

Bill No.: SF0018 **Effective:** **Immediately**
LSO No.: 22LSO-0192
Enrolled Act No.: SEA No. 0022
Chapter No.: 61
Prime Sponsor: Joint Transportation, Highways & Military Affairs Interim Committee
Catch Title: **County road maintenance fund amendments.**
Subject: Changing limits on expenditures from the county road construction and maintenance fund and amending the members of the Wyoming county road standards committee.

Summary/Major Elements:

- This act relates to expenditures from county road construction and maintenance funds. The act increases the threshold that must be met to require competitive bidding for county road construction and maintenance projects. The act also limits the amount authorized to be spent or set aside per year for motor graders from a county road construction and maintenance fund.
- The act amends the descriptions of the associations that nominate members to the Wyoming County Road Standards Committee, which establishes standards for county road construction and maintenance. The existing membership composition was specific to organizations, and this act amends those to a more general description, for example, amending "the Wyoming association of consulting engineers and surveyors" to read "an association representing Wyoming consulting engineers and surveyors."

The above summary is not an official publication of the Wyoming Legislature and is not an official statement of legislative intent. While the Legislative Service Office endeavored to provide accurate information in this summary, it should not be relied upon as a comprehensive abstract of the bill.
