

State of Wyoming
Office of the Attorney General
Division of Criminal Investigation
Forrest Williams, Interim Director

Mark Gordon
 Governor
 Bridget Hill
 Attorney General

Agency	Reporting/ Not Reporting	RMS Vendor	Notes
0100 Albany County Sheriff	Reporting	New World/Tyler	
0101 Laramie Police Department	Reporting	New World/Tyler	
0102 UW Police Department	Reporting	Spillman	
0200 Big Horn County Sheriff	Not Reporting	Web Incident Editor	This agency is currently working through the testing process. There is only one person in the agency that is able to work on uniformed crime reporting. She reported it is very time consuming and difficult to find the time due to staffing levels. They have Sunridge as their RMS, but are unable to afford the module that would allow their RMS to talk to NIBRS so they will have to manually report. She thinks the module costs about \$16,000.
0203 Greybull Police Department	Not Reporting	Web Incident Editor	This agency is currently working through the testing process so they can begin reporting. They are also in the process of purchasing a Record Management System.
0300 Campbell County Sheriff	Reporting	Spillman	
0301 Gillette Police Department	Reporting	Spillman	
0400 Carbon County Sheriff	Not Reporting	Spillman	This agency is currently working through the testing process so they can begin reporting.
0401 Rawlins Police Department	Not Reporting	Spillman	They are working on entering their municipal codes so they can begin testing. They are short staffed in dispatch so that has delayed their testing.

0402 Saratoga Police Department	Not Reporting	Web Incident Editor	They are working on entering their municipal codes so they can begin testing.
0403 Medicine Bow Marshal's Office	Reporting	Web Incident Editor	
0405 Hanna Marshal's Office	Not Reporting	Web Incident Editor	The contact reported she is trying to get through the testing and is finding it difficult to complete due to the time needed. This agency consists of two staff members - one administrative staff member and one law enforcement officer. She is hopeful to finish testing soon and once approved will then be able to report through NIBRS.
0500 Converse County Sheriff	Reporting	Spillman	
0501 Douglas Police Department	Reporting	Spillman	
0502 Glenrock Police Department	Reporting	Spillman	
0600 Crook County Sheriff	Reporting	Web Incident Editor	
0603 Moorcroft Police Department	Reporting	Web Incident Editor	
0700 Fremont County Sheriff	Not Reporting	Spillman	The contact at this agency indicated they are having issues with their vendor, Spillman. Their IT is working with Spillman to try to fix the errors they are seeing in their reporting.
0701 Lander Police Department	Not Reporting	Spillman	The PD pays the Sheriff's Office for dispatch as well as for the use of their RMS. The SO has told the PD that the vendor is having issues so they are unable to report in NIBRS. They are hopeful the SO and the RMS vendor will get this figured out so they can begin reporting.
0702 Riverton Police Department	Reporting	Sunridge	
0800 Goshen County Sheriff	Reporting	Web Incident Editor	
0801 Torrington Police Department	Reporting	Web Incident Editor	

0900 Hot Springs County Sheriff	Reporting	Web Incident Editor	
0901 Thermopolis Police Department	Reporting	Web Incident Editor	
1000 Johnson County Sheriff	Reporting	Sunridge	
1001 Buffalo Police Department	Reporting	Sunridge	
1100 Laramie County Sheriff	Reporting	New World/Tyler	
1101 Cheyenne Police Department	Reporting	New World/Tyler	
1102 Pine Bluffs Police Department	Not Reporting	Web Incident Editor	They are actively working through the testing process and anticipate submitting data back to January 2021 once approved to do so.
1104 WY Div Criminal Investigation	Reporting	Sunridge	
1200 Lincoln County Sheriff	Reporting	Eforce	
1201 Afton Police Department	Not Reporting	Web Incident Editor	The county decided to use Eforce and the PD was going to do so as well, but then found it would cost them a significant amount of money. The town decided the PD didn't have the budget for Eforce so they opted to use Web Incident Editor. The contact is now going through the testing process. This is a small agency and they only have one staff member able to work on this. Since she holds many positions within the city, she is finding it difficult to find the time to devote to NIBRS. They do plan on reporting to NIBRS, it will just take time to get there.
1202 Kemmerer Police Department	Not Reporting	Web Incident Editor	In order for this agency to start testing they have to map all their municipal codes and they haven't had the time to get this done. The staff member that will do this works for the police dept, the courts, and the city. They are a very small agency and only have one staff member able to work on this. She also mentioned they use Eforce as their RMS which doesn't work well with NIBRS.
1203 Diamondville Police Department	Reporting	Web Incident Editor	

1300 Natrona County Sheriff	Reporting	Web Incident Editor	
1301 Casper Police Department	Not Reporting	Spillman	<p>This agency is approved for NIBRS reporting, but were having a major issue with their RMS so they aren't currently reporting. The contact reported they spent a lot of money on their RMS and purchased the module that will allow the system to create the reports for NIBRS. The practice database they used for their testing was different than their live site. This caused many errors with arrest numbers. They had to request their vendor to change how arrest numbers are auto populated as well as to allow the import of Wyoming statutes. This was not an easy process because the system was not working properly, but the agency held the vendor accountable and required them to meet their contracted obligations. At the end of August they had some success working on their January report. On average they have 180 calls per day. The staff member tasked with NIBRS has to review every one of those calls and update their RMS. They also have to manually update each statute for each arrest for the first half of 2021. Now they are short-staffed and while the staff member will continue to work on trying to get 2021 records updated, it will take time. The hope is that once they are caught up to June the statutes will be correct and the process should be a bit smoother and take a little less time.</p>
			1302 Mills Police Department
1304 Evansville Police Department	Reporting	Web Incident Editor	
1400 Niobrara County Sheriff	Reporting	Sunridge	
1401 Lusk Police Department	Reporting	Sunridge	

1500 Park County Sheriff	Not Reporting - Restarting	Sunridge	This agency stopped reporting in NIBRS beginning with the 1/1/2021 report, however, in October 2021 they notified DCI of their intention to restart reporting going back to January 2021.
1501 Cody Police Department	Reporting	Sunridge	
1502 Powell Police Department	Reporting	Sunridge	
1600 Platte County Sheriff	Not Reporting	Spillman	This agency is having issues with their vendor. Once the vendor makes the fixes they hope to begin reporting.
1601 Wheatland Police Department	Not Reporting	Spillman	The contact reported they are not currently reporting because of the time it takes and lack of training with their vendor. She said it takes the officers two to three times as long to complete a report within their RMS if they try to complete all the required fields for NIBRS - thus turning an hour long report into a two to three hour report. She also said the officers as well as she could use more training on their RMS system, but they haven't been able to get training. This is not training DCI could provide as we don't know how each RMS works and each agency may have purchased different options of an RMS. The contact said their vendor was going to send someone out to Wyoming to provide training, but that fell through and they feel as though they are at a standstill. The staff member that will work on the NIBRS reporting is feeling overwhelmed with the amount of time it will take combined with her other duties.
1700 Sheridan County Sheriff	Reporting	Web Incident Editor	
1701 Sheridan Police Department	Reporting	Spillman	
1800 Sublette County Sheriff	Reporting	Spillman	

1900 Sweetwater County Sheriff	Not Reporting	Spillman	The agency is in the testing phase, but is having vendor issues. Their vendor keeps telling them they are sending all reported issues to their developers, but they have yet to have any fixes installed. The vendor also reached out to DCI and is trying to correct the issues within the vendor's system.
1901 Green River Police Department	Not Reporting	Spillman	This agency is working through the testing phase now. The contact said the long term employee who was doing this retired and the person left to do this was unexpectedly out of the office for a lengthy period of time. They were also having several issues with their vendor. They think the vendor has fixed the issues and are hopeful they will get approved to begin reporting in NIBRS. Because of the staff shortage they now have a backlog that will take them quite some time to catch up on.
1902 Rock Springs Police Department	Not Reporting	Spillman	This agency has been working on their testing, but continue to have errors. These errors are coming from an issue with their RMS vendor. They have an update with their vendor on September 9 and then they will again work through the testing process to see if the errors were corrected.
2000 Teton County Sheriff	Reporting	Web Incident Editor	
2001 Jackson Police Department	Not Reporting	Web Incident Editor	Approved on 8/26/21, but has not yet submitted any data.
2100 Uinta County Sheriff	Reporting	Spillman	
2101 Evanston Police Department	Reporting	Spillman	
2200 Washakie Sheriff	Reporting	Web Incident Editor	
2201 Worland Police Department	Reporting	Web Incident Editor	

2300 Weston County Sheriff	Reporting	Web Incident Editor	
2301 Newcastle Police Department	Reporting	Web Incident Editor	
<p>It recently has come to our knowledge that the below agencies have never reported crime data directly to DCI. We have begun reaching out to these agencies and are in the process of determining who may need to begin reporting data.</p>
