

FISCAL NOTE

The fiscal impact is indeterminable.

In addition to expenditures for computer programming modifications, the Game and Fish Department (Game and Fish) estimates the cost to record the sale and reissuance of each landowner license is \$39.00. For reference, Game and Fish reported 3,507 landowner licenses were issued in 2024. Because the quantity of landowner licenses that would be sold and potential increases in landowner license applications is unknown, the fiscal impact of this legislation is indeterminable.

	FY 2026	FY 2027	FY 2028
NON-ADMINISTRATIVE IMPACT			
Anticipated Expenditure increase			
HIGHWAY FUND	\$3,657	\$0	\$0

Source of expenditure increase:

Computer programming to accommodate the sale and reissuance of landowner hunting licenses.

Assumptions:

Approximately 60 hours of computer programming at \$60.95 per hour.

All attributes of the original license, including residency, remain in effect.

The cost to record the sale and reissuance of a landowner license is \$39.00.

The expenditure increase reflected above could be considered an administrative cost. However, for simplicity and to follow consistent practice on legislation of this type, it is included on the fiscal note.
