

FISCAL NOTE

No significant fiscal or personnel impact.

The proposed legislation would repeal the Wyoming court security commission (WCSC) from the judicial branch. The WCSC was appropriated \$20,000 for travel reimbursements in 2008, which became part of the Supreme Court's standard budget in BFY 2013. In 2014, \$13,476 of this budget allocation was used to meet budget reduction requirements. The remaining balance has been reallocated to other object codes during subsequent budget sessions through department net-to-zero adjustments.
