

FISCAL NOTE

The fiscal impact in the form of a revenue increase to the GENERAL FUND and a revenue decrease to local governments is indeterminable due to an unknown amount of sales and use tax distributions that could be withheld from local governments and deposited into the GENERAL FUND, due to violations of state statute or the state constitution as determined by the Attorney General.

The fiscal or personnel impact to the Attorney General's Office is indeterminable due to an unknown number of requests by legislators to investigate actions taken by the governing bodies of local governments for violations of state statute or the state constitution.

The Department of Revenue (Department) indicates that this bill will not change the current distribution model. The Department would hold the warrants to cities, towns, and counties that are not in compliance. Upon compliance, the Department would release the held funds.
