

FISCAL NOTE

	FY 2021	FY 2022	FY 2023
NON-ADMINISTRATIVE IMPACT			
Anticipated Revenue increase			
SPECIAL REVENUE FUND	\$60	\$350	\$720

Source of revenue increase(decrease):

Licensing fee(s) for possible new permit, similar to what was created for immunizations that resulted from W.S. 33-24-157.

Assumptions:

Since we are assuming a new license would be created, we also assume an application and renewal fee would also be created. We are also assuming that this fee would be the same as the immunization license: \$10. The numbers here are based off of our records of the immunization license. For the first three years (2006-2009) pharmacists had limited interest in an immunizer license. By 2013, approximately 40% of the immunizer licenses had been issued. In 2014 that number increased to 60% and by 2016 87% of the active immunizer licenses had been issued. This roughly corresponds with the time period that the University of Wyoming School of Pharmacy incorporated immunization training into their curriculum and when pharmacy interns became able to immunize. While initial revenue appears to be negligible, as of 12/31/19 there are 646 active immunizer licenses accounting for \$6,460.00 in revenue from immunization licenses. Therefore, we believe that if a new license were to be created, it would pay for itself.

NOTICE-AGENCY ESTIMATE OF ADMINISTRATIVE IMPACT REQUESTED

This bill has administrative impact that appears to increase duties or responsibilities of one or more state agencies and may impact agency spending or staffing requirements. As introduced, the bill does not modify any state agency budget or current personnel authorizations.

The following state agencies will be asked to provide their estimate of the administrative fiscal impact prior to the first committee meeting held to consider the bill:

Board of Pharmacy
