"(h) Project - LaPrele Irrigation District Additional Supply - 2025:

(i) Project Sponsor: The state of Wyoming;

(ii) Project purpose: To provide additional supply to lands served by the LaPrele Irrigation District;

(iii) Project description: Investigate the feasibility of, and if feasible, design and construction of one (1) or more wells necessary to provide additional supply to lands served by the LaPrele irrigation district;

(iv) Total project budget: Twenty million dollars (\$20,000,000.00);

(v) Appropriation: There is appropriated from the legislative stabilization reserve account to water development account I which shall be further appropriated from water development account I to the Wyoming water development office twenty million dollars (\$20,000,000.00) or as much thereof as is necessary to carry out the purpose of this subsection. Unexpended funds

appropriated under this subsection shall revert to the legislative stabilization reserve account on July 1, 2030;

(vi) Special conditions: The Wyoming Water Development Office shall investigate the feasibility of developing groundwater to meet the needs of water rights holders within the LaPrele Irrigation District whose rights have been affected by the required breach and replacement of the LaPrele Dam. The office shall assess whether drilling and constructing wells within the project budget is likely to significantly supplement the available water. Upon a determination by the Water Development Commission that there is a reasonable likelihood of successful development, the office shall proceed with the construction of the wells."
