

FISCAL NOTE

The Department of Transportation indicates there will be a cost to develop and print the decals described in the bill, but the cost will likely be offset by the selling of those decals. The Department of Transportation stated it will likely charge \$5 per decal as specified by the bill. The Department of Transportation noted, however, that the actual amount charged per decal would be determined if the bill passed.

Assumption:

It is unknown how many decals will be sold to Wyoming veterans.
