The vote to decrease membership shall be in the general election preceding the election of three (3) commissioners. Notice of the election shall be given as provided in subsection (d) of this section.

(g) Any county in which the electors vote to increase the number of county commissioners from three (3) to five (5) as provided by this section may be divided into five (5) districts if a proposition for districting is submitted to a vote of the qualified electorate of the county and a majority of those casting their ballots vote in favor of the districting. The proposition for districting shall be submitted to a vote in the manner provided by subsections (c) and (d) of this section. At the election, the ballot shall contain the words "for dividing the county into five (5) county commissioner election districts" and "against dividing the county into five (5) county commissioner election districts". The proposition to increase the number of county commissioners and the proposition for districting may appear on the ballot at the same general election, however the ballots shall state that the proposition for districting is contingent upon approval of the proposition to increase the number of commissioners. The petition required by subsection (c) of this section may contain both the proposition to increase the number of commissioners and the proposition for districting, or the propositions may be circulated and submitted on separate petitions. If the proposition for districting is not approved, the commissioners shall represent the county on at-large basis.

(h) If the proposition for districting is approved, the board of county commissioners shall devise a districting plan dividing the county into districts as nearly equal in population as practicable considering the geographic, economic and social characteristics of the county. The districting plan shall be made before March 1 next following the election at which the proposition for districting is approved and shall be effective as of March 1 the following year. The districting plan may provide that any commissioner elected after the effective date of the districting plan shall reside in and represent the district from which he is elected by the electors of that district, and, beginning January 1, 2012, that commissioners may serve at large or that district representation may be apportioned in any combination of single member, multi-member and at large representation, provided that in all cases commissioners represent a population as nearly equal as is practicable considering the geographic, economic and social characteristics of the county. Commissioners in office on the effective date of the districting plan shall serve the county at large until the regular expiration of their term. The districting plan shall designate which districts shall elect county commissioners in the general election next following the effective date of the districting plan. In any county in which

the voters approved increasing the number of commissioners and districting at the same election, the districting plan shall also designate which district shall elect a county commissioner at the next general election for a term of two (2) years, as provided by subsection (b) of this section. The ballot shall state the term in the designated district to be for two (2) years. Thereafter, all terms shall be four (4) years.

(j) Appeals from the actions of the boards of county commissioners shall be as provided by law.

(k) If required to do so pursuant to a final court order or changes in population affecting the constitutionality of a current districting plan, the board of county commissioners may by resolution devise a districting or redistricting plan dividing the county into any number of districts necessary to meet the requirements of the court order or necessary to address the population changes. A districting or redistricting plan devised under this subsection may include single member or multi-member districts in which the candidates must reside and which are apportioned by population, districts in which candidates are elected at large, or any combination of districts in which candidates must reside and are apportioned by population or are elected at large provided that in all cases commissioners represent a population as nearly equal as is practicable considering the geographic, economic and social characteristics of the county. A districting or redistricting plan created under this subsection shall not be subject to a vote of the electors and shall go into effect after the next general election and shall be subject to the following:

(i) An initial districting plan created under this subsection shall provide for at least fifty-one percent (51%) of the commissioners to serve an initial term of two (2) years and the remainder to serve an initial term of four (4) years. Thereafter, all terms shall be four (4) years. The terms of all commissioners serving at the time of the approval of the districting plan shall expire at the end of the current year and all offices created under this subsection shall be filled at the general election held on the effective date of the districting plan;

(ii) For a redistricting plan, commissioners in office on the effective date of the districting plan shall serve the county at large until the regular expiration of their term, if practical. The county commission shall determine whether honoring the four (4) year terms is practical.

Any fees assessed for processing a credit card payment may be borne by the county or person tendering payment. Any fees assessed for processing a credit card payment collected on behalf of the state shall be borne by the county or person tendering payment and not by the state. (e) The acceptance of negotiable paper constitutes conditional payment for the amount owing. If the paper is not dishonored the payment shall be effective on the date the paper was accepted by the county officer, agent or employee. If the paper is dishonored in the course of collection the conditional payment is of no effect and any receipt, certificate or license issued upon acceptance of the negotiable paper is void. In the event any property including motor vehicle license plates is transferred or issued by the county or any of its officers, agents or employees upon acceptance of negotiable paper, and the paper is subsequently dishonored the county may rescind the transaction and a sheriff or other law enforcement officer may without prior court proceedings seize the property. The warrants and orders so drawn and issued shall show that they are payable solely from the fund on which they are drawn and the taxes levied to form the fund when collected. These warrants and orders do not increase the indebtedness of the county.

(c) County warrants and orders may be in such form as the county commissioners provide and made payable to the order of the payee or bearer. The person or persons to whom the warrants and orders are allowed and delivered are held to have accepted the same in full payment and satisfaction of the claim for which it was issued. The warrants shall be paid only from the fund drawn upon, and the collected taxes paid into the county treasury to create, constitute and form the fund. If any board has or enacts resolutions or regulations which impose requirements on subdividers or subdivisions which are more restrictive than the provisions of this article, the authority to enact such local resolutions or regulations being hereby granted, the local provisions are not superseded by the provisions of this article. Nothing in this section shall be deemed to allow any board to impose requirements that contravene the exemptions from this article as provided in W.S. 18-5-303.

18-5-316. Requirements for large acreage subdivision permits.

(a) Except as otherwise provided, a county may, by resolution, elect to apply the provisions of this article on a uniform basis to the sale or disposition of any land where the subdivision creates parcels that are thirty-five (35) acres or larger and up to one hundred forty (140) acres. Except as provided in this subsection, each lawfully recorded parcel of land on July 1, 2008 shall be exempted from all provisions of this section other than compliance with paragraphs (i) through (iii) of this subsection and W.S. 18-5-317 and shall be allowed to be divided into not more than ten (10) parcels of one hundred forty (140) acres or less in size, provided that each new or remaining parcel is no less than thirty-five (35) acres. Parcels created pursuant to this exemption may be created at any time and may be created over a period of years through separate transactions. In no case, however, shall this exemption be used to create more than ten (10) parcels of land from each original parcel and each parcel created after July 1, 2008 shall be subject to this section and W.S. 18-5-317 as otherwise provided in this section. Boundary adjustments between or among parcels shall not be considered as a division of property subject to the limitations in this section. If a county elects to apply this article to sales or dispositions where the subdivision creates

parcels that are thirty-five (35) acres or larger and up to one hundred forty (140) acres, unless the property is exempted under this subsection, the subdivider shall obtain a subdivision permit pursuant to this section. The provisions of W.S. 18-5-306 and 18-5-315 shall not be applicable to a subdivision of land under this section but nothing in this sentence shall prohibit application of lawfully adopted zoning provisions. Before granting the exemption provided in this subsection the board may require the person seeking the exemption to submit any or all of the following:

(i) A legal description or recordable survey containing the following:

(A) Date of preparation, scale and north arrow;

(B) The location of the subdivision units including the section, township and range;

(C) The location and dimension of access and utilities easements, which shall conform to the requirements of W.S. 18-5-303(b).

(ii) Evidence of compliance with paragraph (b)(ix) of this section;

(iii)(A) If a centralized water supply system is proposed for the subdivision, a study evaluating the water supply system proposed and the adequacy and safety of the system. The study shall include information relative to the potential availability and quality of groundwater proposed within the subdivision which may consist of new data, existing data on other working wells in the area, or other data, including drilling logs, from a test well drilled within the subdivision indicating soil types, depth, quantity and quality of water produced in the test well;

(B) Where individual on-lot wells are proposed:

(I) The study under subparagraph (A) of this paragraph shall not be required and the words "NO PROPOSED CENTRAL WATER SUPPLY SYSTEM," in bold capital letters shall appear on all offers, contracts, agreements and plats relating to the subdivision; and

(II) The board may require a study relative to the potential availability and quality of groundwater

proposed within the subdivision which may consist of new data, existing data on other working wells in the area, or other data, including drilling logs from a test well drilled within the proposed subdivision indicating soil types, depth, quantity and quality of water produced in the test well.

(b) The board may require, and with respect to paragraph (ix) of this subsection shall require, the following information to be submitted with an application for a subdivision permit pursuant to this section:

(i) Evidence that the proposed subdivision complies with any applicable zoning regulations;

(ii) A survey plat submitted by the subdivider containing the following:

(A) Date of preparation, scale and north arrow;

(B) The location of the subdivision including the section, township and range;

(C) The location and dimension of existing and proposed lots, units, tracts, parcels, streets, alleys, roads, highways, public ways, utility rights-of-way, easements, parks and the location of proposed permanent buildings and structures if known.

(iii) Evidence that:

(A) The subdivider or his duly authorized agent who offers any part of the subdivision for sale or who solicits any offers for the purchase thereof, may convey merchantable title subject only to noted reservations or restrictions of record and subject only to a proportionate share of real property taxes or assessments charged or assessed for the year in which any such sale may be legally effected; or

(B) Binding arrangements have been made by the person or his duly authorized agent who offers any part of the subdivision for sale, to assure purchasers of any part of the subdivision that upon full payment of the purchase price a deed can and will be delivered conveying merchantable title subject only to noted reservations or restrictions of record and subject only to a proportionate share of such taxes and assessments thereon as may be levied or assessed for the year in which the sale may be legally effected.

(iv) A study evaluating the sewage system proposed for the subdivision and the adequacy and safety of the system. Where individual on-lot sewage systems are proposed, the words "NO PROPOSED CENTRALIZED SEWAGE SYSTEM," in bold capital letters shall appear on all offers, contracts, agreements and plats relating to the subdivision;

(v) If the subdivider proposes to utilize adjoining property for sewers, drainage, sewer lines, power lines or other utilities, the subdivider shall provide copies of binding easements of not less than twenty (20) feet in width for the proposed facilities from each property owner over whose land such services shall extend and shall provide a minimum access roadway right-of-way of sixty (60) feet to the subdivision for all public ways. Where no or limited on-lot utility connections are proposed, the words "NO PROPOSED UTILITY CONNECTIONS" or "LIMITED UTILITY CONNECTIONS," as appropriate, in bold capital letters shall appear on all offers, contracts, agreements and plats relating to the subdivision. A permit shall not be denied for failure to provide on-lot utility connections;

(vi) (A) A study evaluating the water supply system proposed for the subdivision and the adequacy and safety of the system. The study shall include information relative to the potential availability and quality of groundwater proposed within the subdivision which may consist of new data, existing data on other working wells in the area, or other data, including drilling logs, from a test well drilled within the proposed subdivision indicating soil types, depth, quantity and quality of water produced in the test well;

(B) Where individual on-lot wells are proposed:

(I) The words "NO PROPOSED CENTRAL WATER SUPPLY SYSTEM," in bold capital letters shall appear on all offers, contracts, agreements and plats relating to the subdivision; and

(II) The board may require a study relative to the potential availability and quality of groundwater proposed within the subdivision which may consist of new data, existing data on other working wells in the area, or other data, including drilling logs from a test well drilled within the proposed subdivision indicating soil types, depth, quantity and quality of water produced in the test well.

(vii) Documentation that adequate ingress and egress access has been provided to all proposed lots, units, tracts and parcels and that all proposed lots, units, tracts, parcels, streets, alleys and roadways within the subdivision conform to the minimum standards adopted by the board and applied uniformly throughout the county which shall not in itself constitute consent of the board to locate, repair or maintain roadways and facilities. If, however, the subdivider proposes to make any streets, alleys or roadways private, then the subdivider shall submit to the board properly acknowledged written certification that certain streets, alleys or roadways within the subdivision shall remain private and the board shall be under no obligation to repair, maintain or accept any dedication of these roads to the public use. If no such public maintenance is contemplated on any of the roads, the subdivider shall put a legend on the plat of the subdivision and on all offers, contracts or agreements for the sale and purchase of lots within the subdivision showing the streets, alleys and roadways showing in capital letters "NO PUBLIC MAINTENANCE OF SPECIFIED STREETS OR ROADS";

(viii) Documentation that the subdivider has adequate financial resources to develop and complete any facility proposed or represented to be the responsibility of the subdivider, including but not limited to water supply systems, sewage systems, streets and roadways. The applicant shall provide a performance bond, acceptable letter of credit or other sufficient financial commitment to assure that any facilities proposed or represented to be part of the subdivision will in fact be completed as proposed, or escrow sufficient monies out of land sales to guarantee that the above facilities are installed. The amount of any bond or other financial commitment or escrow required under this paragraph shall reflect the estimated costs of providing the facilities;

(ix) With respect to any water rights appurtenant to lands to be subdivided in accordance with this section and prior to final approval of the subdivision permit, the subdivider shall provide the following:

(A) The intended disposition of the water rights by:

applicable lands from any unadjudicated permits. The subdivider shall notify any purchasers of this action;

(II) Written documentation from the state board of control that the subdivider submitted to the state board of control all documents necessary to change the use or place of use to provide for beneficial use of the water rights outside the subdivision;

(III) A plan, accompanied by written documentation from the state engineer approving the plan, for the distribution of the water rights appurtenant to the land to be subdivided. The plan shall specify the distribution of the water to the lots within the subdivision and shall include written documentation from the state board of control that the subdivider submitted to the state board of control all documents necessary to change the use, place of use or point of diversion or means of conveyance in accordance with W.S. 41-3-103, 41-3-104 or 41-3-114; or

(IV) Written documentation from the state board of control that it accepted an authorization to detach water rights appurtenant to the lands to be subdivided in accordance with rules and regulations promulgated by the state board of control.

(B) If the subdivision is located within lands served by or crossed by a ditch, irrigation works or other water conveyance system, evidence that the subdivider submitted the plan to the public entity, company, association or appropriators responsible for the ditch, irrigation works or other water conveyance system for review and recommendations at least sixty (60) days prior to the submittal of the application for the subdivision permit to the board; and

(C) Evidence that the subdivider will specifically state on all offers relative to the subdivision the subdivider's intent to comply with this paragraph and that the subdivider does not warrant to a purchaser that the purchaser shall have any rights to the natural flow of any stream within or adjacent to the proposed subdivision. The subdivider shall further state that Wyoming law does not recognize any riparian rights to the continued natural flow of a stream or river for persons living on the banks of the stream or river.

(x) Evidence that all parcels of land created by the subdivision will be subject to written and recorded covenants or

other instruments creating an entity, binding on subsequent owners of the land within the subdivision. The entities that may be used include, but are not limited to, special improvement districts, homeowners associations and mutual benefit corporations. The board shall not mandate the creation of an entity with the ability to interfere with any owner's ability to use his private property, except to collect any assessment. The entity shall have the ability to address the following topics:

(A) Maintenance and responsibility for common areas, roads and water supply systems and assessments against all parcels of land in the subdivision to defray the costs thereof;

(B) Continued management of the entity.

(c) The board shall require the applicant to obtain review and recommendations from the local conservation district regarding soil suitability, erosion control, sedimentation and flooding problems. The review and recommendations shall be completed within sixty (60) days.

(d) The board shall require the applicant to obtain review and recommendations from a fire protection district in which any portion of the subdivision lies, from the authority having jurisdiction over fire prevention and protection in the area or from the nearest fire protection district if no part of the subdivision lies within a fire protection district, regarding adequacy of fire protection measures. If the entire subdivision does not lie within a fire protection district and no city, town or fire protection district is obligated to provide fire protection pursuant to an agreement authorized by law the subdivider shall put a legend on the plat of the subdivision and on all offers, contracts or agreements for the sale and purchase of lots within the subdivision showing in capital letters "LOTS ARE NOT PART OF A FIRE PROTECTION DISTRICT AND FIRE PROTECTION IS NOT OTHERWISE PROVIDED".

(e) If the permit is approved the board shall require the applicant to put a legend on the plat and on all offers, contracts or agreements for the sale and purchase of lots within the subdivision showing in capital letters "THE SURFACE ESTATE OF THE LAND TO BE SUBDIVIDED IS SUBJECT TO FULL AND EFFECTIVE DEVELOPMENT OF THE MINERAL ESTATE".

(f) Nothing in this section shall require the acquisition of a permit for the sale or disposition of lands that on or

before July 1, 2008 have been developed and promoted as part of a large acre subdivision as evidenced by dated plat maps, sales brochures or other evidence acceptable to the board.

(g) If the lots, units, tracts or parcels created pursuant to a permit issued under this section are used for agricultural purposes and otherwise qualify as agricultural land for purposes of W.S. 39-13-103(b) (x), the lots, units, tracts or parcels shall be deemed not to be part of a platted subdivision for purposes of W.S. 39-13-103(b) (x) (B) (II) .

18-5-317. Subsequent sale of subdivided lots.

If any lot, unit, tract or parcel is created pursuant to a subdivision and the lot, unit, tract or parcel is sold pursuant to a contract for deed, notice of the contract for deed shall be recorded with the county clerk within ten (10) days after the contract was executed.

18-5-318. Large parcels used for agricultural purposes.

If any lot, unit, tract or parcel thirty-five (35) acres or more in size is used for agricultural purposes within a platted subdivision and otherwise qualifies as agricultural land for purposes of W.S. 39-13-103(b) (x), the parcel shall be deemed not to be part of a platted subdivision for purposes of W.S. 39-13-103(b) (x) (B) (II) .

18-5-319. Fencing requirements for subdivision permits.

(a) Each subdivider seeking to create or divide a subdivision that is adjacent to lands upon which livestock can be legally run at large shall comply with all of the following:

(i) The subdivider shall be responsible for the construction of a perimeter fence on any part of the subdivision that is adjacent to lands upon which livestock can be legally run at large unless a legal perimeter fence already exists at that location or all adjacent landowners' consent that a perimeter fence is not necessary;

(ii) The perimeter fence required under this subsection shall be a lawful fence as prescribed by W.S. 11-28-102;

(iii) The subdivider shall be responsible for all costs of the original construction for the perimeter fence.

(b) Upon completion of the construction of a perimeter fence required under this section, the subsequent landowner or, if the subdivided parcel has not been sold, the subdivider shall:

(i) Be responsible for the costs of maintaining the perimeter fence provided that the adjoining landowner shall be responsible for half of the costs of maintaining the perimeter fence, not to exceed the reasonable costs to maintain the fence if the fence was a fence under W.S. 11-28-102(a)(i);

(ii) Not be liable for any damage caused by or arising from livestock pastured on adjoining land that may breach the perimeter fence and wander on the subdivided land, provided that the perimeter fence is maintained in accordance with this section.

(c) The adjoining landowner shall not be liable for any damages caused by, or arising from, livestock pastured on the adjoining land that may wander onto the subdivided land except as provided in W.S. 11-28-108.

(d) Before receiving a subdivision permit under this article, a subdivider shall provide information and evidence of the construction or plans to construct any perimeter fence required by this section in accordance with W.S. 18-5-306(a)(xiii).

ARTICLE 4 - CONSERVATION DESIGN PROCESS

The board of county commissioners in each county, by resolution, may establish, regulate and control a conservation design process for the unincorporated area in the county as provided in this article.

18-5-402. Definitions.

(a) As used in this article:

(i) "Conservation design process" means a planning process adopted by a county to offer a land use option for residential purposes that differs from traditional thirty-five (35) acre divisions of land described in W.S. 18-5-303(b) using

cluster development and density bonuses to preserve open space through:

(A) Protection of wildlife habitat and critical areas; or

(B) Enhancement and maintenance of the rural character of lands with contiguity to agricultural lands suitable for long range farming and ranching operations.

(ii) "Cluster development" means any division of land that creates parcels containing less than thirty-five (35) acres each, for residential purposes, provided:

(A) One (1) or more parcels are being divided pursuant to a county conservation design process;

(B) An area within the county equal to not less than two-thirds (2/3) of the total area of the parcel, as defined in W.S. 18-5-302(a)(x), being divided is reserved at the time of the development for the preservation of open space in furtherance of one (1) or more of the objectives described in paragraph (i) of this subsection;

(C) Unless otherwise provided through a density bonus, the gross overall density shall not exceed one (1) residential unit for each seventeen and one-half (17 1/2) acres; and

(D) Land set aside to preserve open space or to protect wildlife habitat or critical areas shall not be developed in any way that changes its open space designation for at least sixty-five (65) years from the date the cluster development is approved and shall be governed by the provisions of W.S. 18-5-403(b)(ii).

(iii) "Density bonus" means a land use design incentive that encourages optimized preservation of open space by allowing a gross overall density of two (2) or more residential units for each thirty-five (35) acres;

(iv) "Open space" means an area of land or water that is substantially free of structures, impervious surfaces, roads and other land-altering activities and does not include lands used for private recreation such as golf courses and residential yards, areas devoted to parking, vehicular traffic, nonagricultural private use or any other use which does not

significantly lend itself to the furtherance of one (1) or more of the objectives described in paragraph (i) of this subsection. "Open space" includes lands used for agricultural activities;

(v) "Private recreation" shall not include nature trails or hiking trails;

(vi) "Residential unit" means a structure or part of a structure containing dwelling units, including single family or two-family houses, multiple dwellings or apartments. Residential units do not include transient accommodations such as transient hotels, motels, tourist cabins, boarding or rooming houses or dormitories.

18-5-403. Cluster development permits.

(a) No person shall sell land subject to subdivision regulation under this article, record a plat or commence the construction of any cluster development under this article without first obtaining a permit from the board of county commissioners in which the land is located.

(b) No permit shall be approved until:

(i) A plat of the cluster development has been prepared by or under the supervision of a Wyoming professional land surveyor, approved by the board and recorded with the county clerk in the county in which the land is located which includes a statement on the plat designating the open space area and clearly noting the duration of the open space reservation;

(ii) A provision is approved by the board providing for the designation of the open space, which may be evidenced by conservation easements, restrictive covenants, dedication of open space to the public where the dedication will be accepted by the governing body or any other evidence approved by the board. The provision shall provide for a process by which the owners of the lots in the development may retain the designation of land as open space after the expiration of the initial sixty-five (65) year period;

(iii) The board finds that the development has met the conservation design process requirements adopted by the board.

(c) Each application for a cluster development permit shall be accompanied by a reasonable fee not to exceed the cost

of processing the application as determined by the board of county commissioners.

(d) If the open space areas created pursuant to a permit issued under this article are used for agricultural purposes and otherwise qualify as agricultural land for purposes of W.S. 39-13-103(b) (x), the area designated as open space shall be deemed not to be part of a platted subdivision for purposes of W.S. 39-13-103(b) (x) (B) (II).

18-5-404. Enforcement; rules and regulations.

If a board of county commissioners adopts the process described in this article, it shall enforce this article and, in accordance with the Wyoming Administrative Procedure Act, shall adopt rules and regulations to implement the provisions of and to insure compliance with the intent and purposes of this article.

18-5-405. Cluster development; notice to state engineer.

Within thirty (30) days after a cluster development has been approved pursuant to the conservation design process, the board of county commissioners shall notify the state engineer of the approval and shall provide the state engineer a copy of the approved cluster development plan.

18-5-504. Minimum standards; incorporation into other processes.

(a) No board of county commissioners shall issue a permit for a facility if that facility:

(i) Does not comply with standards properly adopted by the board of county commissioners for the construction of wind energy facilities or solar energy facilities, which standards shall not be less stringent than the standards required by this article, except as allowed by this section;

(ii) For wind energy facilities, would locate the base of any tower at a distance of less than one hundred ten percent (110%) of the maximum height of the tower from any property line contiguous or adjacent to the facility, unless waived in writing by the owner of every property which would be located closer than the minimum distance;

(B) Department of transportation for setbacks from state highways;

(C) County's appropriate local entity for setbacks from county roads.

(d) No board of county commissioners shall issue a permit under W.S. 18-5-502(a) until that county has adopted rules and regulations governing the notice that the application for a permit must provide to the record owners and claimants of mineral rights located on and under lands where the facility will be constructed. The rules shall conform to rules adopted by the industrial siting council for the same purpose pursuant to W.S. 35-12-105.

(e) For a permit granted for a wind energy facility under this article, there shall be no vertical construction of a wind turbine within two (2) nautical miles of any active federal military missile launch or control facility, unless the owner or developer of the wind energy facility first obtains and furnishes documentation to the board of county commissioners of:

The board of trustees shall reimburse the lessee or operator for the hospitalization of indigent persons at rates agreed upon between the board and the operator or lessee, with such reimbursement to be made from funds the board has under its control or made available to it by the board of county commissioners. If a lease or contract is executed the lessee or operator of the hospital shall furnish the board of trustees semiannual reports showing the financial condition of the hospital and all monies received and expended. The board of trustees shall keep the records and make reports required by W.S. 18-8-107 even though the hospital is leased or operated under contract.
