RE: Update to Select Committee on Blockchain, Financial Technology and Digital Innovation Technology.

Greetings,

On behalf of Teton County Clerk's office, I have the following information as to the status and use of the Blockchain Technology in the Teton County Recorder's Land Records

December 11, 2018 - Memorandum of Understanding signed between Teton County Clerk (TCC) and Medici Land Governance, Inc. (MLG), for implementation of a proof of concept project where by TCC will make certain real property information available on the blockchain as a backup to TCC's current system.

June 17, 2019 – System GO LIVE date. 185,509 records had been processed through the TCC land recording system since June, 1996 and uploaded to the Blockchain.

Monthly updates received from MLG are as follows:

Blockchain Pilot Highlights	Jul-19	Aug-19	Sep-19	Oct-19	Nov-19	Dec-19
Visitors that Viewed Blockchain Record	1297	307	276	305	187	152
Count of Expansion of blockchain info button	1346	489	294	589	232	190
New records added to blockchain	1103	77	133	72	71	65
Updated (edited) records recorded to blockchain	1095	0	942	272	168	208

Blockchain Pilot Highlights	Jan-20	Feb-20	Mar-20
Visitors that Viewed Blockchain Record	163	182	189
Count of Expansion of blockchain info button	187	167	209
New records added to blockchain	65	151	60
Updated (edited) records recorded to blockchain	193	130	183

Visitation to the Blockchain has dropped off since June, 2019, however has remained consistent since the end of 2019.

Business transactions within the TCC office are being handled in the same manner using cash, check or credit card. TCC has no available means to transact business using digital currency at this time.

Regards,

Sherry L. Daigle
Teton County Clerk
