WYOMING COMMUNITY COLLEGE COMMISSION

RULES AND REGULATIONS

STATEMENT OF PRINCIPAL REASONS

CHAPTER ONE - Proposed changes in this chapter include the addition, removal or clarification of definitions. Additions are a result of adding the third performance metric to the funding allocation formula and include: class, level four class, one-year certificate, program completion, short-term certificate, special need certificate, and transfer preparation certificate. Level one, two and three class definitions are being removed because they are now defined in statute. A few other minor revisions are included to correct language.

CHAPTER TWO - Proposed changes in this chapter include updates to statute references, the option to provide information electronically, and clarification on terminology. Section 9 adds reference to the Dept of A&I's rules for handling electronic and non-electronic public records, which all state agencies are required to adopt.

CHAPTER THREE - The proposed changes in this chapter includes the addition of a list of specific residency requirements. Our current rules reference University of Wyoming Regulation 8-1 but due to the frequency of changes to that regulation, we feel it is most appropriate to list our residency requirements within this chapter.

CHAPTER FOUR - Proposed changes in this chapter are for minor corrections.

CHAPTER FIVE - Proposed changes to this chapter include minor corrections as well as:

Section 3 – Inclusion of the third performance metric in the funding allocation model and related changes to other aspects of the calculation. The section for enrollment growth funding has been eliminated due to the recalibration process now allowed by 2016 HEA 0029.

Section 4 – Removal of portion attributed to enrollment growth funding due to the recalibration process now allowed by 2016 HEA 0029.

Section 9 – Update to HSEC scores for all approved assessment instruments.

CHAPTER SIX - Proposed changes in this chapter are for minor corrections and a revision to the program approval process related to imbedded certificates (stacked certificates) that empowers the program review committee to approve those certificates.

CHAPTER SEVEN - Proposed changes in this chapter are for minor corrections.

CHAPTER EIGHT - Proposed changes in this chapter are for minor corrections.

COMMENT SUMMARY DOCUMENT

Comments on WY Community College Commission Rules – Public Comment Period

COMMENT 1: Chapter 1, Section 3 Definitions

Comment from LSO: Consider including the applicable statutory citation for “distance education class” within the definition of “level four class”.

WCCC Response: We agree that the rules should reflect the statutory reference. The inclusion of this language does not alter the meaning or intent of the rule. The definition will be as follows:

(oo) “Level four class” means the same as the ~~statutory~~ definition of “distance education class” found in W.S. 21-18-102(xvii). Level one, two and three classes are reassigned to level four by recognition of specific instructional modalities identified by schedule types in the administrative computing system.

COMMENT 2: Chapter 3, Section 3 Advocating Community College Education

Comment from the Student Services Council (SSC): Consider changing item (b) (ii) to remove “three copies of”.

WCCC Response: We agree with this suggestion made by the SSC as a result of their review of changes to this chapter. Item (b) in this section allows for course catalogs to be provided electronically. The rule will read as follows:

(b)(ii) ~~Three copies of~~ A current community college catalogs,

COMMENT 3: Chapter 3, Section 5 Establishing Tuition Rates

Comment from the SSC: Consider changing item (b) to remove “whenever a student has not been in attendance for more than one (1) semester” and replace it with “or upon student petition for tuition reclassification”.

WCCC Response: We agree with this suggestion made by the SSC as a result of their review of changes to this chapter. We rely on the recommendations of the SSC in matters regarding residency as their staff are handling residency issues on a daily basis. The rule will read as follows:

(b) Residence classification shall be determined for each student at the time the application for admission is accepted, ~~and whenever a student has not been in attendance for more than one (1) semester~~ or upon student petition for tuition reclassification. Residency is defined in W.S. 22-1-102(a)(xxx) and further clarified below:

(b) At its discretion, the Commission may convene open meetings with representatives of college boards of trustees. The principal function of these meetings is to maintain open communication between the policy making entities.

Section 9. Information Practices.

(a) The community colleges shall comply with the Wyoming Public Records Act W.S. 16-4-201 through 16-4-205 and the Wyoming Open Meetings Act W.S. 16-4-401 through 16-4-408.

(b) Persons with a valid interest may request that the official custodian correct any erroneous, inaccurate or misleading information that is contained in a public record relating to them by supplementing the record with corrective material. No public records shall be physically altered, destroyed or removed except by order of the Commission.

(c) No commissioner or Commission employee shall release originals of public records from Commission files except by order of the Commission or a court of law, or as recommended by the WY Attorney General.

(d) For all public records for which the Commission is custodian, the Commission incorporates into these rules the Department of Administration & Information's chapter 2, section 4 rules for electronic public records and section 5 rules for non-electronic public records. The Commission makes the following findings:

(i) Incorporating the full text in the Commission's rules would be inefficient given the nature of the rules;

(ii) This rule does not include any later amendments or additions to the incorporated matter; and

(iii) Copies of the incorporated matter are available for inspection at the Commission's offices or at <http://www.communitycolleges.wy.edu/rules-and-statutes.aspx>.

(e) The official custodian shall not release mailing lists unless approved by the Commission.

(f) All public records maintained by the Commission shall be stored and retained according to retention schedules and policies of the Commission and the State Archives section of the Department of State Parks and Cultural Resources.

(g) All public records for which public inspection may be denied under the Wyoming Public Records Act shall be identified, stored and maintained by an appropriate means that indicates and preserves their confidentiality. An index sufficient to indicate their existence, general content, and confidential nature shall be maintained and available to the public.

(h) Pursuant to notification by the U.S. Department of Education's Family Policy Compliance Office on August 23, 1999, the Commission is identified as a state educational authority engaged in the audit or evaluation of federal and state supported education programs. As such, the community colleges may disclose personally identifiable, non-directory information to the Commission's MIS on a non-consensual basis as long as the Commission complies with FERPA requirements. The Commission shall maintain secure physical and electronic storage for personally identifiable information.

(j) The requirements of the U.S. Department of Education for security of data shall be followed under the restricted use data license for research involving the National Center for Education Statistics IPEDS database.

(k) The official custodian annually shall inform the appropriate state office of any new public records maintained by the Commission for which inspection may be denied under the Wyoming Public Records Act W.S. 16-4-201 through 16-4-205.

(m) The Commission shall also collect data from non-community college entities to support the data requirements of the AE and High School Equivalency Certification programs.

Section 10. Hearings.

(a) Prior to formal proceedings, the Commission shall assist in the informal resolution of disputes between community colleges when requested and shall act as a board of appeal for disputes between community colleges that cannot be resolved informally.

(b) In matters involving the modification or maintenance of community college service areas, the Commission shall make determinations in accordance with W.S. 21-18-202(c)(viii).

(c) Contested cases for matters other than those referenced in (b) above shall be conducted pursuant to the Office of Administrative Hearings rules, Chapter 2, *Uniform Rules for Contested Case Practice and Procedure* (“Uniform Rules”), which are incorporated into this chapter by reference. In doing so, the Commission find as follows:

(i) Incorporating the full text of the Uniform Rules would be cumbersome and inefficient given the length and nature of the rules;

(ii) The incorporation is limited to the Uniform Rules adopted by the Office of Administrative Hearings and effective October 17, 2014, and shall not include any later editions of or amendments to the Uniform Rules;

(iii) Copies of the Uniform Rules are available to the public at the Wyoming Community College Commission offices at 2300 Capitol Ave., Hathaway Bldg. 5th Floor, Suite B, Cheyenne, Wyoming 82002.

(iv) An electronic copy of the Uniform Rules is available at the following web address: <http://soswy.state.wy.us/Rules/RULES/9644.pdf>.

(d) Where a contested case hearing is required by law, an aggrieved person may file a request according to the Uniform Rules § 5(a) with the Commission within thirty (30) days of the date of the administrative decision at issue or of the date of mailing of the administrative decision as evidenced by a postmark, whichever is later.

(e) The request for a hearing shall be served on the Commission and other necessary parties. Service shall be made to the Wyoming Community College Commission, 2300 Capitol Avenue, Hathaway Building, 5th Floor, Suite B, Cheyenne, Wyoming 82002-0206. Service may be made in person or by mail.

(f) A request for a contested case hearing shall include the following:

(i) The name, telephone number, and mailing address of the petitioner and the same information for the representing attorney;

(ii) A statement in ordinary and concise language of the facts and of the errors alleged to have been committed and issues that the petition is based on, including particular reference to statutory sections, contract provisions, or rules, regulations, and orders involved;

(iii) A copy of the decision or relevant material that relates to the decision at issue;

(iv) The specific relief sought; and

(v) The signature of the petitioner and the representing attorney.

(g) The notice of hearing required under the Uniform Rules § 6(b) shall be served on each party at least thirty (30) days before the hearing date unless an expedited hearing is otherwise required by law. In that event, parties shall be served the notice of hearing as soon as practicable.

(h) The Commission Chair may appoint a hearing officer to conduct the contested case and may request that the hearing officer issue a recommended decision.

(j) If a recommended decision is requested, the recommended decision and proposed order shall be submitted to the Commission no later than thirty (30) days after the end of the contested case hearing.

(k) The Commission shall make and enter a written decision and order containing findings of fact and conclusions of law stated separately.

(m) The written decision issued by the Commission shall be the final agency action and be subject to judicial review under Wyo. Stat. § 16-3-114.

Section 11. General Provisions.

The Commission's rules apply to the Wyoming Community College Commission, Wyoming community colleges, outreach centers, and programs of the Commission. (III) If the applicant is a spouse or a child of the veteran, the applicant is a transferee pursuant to 38 U.S. C. 3311(b)(9) or 3319 of the veteran's eligibility for education benefits.

(C) 38 U.S. C. 3679, 3311, and 3319 are incorporated by reference into these rules.

(I) Incorporation of the full text of the Code in this chapter would be cumbersome and inefficient given the length and nature of the Code.

(II) This incorporation does not include any later amendments to or editions of the Code.

(III) Copies of the Code are available at the Commission main office at 2300 Capitol Ave., Hathaway Building Fifth Floor Suite B, Cheyenne, WY 82002.

CHAPTER 5 RULES

ADMINISTRATIVE FUNCTIONS

Section 1. Authority.

Wyoming Statute 21-18-202(c), (d) and (h), 21-18-203(a), 21-18-205(b), (c) and (e), 21-18-225, and 21-18-226.

Section 2. Purpose.

This chapter governs the Commission's administrative functions.

Section 3. Creating and Maintaining a Funding Allocation Model.

(a) Wyoming Statute 21-18-205 created a statewide community college system operations funding mechanism based upon a statewide community college system strategic planning process attaching funding to state interests.

(i) The basis for fiscal-year 2017 and fiscal-year 2018 funding shall be the sum of:

(A) The 2015-2016 biennial budget appropriation for state aid to community colleges, adjusted by:

(I) Subtraction of the portion of the budget appropriation restricted to reimbursement of community college increased retirement contributions (unless appropriated separately by the legislature); and

(II) Recapture and redistribution of state aid as calculated in July 2015.

(B) Any adjustments to base made by the Budget Division of the Department of Administration and Information.

(C) Community college district revenue, which is defined to include:

(I) Actual 4-mill revenue for fiscal-year 2015, and 99 percent of 4-mill revenue calculated against the 2015 certified assessment;

(II) Two times the amount of actual motor vehicle registration revenue for fiscal-year 2015; and

(III) Two times the amount of actual other revenue for fiscal-year 2015.

(ii) For each community college, the sum of the adjusted 2015-2016 biennial budget appropriation for state aid, net Budget Division adjustments to base, and the community college district revenue shall be divided by two to establish annual college-specific base funding amounts.

(iii) The annual college-specific base funding amounts shall be separated into fixed cost and variable cost portions that must be recalculated at least once every four years, based upon the following definitions of these costs, and the following procedures for determining the college-specific costs:

(A) Definitions of fixed and variable costs:

(I) Fixed costs include mandatory transfers and those operating costs that do not vary with enrollment. Such costs include the majority of administrative costs as well as operating costs related to facilities (e.g., utilities, maintenance and small repairs). Fixed costs include all or a substantial portion of costs classified as plant operation and maintenance, institutional support, academic support and student services. Also included in fixed costs is a relatively smaller portion of instructional costs representing costs for academic administrators, faculty (i.e., those with tenure or on continuing contracts) and related operating costs.

(II) Variable costs are those operating costs that vary proportionally with enrollment or represent step-variable costs. Step-variable costs increase or decrease based on enrollment fluctuation but not necessarily proportionally. Instead, step-variable costs remain static for a range of enrollments and increase once the range is exceeded (or decrease when enrollment drops below the range). The step-variable costs remain static above the range until the next level of enrollment is reached (or vice versa in the case of enrollment declines). Variable costs include all or a substantial portion of operating costs classified as instruction, service and student financial aid. Additionally, variable costs include all operating costs for extension (remote) operations that lack permanent full-time administrative staff.

(B) Procedures for determining college-specific fixed and variable costs:

(I) The relevant costs for the calculation of college-specific fixed and variable costs are the Fund 10 costs, after excluding capital costs and non-mandatory transfers. The first step is to sort these costs, by location, into standard functional categories as follows: instruction; service; academic support; student services; institutional support; plant operations and maintenance; student financial aid; mandatory transfers; and extension operations. The definitions for these standard functional categories are provided in section 604.26 of the *Financial Accounting and Reporting Manual for Higher Education* published by the NACUBO, and they are the same definitions relied on by the U.S. Department of Education National Center for Education Statistics for use in the IPEDS.

(II) Once the costs are sorted by location, it is necessary to determine which locations will be treated as campus locations and which will be treated as extension (remote) locations. A campus location is one that incurs the full range of operating costs for academic and related purposes. An extension location is one that utilizes a more streamlined operation consisting almost exclusively of classroom instruction. The distinguishing characteristic of extension

locations is the absence of permanent full-time administrative staff. The operating costs for extension locations are deemed to be fully variable while the operating costs for campuses vary by functional category.

(III) Campus location costs are sorted by function and summed to generate a total, by function, of each community college's campuses. The following standard percentages are applied to the functional cost category totals to determine the portion of each function that is fixed or variable:

Instruction – 35 percent fixed and 65 percent variable;
Service – 0 percent fixed and 100 percent variable;
Academic support – 80 percent fixed and 20 percent variable;
Student services – 70 percent fixed and 30 percent variable;
Institutional support – 90 percent fixed and 10 percent variable;
Plant operations and maintenance – 95 percent fixed and 5 percent variable;
Student financial aid – 0 percent fixed and 100 percent variable;
Mandatory transfers – 100 percent fixed and 0 percent variable; and
Extension operations – 0 percent fixed and 100 percent variable.

(IV) The fixed amounts for each functional cost category are summed, producing the total fixed costs for the community college. The variable amounts for each functional cost category are summed and added to the total costs for all extension locations. This results in two totals - one for fixed costs and one for variable costs. These costs are summed to produce the total relevant costs for the community college.

(V) The final step is the calculation of the fixed and variable cost percentages. The total for the fixed costs is divided by the total costs for the community college to produce the fixed cost percentage. The total for the variable costs is divided by the total costs for the community college to produce the variable cost percentage.

(iv) The base period total weighted credit hours shall be the sum of the following:

(A) Academic years 2004 and 2005 Level One credit hours multiplied by a factor of 1.0;

(B) Academic years 2004 and 2005 Level Two credit hours multiplied by a factor of 1.5; and

(C) Academic years 2004 and 2005 Level Three credit hours multiplied by a factor of 2.0.

(v) The base period total weighted credit hours shall be divided by two to establish the base period system-wide average weighted credit hours.

(vi) The variable costs portion of the annual system-wide base funding amount shall be divided by the base period system-wide average weighted credit hours to establish the base period system-wide credit-hour revenue.

(A) The base period system-wide credit-hour revenue shall be multiplied by the percentage of the system-wide adjusted 2015-2016 biennial budget appropriation for state aid to the sum of this adjusted appropriation for state aid and the system-wide community college district local revenue. The product of this shall be the state-funded system-wide credit-hour revenue.

(vii) For each community college, the current biennial weighted credit hours shall be the sum of the following:

(A) Academic years 2014 and 2015 Level One credit hours multiplied by a factor of 1.0;

(B) Academic years 2014 and 2015 Level Two credit hours multiplied by a factor of 1.5; and

(C) Academic years 2014 and 2015 Level Three credit hours multiplied by a factor of 2.0.

(viii) For each community college, the current biennial weighted credit hours shall be divided by two to establish the current annual college-specific weighted credit hours.

(ix) For each community college, a successfully completed, weighted credit hour volume shall be calculated for each academic-year, beginning with academic-year 2015.

(A) Each year upon verification of the most recent successfully completed, weighted credit hour volumes, the college-specific percentages of the system-wide successfully completed, weighted credit hour volume shall be calculated.

(x) For each community college, a program completion volume shall be calculated for each academic-year, beginning with academic-year 2016.

(A) Each year upon verification of the most recent program completion volumes, the college-specific percentages of the system-wide program completion volume shall be calculated.

(xi) College-specific variable cost state funding shall be calculated as the sum of the following calculations:

(A) Multiplying the base period college-specific average weighted credit hours by the base period system-wide credit-hour revenue, and then multiplying this product by the percentage of the community college's adjusted 2015-2016 biennial budget appropriation for state aid to the sum of this adjusted appropriation for state aid and its community college district revenue (to be distributed four times per year).

(I) For fiscal-year 2017, 25 percent of this variable cost state funding shall not be subject to recapture/redistribution, and each community college's allocation of this 25 percent shall be calculated as follows:

(1.) Multiplying the community college's proportionate share of system-wide successfully completed, weighted credit hours for academic-year 2015 by the variable cost portion of system-wide annual base funding, then multiplying this product by the percentage of the community college's adjusted 2015-2016 biennial budget appropriation for state aid to the sum of this adjusted appropriation for state aid and its community college district revenue, and then multiplying this product by 25 percent.

(II) For fiscal-year 2018, 30 percent of this variable cost state funding shall not be subject to recapture/redistribution, and each community college's allocation of this 30 percent, divided equally into two parts of 15 percent each, shall be calculated as follows:

(1.) Multiplying the community college's proportionate share of system-wide successfully completed, weighted credit hours for academic-year 2016 by the variable cost portion of system-wide annual base funding, then multiplying this product by the percentage of the community college's adjusted 2015-2016 biennial budget appropriation for state aid to the sum of this adjusted appropriation for state aid and its community college district revenue, and then multiplying this product by 15 percent.

(2.) Multiplying the community college's proportionate share of system-wide program completions for academic-year 2016 by the variable cost portion of system-wide annual base funding, then multiplying this product by the percentage of the community college's adjusted 2015-2016 biennial budget appropriation for state aid to the sum of this adjusted appropriation for state aid and its community college district revenue, and then multiplying this product by 15 percent.

(B) Multiplying the difference between the current annual college-specific weighted credit hours and the base period college-specific average weighted credit hours (which represents enrollment growth to-date, and is recognized as variable cost state funding) by the state-funded system-wide credit hour revenue (to be distributed in full in July of even-numbered years).

(xii) For both fiscal-year 2017 and fiscal-year 2018, college-specific fixed cost state funding shall be calculated by multiplying the fixed cost portion of the annual college-specific base funding amounts by the percentage of the college's adjusted 2015-2016 biennial budget appropriation for state aid to the sum of this adjusted appropriation for state aid and its community college district revenue.

(xiii) If the sum of system-wide variable cost state funding and system-wide fixed cost state funding exceeds the system-wide adjusted 2015-2016 biennial budget appropriation for state aid, the difference shall be attributed to enrollment growth, and such difference can only be funded by means of an approved exception budget request.

(xiv) Amounts calculated under the funding allocation model which are greater than or less than the system-wide adjusted 2017-2018 biennial budget appropriation shall be distributed proportionately based on variable cost state funding for base period enrollment.

(xv) For fiscal-year 2017 and/or fiscal-year 2018, external cost adjustments can be applied to variable cost state funding and/or fixed cost state funding. The external cost adjustment for variable cost state funding shall be based upon the most recent Employment Cost Index for post-secondary institutions available at the time of biennial and/or supplemental budget submission, published by the US Department of Labor – Bureau of Labor Statistics. The external cost adjustment for fixed cost state funding shall be based upon the most recent Consumer Price Index available at the time of biennial and/or supplemental budget submission, also published by the US Department of Labor – Bureau of Labor Statistics. The application of any external cost adjustment will necessarily increase the demand for state funding, and accordingly, any such increase can only be funded by means of an approved exception budget request.

(A) External cost adjustments can also be applied to state funding of Wyoming Public Television. However, given that enrollment is not a factor in Wyoming Public Television’s operations, the external cost adjustment shall be based solely upon the most recent Consumer Price Index available at the time of biennial and/or supplemental budget submission.

(xvi) For fiscal-year 2017 and fiscal-year 2018, annual recapture and redistribution of state aid due to changes in local 4-mill revenue resulting from changes in assessed valuation identified in July or August of each year shall be distributed to the community colleges based on their proportionate share of the sum of the adjusted 2015-2016 biennial budget appropriation for state aid and the community college district revenue, as calculated in support of the 2017-2018 biennial budget request.

(xvii) A spreadsheet depicting the operation of the funding allocation model for 2017-2018 shall be included in the *Fiscal Handbook*.

(b) If it is determined that the funding allocation model established by rule and in accordance with W.S. 21-18-205 is no longer the appropriate method for determining the funding request for the community colleges, and no other funding allocation model has been developed, funding requests for specifically identified needs may be submitted in the biennial budget request until a new funding allocation model has been approved and rules have been promulgated.

(i) Annual recapture and redistribution of state aid due to changes in local 4-mill revenue resulting from changes in assessed valuation identified in July or August of each year shall be distributed to colleges based on their proportionate share of credit full-time-equivalent (Credit FTE) enrollment as reported in Table 5 of the Wyoming Community College System Annual Enrollment Report for the two most current years available. This process shall be followed until an approved funding allocation model is in place.

(c) Adjuncts to the funding allocation model include the following:

(i) Revenues received by the Commission’s contingency reserve account, to be used only for facility emergency repairs and/or preventive maintenance, shall be distributed to the community colleges as follows:

(A) Each community college's share of the distribution shall be based on its proportionate share of actual gross square footage as outlined by the computation and dates prescribed in Section 10 of this chapter.

(I) Subsequent changes in eligible gross square footage by any community college shall not alter the respective distribution percentages until such changes are recognized through a Commission-initiated calculation of system-wide gross square footage.

(B) Actual distribution of revenue from the contingency reserve account to the community colleges shall be made as the Commission determines, and shall be dependent on receipt of coal lease bonus funds by the Commission.

(ii) The appropriation for health insurance premium benefits, to be used for reimbursement of community college employee premiums, shall be calculated and distributed as follows:

(A) For the 2007-2008 biennium and beyond, the health insurance premium benefit pool shall be based on plan enrollment numbers as of the month of April in odd-numbered years, as well as the projected premium rates for the month of December in the same odd-numbered years.

(B) Distribution of funds to the community colleges shall be for reimbursement of actual expenses incurred. Each community college shall submit a quarterly reimbursement request on an approved Commission form.

(C) The Commission shall evaluate the sufficiency of funding in the health insurance premium benefit pool on a quarterly basis. If funding is projected to be insufficient, the Commission shall work with the Budget Division of the Department of Administration and Information to identify other possible funding options, and if other options are not available, and if supplemental budget requests can still be submitted, the Commission shall consider such a request.

(I) If funding in the health insurance premium benefit pool is insufficient and other funding options, including supplemental budget requests, are not available, each of the community college's reimbursement shall be reduced in an amount proportionate to its share of system-wide eligible employees as of the month of April in odd-numbered years.

(II) If funding in the health insurance premium benefit pool exceeds reimbursement of actual expenses incurred, the unspent balance shall revert to the general fund at the end of the biennium.

(iii) The appropriation for the retirees' health insurance pool, to be used to cover the community colleges' share of pool funding, shall be calculated and distributed as follows:

(A) Based on payroll data provided by the community colleges, the Commission shall calculate the college-specific biennial appropriations for the retirees' health insurance assessment.

(B) Distribution of the appropriations by the Commission to the community colleges shall occur at the same time and in the same relative proportions as state aid distributions.

(C) On a monthly basis, each community college shall calculate the amount of the appropriation used for the preceding month, and submit payment of this amount to the State Auditor's Office.

(iv) Appropriations for increased retirement contribution benefits, to be used for reimbursement of the community colleges' share of increased contributions, beginning September 1, 2010, shall be calculated and distributed as follows:

(A) For the 2013-2014 biennium and beyond, the retirement contribution benefit pool shall be based on the cumulative payroll of pension-eligible community college employees as of the month of April in odd-numbered years, adjusted to recognize local funding.

(B) Distribution of funds to the community colleges shall be for reimbursement of actual expenses incurred, adjusted to recognize local funding. Each community college shall submit a quarterly reimbursement request on an approved Commission form.

(C) The Commission shall evaluate the sufficiency of funding in the retirement contribution benefit pool on a quarterly basis. If funding is projected to be insufficient, the Commission shall work with the Budget Division of the Department of Administration and Information to identify other possible funding options, and if other options are not available, and if supplemental budget requests can still be submitted, the Commission shall consider such a request.

(I) If funding in the retirement contribution benefit pool is insufficient and other funding options, including supplemental budget requests, are not available, each of the community college's reimbursement shall be reduced in an amount proportionate to its share of the cumulative payroll of pension-eligible college employees as of the month of April in odd-numbered years.

(v) The funding allocation model and/or its adjuncts may be reviewed by the Commission as necessary, and proposed revisions may be recommended for rules, in accordance with applicable statutes.

(c) Requests for state appropriations to fund the regular support and operation of the community colleges shall be developed in accordance with Wyoming Statute 21-18-102 and 21-18-203, and utilize a Commission-adopted funding allocation model.

(d) Wyoming Statute 21-18-205 created a statewide community college system operations funding mechanism based upon a statewide community college system strategic planning process attaching state funding to state interests.

(i) The budget request model shall be derived from that principle, and it shall consist of two components: the standard budget request and the exception budget request. The step-by-step procedures for calculation of both types of requests are outlined in Wyoming Statute 21-18-102 and 21-18-203, and also in Section 3 of the Rules - Creating and Maintaining a Funding Allocation Model.

(A) The biennial standard budget request shall be based on amounts appropriated for state aid by Wyoming Statute 21-18-102 and 21-18-203, including any external cost adjustments for fixed and variable costs, or other Budget Division adjustments to base.

(I) The allocation of the standard budget appropriation among the community colleges shall be adjusted to recognize variations in each community college district's revenue from biennium to biennium. The only exception to this is the variable cost funding subject to allocation in accordance with performance metrics.

(B) The biennial exception budget request may include, but shall not be limited to the following:

(I) External cost adjustments for variable cost state funding based on the Employment Cost Index for post-secondary institutions, published by the US Department of Labor-Bureau of Labor Statistics. The adjustments may be made for either one fiscal-year of a biennium or both fiscal-years of a biennium.

(II) External cost adjustments for fixed cost state funding and state funding of Wyoming Public Television. The adjustments shall be based on the Consumer Price Index published by the US Department of Labor-Bureau of Labor Statistics, and may be made for either one fiscal-year of a biennium or both fiscal-years of a biennium.

(III) An incentive pool (i.e., special purpose funding) intended to provide start-up revenue to one or more community colleges for programs which address unanticipated and emerging statewide needs, but which lack sufficient resources initially. Initial funding for such programs shall be subject to Commission approval, and continued funding shall be subject to satisfaction of established performance benchmarks. Funding provided by the pool shall not be considered long-term, regardless of program success. Any undistributed balance of this pool shall revert at the end of the biennium.

(C) Standard and exception budget requests for other programs assigned to the Commission shall be developed in consultation with the community colleges and the Budget Division.

(I) The Commission may also prepare and submit supplemental budget requests.

(II) The Commission may also seek additional funding from state or other sources to support incentive and/or performance funds that address statewide priorities.

(e) The executive director shall report to the Commission and the community colleges on action taken by the governor and the legislature on requests for state appropriations.

(f) The Budget Division is not bound by the provisions of this section.

Section 5. Disbursing State and Other Funds.

(a) Unless otherwise directed by the legislature, state funding for the assistance of community colleges shall be allocated by the Commission to the community colleges on the basis of the funding allocation model and its adjuncts approved by the Commission, as outlined in Section 3 of these Rules – Creating and Maintaining a Funding Allocation Model.

(b) Distributions of state appropriations shall be made by the Commission to the community colleges in accordance with the funding allocation model or other legislative instructions, and at times and in amounts determined by the Commission.

(i) Unless otherwise specified by the Commission, distributions of state aid to the community colleges and Wyoming Public Television shall be made on or about July 15, September 15, December 15 and March 15 of each fiscal year.

(ii) Unless otherwise specified by the Commission, distributions of state aid to the community colleges and Wyoming Public Television shall be made in the amounts of 15 percent, 15 percent, 10 percent and 10 percent of the total biennial amount of state aid designated for each entity on the respective dates of each fiscal year.

(c) Contingency reserve account funds shall be distributed at times determined by the Commission, subject to receipt of coal lease bonus funds.

(d) Any additional state funding appropriated to the Commission for distribution to the community colleges will be distributed at times and in amounts determined by the Commission.

Section 6. Establishing and Promoting Statewide Priorities.

The Commission shall collaborate with college trustees, college administrators, the governor's office, the legislature, and community and business leaders to determine statewide

priorities that conform to interests that shall be addressed by the *WY Community College Commission Statewide Strategic Plan*.

Deadlines for all outstanding updates may be established by the Commission in order to ensure the validity of computations inherent to, and reports generated by, the capital construction database.

(B) Database information shall be used to develop the long range plans for building space needs.

(iii) The Commission shall identify and implement a forecasting model to assist community colleges in computing future student enrollments and related building needs. Model reports will be available to the colleges upon completion of commission-related database updates including, but not limited to, population projections, enrollment projections, student demographics, participation rates, distance education, utilization hours, library volumes and student study stations.

(d) By June 1 of every year, the colleges shall be authorized to submit for funding consideration capital construction projects. Each submission must be supported by a Level I study, and shall use the capital construction database described in the *Facilities Handbook*. The proposed project must have an identified educational use and must also be described and prioritized within the college's published 5-year master plan.

(i) No later than June 1 of each year, Commission staff shall forward the prioritized list, supported by Level I design documents, to the State Construction Department in accordance with W.S. 21-18-225 (g).

(ii) An informational report will be created related to the prioritized list given to the State Construction Department, and will be provided to the commissioners at their summer meeting.

(e) Community colleges may submit requests for authorization to construct without state funding, as provided for in W.S. 21-18-202 (d)(v). Such requests shall be sent to Commission staff no later than 30 days prior to any scheduled commission meeting for consideration at that meeting. Commission-authorized projects of \$1 million or more also require authorization by the

State Building Commission and the legislature, and therefore will not move forward until the following October.

(f) Community colleges shall submit requests for modification of capital construction priorities through resubmission of their respective college master plans. Re-writes and updates to college master plans must be submitted to the Commission within 30 days of college board approval.

Section 12. State Authorization Reciprocity Agreements (SARA)

(a) In accordance with W.S. 21-18-226, accredited institutions of higher education with a physical presence in Wyoming may apply for membership in SARA, as administered by our regional compact (WICHE), by making application to the Commission (portal agency) using the form provided by the National Council for State Authorization Reciprocity Agreements (NC-SARA).

(b) Applicant institutions shall comply with the provisions of the Council of Regional Accrediting Commissions (C-RAC) guidelines, and more specifically, its inter-regional guidelines for the evaluation of distance education programs (online learning) for best practices in postsecondary distance education developed by leading practitioners of distance education.

(c) Each applicant institution shall provide the portal agency and all students enrolled in courses under SARA provisions, its written complaint resolution policies and procedures, including assurances it will comply with the consumer protection standards, as described below:

(i) Initial responsibility for the investigation and resolution of complaints resides with the institution against which the complaint was made.

(A) Complaints against an institution operating under SARA shall first be processed through the institution's own procedures for resolution of grievances.

(B) Complaints regarding student grades or student conduct violations are governed entirely by institutional policy and laws of the SARA institution's home state.

(C) If a person bringing a complaint is not satisfied with the outcome of the institutional process for handling complaints, the complaint (except for complaints about grades or student conduct violations) may be appealed within two years of the incident about which the complaint is made, by requesting in writing, a review by the portal agency. The resolution of the complaint by the portal agency with consultation with the Attorney General shall be final, except for complaints that fall under the provisions of (g) below.

(D) NC-SARA will develop policies and procedures for reporting the number and disposition of complaints that are not resolved at the institution level. Since appeals of decisions made at the institution level are made to the portal agency, these data will be used to report to NC-SARA.

(d) Eligible institutions may make initial application to the portal agency. If approved, the portal agency will notify NC-SARA of the acceptance. NC-SARA will then contact the institution regarding payment of fees, which are based on annual FTE as reported to IPEDS for the previous year. Contingent upon the satisfactory review of eligibility by the portal agency, institutions will pay annual renewal fees directly to NC-SARA. Failure to pay renewal fees shall result in a loss of eligibility to participate in SARA.

(e) Annually, at the time of renewal, the portal agency shall review institutional eligibility and notify WICHE of its findings. Any institution that is disqualified from participating in SARA, either during its annual review or when circumstances dictate, shall not receive a refund if eligibility is revoked partway through an annual period.

(f) Programs Leading to Licensure - Any institution operating under SARA that offers courses or programs potentially leading to professional licensure must keep all students, applicants, and potential students who have contacted the institution about the course or program informed as to whether such offerings actually meet state licensing requirements. This must be done in one of two ways:

(i) The institution may determine whether the course or program meets the requirements for professional licensure in the state where the applicant or student resides, and provide that information in writing to the student; or

(ii) The institution may notify the applicant or student in writing that the institution cannot confirm whether a course or program meets the requirements for professional licensure in the student's state, provide the student with the current contact information for any applicable licensing boards, and advise the student to determine whether the program meets requirements for licensure in the state where the student lives.

(A) Failure to provide proper notice in one of these two ways invalidates the SARA eligibility of any course or program offered without the proper notice.

(B) SARA covers class field trips across state lines among member states, but does not cover full-scale residency programs such as a summer session at a field station.

(C) Short Courses and Seminars – Physical presence under SARA is not triggered if the instruction provided for a short course or seminar takes no more than 20 classroom hours. Class meetings during a full-term course do not trigger physical presence if the instructor and students physically meet together for no more than two meetings, totaling less than six hours. Apparent abuses of these provisions may be brought to the attention of the home state portal agency.

(D) Third Party Providers – Contracts between a third-party provider of educational services and any SARA office or state must be made via the degree-granting institution that operates under SARA. A third-party provider may not represent an institution regarding any subject under SARA operating policies to any SARA office or any state operating under SARA.

The institution that transcripts a course is considered the degree-granting institution for purposes of this section.

(g) Data Submission Requirements – Participating institutions shall annually submit the following data to NC-SARA using the protocols established by NC-SARA:

(i) The number of students enrolled in the institution via distance education delivered outside the state, reported by state, territory or district in which the students reside.

(ii) A list of programs a student may complete without on-campus attendance using the US DoE definition of a distance education program.

(h) The institution shall have a plan that assures a student will receive services for which they have paid or reasonable financial compensation for those not received in the event of an unanticipated closure of the institution. Such assurances may include tuition assurance funds, surety bonds, teach-out provisions or other practices deemed sufficient to protect consumers.

(j) Participating institutions shall make available their disaster recovery plans, particularly with respect to the protection of student records, to the portal agency, WICHE or NC-SARA upon request.

(ii) Central Wyoming College: Fremont, Hot Springs, and Teton Counties, and the Wyoming State Penitentiary;

(iii) Eastern Wyoming College: Goshen, Converse, Crook, Weston, Niobrara, and Platte Counties;

(iv) Laramie County Community College: Laramie and Albany Counties;

(v) Northern Wyoming Community College District: Sheridan, Johnson, and Campbell Counties;

(vi) Northwest College: Park, Big Horn and Washakie Counties and Yellowstone National Park; and

(vii) Western Wyoming Community College: Sweetwater, Sublette, Lincoln, Uinta, and Carbon Counties.

(b) A community college proposing to deliver a program in the service area of another community college when a physical presence will be established shall notify the Commission in sufficient time to allow for the coordination process. If necessary, the Commission shall convene affected parties and determine which community college shall deliver the program.

(c) A community college may provide distance delivered instruction outside its service area. A community college shall not establish a physical presence to provide instruction outside of its service area without the written permission of the community college district serving the area under consideration. This written permission expires at the end of five (5) years and must be renewed to continue.

Section 7. Coordinating a Declination to Provide Program Response

(a) The Commission shall coordinate with all affected community colleges to prepare a response to the requesting board of county commissioners when a community college decides

not to provide a requested program, pursuant to W.S. 21-18-202(b)(vi).

(b) Upon referral from a community college, the Commission and all affected community colleges shall collaborate according to the process of the *WCCC Policy on Consultation* to provide a coordinated response.

CHAPTER 5 RULES

ADMINISTRATIVE FUNCTIONS

Section 1. Authority.

Wyoming Statute 21-18-202(c), (d) and (h), 21-18-203(a), 21-18-205(b), (c) and (e), ~~and~~ 21-18-225, and 21-18-226.

Section 2. Purpose.

This chapter governs the Commission's administrative functions.

Section 3. Creating and Maintaining a Funding Allocation Model.

(a) Wyoming Statute 21-18-205 created a statewide community college system operations funding mechanism based upon a statewide community college system strategic planning process attaching funding to state interests.

(i) The basis for fiscal-year 2017 and fiscal-year 2018 funding shall be the sum of:

(A) The 2015-2016 biennial budget appropriation for state aid to community colleges, adjusted by:

(I) Subtraction of the portion of the budget appropriation restricted to reimbursement of community college increased retirement contributions (unless appropriated separately by the legislature); and

(II) Recapture and redistribution of state aid as calculated in July 2015.

(B) Any adjustments to base made by the Budget Division of the Department of Administration and Information.

(C) Community college district revenue, which is defined to include:

(I) Actual 4-mill revenue for fiscal-year 2015, and 99 percent of 4-mill revenue calculated against the 2015 certified assessment;

(II) Two times the amount of actual motor vehicle registration revenue for fiscal-year 2015; and

(III) Two times the amount of actual other revenue for fiscal-year 2015.

(ii) For each community college, the sum of the adjusted 2015-2016 biennial budget appropriation for state aid, net Budget Division adjustments to base, and the community college district revenue shall be divided by two to establish annual college-specific base funding amounts.

(iii) The annual college-specific base funding amounts shall be separated into fixed cost and variable cost portions that must be recalculated at least once every four years, based upon the following definitions of these costs, and the following procedures for determining the college-specific costs:

(A) Definitions of fixed and variable costs:

(I) Fixed costs include mandatory transfers and those operating costs that do not vary with enrollment. Such costs include the majority of administrative costs as well as operating costs related to facilities (e.g., utilities, maintenance and small repairs). Fixed costs include all or a substantial portion of costs classified as plant operation and maintenance, institutional support, academic support and student services. Also included in fixed costs is a relatively smaller portion of instructional costs representing costs for academic administrators, faculty (i.e., those with tenure or on continuing contracts) and related operating costs.

(II) Variable costs are those operating costs that vary proportionally with enrollment or represent step-variable costs. Step-variable costs increase or decrease based on enrollment fluctuation but not necessarily proportionally. Instead, step-variable costs remain static for a range of enrollments and increase once the range is exceeded (or decrease when enrollment drops below the range). The step-variable costs remain static above the range until the next level of enrollment is reached (or vice versa in the case of enrollment declines). Variable costs include all or a substantial portion of operating costs classified as instruction, service and student financial aid. Additionally, variable costs include all operating costs for extension (remote) operations that lack permanent full-time administrative staff.

(B) Procedures for determining college-specific fixed and variable costs:

(I) The relevant costs for the calculation of college-specific fixed and variable costs are the Fund 10 costs, after excluding capital costs and non-mandatory transfers. The first step is to sort these costs, by location, into standard functional categories as follows: instruction; service; academic support; student services; institutional support; plant operations and maintenance; student financial aid; mandatory transfers; and extension operations. The definitions for these standard functional categories are provided in section 604.26 of the *Financial Accounting and Reporting Manual for Higher Education* published by the NACUBO, and they are the same definitions relied on by the U.S. Department of Education National Center for Education Statistics for use in the IPEDS.

(II) Once the costs are sorted by location, it is necessary to determine which locations will be treated as campus locations and which will be treated as extension (remote) locations. A campus location is one that incurs the full range of operating costs for academic and related purposes. An extension location is one that utilizes a more streamlined operation consisting almost exclusively of classroom instruction. The distinguishing characteristic of extension

locations is the absence of permanent full-time administrative staff. The operating costs for extension locations are deemed to be fully variable while the operating costs for campuses vary by functional category.

(III) Campus location costs are sorted by function and summed to generate a total, by function, of each community college's campuses. The following standard percentages are applied to the functional cost category totals to determine the portion of each function that is fixed or variable:

- Instruction – 35 percent fixed and 65 percent variable;
- Service – 0 percent fixed and 100 percent variable;
- Academic support – 80 percent fixed and 20 percent variable;
- Student services – 70 percent fixed and 30 percent variable;
- Institutional support – 90 percent fixed and 10 percent variable;
- Plant operations and maintenance – 95 percent fixed and 5 percent variable;
- Student financial aid – 0 percent fixed and 100 percent variable;
- Mandatory transfers – 100 percent fixed and 0 percent variable; and
- Extension operations – 0 percent fixed and 100 percent variable.

(IV) The fixed amounts for each functional cost category are summed, producing the total fixed costs for the community college. The variable amounts for each functional cost category are summed and added to the total costs for all extension locations. This results in two totals - one for fixed costs and one for variable costs. These costs are summed to produce the total relevant costs for the community college.

(V) The final step is the calculation of the fixed and variable cost percentages. The total for the fixed costs is divided by the total costs for the community college to produce the fixed cost percentage. The total for the variable costs is divided by the total costs for the community college to produce the variable cost percentage.

(iv) The base period total weighted credit hours shall be the sum of the following:

(A) Academic years 2004 and 2005 Level One credit hours multiplied by a factor of 1.0;

(B) Academic years 2004 and 2005 Level Two credit hours multiplied by a factor of 1.5; and

(C) Academic years 2004 and 2005 Level Three credit hours multiplied by a factor of 2.0.

(v) The base period total weighted credit hours shall be divided by two to establish the base period system-wide average weighted credit hours.

(vi) The variable costs portion of the annual system-wide base funding amount shall be divided by the base period system-wide average weighted credit hours to establish the base period system-wide credit-hour revenue.

(A) The base period system-wide credit-hour revenue shall be multiplied by the percentage of the system-wide adjusted 2015-2016 biennial budget appropriation for state aid to the sum of this adjusted appropriation for state aid and the system-wide community college district local revenue. The product of this shall be the state-funded system-wide credit-hour revenue.

(vii) For each community college, the current biennial weighted credit hours shall be the sum of the following:

(A) Academic years 2014 and 2015 Level One credit hours multiplied by a factor of 1.0;

(B) Academic years 2014 and 2015 Level Two credit hours multiplied by a factor of 1.5; and

(C) Academic years 2014 and 2015 Level Three credit hours multiplied by a factor of 2.0.

(viii) For each community college, the current biennial weighted credit hours shall be divided by two to establish the current annual college-specific weighted credit hours.

(ix) For each community college, a successfully completed, weighted credit hour volume shall be calculated for each academic-year, beginning with academic-year 2015.

(A) Each year upon verification of the most recent successfully completed, weighted credit hour volumes, the college-specific percentages of the system-wide successfully completed, weighted credit hour volume shall be calculated.

(x) For each community college, a program completion volume shall be calculated for each academic-year, beginning with academic-year 2016.

(A) Each year upon verification of the most recent program completion volumes, the college-specific percentages of the system-wide program completion volume shall be calculated.

(xi) College-specific variable cost state funding shall be calculated as the sum of the following calculations:

(A) ~~m~~ Multiplying the base period college-specific average weighted credit hours by the base period system-wide credit-hour revenue, and then multiplying this product by the percentage of the community college's adjusted 2015-2016 biennial budget appropriation for state aid to the sum of this adjusted appropriation for state aid and its community college district revenue (to be distributed four times per year).

(I) For fiscal-year 2017, 25 percent of this variable cost state funding shall not be subject to recapture/redistribution, and each community college's allocation of this 25 percent shall be allocated among the colleges calculated as follows:

(1.) ~~Each~~ community college's proportionate share of system-wide successfully completed, weighted credit hours for academic-year 2015 by the variable cost portion of system-wide annual base funding, then multiplying this product by the percentage of the community college's adjusted 2015-2016 biennial budget appropriation for state aid to the sum of this adjusted appropriation for state aid and its community college district revenue, and then multiplying this product by 25 percent shall establish the college's share, of 25 percent of variable cost funding.

(II) For fiscal-year 2018, 30 percent of this variable cost state funding shall not be subject to recapture/redistribution, and each community college's allocation of this 30 percent, divided equally into two parts of 15 percent each, shall be calculated as follows:

(1.) Multiplying the community college's proportionate share of system-wide successfully completed, weighted credit hours for academic-year 2016 by the variable cost portion of system-wide annual base funding, then multiplying this product by the percentage of the community college's adjusted 2015-2016 biennial budget appropriation for state aid to the sum of this adjusted appropriation for state aid and its community college district revenue, and then multiplying this product by 15 percent.

(2.) Multiplying the community college's proportionate share of system-wide program completions for academic-year 2016 by the variable cost portion of system-wide annual base funding, then multiplying this product by the percentage of the community college's adjusted 2015-2016 biennial budget appropriation for state aid to the sum of this adjusted appropriation for state aid and its community college district revenue, and then multiplying this product by 15 percent.

(B) ~~Multi~~ multiplying the difference between the current annual college-specific weighted credit hours and the base period college-specific average weighted credit hours (which represents enrollment growth to-date, and is recognized as variable cost state funding) by the state-funded system-wide credit hour revenue (to be distributed in full in July of even-numbered years).

(xii) For both fiscal-year 2017 and fiscal-year 2018, college-specific fixed cost state funding shall be calculated by multiplying the fixed cost portion of the annual college-specific base funding amounts by the percentage of the college's adjusted 2015-2016 biennial budget appropriation for state aid to the sum of this adjusted appropriation for state aid and its community college district revenue.

(xiii) If the sum of system-wide variable cost state funding and system-wide fixed cost state funding exceeds the system-wide adjusted 2015-2016 biennial budget appropriation for state aid, the difference shall be attributed to enrollment growth, and such difference can only be funded by means of an approved exception budget request.

(xiv) Amounts calculated under the funding allocation model which are greater than or less than ~~of~~ the system-wide adjusted 2017-2018 biennial budget appropriation ~~not~~

~~distributed under the funding allocation model~~ shall be distributed proportionately based on variable cost state funding for base period enrollment.

(xiv) For fiscal-year 2017 and/or fiscal-year 2018, external cost adjustments can be applied to variable cost state funding and/or fixed cost state funding. The external cost adjustment for variable cost state funding shall be based upon the most recent Employment Cost Index for post-secondary institutions available at the time of biennial and/or supplemental budget submission, published by the US Department of Labor – Bureau of Labor Statistics. The external cost adjustment for fixed cost state funding shall be based upon the most recent Consumer Price Index available at the time of biennial and/or supplemental budget submission, also published by the US Department of Labor – Bureau of Labor Statistics. The application of any external cost adjustment will necessarily increase the demand for state funding, and accordingly, any such increase can only be funded by means of an approved exception budget request.

(A) External cost adjustments can also be applied to state funding of Wyoming Public Television. However, given that enrollment is not a factor in Wyoming Public Television’s operations, the external cost adjustment shall be based solely upon the most recent Consumer Price Index available at the time of biennial and/or supplemental budget submission.

(xvi) For fiscal-year 2017 and fiscal-year 2018, annual recapture and redistribution of state aid due to changes in local 4-mill revenue resulting from changes in assessed valuation identified in July or August of each year shall be distributed to the community colleges based on their proportionate share of the sum of the adjusted 2015-2016 biennial budget appropriation for state aid and the community college district revenue, as calculated in support of the 2017-2018 biennial budget request.

(xvii) A spreadsheet depicting the operation of the funding allocation model for 2017-2018 shall be included in the *Fiscal Handbook*.

~~(xvii) The enrollment growth funding pool is intended to provide variable cost state funding for increased enrollment and successfully completed, weighted credit hours in a more timely fashion than recognition of increased enrollment and successfully completed, weighted credit hours during preparation of the subsequent biennial budget request. The respective proportions of the enrollment growth funding pool available for increased enrollment and for successfully completed, weighted credit hours shall be the same as for appropriations for enrollment growth and successfully completed, weighted credit hours known at the time of biennial budget preparation. Funding for the pool shall be an exception budget request, with any unspent balance subject to reversion. Should an appropriation not be made for the enrollment growth funding pool during the Budget Session, an exception budget request may be made during the General Session, consisting of known enrollment growth for the preceding academic year and projected enrollment growth for the current year.~~

~~(A) In October of each year, following the Commission’s approval of the annual enrollment report, the current biennial weighted credit hours for each college shall be recalculated by utilizing the most recent weighted credit hours in place of the two-year-old weighted credit hours.~~

~~(B) For each community college, the current biennial weighted credit hours shall then be divided by two to establish the current annual college-specific weighted credit hours.~~

~~—— (C) College-specific variable costs state funding payable from the enrollment growth funding pool shall then be calculated by multiplying the positive difference between the current annual college-specific weighted credit hours (utilizing the most recent weighted credit hours and one-year-old weighted credit hours) and the annual college-specific weighted credit hours (utilizing one-year-old and two-year-old weighted credit hours) by the state-funded system-wide credit-hour revenue.~~

~~—— (D) The calculation of college-specific variable cost state funding payable from the enrollment growth funding pool shall then be divided by two, and the resulting amount shall be distributed to the community colleges at the same time as the December and March distributions of state aid, but shall be identified separately given that the source of funding for the enrollment growth funding pool can only be appropriated through the exception budget request process.~~

(b) If it is determined that the funding allocation model established by rule and in accordance with W.S. 21-18-205 is no longer the appropriate method for determining the funding request for the community colleges, and no other funding allocation model has been developed, funding requests for specifically identified needs may be submitted in the biennial budget request until a new funding allocation model has been approved and rules have been promulgated.

(i) Annual recapture and redistribution of state aid due to changes in local 4-mill revenue resulting from changes in assessed valuation identified in July or August of each year shall be distributed to colleges based on their proportionate share of credit full-time-equivalent (Credit FTE) enrollment as reported in Table 5 of the Wyoming Community College System Annual Enrollment Report for the two most current years available. This process shall be followed until an approved funding allocation model is in place.

(c) Adjuncts to the funding allocation model include the following:

(i) Revenues received by the Commission's contingency reserve account, to be used only for facility emergency repairs and/or preventive maintenance, shall be distributed to the community colleges as follows:

(A) Each community college's share of the distribution shall be based on its proportionate share of actual gross square footage as outlined by the computation and dates prescribed in Section 10 of this chapter.

(I) Subsequent changes in eligible gross square footage by any community college shall not alter the respective distribution percentages until such changes are recognized through a Commission-initiated calculation of system-wide gross square footage.

(B) Actual distribution of revenue from the contingency reserve account to the community colleges shall be made as the Commission determines, and shall be dependent on receipt of coal lease bonus funds by the Commission.

(ii) The appropriation for health insurance premium benefits, to be used for reimbursement of community college employee premiums, shall be calculated and distributed as follows:

(A) For the 2007-2008 biennium and beyond, the health insurance premium benefit pool shall be based on plan enrollment numbers as of the month of April in odd-numbered years, as well as the projected premium rates for the month of December in the same odd-numbered years.

(B) Distribution of funds to the community colleges shall be for reimbursement of actual expenses incurred. Each community college shall submit a quarterly reimbursement request on an approved Commission form.

(C) The Commission shall evaluate the sufficiency of funding in the health insurance premium benefit pool on a quarterly basis. If funding is projected to be insufficient, the Commission shall work with the Budget Division of the Department of Administration and Information to identify other possible funding options, and if other options are not available, and if supplemental budget requests can still be submitted, the Commission shall consider such a request.

(I) If funding in the health insurance premium benefit pool is insufficient and other funding options, including supplemental budget requests, are not available, each of the community college's reimbursement shall be reduced in an amount proportionate to its share of system-wide eligible employees as of the month of April in odd-numbered years.

(II) If funding in the health insurance premium benefit pool exceeds reimbursement of actual expenses incurred, the unspent balance shall revert to the general fund at the end of the biennium.

(iii) The appropriation for the retirees' health insurance pool, to be used to cover the community colleges' share of pool funding, shall be calculated and distributed as follows:

(A) Based on payroll data provided by the community colleges, the Commission shall calculate the college-specific biennial appropriations for the retirees' health insurance assessment.

(B) Distribution of the appropriations by the Commission to the community colleges shall occur at the same time and in the same relative proportions as state aid distributions.

(C) On a monthly basis, each community college shall calculate the amount of the appropriation used for the preceding month, and submit payment of this amount to the State Auditor's Office.

(iv) Appropriations for increased retirement contribution benefits, to be used for reimbursement of the community colleges' share of increased contributions, beginning September 1, 2010, shall be calculated and distributed as follows:

(A) For the 2013-2014 biennium and beyond, the retirement contribution benefit pool shall be based on the cumulative payroll of pension-eligible community college employees as of the month of April in odd-numbered years, adjusted to recognize local funding.

(B) Distribution of funds to the community colleges shall be for reimbursement of actual expenses incurred, adjusted to recognize local funding. Each community college shall submit a quarterly reimbursement request on an approved Commission form.

(C) The Commission shall evaluate the sufficiency of funding in the retirement contribution benefit pool on a quarterly basis. If funding is projected to be insufficient, the Commission shall work with the Budget Division of the Department of Administration and Information to identify other possible funding options, and if other options are not available, and if supplemental budget requests can still be submitted, the Commission shall consider such a request.

(I) If funding in the retirement contribution benefit pool is insufficient and other funding options, including supplemental budget requests, are not available, each of the community college's reimbursement shall be reduced in an amount proportionate to its share of the cumulative payroll of pension-eligible college employees as of the month of April in odd-numbered years.

(v) The funding allocation model and/or its adjuncts may be reviewed by the Commission as necessary, and proposed revisions may be recommended for rules, in accordance with applicable statutes.

Section 4. Preparing Commission and Community College Budget Requests.

(a) The Commission shall prepare a consolidated biennial budget request for state assistance, including state funding for Commission programs, the community colleges and Wyoming Public Television in a format determined by the Budget Division of the Department of Administration and Information.

(b) The Commission shall hold at least one public budget hearing for the community colleges, after which the consolidated budget request for state assistance shall be submitted to the governor.

(c) Requests for state appropriations to fund the regular support and operation of the community colleges shall be developed in accordance with Wyoming Statute 21-18-102 and 21-18-203, and utilizing a Commission-adopted funding allocation model.

(d) Wyoming Statute 21-18-205 created a statewide community college system operations funding mechanism based upon a statewide community college system strategic planning process attaching state funding to state interests.

(i) The budget request model shall be derived from that principle, and it shall consist of two components: the standard budget request and the exception budget request. The step-by-step procedures for calculation of both types of requests are outlined in Wyoming Statute 21-18-102 and

21-18-203, and also in Section 3 of the Rules - Creating and Maintaining a Funding Allocation Model.

(A) The biennial standard budget request shall be based on amounts appropriated for state aid by Wyoming Statute 21-18-102 and 21-18-203~~in the preceding biennium~~, including any external cost adjustments for fixed and variable costs, or other Budget Division adjustments to base.

(I) The allocation of the standard budget appropriation among the community colleges shall be adjusted to recognize variations in each community college district's revenue from biennium to biennium. The only exception to this is the variable cost funding subject to allocation in accordance with performance metrics.

(B) The biennial exception budget request may include, but shall not be limited to the following:

~~—————(I) Additional variable cost state funding (i.e., special purpose funding) in recognition of enrollment growth calculated as the difference between the two most recent academic years prior to preparation of the biennial budget request and the two years that comprise the base period.~~

~~—————(II) Additional variable cost state funding (i.e., special purpose funding) in recognition of enrollment growth projected for the academic year immediately preceding the biennium but after preparation of the biennial budget request, as well as enrollment growth projected for the first academic year of the biennium. Any undistributed balance of this enrollment growth funding pool shall revert at the end of the biennium.~~

(III) External cost adjustments for variable cost state funding based on the Employment Cost Index for post-secondary institutions, published by the US Department of Labor-Bureau of Labor Statistics. The adjustments may be made for either one fiscal-year of a biennium or both fiscal-years of a biennium.

(~~II~~IV) External cost adjustments for fixed cost state funding and state funding of Wyoming Public Television. The adjustments shall be based on the Consumer Price Index published by the US Department of Labor-Bureau of Labor Statistics, and may be made for either one fiscal-year of a biennium or both fiscal-years of a biennium.

(~~III~~IV) An incentive pool (i.e., special purpose funding) intended to provide start-up revenue to one or more community colleges for programs which address unanticipated and emerging statewide needs, but which lack sufficient resources initially. Initial funding for such programs shall be subject to Commission approval, and continued funding shall be subject to satisfaction of established performance benchmarks. Funding provided by the pool shall not be considered long-term, regardless of program success. Any undistributed balance of this pool shall revert at the end of the biennium.

(C) Standard and exception budget requests for other programs assigned to the Commission shall be developed in consultation with the community colleges and the Budget Division.

(I) The Commission may also prepare and submit supplemental budget requests.

(II) The Commission may also seek additional funding from state or other sources to support incentive and/or performance funds that address statewide priorities.

(e) The executive director shall report to the Commission and the community colleges on action taken by the governor and the legislature on requests for state appropriations.

(f) The Budget Division is not bound by the provisions of this section.

Section 5. Disbursing State and Other Funds.

(a) Unless otherwise directed by the legislature, state funding for the assistance of community colleges shall be allocated by the Commission to the community colleges on the basis of the funding allocation model and its adjuncts approved by the Commission, as outlined in Section 3 of these Rules – Creating and Maintaining a Funding Allocation Model.

(b) Distributions of state appropriations shall be made by the Commission to the community colleges in accordance with the funding allocation model or other legislative instructions, and at times and in amounts determined by the Commission.

(i) Unless otherwise specified by the Commission, distributions of state aid to the community colleges and Wyoming Public Television shall be made on or about July 15, September 15, December 15 and March 15 of each fiscal year.

(ii) Unless otherwise specified by the Commission, distributions of state aid to the community colleges and Wyoming Public Television shall be made in the amounts of 15 percent, 15 percent, 10 percent and 10 percent of the total biennial amount of state aid designated for each entity on the respective dates of each fiscal year.

(c) Contingency reserve account funds shall be distributed at times determined by the Commission, subject to receipt of coal lease bonus funds.

(d) Any additional state funding appropriated to the Commission for distribution to the community colleges will be distributed at times and in amounts determined by the Commission.

Section 6. Establishing and Promoting Statewide Priorities.

The Commission shall collaborate with college trustees, college administrators, the governor's office, the legislature, and community and business leaders to determine statewide

priorities that conform to interests that shall be addressed by the *WY Community College Commission Statewide Strategic Plan*.

Section 7. Administering Loan Repayment Programs.

(a) This Section is promulgated under authority of W.S. 21-18-202 and W.S. 9-2-123 for the Wyoming Investment in Nursing program, W.S. 21-7-601 for the Teacher Shortage Loan Repayment program, and W.S. 21-7-701 for the Wyoming Adjunct Professor Loan Repayment program, as amended.

(i) The purpose of the Wyoming Investment in Nursing Program (WYIN program) is to make funds available to individuals who wish to pursue a career in nursing or nurse education and to alleviate a shortage of nurses within the state.

(ii) The purpose of the Wyoming Teacher Shortage Loan Repayment Program (TSLR program) is to make funds available to students at the University of Wyoming who wish to pursue a career in education and to alleviate a shortage of teachers in qualified areas of study within the state as designated by W.S. 21-7-601.

(iii) The purpose of the Wyoming Adjunct Professor Loan Repayment Program (WAPLR program) is to make funds available to public school teachers who require additional coursework in order to qualify as adjunct instructors under the concurrent enrollment policies of a Wyoming community college district or the University of Wyoming (UW).

(b) Sections (c) through (g) apply to all loan repayment programs except as otherwise noted. Section (h) applies to the WYIN and TSLR programs except as otherwise noted, and section (i) applies to the WAPLR program.

(c) Interest

(i) The interest rate shall be the average prime interest rate plus four percent (4%) computed by the Commission's financial institution in the same manner as specified under W.S. 39-16-108(b) for determining the interest rate on delinquent use taxes. The rate shall be approved by the Commission by July 1st of every calendar year.

(ii) Accrual of interest shall begin upon scheduled commencement of cash repayment.

(d) Loan Terms

(i) Loan origination fees shall be established by the Commission and deducted from the first disbursement of funds for payment to the contracted financial institution.

(ii) The student shall sign a master promissory note as approved by the Commission prior to disbursement to the student of any funds.

(iii) The Commission or the contracted financial institution may disclose any delinquency or default on the student's loan to credit bureaus.

(iv) If the student fails to make a scheduled repayment, or fails to comply with any other term of the note, the Commission or the contracted financial institution may refer the student's loan to a collection agent, initiate legal proceedings against the student, and pursue judicial remedies.

(v) If the student fails to make a scheduled repayment or fails to comply with any other term of the promissory note, the entire unpaid balance of the loan, including interest due and accrued and any applicable penalty charges and collection fees, including attorney fees, will, at the option of the Commission, become immediately due and payable.

(vi) The student may prepay all or any part of the principal and accrued interest of the loan at any time without penalty.

(vii) The student will promptly inform the Commission or the contracted financial institution of any change in name or address.

(e) Default of a Loan.

(i) A loan shall be in default when an installment is due and not paid in full within 90 days after the time period provided by these rules.

(ii) The process for collection of a loan in default shall be determined by the Commission through its designated financial institution.

(iii) The student in default shall pay any charges related to offsetting the note or any charges incurred should the note(s) be referred to an outside collection agency and any other collection charges, including attorney's fees allowed by state law.

(iv) Loan repayment options under this section may be deferred for:

(A) A period not to exceed five (5) years while the student is serving on full time active duty with any branch of the military services of the United States; or

(B) The length of a graduate program that qualifies under the WYIN program or the TSLR program if the student begins the graduate program while still paying the WYIN or TSLR loan by cash or employment; or

(C) The length of the undergraduate program for a WYIN or TSLR student who did not complete the program, but who is readmitted. Interest will not accrue while the student is enrolled in the program. Upon completion of the program, the current loan balance will be repaid as specified in section (h)(v) for WYIN and TSLR loans and section (j)(v) for WAPLR loans.

(v) Students may be granted a delay from having to repay loans and interest, including interest accrual, thereon, in whole or in part or complete cancellation, including interest accrual, thereon, when the requirement to repay would cause undue hardship, economic or otherwise. The financial institution responsible for servicing the loans will use its best judgment in applying the economic hardship deferment criteria used for the Federal Family Education Loan Program. The Commission reserves the right to consider and make the final decision as to any request on the basis of undue hardship, economic or otherwise.

(vi) Complete cancellation of a student's debt will be granted only in limited circumstances. These circumstances may include a student's total and permanent disability, as determined by a medical or osteopathic physician, or death.

(A) A student who is determined to be totally and permanently disabled will have his/her loan placed in a conditional discharge period for three (3) years from the date the student became totally and permanently disabled.

(B) During this conditional period, the student need not pay principal and interest will not accrue. If the student continues to meet the total and permanent disability conditions during, and at the end of, the three-year conditional period, the student's obligation to repay the loan shall be canceled upon approval by the Commission.

(C) If the student does not continue to meet the cancellation requirements, the student must resume payment within forty-five (45) days of the medical opinion specified in (vi) of this section.

(f) Process for Cash Repayment. The process and schedule for cash repayment under (h)(v) for WYIN and TSLR loans and section (j)(v) for WAPLR loans shall be administered by the Commission through its designated financial institution. Students shall be notified by the Commission through its designated financial institution of the approved payment plan.

(ii) The Commission shall provide access to a statewide community college building database (otherwise referred to as the capital construction database), a component of which shall be a facilities inventory database.

(A) Community colleges shall provide updates to the facilities inventory database in a timely fashion, thereby facilitating both current and comprehensive descriptions of colleges' built environments. Deadlines for all outstanding updates may be established by the Commission in order to ensure the validity of computations inherent to, and reports generated by, the capital construction database.

(B) Database information shall be used to develop the long range plans for building space needs.

(iii) The Commission shall identify and implement a forecasting model to assist community colleges in computing future student enrollments and related building needs. Model reports will be available to the colleges upon completion of commission-related database updates including, but not limited to, population projections, enrollment projections, student demographics, participation rates, distance education, utilization hours, library volumes and student study stations.

Section 12. State Authorization Reciprocity Agreements (SARA)

(a) In accordance with W.S. 21-18-226, accredited institutions of higher education with a physical presence in Wyoming may apply for membership in SARA, as administered by our regional compact (WICHE), by making application to the Commission (portal agency) using the form provided by the National Council for State Authorization Reciprocity Agreements (NC-SARA).

(b) Applicant institutions shall comply with the provisions of the Council of Regional Accrediting Commissions (C-RAC) guidelines, and more specifically, its inter-regional guidelines for the evaluation of distance education programs (online learning) for best practices in postsecondary distance education developed by leading practitioners of distance education.

(c) Each applicant institution shall provide the portal agency and all students enrolled in courses under SARA provisions, its written complaint resolution policies and procedures, including assurances it will comply with the consumer protection standards, as described below:

(i) Initial responsibility for the investigation and resolution of complaints resides with the institution against which the complaint was made.

(A) Complaints against an institution operating under SARA shall first be processed through the institution's own procedures for resolution of grievances.

(B) Complaints regarding student grades or student conduct violations are governed entirely by institutional policy and laws of the SARA institution's home state.

(C) If a person bringing a complaint is not satisfied with the outcome of the institutional process for handling complaints, the complaint (except for complaints about grades or student conduct violations) may be appealed within two years of the incident about which the complaint is made, by requesting in writing, a review by the portal agency. The resolution of the complaint by the portal agency with consultation with the Attorney General shall be final, except for complaints that fall under the provisions of (g) below.

(D) NC-SARA will develop policies and procedures for reporting the number and disposition of complaints that are not resolved at the institution level. Since appeals of decisions made at the institution level are made to the portal agency, these data will be used to report to NC-SARA.

(d) ~~No sooner than July 1, 2015,~~ Eligible institutions may make initial application to the portal agency. If approved, the portal agency will notify NC-SARA of the acceptance. NC-SARA will then contact the institution regarding payment of fees, which are based on annual FTE as reported to IPEDS for the previous year. Contingent upon the satisfactory review of eligibility by the portal agency, institutions will pay annual renewal fees directly to NC-SARA. Failure to pay renewal fees shall result in a loss of eligibility to participate in SARA.

(e) Annually, at the time of renewal, the portal agency shall review institutional eligibility and notify WICHE of its findings. Any institution that is disqualified from participating in SARA, either during its annual review or when circumstances dictate, shall not receive a refund if eligibility is revoked partway through an annual period.

(f) Programs Leading to Licensure - Any institution operating under SARA that offers courses or programs potentially leading to professional licensure must keep all students, applicants, and potential students who have contacted the institution about the course or program informed as to whether such offerings actually meet state licensing requirements. This must be done in one of two ways:

(i) The institution may determine whether the course or program meets the requirements for professional licensure in the state where the applicant or student resides, and provide that information in writing to the student; or

(ii) The institution may notify the applicant or student in writing that the institution cannot confirm whether a course or program meets the requirements for professional licensure in the student's state, provide the student with the current contact information for any applicable licensing boards, and advise the student to determine whether the program meets requirements for licensure in the state where the student lives.

(A) Failure to provide proper notice in one of these two ways invalidates the SARA eligibility of any course or program offered without the proper notice.

(B) SARA covers class field trips across state lines among member states, but does not cover full-scale residency programs such as a summer session at a field station.

(C) Short Courses and Seminars – Physical presence under SARA is not triggered if the instruction provided for a short course or seminar takes no more than 20 classroom hours. Class meetings during a full-term course do not trigger physical presence if the instructor and students physically meet together for no more than two meetings, totaling less than six hours. Apparent abuses of these provisions may be brought to the attention of the home state portal agency.

(D) Third Party Providers – Contracts between a third-party provider of educational services and any SARA office or state must be made via the degree-granting institution that operates under SARA. A third-party provider may not represent an institution regarding any subject under SARA operating policies to any SARA office or any state operating under SARA. The institution that transcripts a course is considered the degree-granting institution for purposes of this section.

(g) Data Submission Requirements – Participating institutions shall annually submit the following data to NC-SARA using the protocols established by NC-SARA:

(i) The number of students enrolled in the institution via distance education delivered outside the state, reported by state, territory or district in which the students reside.

(ii) A list of programs a student may complete without on-campus attendance using the US DoE definition of a distance education program.

(h) The institution shall have a plan that assures a student will receive services for which they have paid or reasonable financial compensation for those not received in the event of an unanticipated closure of the institution. Such assurances may include tuition assurance funds, surety bonds, teach-out provisions or other practices deemed sufficient to protect consumers.

(j) Participating institutions shall make available their disaster recovery plans, particularly with respect to the protection of student records, to the portal agency, WICHE or NC-SARA upon request.
