nature of our political system.

So I ask each of you three things. The first is listen to and consider the minority voice that we present, and recognize that it won't be as loud. We're not going to overwhelm you. We're not going to outnumber you. We're certainly not going to surround you. It would be great if we could. We'll need a few more. But that does not make the ideas and ideals that we put forward any less worthy of consideration. So take the time to give them thought, and recognize if in your view of what's in the best interest of the state of Wyoming some portion of what we're representing should be considered taking into consideration and perhaps brought forward as changes to the legislation or perhaps in defeat of the legislation. Defeating legislation is not the objective. Crafting the legislation is that objective.

The second point that I want to ask each of you is, due to our small number, I'll ask you to be the voice of the minority from time to time. To stand up and use your voice in opposition to what might be the overwhelming majority of the senate. We all know when it's going to be a 26-4 vote or a 27-3 vote or even 30-0 vote from time to time, and it's hard to step up against that 30-0 potential. To be the 29-1, but that one, is an important voice. So I ask each of you to consider being that one from time to time. To raise an objection much like my good friend Senator Case in the back corner. We've all heard him shout out a loud proud 'no' from time to time when he feels that it's the wrong direction for the senate. I'd ask each of you to consider that as well as to finally look for solutions and votes that are better than sixteen votes. Sixteen vote legislation is challenging legislation and we'll do that. We'll have that from time to time, but if there's a way to get to twenty, twenty-five, or better yet, thirty on an important issue that we are looking at in the state of Wyoming, we know that's better for more people in the state so I encourage all of you to do that.

Next thing I want to touch on is the role of the senate in the legislature, and this is a concern I have and it's a bit of a criticism because I went down to the house last year a number of times and watched their debate. We had the

opportunity. They went long on many things as we all know, and I looked at the debate that they presented in a scrutiny. It wasn't partisan and it was robust and it was rigorous. A lot of dynamic debate that went on and I actually envied the house at a few points last year. I don't want to have to envy the house again. So I would ask this body to be very thoughtful because it is our responsibility to slow things down from time to time and be critical of legislation that's coming forward. That's our role, that's our responsibility, and I hope we'll give more time to some of the more important issues and really critically evaluate those issues in the coming years.

Because we know that we have a lot of challenges ahead of us in the state of Wyoming. The president laid out, I believe, those roles and objectives and grand challenges that we face very well. There's shared interests. We want to diversify the economy. We want to diversify the revenue base such that a diversified economy would be beneficial to the state. We want to find ways where we can have more people have access to affordable health care. We want to find ways where we can have criminal justice reforms so that we're still doing an excellent job with our criminal justice system while not just having to build more prisons. We want to make sure that we pursue equality for everybody in the state of Wyoming. That everybody has access to the work force, to a living wage, to all of the things that we value in life, so that they can protect their family, so that they can make sure that their family is safe, secure, and healthy. Those are objectives that we all share and there's a lot of work ahead for that. It's not easy enough to just identify the challenges.

You have to take it a step further and provide solutions to those challenges. I'll chime in with a quote from Theodore Roosevelt, which I've always enjoyed, which is, 'Far better it is to dare mighty things and to win glorious triumphs even though checkered by failure than to rank with those poor spirits who neither enjoy nor suffer much because they live in the grey twilight that knows not victory nor defeat.' Daring mighty things, and we can do that. We have the opportunity to be the best legislature in the history of Wyoming. If we solve the boom and bust cycle, I think we can crown ourselves the best legislature in the history of Wyoming. There might be some several hundred years ago that would challenge that, but we can take that mantle. It's an opportunity we have, but we're not going to do it by casting 'no' votes over and over again. We have to find solutions and then cast 'ayes' for those solutions to move the state forward.

I believe we can do that together because we really have assembled a tremendous team of leadership in both chambers and the five electives. I look forward to working with these people that are not just my colleagues, but our friends that we've built friendships over the last decade and I look forward to working with them on these grand challenges. Again, we can only do that together by daring mighty things and on behalf of the minority party, we welcome the opportunity and look forward to working with all of you on behalf of the people of the great state of Wyoming. Thank-you, Mr. President, for the floor."

(c) No zoning resolution or plan shall regulate or restrict, in any manner different from that applicable to a public school, the location or use of buildings or structures of a private school or the use, condition of use or occupancy of lands for a private school, provided that the private school meets all of the following requirements:

"(b) Grizzly bears are trapped and relocated in Wyoming and in some cases are euthanized for livestock depredation, property damage or endangerment of human life. If it determines under the laws of the state of Wyoming that extraterritorial relocation would be beneficial for managing Wyoming's wildlife and protecting Wyoming workers and other citizens and tourists of the state, the game and fish commission may relocate to the state of California all grizzly bears trapped for relocation or that would otherwise be euthanized.". Funding allocation model components for fixed and variable costs shall be defined by and computed in accordance with guidelines and procedures prescribed by rule and regulation of the commission, applied to the distribution of state appropriations for each biennial budget period and reallocated at a schedule specified by rule and regulation of the commission, but in no event less than once every four (4) years. The commission may maintain a contingency reserve account utilizing any revenue derived under W.S. 9-4-601(b)(iv)(A) to be distributed as a component of the funding allocation model for specific use by the colleges for emergency repairs and preventive maintenance. The funding allocation model components shall not include funding for the provision of applied baccalaureate degree programs provided by a college.

(e) The commission may by exception budget, request additional state funding to be designated as special purpose funding, accounted for and distributed separately from distributions under the funding allocation model. Special purpose funding under this subsection shall be limited to amounts and for the period of time specified by the legislature and shall not be included in any subsequent biennial budget unless specifically requested by the commission and approved by the legislature. Funds appropriated pursuant to this

subsection shall be distributed in amounts and at times determined by the commission, subject to the following:

(ii) Special purpose funding may be requested under this subsection for use by the commission in funding new programs, including applied baccalaureate degree programs provided by or at a community college, and other new programs addressing unanticipated and emerging statewide needs during the biennial budget period which are consistent with the statewide community college system strategic plan. Funds appropriated by the legislature for purposes of this paragraph shall be accounted for separately and shall not be transferred or expended for any other purpose or as part of state assistance under subsection (c) of this section. Any unexpended or unencumbered amount of special purpose funding under this paragraph remaining at the end of the budget period for which appropriated shall revert as provided by law." (ii) Provide for safety of tourists, students, other visitors and workers crossing roads and streets to the capitol building, Herschler building, supreme court building and other state buildings adjacent to these buildings;

(iii) Make accommodation for tour and school buses and other vehicles of visitors to the capitol building.

(c) The state building commission shall report its recommendations regarding the long range plan to the legislature not later than November 1, 2019. (d) Veterans and spouses of veterans who qualify for admission under subsections (a) and (b) of this section shall be given preference of admission in all circumstances.

(e) In addition to subsections (a) through (d) of this section, the veterans' skilled nursing facility shall comply with United States department of veterans affairs rules regarding capacity guidelines, number of beds and populations served.

25-14-102. Veterans' skilled nursing facility account; disposition, receipt and expenditure of monies received; acceptance of funding and donations.

Monies in this account are continuously appropriated to pay the costs of design and planning, construction, operation, loan repayment and maintenance of the veterans' skilled nursing facility.

(b) The department of health on behalf of the state may accept:

(i) State, federal, local and nongovernmental funds for the purposes of this chapter provided that any condition on receipt of the funds is not inconsistent with this chapter;

The contract may provide for a monthly management fee as the department of health determines. The contract for operations and administrative management shall be in accordance with the best practices of a "green house" model community living concept and shall comply with state and federal law and regulations.

25-14-104. Payments for care.

Residents shall pay for services provided under this chapter according to department of health rules. Payments shall be set at amounts to ensure that appropriate services are provided at the veterans' skilled nursing facility, as required by this chapter, and shall be consistent with requirements for grant in aid payments from the United States department of veterans affairs.

25-14-105. Promulgation of rules.

Section 5.

(a) The state loan and investment board shall consult with the city of Cheyenne to identify the most efficient means to construct a stormwater interceptor to protect the capitol building and Herschler building from surface and subsurface stormwater runoff. Upon agreement between the board and the city on the most efficient means to construct the interceptor and after the city's presentation to the board of plans to undertake necessary construction, the board may grant the city not more than three million dollars (\$3,000,000.00) to construct the stormwater interceptor. The project may provide protection for other facilities or residences in the city but shall be designed primarily to provide protection to the capitol building, Herschler building and other state facilities. Of the unobligated, unencumbered balance in the construction management flex contingency account, most recently appropriated to in 2015 Wyoming Session Laws, Chapter 142, Section 345, there is appropriated three million dollars (\$3,000,000.00) to the state loan and investment board. This appropriation shall only be expended for purposes of this subsection. Notwithstanding any other provision of law, this appropriation shall not be transferred or expended for any other purpose and any unexpended, unobligated funds remaining from this appropriation shall revert as provided by law on June 30, 2020.

(b) The state building commission shall consult with the city of Cheyenne and the state capitol building rehabilitation and restoration oversight group

to provide a long range plan for the capitol building and grounds and the immediately surrounding area. The plan shall be designed to contribute to the historic integrity of the capitol building and its grounds and surrounding neighborhoods while also recognizing and accommodating security measures necessary to protect the capitol building as a working capitol building. The plan shall:

(i) Provide for traffic control on roads and streets by providing limited or restricted motor vehicle access to roads and streets as determined appropriate by application of best security practices;

(ii) Provide for safety of tourists, students, other visitors and workers crossing roads and streets to the capitol building, Herschler building, supreme court building and other state buildings adjacent to these buildings;

(iii) Make accommodation for tour and school buses and other vehicles of visitors to the capitol building.

(c) To the extent the state building commission adopts a master plan for the capitol complex as provided in 2019 Senate File 0149, as enacted into law, the long range plan recommended under this section shall be incorporated into that master plan.

(d) The state building commission and the city of Cheyenne may enter into memoranda of understanding to modify, reroute or otherwise limit access to streets within the capitol complex as defined in 2019 Senate File 0149, as enacted into law, to further the purposes of the long range plan specified in this section. The commission shall promptly report all memoranda of understanding entered into under this subsection to the legislature.
