

**FISCAL NOTE**

	FY 2026	FY 2027	FY 2028
<b>NON-ADMINISTRATIVE IMPACT</b>			
Anticipated Expenditure increase			
HIGHWAY FUND	\$2,000	\$0	\$0

Source of expenditure increase:

Wyoming Department of Transportation specialty plate design and testing.

Assumptions:

It is assumed there would be one-time expenditure increases of \$2,000 from the Highway Fund for design and testing for the new specialty plate.

The expenditure increase reflected above could be considered an administrative cost. However, for simplicity and to follow consistent practice on legislation of this type, it is included on the fiscal note.

There is an indeterminable revenue increase to the Search and Rescue Account from fees collected for search and rescue specialty plates and from donations collected on applications for vehicle registrations. This bill creates an initial \$100 fee for applicants and a \$25 annual fee to retain eligibility for search and rescue license plates. This bill also requires applications for vehicle registrations to have the option for owners to donate an additional amount to support search and rescue operations. The number of specialty plates purchased and the amount of donations received on applications for vehicle registrations are unknown.

**NOTICE-AGENCY ESTIMATE OF ADMINISTRATIVE IMPACT REQUESTED**

This bill has administrative impact that appears to increase duties or responsibilities of one or more state agencies and may impact agency spending or staffing requirements. As introduced, the bill does not modify any state agency budget or current personnel authorizations.

The following state agencies will be asked to provide their estimate of the administrative fiscal impact prior to the first committee meeting held to consider the bill:

Office of Homeland Security
