

WYOMING LEGISLATIVE SERVICE OFFICE

Memorandum

DATE October 8, 2020
TO Members Joint Appropriations Committee
FROM Michael Swank, Senior Fiscal Analyst
SUBJECT Executive Branch Agency Fees

Request

At its June 9, 2020 interim meeting, the Joint Appropriations Committee (Committee) requested that Executive Branch agencies provide the Committee with their lists of all agency fees charged to the public for their program or administrative services and the resulting revenue collected from those fees. Based on feedback from the Committee Co-Chairman, Legislative Service Office (LSO) staff initiated this request on July 1 and agencies provide the following information on applicable fees:

1. Wyoming statutory citation, rule or other legal reference that provides the authority for the fee;
2. Brief description, summary, or list of the purpose(s) for the fee;
3. Current fee amount;
4. Is the fee currently being charged at its legal maximum level?;
5. Date fee was last change/adjusted (Year);
6. Fee amount before date of last change, *if information is readily accessible*;
7. Frequency of fee collection, e.g. monthly, annually, only upon application, etc.;
8. Brief description, summary, or list of constituents that are required to pay the fee, e.g. farmer, chemical applicator, professional licensee, truck driver, etc.;
9. Most recent two fiscal years, FY2019 and FY2020, of revenue collected from this fee;
10. WOLFS revenue code used to log this revenue; and
11. WOLFS Fund code/account to which the fee revenue is deposited.

All agencies that received this request responded via email and/or on the LSO spreadsheet template by September 21, 2020. LSO separately requested the University of Wyoming and community college district fee schedules that did not follow the spreadsheet template. Mandatory college fees were provided by the Wyoming Community College Commission, which are included in this memorandum. University of Wyoming's fee book is provided separately.

The following agencies were excluded from this request:

- Professional Licensing Boards/Commissions;
- Wyoming Miners' Hospital Board;

- Wyoming Energy Authority (which became effective July 1, 2020);
- Judicial Branch.

Additional direction LSO provided to agencies to target their responses included the following:

- LSO instructed agencies to not list taxes or statutory assessments they are authorized to implement, e.g. insurance taxes for the Department of Insurance; conservation tax for the Wyoming Oil and Gas Conservation Commission; county cost coverage for Office of the Public Defender or Guardian Ad Litem services; etc.;
- Investment manager fees for the State Treasurer's Office are not included;
- Internal service and enterprise fees charged to other state agencies are not included, e.g. Department of Enterprise Technology Services fees; Department of Administration Motor Vehicle Division fees, etc.;
- Criminal justice fines or fees levied to the public based on legal cases handled by District Attorney offices or the State Public Defender are not included.

Please note that LSO reviewed each agency submission for general completeness and did not conduct extensive data accuracy checks on agency submissions, e.g. check all statutory or rule citations, etc.

Response Summary

Table 1 lists of all agencies that affirmatively responded that they may charge fees for administrative or program services. You may use the agency names in the table to navigate to each agency's summary information later in the document. The table includes how many separate fees each agency reported in its response. Please review each agency's Response Detail page for their list of fees and related data. **Attachment A (p. 38)** provides a summary of the seventeen (17) agencies that reported that they do not charge or do not have the authority to charge fees, with accompanying notes.

Finally, many agencies that implement extensive fees have varied accounting practices in that there are limited revenue codes used for recognition and deposit of the fees within the State's uniform accounting system, or Wyoming On-Line Financial System (WOLFS). In other words, agencies package multiple, separate fees' revenue into one revenue code. This makes it difficult to itemize all generated revenues for some agencies. Committee interest in fee revenue for some agencies will require individual agencies to respond to Committee questions as necessary.

Response Detail

LSO organized each agency's response into two sections:

1. Summary and metadata from their response; and
2. Agency's detailed table listing their fees and JAC requested data. Agencies' summaries with accompanying, separate spreadsheets include:
 - Secretary of State (Agency 002)
 - Department of Agriculture (Agency 010)
 - Department of Revenue (Agency 011)
 - Office of the Attorney General (Agency 015)
 - Department of Environmental Quality (Agency 020)
 - Department of Audit (Agency 021)
 - Public Service Commission (Agency 023)
 - Department of State Parks and Cultural Resources (Agency 024)
 - State Engineer's Office (Agency 037)
 - Game and Fish Department (Agency 040)
 - Department of Fire Prevention and Electrical Safety (Agency 041)
 - Department of Insurance (Agency 044)
 - Department of Transportation (Agency 045)
 - Department of Health (Agency 048)
 - Department of Family Services (Agency 049)
 - Wyoming Livestock Board (Agency 051)
 - Department of Workforce Services (Agency 053)
 - Wyoming Oil and Gas Conservation Commission (Agency 055)
 - Wyoming Community College Commission (Agency 057)
 - Office of State Lands and Investments (Agency 060)
 - Wyoming Business Council (Agency 085)

Table 2 provides the basic template for displaying each agency’s summary and metadata from their responses. Several agencies submitted responses with only one or two fees. LSO abbreviated these responses in this document in the “Notes” section of the agency’s summary table rather than add an itemized fee spreadsheet. For agencies with larger lists of fees, LSO has supplied agencies’ spreadsheet responses with limited formatting adjustments for more consistent, user-friendly presentation.

Following Table 2 are general definitions of the data contained in the summary tables for each agency. All data shown in each agency’s summary table accounts for agency funding, positions, etc. from the 2020 Budget Bill (2020 Wyoming Session Laws, [Chapter 80](#)) prior to August 2020 budget reductions.

Notes:

The Wyoming Community College Commission does not charge any fees for its services. The commission compiles and maintains a list of Mandatory Student Fees assessed by colleges for students. The Commission sets the tuition rate across the system, currently \$99 per credit hour in-state, \$148 per credit hour Western Undergraduate Exchange students, and \$297 per credit hour for out-of-state students. Mandatory Student Fees are determined by local college district Boards of Trustees (Boards) for each district and are charged by credit hours taken.

Course fees are determined by local college Boards. The Commission does not track these fees as they are not considered a source of revenue. These fees cover consumables for a particular course. These fees are available within the Course Catalog published by each institution. The course catalogs will also provide other fees a college may assess to a student or the public.

See the mandatory fee spreadsheets for the last two school years (SY2019-2020 and SY2020-2021).

In some cases, the minimum has been adjusted pursuant to agency policy after internal review, deliberation, and analysis. Prior to operation, lessee owes initial rental based on negotiated fair market value \$/acre/year rate. Prior to installation and energy production, lessee owes installation fee (one-time) which is also negotiated based on fair market value. Once operation begins lessee owes the greatest of three fees: \$/acre rate, \$/MW produced, or royalty (percentage) of gross revenues. Operating fees are due quarterly. These leases and rentals do adjust according to the Consumer Price Index. All of these fees are outlined and required in the energy lease. |
