Special Revenue Fund (Board Of Acupuncture)	(\$2,450)	(\$2,450)	(\$2,450)
Special Revenue Fund (Board Of Medicine)	(\$549,550)	(\$549,550)	(\$549,550)
Special Revenue Fund (Board Of Nursing)	(\$154,000)	(\$529,000)	(\$154,000)

## Source of revenue (decrease):

This bill allows a health care provider, with a valid, unencumbered license and who is in good standing to practice in any other state, United States territory or the District of Columbia to be permitted to conduct telehealth services without first obtaining a Wyoming license from certain boards, resulting in a revenue decrease in renewal and initial license fees to each board's special revenue fund as estimated in the above table.

## Assumptions:

Each board impacted by this bill estimated the revenue decrease in the form of fee revenues based on the number of current licensees with addresses outside Wyoming and using those as proxies for the number of licensees that would no longer be required to be licensed in Wyoming or that must apply for an initial license to provide telehealth services to residents of Wyoming. Each board used the current fees charged for an initial license or to renew a license and the renewal requirements to estimate the revenue decrease for the particular board.
