Upon timely receipt of the employee's contributions required by the insurance policy or plan provisions, the employer shall provide the applicable insurer or health maintenance organization with those contributions plus an amount equal to what the employer would have contributed during the period of service in the uniformed services. The employee shall notify his employer of his election to continue insurance or plan coverage at the time he enters service in the uniformed services.

(c) Family members or dependent children of an employee who are covered by any insurance policy or plan enumerated in subsection (a) of this section who are subsequently called to service in the uniformed services shall continue to be considered family members or dependents under the provisions of the policy or plan without any lapse of coverage, provided that all required contributions are paid in accordance with the policy or plan provisions.

(d) Any employee who leaves employment to perform service in the uniformed services and who reapplies for coverage after release shall be reinstated, including all of his family members and dependents previously covered, with the group insurance program or medical and health care coverage without any clause or restriction because of a preexisting condition.

(e) This section shall not be construed to invalidate the provision of any life insurance policy excluding or restricting coverage in the event of death.

19-11-110. Worker's compensation benefits; supplementary earnings; voluntary suspension.

(a) Any employee receiving supplemental earnings benefits pursuant to the provisions of the Worker's Compensation Act who is called to service in the uniformed services, is found to be medically deployable militarily and is subsequently deployed, shall, at his option, be allowed to suspend any such benefit payments for which he would otherwise be eligible during his period of service in the uniformed services.

(b) The director of the office of workers' compensation of the department of workforce services shall, by rule, prescribe the method by which such employee may request the suspension of benefits.

(c) The employee shall be restored to the same benefits he would have received had he not been called to duty in the uniformed services, provided he makes an application to resume such benefits after his release from service in the uniformed services or release from hospitalization incidental to his service in the uniformed services.

19-11-111. Right of reinstatement to former employment.

(a) Any person who is absent from a position of employment by reason of service in the uniformed services shall be entitled to the reemployment rights and benefits and other employment benefits of this article within ten (10) days of application for reemployment if all of the following conditions are met:

(i) The person or the authorized officer of the uniformed service in which the service is performed has given advance written or verbal notice of service to the person's employer;

(ii) The cumulative length of the absence and of all previous absences from a position of employment with that employer by reason of service in the uniformed services does not exceed five (5) years;

(iii) Except as provided in subsection (f) of this section the person reports to, or submits an application for reemployment to, the employer in accordance with subsection (e) of this section;

(iv) If the person has been discharged from the uniformed services, the discharge was an honorable discharge or a discharge under honorable conditions.

(b) Notice is not required under subsection (a) of this section if the giving of the notice is precluded by military necessity or, under all of the relevant circumstances, the giving of the notice is otherwise impossible or unreasonable. A determination of military necessity for the purposes of this subsection shall be made pursuant to regulations prescribed by the uniformed services and shall not be subject to judicial review.

(c) Subsection (a) of this section shall apply to a person who is absent from a position of employment by reason of service in the uniformed services if the person's cumulative period of service in the uniformed services with respect to the employer relationship for which a person seeks reemployment does not exceed five (5) years, except that the period of service shall not include any service:

(i) That is required, beyond five (5) years, to complete an initial period of obligated service;

(C) Ordered to active duty in support of a critical mission or requirement of the uniformed services.

(d) An employer is not required to reemploy a person under this section if the employer demonstrates that:

(i) The employer's circumstances have so changed as to make reemployment impossible or unreasonable;

(ii) The reemployment would impose an undue hardship on the employer; and

(iii) The employment from which the person leaves to serve in the uniformed services is for a brief, nonrecurrent period and there is no reasonable expectation that such employment will continue indefinitely or for a significant period.

(e) Subject to subsection (f) of this section, a person referred to in subsection (a) of this section shall, upon the completion of a period of service in the uniformed services, notify the employer referred to in subsection (a) of this section of the person's intent to return to a position of employment with the employer as follows:

(i) In the case of a person whose period of service in the uniformed services was less than thirty-one (31) days, by reporting to the employer in the following manner:

(A) Not later than the beginning of the first full regularly scheduled work period on the first full calendar day following the completion of the period of service and the expiration of eight (8) hours after a period allowing for the safe transportation of the person from the place of that service to the person's residence;

(B) As soon as possible after the expiration of the eight (8) hour period referred to in subparagraph (A) of this paragraph, if reporting within that period is impossible or unreasonable through no fault of the person.

(ii) In the case of a person who is absent from a position of employment for a period of any length for the purposes of an examination to determine the person's fitness to perform service in the uniformed services, by reporting in the manner and time referred to in paragraph (i) of this subsection;

(iii) In the case of a person whose period of service in the uniformed services was for more than thirty (30) days but less than one hundred eighty-one (181) days, by submitting an application for reemployment with the employer not later than fourteen (14) days after the completion of the period of service or if submitting such application within such period is impossible or unreasonable through no fault of the person, the next first full calendar day when submission of such application becomes possible; or

(iv) In the case of a person whose period of service in the uniformed services was for more than one hundred eighty-one (181) days, by submitting an application for reemployment with the employer not later than ninety (90) days after the completion of the period of service.

(f) A person who is hospitalized for, or convalescing from, an illness or injury incurred in, or aggravated during, the performance of service in the uniformed service, shall, at the end of the period that is necessary for the person to recover from such illness or injury, report to the person's employer, in the case of a person described in paragraphs (e)(i) and (ii) of this section or submit an application for reemployment with his employer, in the case of a person described in paragraphs (e)(iii) and (iv) of this section.

Except as provided in paragraph (e)(ii) of this section, such period of recovery may not exceed two (2) years. The two (2) years shall be extended by the minimum time required to accommodate the circumstances beyond such person's control which makes reporting within the period specified in paragraph (e)(i) of this section impossible or unreasonable. A person who fails to report or apply for employment or reemployment within the appropriate period specified in subsections (e) and (f) of this section shall not automatically forfeit his entitlement to the rights and benefits referred to in subsection (a) of this section but shall be subject to the conduct, rules, established policy and general practices of the employer pertaining to explanations and discipline with respect to absence from scheduled work.

(g) A person who submits an application for reemployment in accordance with paragraph (e)(iii) or (iv) of this section shall provide, upon request by the person's employer, to the person's employer documentation to establish the following:

(i) The person's application is timely;

(ii) The person has not exceeded the service limitations set forth in paragraph (a)(ii) of this section, except as permitted under subsection (c) of this section; and

(iii) If the person has been discharged from the uniformed service, the discharge was an honorable discharge or a discharge under honorable conditions.

(h) Documentation of any matter referred to in subsection (g) of this section that satisfies regulations prescribed by the adjutant general shall satisfy the documentation requirements in subsection (g) of this section. Failure to provide documentation that satisfies regulations prescribed by the adjutant general shall not be a basis for denying reemployment in accordance with the provisions of this section if the failure occurs because the documentation does not exist or is not readily available at the time of the request of the employer. If, after reemployment, documentation becomes available that establishes that the person does not meet one (1) or more of the requirements referred to in paragraph (g)(i), (ii) or (iii) of this section, the employer of the person may terminate the employment of the person and the provision of any rights or benefits afforded the person under this section. An employer who reemploys a person absent from a position of employment for more than ninety (90) days may require that the person provide the employer with the

documentation referred to in this subsection and subsection (g) of this section before beginning to treat the person as not having incurred a break in service for pension purposes. An employer may not delay or attempt to defeat a reemployment obligation by demanding documentation that does not then exist or is not then readily available.

(j) The right of a person to reemployment under this section shall not entitle such person to retention, preference or displacement rights over any person with a superior claim under the provisions of title 5, United States Code, relating to veterans and other preference eligibility.

(k) In any determination of a person's entitlement to protection under this section, the timing, frequency and duration of the person's training or service, or the nature of such training or service, including voluntary service, in the uniformed services, shall not be a basis for denying protection under this section if the service does not exceed the limitations set forth in subsection (c) of this section the notice requirements established in paragraph (a)(i) of this subsection and the notification requirements established in subsection (e) of this section are met.

The death or survivor benefits provided for herein shall be due and payable upon the death of the member.

19-13-210. Authorization to appropriate funds for purpose of agreement.

ARTICLE 4 - EMERGENCY MANAGEMENT ASSISTANCE COMPACT

19-13-401. Compact provisions.

The Emergency Management Assistance Compact is enacted into law and entered into with all other jurisdictions legally joining therein in form substantially the same. W.S. 19-13-401 through 19-13-414 shall be known and may be cited as the "Emergency Management Assistance Compact."

19-13-402. Purposes and authorities.

(a) This compact is made and entered into by and between the participating member states that enact this compact, hereinafter called party states. For the purposes of this agreement, the term "states" is taken to mean the several states, the Commonwealth of Puerto Rico, the District of Columbia and all United States territorial possessions.

(b) The purpose of this compact is to provide for mutual assistance between the states entering into this compact in managing any emergency or disaster that is duly declared by the governor of the affected state, whether arising from natural disaster, technological hazard, man-made disaster or emergency aspects of resource shortages.

(c) This compact shall also provide for mutual cooperation in emergency-related exercises, testing or other training activities using equipment and personnel simulating performance of any aspect of the giving and receiving of aid by party states or subdivisions of party states during emergencies for actions occurring outside actual declared emergency periods. Mutual assistance in this compact may include the use of the states' national guard forces, either in accordance with the National Guard Mutual Assistance Compact or by mutual agreement between states.

19-13-403. General implementation.

(a) Each party state entering into this compact recognizes many emergencies transcend political jurisdictional boundaries and that intergovernmental coordination is essential in managing these and other emergencies under this compact. Each state further recognizes that there will be emergencies, which require immediate access and present procedures to apply outside resources to make a prompt and effective response to an emergency. This is because few, if any, individual states have all the resources they may need in all types of emergencies or the capability of delivering resources to areas where emergencies exist.

(b) The prompt, full, and effective utilization of resources of the participating states, including any resources on hand or available from the federal government or any other source, that are essential to the safety, care and welfare of the people in the event of any emergency or disaster declared by a party state, shall be the underlying principle on which all provisions of this compact shall be understood.

(c) On behalf of the governor of each state participating in the compact, the legally designated state official who is assigned responsibility for homeland security will be responsible for formulation of the appropriate interstate mutual aid plans and procedures necessary to implement this compact.

19-13-404. Party state responsibilities.

(a) It shall be the responsibility of each party state to formulate procedural plans and programs for interstate cooperation in the performance of the responsibilities listed in this section. In formulating the plans, and in carrying them out, the party states, insofar as practical, shall:

(i) Review individual state hazards analyses and, to the extent reasonably possible, determine all those potential emergencies the party states might jointly suffer, whether due to natural disaster, technological hazard, man-made disaster, emergency aspects of resource shortages, or enemy attack;

(ii) Review party states' individual homeland security plans and develop a plan, which will determine the mechanism for the interstate management and provision of assistance concerning any potential emergency;

(iii) Develop interstate procedures to fill any identified gaps and to resolve any identified inconsistencies or overlaps in existing or developed plans;

(iv) Assist in warning communities adjacent to or crossing the state boundaries;

(v) Protect and assure uninterrupted delivery of services, medicines, water, food, energy and fuel, search and rescue, and critical lifeline equipment, services and resources, both human and material;

(vi) Inventory and set procedures for the interstate loan and delivery of human and material resources, together with procedures for reimbursement or forgiveness.

(b) The authorized representative of a party state may request assistance of another party state by contacting the authorized representative of that state. The provisions of this agreement shall only apply to requests for assistance made by and to authorized representatives. Requests may be verbal or in writing. If verbal, the request shall be confirmed in writing within thirty (30) days of the verbal request. Requests shall provide the following information:

(i) A description of the emergency service function for which assistance is needed, including but not limited to fire services, law enforcement, emergency medical, transportation, communications, public works and engineering, building inspection, planning and information assistance, mass care, resource support, health and medical services and search and rescue;

(ii) The amount and type of personnel, equipment, materials and supplies needed and a reasonable estimate of the length of time they will be needed;

(iii) The specific place and time for staging of the assisting party's response and a point of contact at that location.

(c) There shall be frequent consultation between state officials who have assigned homeland security responsibilities and other appropriate representatives of the party states with affected jurisdictions and the United States government, with free exchange of information, plans and resource records relating to emergency capabilities.

19-13-405. Limitations.

Any party state requested to render mutual aid or conduct exercises and training for mutual aid shall take the action necessary to provide and make available the resources covered by this compact in accordance with the terms hereof; provided that it is understood that the state rendering aid may withhold resources to the extent necessary to provide reasonable protection for that state. Each party state shall afford to the emergency forces of any party state, while operating within its state limits under the terms and conditions of this compact, the same powers (except that of arrest unless specifically authorized by the receiving state), duties, rights and privileges afforded forces of the state in which they are performing emergency services. Emergency forces will continue under the command and control of their regular leaders, but the organizational units will come under the operational control of the emergency services authorities of the state receiving assistance. These conditions may be activated, as needed, only subsequent to a declaration of a state of emergency or disaster by the governor of the party state that is to receive assistance or commencement of exercises or training for mutual aid and shall continue so long as the exercises or training for mutual aid are in progress, the state of emergency or disaster remains in effect or loaned resources remain in an official capacity in the receiving state, whichever is longer.

19-13-406. Licenses and permits.

Whenever any person holds a license, certificate or other permit issued by any state party to the compact evidencing the meeting of qualifications for professional, mechanical or other skills, and when assistance is requested by the receiving party state, the person shall be deemed licensed, certified or permitted by the state requesting assistance to render aid involving the skill to meet a declared emergency or disaster, subject to limitations and conditions the governor of the requesting state may prescribe by executive order or otherwise.

19-13-407. Liability.

Officers or employees of a party state rendering aid in another state pursuant to this compact shall be considered agents of the requesting state for tort liability and immunity purposes. Any party state or its officers or employees rendering aid in this state pursuant to this compact shall be liable for any act or

omission on the part of the forces while so engaged or for the maintenance or use of any equipment or supplies in connection therewith in accordance with the provisions of the Wyoming Governmental Claims Act.

19-13-408. Supplementary agreements.

If it is probable that the pattern and detail of the machinery for mutual aid among two (2) or more states may differ from that among the states that are party hereto, this instrument contains elements of a broad base common to all states, and nothing herein contained shall preclude any state from entering into supplementary agreements with another state or affect any other agreements already in force between states. Supplementary agreements may comprehend, but shall not be limited to, provisions for evacuation and reception of injured and other persons and the exchange of medical, fire, police, public utility, reconnaissance, welfare, transportation and communications personnel and equipment and supplies.

19-13-409. Compensation.

Each party state shall provide for the payment of compensation and death benefits to injured members of the emergency forces of that state and representatives of deceased members of the forces in case the members sustain injuries or are killed while rendering aid pursuant to this compact, in the same manner and on the same terms as if the injury or death were sustained within their own state.

19-13-410. Reimbursement.

Any party state rendering aid in another state pursuant to this compact shall be reimbursed by the party state receiving aid for any loss or damage to or expense incurred in the operation of any equipment and the provision of any service in answering a request for aid and for the costs incurred in connection with the requests; provided, that any aiding party state may assume in whole or in part the loss, damage, expense or other cost, or may loan the equipment or donate the services to the receiving party state without charge or cost; and provided further, that any two (2) or more party states may enter into supplementary agreements establishing a different allocation of costs among those states. Expenses under W.S. 19-13-409 shall not be reimbursable under this provision.

19-13-411. Evacuation.

Plans for the orderly evacuation and interstate reception of portions of the civilian population as the result of any emergency or disaster of sufficient proportions to so warrant, shall be worked out and maintained between the party states and the emergency management services directors of the various jurisdictions where any type of incident requiring evacuations might occur. The plans shall be put into effect by request of the state from which evacuees come and shall include the manner of transporting the evacuees, the number of evacuees to be received in different areas, the manner in which food, clothing, housing and medical care will be provided, the registration of the evacuees, the providing of facilities for the notification of relatives or friends, and the forwarding of the evacuees to other areas or the importing of additional materials, supplies and all other relevant factors. The plans shall provide that the party state receiving evacuees and the party state from which the evacuees come shall mutually agree as to reimbursement of out-of-pocket expenses incurred in receiving and caring for the evacuees, for expenditures for transportation, food, clothing, medicines and medical care and like items. The expenditures shall be reimbursed as agreed by the party state from which the evacuees come. After the termination of the emergency or disaster, the party state from which the evacuees come shall assume the responsibility for the ultimate support of repatriation of the evacuees.

19-13-412. Implementation.

(a) This compact shall become operative immediately upon its enactment into law by any two (2) states; thereafter, this compact shall become effective for any other state upon its enactment by that state.

(b) Any party state may withdraw from this compact by enacting a statute repealing the same, but no withdrawal shall take effect until thirty (30) days after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states. The action shall not relieve the withdrawing state from obligations assumed hereunder prior to the effective date of withdrawal.

(c) Duly authenticated copies of this compact and of supplementary agreements entered into shall, at the time of their approval, be deposited with each of the party states and with the federal department of homeland security and other appropriate agencies of the United States government.

19-13-413. Validity.

This act shall be construed to effectuate the purposes stated in W.S. 19-13-402 hereof. If any provision of this compact is declared unconstitutional, or its applicability to any person or circumstances is held invalid, the constitutionality of the remainder of this act and its applicability to other persons and circumstances shall not be affected.

19-13-414. Additional provisions.

Nothing in this compact shall authorize or permit the use of military force by the national guard of a state at any place outside that state in any emergency for which the president is authorized by law to call into federal service the militia, or for any purpose for which the use of the Army or the Air Force would in the absence of express statutory authorization be prohibited under Section 1385 of Title 18, United States Code.

(a) The board of county commissioners of each county shall provide for the preparation of the body and transmittal to and burial in the veteran's cemetery of any other than a dishonorably discharged veteran of the armed forces of the United States who served on behalf of the United States in any war or conflict as defined in section 101, title 38, United States Code and who dies leaving insufficient funds to defray the necessary funeral expenses. The amount expended for transporting the body shall not exceed five hundred dollars (\$500.00). The amount paid under this section for burial shall not exceed one thousand five hundred dollars (\$1,500.00). The department of family services shall reimburse the expenses in accordance with W.S. 35-1-428(c).

(b) Before assuming charge and expense for preparation and transmittal of the body and burial, each board of county commissioners shall first determine according to procedures they establish that the deceased veteran of the armed forces of the United States whose body they are called upon to bury served

(a) In every public department veterans or surviving spouses shall have a preference prior to the interview process. Age or other impairment which does not in fact materially incapacitate shall not disqualify them from receiving preference if they possess the business capacity, competency, education or other qualifications for discharge of the duties required. If the disabilities do not materially interfere with performance of the duties, the disabled veterans shall be given preference over able-bodied veterans.

(b) Each official or person having power of appointment in the public service is charged with the faithful compliance with the duties herein prescribed.

(c) Whenever a veteran or surviving spouse applies for initial employment with a public department that uses a numerical scoring system prior to its interview process, the veteran or surviving spouse shall be allowed a five percent (5%) advantage over any nonveteran.
