NEW BOCES Co-OP

2024 COOPERATIVE PURCHASING CATALOG

Expansion and Innovation: Stay informed about new services, products, or initiatives that enhance our cooperative's offerings. Innovation is at the heart of our growth!

Thank you for being an integral part of Northeast Wyoming BOCES Cooperative. Together, we build a community that not only thrives economically but also fosters strong connections and shared values. Your participation and commitment make our cooperative a truly special place.

AEPA NEW BOCES is your one-stop shop for many of the things a school, town, county or non-profit needs, with full line of competitively bid products. We've done the leg work for you, following state-specific purchasing guidelines. And by combining the purchase power of those that we serve across the country, we've secured deep discounts on everything you need. AEPA NEW BOCES contracts are designed to protect buyers and are guaranteed to save you time and money. We streamline the bidding and purchasing process through a single locally and nationally recognized purchasing solicitation.

Here's how we do that:

- Each bid category consists of a team of member states that research and write the solicitation.
- The solicitation documents include AEPA and State-Specific Terms and Conditions to meet the purchasing guidelines in each respective state.
- Member states publish the bid advertisements locally according to their state laws.
- All Bid Documentation are provided on the website www.newboces.org under Co-operative Purchasing – Invitation to Bid.
- The Solicitation team ensures that each bid proposal is Responsive prior to evaluation.
- The bid category team reviews proposals and makes a recommendation for award.
- The 29-state local boards vote to approve the recommended awards.
- Once approved NEW BOCES enters into contracts with the successful vendors.
- The full board evaluates performance and votes on contract extensions annually, ensuring that vendors remain in good standing.

When it comes to your kids, nothing is more important than their safety. We’ve developed the safest, most consistent playground surface anywhere.

Athletic turf technology is rapidly accelerating. That’s a good thing. It means that you’re more likely to find a product that will benefit your organization. There are more choices than ever before, between infills, pads, turf designs, companies, and more. But all of that choice can lead to “analysis paralysis”. The good news is that we have dedicated artificial turf consultants ready to help you navigate the complexities of this major investment. If you take a backseat through the process you might get stuck with something you don’t want.

From high school scoreboards to major league video systems, roadside LED signs to iconic digital signage in Times Square, Piccadilly Circus and around the world, there's a good chance you see our products every day. What makes these customers choose, and keep choosing, Daktronics? We offer the industry's broadest range of products, deepest level of experience, highest level of performance, and unmatched customer service. Once you experience Daktronics, the difference is clear.

Contract# 024D-WY-101 CMMS
Marc Stitt 614-309-5998
marc.stitt@gofmx.com

The FMX story

At the time, the school we were working with was trying to find a way to easily manage their facilities remotely while maximizing energy savings. We began searching for software that was capable of scheduling preventive maintenance, streamlining event scheduling, and tracking maintenance requests. While many options were available, none helped us achieve our needs and were far too complicated for staff members to use on a daily basis. We knew we could create something better, so we did.

Increase asset lifespans and strategically plan the use of your equipment with reliable maintenance software.

jpeltzer@bn.com

Taking advantage of vast warehouses across the United States, we stock over 1 million titles for immediate delivery -- that's more titles than any other online bookseller.

With so many titles, it is vital to give customers an easy way to find precisely the books they are looking for. Our search engine enables customers to locate books by title, author, or keyword in a few seconds at most. Customers with a general idea of what they want can use our Browse pages to sift through hundreds of categories to find exactly the right book. To further assist users, we offer descriptions and reviews, and our See Inside program lets customers read excerpts from tens of thousands of titles. We also offer editor recommendations and customer reviews on hundreds of thousands of titles.

[Barnes & Noble Kids](#) is the ideal destination for anyone looking for the best in children's books, videos, and music. With age-based recommendations, as well as specialty stores that cater to Harry Potter and other big titles, it's the ultimate one-stop shop for kids.

Our [DVD & Blu-ray Store](#)'s 60,000+ titles make it the destination of choice for movie lovers, whether they enjoy Blockbusters, Art House rarities, or Kids' favorites. You can view more than 10,000 full-length previews -- and instantly order what you have seen -- making it the most customer-friendly site around.

Our [Music Store](#) has been named the Web's best by Forbes.com. The premier site for Classical, Jazz, Rock, and World music, the store's rich content includes exclusive interviews, free downloads, over 1 million sample audio clips, nearly 100,000 music reviews, and a roster of 40,000 artist biographies.

In recent years we've added new product lines, expanding our [Toys & Games](#) store on the Web; a [Magazines](#) store, filled with exclusive and hard-to-find titles offering thousands of subscriptions.

Contract# 024C-WY-103 DR
Michelle Lombardo 770-495-0374,
800-786-1730 x6 michelle@organwiseguys.com

EMPOWERING KIDS

to be Healthy and Smart from the Inside Out!

An evidence-based program shown to improve children's health and academic performance!

The OrganWise Guys is ready-to-go programming designed for busy educators who are committed to improving children's health. Complete with lesson plans, implementation guides, and complementary online trainings, onboarding is simple, yet the results are measurable.

- Improves children's health in a statistically significant manner
- Improves literacy and test scores
- Addresses social and emotional health
- Is linked to STEM, Health & PE and state-specific academic standards
- Has both digital and physical resources
- Content in English and Spanish
- Includes pre/post tests and a data usage collection tool
- Is flexible and easy-to-implement

Is included in the [USDA's SNAP-Ed PSE Toolkit](#) (Research-Tested Program)

Contract# 022.5-B-WY-002

Ben Arnold barnold@pitsco.com

Angela Watson 800-835-0686

awatson@pitsco.com

We Aim to Deliver Transformative Learning Experiences that Prepare Students with Future-Ready Skills.

Pitsco Education has 50 years of experience providing innovative, hands-on curricula. Our academ-

ic, STEM, and career-based solutions offer proven programs that address core standards while providing students with tangible, kinesthetic experiences and real-world applications.

Through our programs, students experience a combination of teacher-led instruction and student-directed learning using a blend of strategies and delivery

methods. Not only do students engage in learning, but they also acquire and strengthen their knowledge throughout a variety of hands-on, true-to-life projects and themes.

All our career-focused STEM curricula integrate a variety of college- and career-readiness skills while providing academically relevant learning opportunities for students in PreK through Grade 9.

We enable young learners to develop the mind-set, skill set, and tool set needed for future success.

Our PreK-2 STEM Programs are designed to prepare students for the real world. This means we provide lots of time within our program for collaboration and hands-on activity without sacrificing teacher-led instruction and independent work.

The overall goal is to engage little learners and provide playful learning and multisensory instruction. These activity bundles encourage collaboration and social-emotional learning for the learner and provide cross-curricular differentiated instruction for the educator.

RethinkED Digital Resources

wyoing@totaltechnology.com
Contract # 023E-WY-2028-1
Brendan Wittry bwittry@totaltechnology.com
(224) 402-2424

Since our process involves the consultative approach, we have built a team of industry experts. Decades of experience is at your disposal. Whether you are looking to generate funds to buyout a lease, use a cooperative contract, get a quick turnaround to fund your next deployment, or something else that is unique to your situation, our team undoubtedly has experience in it.

What We Offer

TechCycling™ | Data destruction | eRecycling | Program logistics

The backbone of our TechCycling™ services is innovative technology. Whether it's using our analytic software to provide a quick yet accurate quote or building a custom platform to automate the receipt of thousands of individual shipments or employing AI to predict the value of an OEM's devices years out, we use technology to maximize the value of your end-of-life tech. We are more than just a company that disposes of your decommissioned technology. Our TechCycling™ services are the key to getting you the highest value and running a finan-

Sometimes protecting your data means destroying it. With fines associated in data breach increasing, it is more important than ever to destroy the data properly when decommissioning devices. Whether you choose On or Off site hard drive shredding, hard drive erasure, or hard drive degaussing, you can be sure your data is securely destroyed.

When a device owned by your company makes its way to a landfill, bad outcomes for your company could be on the horizon: especially if those devices were asset tagged. Companies like Target or Whole Foods have been hit by fines for improperly disposing of eWaste. Taking appropriate measures with your eWaste should be a priority. Our eRecycling partner network consists of R2V3 (Responsible Recycling) certified companies ensuring your devices never make their way to a landfill.

Logistics can be a weak link in the chain, but it doesn't have to be. Complete chain of custody may be paramount to you in your decision making process when choosing a service provider. From GPS tracking, to secure logistics, to box programs, to white glove logistics solutions, Total Technology's partner network and in-house solutions add layers of security and ease to your project.

Non-Profit Cooperative

NEW BOCES CO-OP is Non-Profit Governmental Agency, created jointly by School Districts, which provides extra services and rebates back to the registered membership.

Interactive Cooperative Purchasing Agreement
Northeast Wyoming Board of Cooperative Educational Services Co-op
(NEW BOCES Co-op)

This AGREEMENT is entered into by and between the undersigned Agency of the State of Wyoming and is effective as to the Agency undersigned as of the date of execution of this AGREEMENT by that party.

Whereas, the parties of this Agreement desire to conserve resources, reduce procurement costs and improve the timely acquisition and cost of supplies, equipment and services; and

Whereas, economies of scale may provide efficiency and economy of procurement; and

Whereas, the parties undersigned have expressed a desire to enter into this intergovernmental Agreement for the purpose of interactive purchasing;

Now, therefore, inconsideration of the mutual promises contained in this Agreement and of the mutual benefits to result therefrom, the parties undersigned agrees to as follows:

Definitions

Interactive Cooperative Purchasing: The cooperative use of supply by participating Agencies of the State of Wyoming associated with the acquisitions of any supplies, equipment or services. Cooperative use of such of agreements shall include the utilization of bids and contracts developed by the issuing party.
