LEGISLATIVE STAB. RES. ACCT.	\$100,000,000		

Description of appropriation:

\$125.0 million is appropriated from the GF to the DOR to reimburse government entities including school districts for revenue decreases resulting from the proposed exemption. Up to \$100.0 million is appropriated from the LSRA to the DOR if funds appropriated for distribution are insufficient to complete all necessary distributions. If total appropriations are insufficient to fully compensate each government entity for the reduction in tax revenues, the DOR shall distribute funds to each government entity on a pro rata basis. The total appropriations of \$225.0 million are estimated to be \$60.2 million less than the total revenue decreases of \$285.2 million anticipated in tax years 2025 and 2026 (FY 2026 and FY 2027).

	FY 2026	FY 2027	FY 2028
NON-ADMINISTRATIVE IMPACT			
Anticipated Revenue (decrease)			
SCHOOL FOUNDATION FUND (43 mills)	(\$89,500,000)	(\$89,500,000)	(\$0)
AD VALOREM TAX (local taxing entities)	(\$53,100,000)	(\$53,100,000)	(\$0)

Source of revenue (decrease):

This bill creates a property tax exemption of 25 percent of the fair market value of single family residential structures and associated improved land. The exemption shall only apply to the first \$2.0 million of fair market value. The estimated decreases in property tax revenues to the School Foundation Program (SFP) and to other local taxing entities are provided in the above table. The SFP will experience a revenue decrease from the 43 mills supporting K-12 public education, which include the statewide 12 mill levy, the school district 25 mill

levy, and the countywide 6 mill levy. For purposes of this analysis, the decrease in property tax revenues to the SFP is shown as an absolute revenue decrease in lieu of estimating the school district recapture revenue decrease and school district entitlement expenditure increase separately.

Assumptions:

The above estimate is based on tax year 2024 residential data from the statewide Computer Assisted Mass Appraisal System (CAMA) and the tax year 2024 statewide average mill levy of 68.504 mills. The October Consensus Revenue Estimating Group (CREG) forecast projects a zero percent growth rate in the assessed valuation of non-mineral property for tax year 2025 and 2026 (FY 2026 and FY 2027). Based on the information above, this bill would decrease total property taxes by approximately \$142.6 million per year in tax years 2025 and 2026 (FY 2026 and FY 2027). Of the estimated total impact, the decreased revenue from the 43 mills supporting the SFP is approximately \$89.5 million per year in tax years 2025 and 2026 (FY 2026 and FY 2027). It is estimated that the total combined appropriations from the GF and LSRA of \$225.0 million will offset the entire revenue decrease in tax year 2025 (FY 2026) and \$82.4 million of the revenue decrease in tax year 2026 (FY 2027), leaving \$60.2 million of the revenue decrease in tax year 2026 (FY 2027) not offset or reimbursed.

This bill may require the Legislature to appropriate additional funds from the SFP for increased entitlement payments to ensure sufficient funding is available to offset the reduction in revenue generated by the school district 25 mill levy and countywide 6 mill levy.

Note: According to the DOR, this proposed exemption cannot be applied for the 2025 tax year with the other property tax exemptions currently in place, because of current capacity limitations of the statewide CAMA system. For example, this proposed exemption cannot not be applied to the same property that is receiving the current long-term homeowner's exemption.
