(d) The department of education shall compute and report an overall school performance rating measured by student performance on those performance indicators specified under subsection (n) of this section for alternative schools and subsection (c) of this section for all other schools. Any school through its school district may seek informal review of any overall school performance rating or other performance determination in accordance with the following:

The state board shall make a final determination as to the overall performance rating or other performance determination within thirty (30) days after receipt of the request for review;

(vi) The state board shall promulgate rules and regulations governing the informal review process before the board as conducted under this subsection. The informal review process shall only examine whether the department properly computed and reported a school's overall performance rating or other performance determination or whether the school was unable to administer the statewide assessment. The state board may grant an exception to the state's accountability system requirements for a school for one (1) school year when the school demonstrates that it was unable to administer the statewide assessment for good cause. Except as otherwise provided by this paragraph, the informal review process shall not be used to grant exceptions to the state's accountability system or change components of the accountability model.

(e) The state board, through the department of education, shall establish long term and interim performance targets for all Wyoming schools for the indicators measured pursuant to subsections (c) and (n) of this section. The performance targets may be developed in consultation with one (1) or more advisory committees of education stakeholders. The state board shall utilize the performance targets in carrying out the duties and the deliberative process required under subsection (f) of this section.

(f) The state board, through the department of education, shall compile, evaluate and determine target levels for an overall school performance rating and for indicator level performance. The board shall execute this determination when a significant aspect of the school accountability system changes through a prescribed deliberative process informed by a panel selected by the state board comprised of broad based representation from both public education and the community at-large. The target levels for school performance shall be used by the state board through the department to:
(i) Identify four (4) levels of school performance tied to the overall school performance rating that demonstrate a range of performance levels as follows:

(A) Exceeding expectations including those schools performing above standards in all measured areas;

(B) Meeting expectations;

(C) Partially meeting expectations; and

(D) Not meeting expectations.

(ii) Further measure performance specified under paragraph (i) of this subsection by identifying indicator level performance in all areas specified by subsection (n) of this section for alternative schools and subsection (c) of this section for all other schools and from this analysis determine schools that are exceeding, meeting or are below targets in each content area;

(iii) Coordinate the target levels, school and indicator level determinations with the availability of the system of support, including comprehensive and targeted support and interventions administered in accordance with subsection (h) of this section.

(g) Repealed By Laws 2013, Ch. 195, § 4.

(h) For all schools a progressive system of support and intervention to assist schools shall be established by the state board through the department. The system shall increase the ability of schools and school districts to improve achievement and growth indicator performance and expand the ability for schools and school districts within the state to continuously improve. The system shall clearly identify and prescribe the actions for each level of support, including comprehensive and targeted support and intervention. The state superintendent shall take action based upon system results according to the following:

(i) Repealed By Laws 2012, Ch. 101, § 2.

(ii) Repealed By Laws 2012, Ch. 101, § 2.

(iii) Repealed by Laws 2017, Ch. 95, § 5.
(iv) Repealed by Laws 2017, Ch. 95, § 5.

(v) Schools designated as partially meeting expectations shall file an improvement plan with the school district superintendent and the department that identifies and addresses all content and indicator areas where performance is below target levels. The plan shall be based upon an evaluation of the strengths and deficiencies of specific indicator scores that identifies appropriate improvement goals with an explanation of the measures and methods chosen for improvement, the processes to be implemented to deliver the improvement measures, identification of relevant timelines and benchmarks and an articulation of the process for measuring success of the methods chosen to increase performance. The plan shall also include review of the design and implementation of the district's leader evaluation system developed pursuant to W.S. 21-2-304(b)(xvi) and 21-3-110(a)(xxx). The state superintendent shall appoint a representative in accordance with paragraph (vii) of this subsection to monitor the school's progress towards meeting the specified goals and implementation of the processes, measures and methods as contained in the school's plan. The representative shall assist the district in identifying and securing the necessary resources to support the goals as stated by the school and the district. Failure to meet improvement goals as specified in the plan for two (2) consecutive years may require that the school be subject to paragraph (vi) of this subsection;

(vi) Schools designated as not meeting expectations shall file an improvement plan in accordance with paragraph (v) of this subsection that identifies and addresses all content and indicator areas where performance is below target levels. The plan shall include review of the design and implementation of the district's leader evaluation system developed pursuant to W.S. 21-2-304(b)(xvi) and 21-3-110(a)(xxx). In addition, the evaluation of a district's student assessment system as provided by paragraph (vii) of this subsection may be undertaken in that school year immediately following any school year in which a school within the district has been designated as not meeting expectations. The state superintendent shall appoint a representative in accordance with paragraph (vii) of this subsection to assist in drafting the improvement plan, including the selection of programs and interventions to improve student performance. The representative shall perform duties as required by paragraph (v) of this subsection. The plan shall be recommended by the school district superintendent and approved by the local board of trustees prior to submission to the
department. The plan shall describe the personnel and financial resources within the education resource block grant model as defined by W.S. 21-13-101(a)(xiv) necessary for implementation of the measures and methods chosen for improvement and shall specify how resources shall be reallocated, if necessary, to improve student performance;

(vii) A representative shall be appointed by the state superintendent, in consultation with the local board of trustees, for all schools designated under paragraphs (v) and (vi) of this subsection to serve as a liaison between the school district leadership and the department. The representative shall be an employee of the department, an employee of a Wyoming school district or any combination, and may require more than one (1) individual for schools requiring substantial intervention and support. Additionally, one (1) representative may be assigned to more than one (1) school. Among other duties as may be requested by the district or department, the representative shall review and provide suggestions on the improvement plans submitted by schools in accordance with paragraphs (v) and (vi) of this subsection, and may review and evaluate district student assessment systems implemented under W.S. 21-3-110(a)(xxiv) to ensure alignment with the uniform state education standards. After one (1) year of a school not meeting expectations under paragraph (vi) of this subsection, approval of the improvement plan by the representative appointed under this subsection shall be required. Requested resources for improvement plan implementation, or the reallocation of existing resources for plan implementation, shall be based upon a comprehensive review of the available research. Justification for resource allocation or reallocation shall be incorporated within the written improvement plan. The representative shall possess expertise appropriate to particular strategies incorporated within improvement plans to enable necessary plan evaluation, and shall be commensurate with the level of intervention and support to be administered under this subsection. The state superintendent shall annually report to the state board on the progress of each school in meeting annual goals and overall improvement targets, fully describing the effectiveness and deficiencies of efforts to improve school performance in performance categories prescribed by this section;

(viii) To the extent permitted by law and rule and regulation, plans submitted in compliance with paragraphs (v) and (vi) of this subsection shall serve to comply with similar requirements administered by the state superintendent and the
department, and the state board shall ensure the plans minimize submission of duplicative information, material and the administrative burdens placed upon schools. In addition, the following shall apply to the plans submitted under this subsection:

(A) All plans submitted under this subsection shall be made available for public inspection through internet access as defined by W.S. 9-2-1035(a)(iii);

(ix) In addition to paragraphs (v) through (viii) of this subsection, the state board shall administer this subsection as part of school district accreditation required under W.S. 21-2-304(a)(ii), through appropriate administrative action taken in accordance with W.S. 21-2-304(b)(ii).

(j) Measured performance results obtained and collected pursuant to this section, together with subsequent actions responding to results, shall be combined with other information and measures maintained and acquired under W.S. 21-2-202(a)(xxi), 21-2-304(a)(v)(H), 21-3-110(a)(xxiv) and otherwise by law, to be used as the basis of a statewide system for providing periodic and uniform reporting on the progress of state public education achievement compared to established targets. The statewide accountability system shall include a process for consolidating, coordinating and analyzing existing performance data and reports for purposes of aligning with the requirements of this section and for determinations of student achievement incorporated into the statewide system. In establishing a reporting system under this subsection, the department shall describe the performance of each public school in Wyoming. The performance report shall:

(i) Include an overall school performance rating along with ratings for each of the indicators and content levels in the accountability system that:
(A) Supports the overall school performance rating; and

These reports shall be maintained by the district in each student's permanent record within the district's student data system; and

(v) Provide valid and reliable data on the operation and impact of the accountability system established under this section for use by the legislature to analyze system effectiveness and to identify system improvements that may be necessary.

(k) Not later than September 1 of each year, or November 1 in years in which there is a significant change to the statewide assessment system or the statewide accountability system, as determined by the state board, the state board through the state superintendent shall report to the joint education interim committee the results of the accountability system for each school in the state. In addition, beginning with the 2020-2021 school year, after any significant change to the statewide assessment system or the statewide accountability system as determined by the state board, the state board may evaluate the state's accountability system to ensure that:

Each board of trustees may procure appropriate policies of insurance to maintain this protection, or it may elect in its discretion to act as a self-insurer. 21-3-302. Definitions.

(a) As used in this article:

(ii) "A converted charter school" means a charter school converted from an existing public school operating within the district;

21-3-303. Charter school prohibitions.

(a) This article shall not prohibit any private person or organization from funding or providing other assistance for the establishment or operation of a charter school established pursuant to this article when the district board determines the funding or assistance is compatible with the mission of the district.

(b) No charter shall be granted under this article if it is determined that its sole purpose is to avoid consolidation or closure of any school or district. For purposes of this subsection, consolidation or closure applies regardless of grade configuration, building location or school or district name.
(c) No charter application shall be considered from any person, group or organization proposing to convert a private school or a nonpublic home-based educational program into a charter school.

(d) No charter school shall enter into a contract with an independent management company without the prior written consent of the district board. The school district shall be a third party beneficiary to any management contract approved by the district board.

(e) For applications filed on and after July 1, 2007, a charter application shall not be considered from any person, group or organization that has previously filed a charter application within a twelve (12) month period and the application was subsequently denied. Enrollment decisions shall not discriminate against at-risk students or special program students.

(d) A charter school shall be administered and governed by a governing body in a manner agreed to by the charter school applicant and the school district. A charter school may organize as a nonprofit corporation pursuant to the Wyoming Nonprofit
Corporation Act, which shall not affect its status as a public school for any purposes under Wyoming law.

(e) A charter school, as a public school, is a governmental entity. Direct leases and financial obligations of a charter school shall not constitute debt or financial obligations of the school district unless the district board expressly assumes such obligations in writing.

(f) Notwithstanding the provisions of this article to the contrary, a charter school and the school district may agree to extend the length of the charter beyond five (5) years for the purpose of enhancing the terms of any lease or financial obligation.

(g) Pursuant to contract, a charter school may operate free from specified school district policies and state regulations. Pursuant to contract, a school district may waive locally imposed school district requirements, without seeking approval of the state board. The state board may waive state statutory requirements or rules promulgated by the state board, except that the state board shall not waive any statute or rule relating to the assessments or standards required to be administered. Upon request of the charter applicant, the state board shall provide summaries of such regulations and policies to use in preparing a charter school application. The department of education shall prepare the summary of state regulations within existing appropriations. Any waiver of state or local school district regulations made pursuant to this subsection shall be for the term of the charter for which the waiver is made, except that a waiver of state statutes or regulations by the state board shall be subject to review every two (2) years and may be revoked if the waiver is deemed no longer necessary by the state board.

Any services for which a charter school contracts with a school district shall be
provided by the district at cost. The charter school shall have standing to sue and be sued in its own name for the enforcement of any contract created pursuant to this subsection.

(k) A charter school shall not be required to pay rent for space which is deemed available, as negotiated by contract, in school district facilities. All other costs for the improvement, modification, operation and maintenance of the facilities used by the charter school shall be subject to negotiation between the charter school and the district board.

(m) A charter school shall be authorized to offer any educational program that may be offered by a school district unless expressly prohibited by its charter or by state law.

Within forty-five (45) days after a request for release is
received by the state board, the state board shall either grant or deny the request. If the state board grants the request, it may orally notify the school district and the charter school of its decision. If the state board denies the request, it shall notify the school district and the charter school in writing that the request is denied and specify the reasons for denial. If the school district and the charter school do not receive notice of the state board's decision within forty-five (45) days after submittal of the request for release, the request shall be deemed granted. If the state board denies a request for release that includes multiple state statutes or regulations, the denial shall specify the state statutes and regulations for which the release is denied, and the denial shall apply only to those state statutes and regulations so specified.

(d) A material revision of the terms of the contract shall be made only with the approval of the school district and the governing body of the charter school.

(b) Administrators and teachers employed by the district, parents of students enrolled in the district and any special district advisory group comprised of district residents may apply to the district board to convert an existing public school operating within the school district to a charter school. An application filed under this subsection shall demonstrate the support of not less than fifty percent (50%) of the teachers employed by the school who teach at the school proposed to be converted, and the parents of fifty percent (50%) of all students attending the school proposed to be converted.

(c) Instead of establishing a new charter school or a converted charter school under this section, a district board and a charter school applicant may by mutual agreement establish a charter school within a school. A charter school operated under this subsection is a separate school and shall have the
rights and obligations provided under this article for new and converted charter schools. The agreement between the school board and the charter school may provide that faculty and staff at the charter school may work in both the charter school established under this subsection and other district schools. If district students attend both the charter school established under this subsection and another district school, the students shall be counted for each school in proportion to the percentage of their time spent in each school.

21-3-307. Charter application; contents; phased-in application process.

(a) The charter school application shall be a proposed agreement, shall be on a form prescribed by the state superintendent pursuant to subsection (d) of this section, and shall include:

(i) A description of the educational program of the school, designed to identify those whom the school is attempting to educate, what it means to be an educated person in the twenty-first century and how learning best occurs. The goals identified in that program shall include the objective of enabling pupils to become self-motivated, competent and lifelong learners;

(ii) The measurable pupil outcomes identified for use by the charter school. "Pupil outcomes" for purposes of this paragraph means the extent to which all pupils of the school demonstrate they have attained the skills and knowledge specified as goals in the school’s educational program. "Pupil outcomes" shall include state assessments and standards;

(iii) The method by which pupil progress in meeting those pupil outcomes is to be measured;

(xi) A description of the rights of any employee of the school district upon leaving the employment of the school district to work in a charter school and of any rights upon returning to the school district after employment at a charter school;

(xii) Minimum enrollment requirements;

(xiii) Evidence that an adequate number of parents, teachers, pupils or any combination thereof support the formation of a charter school;

(xiv) Evidence that the plan for the charter school is economically sound for both the charter school and the school district;

(xv) A proposed budget for the term of the charter;

(xvi) A plan for the displacement of pupils, teachers and other employees who will not attend or be employed in the charter school;

(xvii) An explanation of the relationship that will exist between the proposed charter school and its employees, including evidence that the terms and conditions of employment have been addressed with affected employees and their recognized representative, if any;

(xviii) The employment policies of the proposed charter school;

(xix) An agreement between the parties regarding their respective legal liability and applicable insurance coverage;

(xxii) A financial feasibility statement providing evidence of charter school viability following the first three (3) years of charter school operation.

(b) Upon submission of an application under W.S. 21-3-307(a), the superintendent of the school district shall notify the applicant within thirty (30) days of submission whether the application is complete. If the district superintendent determines that the application is incomplete, the superintendent shall advise the applicant of the reasons for the determination in sufficient detail for the applicant to make changes for resubmission of the application to the district superintendent.

(c) The district superintendent's determination that an application is complete shall not prevent the district superintendent from making subsequent recommendations to, or from opposing the application before, the school board.

(d) The state superintendent shall through rule and regulation prescribe a uniform charter school application and renewal application form to be used by each district and charter school applicant for purposes of this article, and shall establish charter school application review procedures, including timelines for application components specified under subsection (a) of this section. The phased application process prescribed by state superintendent rule and regulation may provide a process for mediation of disputes concerning completeness of an application between the applicant and school district, which would be subject to W.S. 1-43-101 through 1-43-104, would allow either party to initiate mediation and would impose costs of mediation equally upon both parties. Any mediation process prescribed by rule shall specify professional requirements for the impartial third party facilitating mediation. If either party refuses to mediate, the dispute may be appealed to the state board as provided in W.S. 21-3-310.
21-3-308. Hearing by local board; prohibited actions by local board; criteria; compliance with state standards; state board review; contractual authority.

(a) Not later than thirty (30) days after receiving an application for any charter school which has been determined to be complete pursuant to W.S. 21-3-307(b), the district board shall hold a public hearing on the application, at which time the board shall consider the level of community and parental support for the application if an application for a new charter school, or the level of teacher and parental support if an application for a converted charter school or charter school within a school. Following review of the application and the public hearing, if applicable, and in accordance with subsection (d) of this section, the district board shall either approve or deny the application within sixty (60) days of receipt. Approval under this article may be conditioned for purposes specified under subsection (c) of this section. In addition, the board may approve an application for the operation of a converted charter school only if it determines teacher and parental support for the conversion are established at the levels required by W.S. 21-3-306(b). Prior to approving an application for a charter school under this section, the board shall approve and adopt the content and terms of the contract as provided in W.S. 21-3-307.

(b) No district board of trustees or agent of the board shall require any employee of the school district to be employed in a charter school or any pupil enrolled in the school district to attend a charter school. No district board or its agent shall harass, threaten, discipline, discharge, retaliate or in any manner discriminate against any district employee involved directly or indirectly with an application to establish a charter school as authorized under this article.

(c) The district board shall require the applicant to provide information regarding the proposed operation and potential effects of the school, including but not limited to the facilities to be utilized by the school, the manner in which administrative services of the school are to be provided and a demonstration that the school is adequately insured for liability, including errors and omissions coverage, and that the school district is indemnified to the fullest extent possible. As authorized under subsection (a) of this section, the applicant may request the district board and the board may approve the charter application subject to specified conditions which provide the applicant sufficient time to acquire necessary funding for securing or otherwise finalizing arrangements for
facilities or equipment necessary for the operation of the proposed school. In addition, the district board may upon request of the applicant and approval of the charter school application, make available for use by the charter school any district facility which is closed, not operational and otherwise feasible for use as an educational building as defined under W.S. 21-15-109(a)(ii).

(d) Upon the approval of any application by the district board, the applicant shall provide written notice of that approval including a copy of the application to the state superintendent. If the district board denies the application, the board shall not later than forty-five (45) days following the date of its decision, notify the applicant of the denial in writing together with its reasons for denial.

(e) A charter school may contract for the provision of services and property subject to the following:

(i) The contract shall be executed in the same manner and subject to the same restrictions as contracts by the school district;

(ii) The charter school shall be subject to all competitive bidding laws which apply to the school district;

(iii) The contract shall not exceed funds available to the charter school;

(iv) The contract shall not exceed the remaining length of operation for which the charter school was approved pursuant to W.S. 21-3-309;

(v) With the consent of the school district, the charter school may delegate the authority to negotiate the contract or execute the contract, or both, to the school district.

(f) A school district shall not discriminate against a charter school in publicizing the district's educational options through advertising, direct mail, availability of mailing lists or other informational activities.

(g) Charter schools shall meet the state uniform educational program standards imposed upon public schools by W.S. 21-9-101 and 21-9-102 and the uniform state student content and performance standards prescribed by the state board of
education under W.S. 21-2-304, including compliance with requirements under the statewide assessment system pursuant to W.S. 21-2-304(a)(v).

(h) Those teachers employed on a full-time basis in the charter school system shall be subject to the same requirements with respect to certification by the Wyoming professional teaching standards board under W.S. 21-2-802 and other qualifications as any other teachers authorized to teach in Wyoming public schools.

21-3-309. Length of operation under charter; renewal; revocation.

(a) A charter may be granted pursuant to this article for a period not to exceed five (5) years and may be renewed for successive periods not to exceed five (5) years for each renewal period. A material revision of the provisions of a charter petition may be made only with the approval of the local board granting the charter.

(b) A charter school renewal application submitted to the school district shall be on a form prescribed by the state superintendent pursuant to W.S. 21-3-307(d) and shall contain:

(i) A report on the progress of the charter school in achieving the goals, objectives, pupil performance standards, content standards and other terms of the initial approved charter application; and

(ii) A financial statement that discloses the costs of administration, instruction and other spending categories for the charter school that is understandable to the general public and that will allow comparison of such costs to other schools or other comparable organizations, in a format required by the state board.

(c) A charter may be revoked or not renewed by the district board if the board determines that the charter school did any of the following:

(i) Committed a material violation of any of the conditions, standards or procedures set forth in the charter application;
(ii) Failed to meet or make reasonable progress toward achievement of the content standards or pupil performance standards identified in the charter application;

(iii) Failed to meet generally accepted standards of fiscal management; or

(iv) Violated any provision of law from which the charter school was not specifically exempted.

(d) A charter shall not be renewed upon a determination by the district board that it is not in the interest of the pupils residing within the school district to continue the operation of the charter school.

(e) If a district board revokes or does not renew a charter, the board shall state its reasons for the revocation or nonrenewal.

(f) A decision to revoke or not to renew a charter may be appealed pursuant to the provisions of W.S. 21-3-310.

21-3-310. Appeal; standard of review; procedures.

(a) A charter applicant or any other person who wishes to appeal a decision of a district board concerning a charter school shall provide the state board and the district board with a notice of appeal within forty-five (45) days after receiving the local board's written decision and reasons for denial. If the appeal is of a denial, nonrenewal, or revocation of a charter, the person bringing the appeal shall limit the grounds of the appeal to the grounds for denial specified by the district board. The notice shall include a brief statement of the reasons the charter school applicant contends the district board's denial was in error.

(b) If the notice of appeal, or the motion to review by the state board, relates to a district board's decision to deny, refuse to renew, or revoke a charter or to a district board's unilateral imposition of conditions that are unacceptable to the charter school or the charter applicant, the appeal and review process shall be as follows:

(i) Within sixty (60) days after receipt of the notice of appeal or the making of a motion to review by the state board and after reasonable public notice, the state board, at a public hearing which shall be held in the school district

If the state board finds that the local board's decision was contrary to the best interests of the pupils, school district or community, the state board shall remand such decision to the district board with written instructions for reconsideration thereof. The instructions shall include specific recommendations concerning the matters requiring reconsideration;

(ii) Within thirty (30) days following the remand of a decision to the district board and after reasonable public notice, the district board, at a public hearing, shall reconsider its decision and make a final decision;

(iii) If the district board's final decision is still to deny, refuse to renew or revoke a charter or to unilaterally impose conditions unacceptable to the charter school or the charter applicant, a second notice of appeal may be filed with the state board within thirty (30) days following such final decision;

(iv) Within thirty (30) days following receipt of the second notice of appeal or the making of a motion for a second review by the state board and after reasonable public notice, the state board, at a public hearing, shall determine whether the final decision of the district board was contrary to the best interests of the pupils, school district or community. If such a finding is made, the state board shall remand the final decision to the local board with instructions to approve the charter application. The decision of the state board may require changes to the contract to be executed by the charter school and the school district.

daily membership of the charter school shall be calculated as follows:

(i) Notwithstanding W.S. 21-13-309(m)(iv)(A), in the first year of operation, the average daily membership for the charter school shall be based on the following:

(A) Initial average daily membership shall be calculated based upon the March 1 list of students who intend to enroll in the charter school as required under subsection (b) of this section;

(ii) In the second year and all subsequent years and except as otherwise provided under paragraph (iv) of this subsection, the average daily membership of the charter school shall be counted only among the average daily membership of the school district;

(iii) For purposes of W.S. 21-13-309(m)(iv)(A), and upon charter school operation for three (3) consecutive school years, charter school average daily membership computed under paragraph (i) of this subsection shall, if the charter is subject to subparagraph (i)(C) of this subsection, be divided by two (2) prior to computing the school's ADM averaged over the three (3) immediately preceding school years;

(iv) Notwithstanding W.S. 21-13-309(m)(iv)(A), in the second and third year of charter school operation, the average daily membership of a charter school shall be based upon the prior school year average daily membership adjusted by the enrollment count taken on October 1 of the applicable school year;

(b) Any approved charter school shall provide the local school district with the names, grades and school of current enrollment for all students who plan to enroll in the proposed charter school. The information shall be provided no later than March 1 of the school year preceding the school year in which the charter school plans to begin operation.

(c) As part of the charter school contract, the charter school and the school district shall agree on funding and any services to be provided by the school district to the charter school. The charter school and the school district shall begin discussions on the contract using the following revenue assumptions:

ARTICLE 4
READING ASSESSMENT AND INTERVENTION

21-3-401. Reading assessment and intervention.

(a) Each school district shall select and implement a reading assessment and intervention program that uses an instrument that screens for signs of dyslexia and other reading difficulties as early as possible in kindergarten through grade three (3) and that implements with fidelity an evidence based intervention program. The program shall include instruments that monitor and measure reading progress and assess student reading skills and progress to provide data that informs any intervention. The assessment and intervention program shall be administered to all students in kindergarten through grade three (3). The program shall also include implementation of evidence based core curricula aligned to the uniform content and performance standards and evidenced based interventions to meet the needs of all students. The program shall be multi-tiered and shall include evidence based interventions to facilitate remediation of any reading difficulty as early as possible.

(b) Students not showing appropriate reading competence under this section shall be placed on an individualized reading plan to remedy the reading related difficulty utilizing an appropriate evidence based intervention program, which may include a group reading plan. For students under an individualized education program (IEP) which addresses reading difficulties, the IEP shall be deemed sufficient to meet the requirements of this subsection and no additional plan shall be required.

(c) Each district shall annually report to the department of education on the progress of each of its schools toward achieving the goal of eighty-five percent (85%) of all students reading at grade level upon completion of the third grade. The report shall include the percentage of students meeting or exceeding proficiency levels for the annual reporting period. The reporting shall also include the aggregate number of
students identified by the screening instruments as having signs of dyslexia or other reading difficulties in addition to listing the evidence based interventions implemented in each district by grade. This report shall include kindergarten through grade three (3) progress toward achieving the goal of eighty-five percent (85%) proficiency in the specific skills known to be predictive of grade three (3) reading proficiency and that are listed in subsection (d) of this section. Grade three (3) reading proficiency shall be determined by the grade three (3) statewide assessment administered pursuant to W.S. 21-2-304(a)(v). Each school not meeting the eighty-five percent (85%) goal specified under this subsection shall submit an improvement plan to the school district, and the school district shall submit an overall improvement plan to the department. At a minimum, each school and district improvement plan shall outline its general strategy for increasing reading proficiency for the next school year and shall specifically address the evidence based program of instruction, assessment and intervention being implemented, the specific training in those programs that reading teachers have received, the student-teacher ratio, the use of certified tutors and the use of instructional facilitators and paraprofessionals in kindergarten through grade three (3) trained in the delivery of the evidence based instruction and intervention program selected by the district.

(d) The state superintendent, in consultation with Wyoming school districts, professionals in the area of dyslexia and other reading difficulties, and other appropriate stakeholders, shall promulgate rules and regulations as necessary to assist each school district to administer its reading assessment and intervention program pursuant to this section and to assess the skills in paragraphs (i) through (v) of this subsection using a curriculum-independent assessment. The rules shall provide mechanisms for the state superintendent to directly support schools and school districts in meeting the goals of improvement plans developed pursuant to subsection (c) of this section including, but not limited to, professional development in evidence based literacy instruction and intervention and professional development in identifying the signs of dyslexia and other reading difficulties. To accomplish the purposes of this subsection, the department of education shall collect kindergarten through grade two (2) statewide longitudinal data from assessments selected and performed by each school district, which measures the following specific skills that evidence based research has concluded are predictive of grade three (3) reading proficiency:
(i) Phonological awareness;

(ii) Phonics;

(iii) Decoding words and nonwords;

(iv) Oral reading fluency; and

(v) Reading comprehension.

Expenditures qualifying for reimbursement under this section shall be subject to guidelines and standards established by department of transportation rule and regulation.

(d) The school finance section of the department of audit established under W.S. 9-1-513 shall conduct periodic audits of the information submitted within applications filed under this section and shall include the resulting audit findings within the department's annual report to the legislature required by W.S. 9-1-513(b)(viii).
(e) The department of education in consultation with the department of transportation shall provide by rule and regulation standards for driver education programs in high schools, private schools as defined in W.S. 21-4-101(a)(iii), community colleges, boards of cooperative educational services, community education programs and drivers' education schools. ARTICLE 1
COMPULSORY ATTENDANCE

21-4-101. Definitions.
(a) For the purposes of this article:

(i) "Unexcused absence" means the absence, as defined in the policies of the local board of trustees, of any child required by this article to attend school when such absence is not excused to the satisfaction of the board of trustees by the parent, guardian, or other person having control of such child;

(ii) "Habitual truant" means any child with five (5) or more unexcused absences in any one (1) school year;

(iii) "Private school" is any nonpublic, elementary or secondary school providing a basic academic educational program for children and may include parochial and church or religious schools and home-based educational programs;

(iv) "Parochial, church or religious school" is one operated under the auspices or control of a local church or religious congregation or a denomination established to promote and promulgate the commonly held religious doctrines of the group though it may also include basic academic subjects in its curriculum. Nothing contained in W.S. 21-4-102(b), 21-2-401 or 21-2-406 grants to the state of Wyoming or any of its officers, agencies or subdivisions any right or authority to control, manage, supervise or make any suggestions as to the control, management or supervision of any parochial, church or religious school which meets the requirements of W.S. 21-2-406(a);

(v) A home-based educational program means a program of educational instruction provided to a child by the child's parent or legal guardian or by a person designated by the parent or legal guardian. An instructional program provided to more than one (1) family unit does not constitute a home-based educational program;

(vi) "Basic academic educational program" is one that provides a sequentially progressive curriculum of fundamental instruction in reading, writing, mathematics, civics, history, literature and science. These curriculum requirements do not require any private school or home-based educational program to include in its curriculum any concept, topic or practice in conflict with its religious doctrines or to exclude from its curriculum any concept, topic or practice consistent with its religious doctrines.

21-4-102. When attendance required; exemptions; withdrawal.
(a) Every parent, guardian or other person having control or charge of any child who is a resident of this state and whose seventh birthday falls on or before September 15 of any year and who has not yet attained his sixteenth birthday or completed the tenth grade shall be required to send such child to, and such child shall be required to attend, a public or private school each year, during the entire time that the public schools shall be in session in the district in which the pupil resides; provided, that the board of trustees of each school district may exempt any child from the operation of this article when:

Note: Effective 8/1/2021 this section will read as:

Every parent, guardian or other person having control or charge of any child who is a resident of this state and whose seventh birthday falls on or before August 1, or September 15 if the child started kindergarten pursuant to an approved request under W.S. 21-3-110(a)(xxxviii), of any year and who has not yet attained his sixteenth birthday or completed the tenth grade shall be required to send such child to, and such child shall be required to attend, a public or private school each year, during the entire time that the public schools shall be in session in the district in which the pupil resides; provided, that the board of trustees of each school district may exempt any child from the operation of this article when:

(i) The board believes that compulsory attendance in school would be detrimental to the mental or physical health of such child or the other children in the school; provided, the board may designate at the expense of the district a medical doctor of its choice to guide it and support it in its decision;

(ii) The board feels that compulsory school attendance might work undue hardship. The board may conduct a hearing on issues pursuant to this paragraph by executive session; or

(iii) The child has been legally excluded from the regular schools pursuant to the provisions of W.S. 21-4-306.

(b) A home-based educational program shall meet the requirements of a basic academic educational program pursuant to W.S. 21-4-101(a)(vi). It shall be the responsibility of every person administering a home-based educational program to submit a curriculum to the local board of trustees each year showing that the program complies with the requirements of this
subsection. Failure to submit a curriculum showing compliance is prima facie evidence that the home-based educational program does not meet the requirements of this article.

(c) In addition to subsection (a) of this section, the parent, guardian or other person having control or charge of any child under the age of eighteen (18), who has not otherwise notified the district of enrolling that child in a different school district or in a private school or home-based educational program, shall meet in person with a school district counselor or administrator to provide the school district with written consent to the withdrawal of that child from school attendance. The written consent to withdrawal shall include a separate provision authorizing the release of the student's identity and address to the Wyoming national guard youth challenge program, as established by W.S. 19-9-701, for the sole purpose of recruitment into the Wyoming national guard youth challenge program.

21-4-103. Enforcement of article; appointment and compensation of attendance officers.

The primary responsibility for the enforcement of this article shall be upon the board of trustees of the school district, which shall appoint an attendance officer or officers to carry out the provisions of this article. Said officer shall be paid out of the district treasury such sum as may be provided in the order of appointment.

21-4-104. Duties of attendance officers.

(a) Subject to the policy of the board of trustees, it shall be the duty of each attendance officer to:

   (i) Counsel with students, parents, guardians or custodians and teachers; and to investigate the causes of unexcused absences;

   (ii) Give written notice to the parent, guardian, or custodian of any child having an unexcused absence that the attendance of such child at school is required by law. If after such notice has been given, the child has a second unexcused absence, which the attendance officer reasonably believes was due to the willful neglect or failure of the parent, guardian, or custodian of the child, then he shall make and file a complaint against such parent, guardian, or custodian of such
child before the district court for the violation of W.S. 21-4-102.

21-4-105. Penalty for failure of parent, guardian or custodian to comply with article.

Any parent, guardian or custodian of any child to whom this article applies who willfully fails, neglects, or refuses to comply with the provisions of this article shall be guilty of a misdemeanor and shall be punished by a fine of not less than five dollars ($5.00) nor more than twenty-five dollars ($25.00) or by imprisonment in the county jail not more than ten (10) days or by both such fine and imprisonment.

21-4-106. List of children of school age to be furnished; notice of unexcused absences.

At the beginning of each school year, the board of trustees shall furnish each district attendance officer a list of the names of the children of compulsory school age within the district who are enumerated on the regular enumeration lists. The person in charge of each school within the district shall notify each district attendance officer promptly in writing of all cases of unexcused absence so that the attendance officer may proceed according to the provisions of this article.

21-4-107. Notice to district attorney of habitual truancy; duty of district attorney.

When the board of trustees of any school district shall determine that a child is an habitual truant as defined by this article the board or its attendance officer shall notify the district attorney who shall then initiate proceedings in the interest of the child under the Juvenile Justice Act.

No preschool program shall be required to receive such technical assistance. A district shall not receive any additional financial assistance from the state if the district chooses to provide technical assistance to a preschool program under this paragraph.

(d) A program shall not discriminate in enrollment on the basis of sex, race, religion or national origin.

(e) A school district which provides a preschool program under subsection (c) of this section biennially shall assess, through the fourth grade when practical, the school readiness and academic performance of pupils who participate in the program as compared with those who do not participate in the program. No suspension or expulsion shall be for longer than one (1) year.

(f) Any decision of the board, or of a designated superintendent, shall be considered a final decision which may be appealed to the district court of the county in which the school district is located, pursuant to provisions of the Wyoming Administrative Procedure Act. The court may, on application or on its own motion, stay the decision of the board or superintendent pending appeal, considering both the best interests of the child and the need to maintain an orderly environment conducive to learning for other children.

   (iv) Torturing, torturing, or abusing a pupil or in any way maltreating a pupil or a teacher with physical violence;

   (v) Possession, use, transfer, carrying or selling a deadly weapon as defined under W.S. 6-1-104(a)(iv) within any school bus as defined by W.S. 31-7-102(a)(xl) or within the boundaries of real property used by the district primarily for the education of students in grades kindergarten through twelve (12).

(b) As used in paragraph (a)(iii) of this section, "habitually disruptive behavior" means overt behavior willfully initiated by a student causing disruption in the classroom, on school grounds, on school vehicles or at school activities or events, which requires the attention of a teacher or other school personnel.

(c) The board of trustees shall, subject to the case-by-case modification permitted by subsection (d) of this section, require the district superintendent to expel from school for a period of one (1) year any student determined to violate paragraph (a)(v) of this section.

(d) The superintendent with the approval of the board of trustees may modify the period of any expulsion on a case-by-case basis based upon the circumstances of the violation. Upon a violation of paragraph (a)(v) of this section and following notice and hearing requirements of W.S. 21-4-305, the
superintendent shall notify the district attorney of the violation together with the specific act in violation of paragraph (a)(v) of this section and the name of the student violating paragraph (a)(v) of this section. Nothing in this section prohibits a district from providing educational services to the expelled student in an alternative setting.

21-4-307. Denial of admission to school.

(a) The board of trustees of any school district within the state may deny admission to any child who:

(i) Has completed the twelfth grade; or

(ii) Has such a mental or physical disability that based upon a physician's certificate the board believes such child could not reasonably benefit from the programs available or the attendance of such child would be inimical to the health, safety, or welfare of other pupils; provided, that the board shall make the best possible provision for suitable and adequate education of such child in accordance with the laws of this state.

21-4-308. Punishment and disciplinary measures; denial of diploma or credit.

(a) Each board of trustees in each school district within the state may adopt rules for reasonable forms of punishment and disciplinary measures. Subject to such rules, teachers, principals, and superintendents in such district may impose reasonable forms of punishment and disciplinary measures for insubordination, disobedience, and other misconduct.

(b) Teachers, principals and superintendents in each district shall be immune from civil and criminal liability in the exercise of reasonable corporal discipline of a student as authorized by board policy.

21-4-309. Mandatory immunizations for children attending schools; exceptions.
(a) Any person attending, full or part time, any public or private school, kindergarten through twelfth grade, shall within thirty (30) days after the date of school entry, provide to the appropriate school official written documentary proof of immunization. For purposes of this section, documentary proof of immunization is written certification by a private licensed physician or his representative or by any public health authority, that the person is fully immunized. Documentation shall include month, day and year of each required immunization received against vaccine preventable disease as designated by the state health authority. No school administrator shall permit a student to attend school for more than thirty (30) calendar days without documentary proof of immunization. If immunization requires a series of immunizations over a period of more than thirty (30) calendar days, the child shall be permitted to attend school while receiving continuing immunization if the school administrator receives written notification by a private licensed physician or his representative or by a public health official, specifying a written schedule for necessary immunization completion within the medically accepted time period. Waivers shall be authorized by the state or county health officer upon submission of written evidence of religious objection or medical contraindication to the administration of any vaccine. In the presence of an outbreak of vaccine preventable disease as determined by the state or county health authority, school children for whom a waiver has been issued and who are not immunized against the occurring vaccine preventable disease shall be excluded from school attendance for a period of time determined by the state or county health authority, but not suspended from school as provided in W.S. 21-4-305. Children excluded from school attendance under this section shall not be counted in the aggregate number of pupils absent as defined in W.S. 21-13-101(a)(i).

(b) The school administrator shall be responsible for an audit of the immunization status of any child enrolled in the school in accordance with rules and regulations prescribed by the department of health.

(c) The written documented proof of immunization on a form provided by the state health officer shall be an integral part of the child's school record.

(ii) "County health officer" means the licensed medical officer designated by the county commissioners to serve as health officer for his county;

(a) The district board shall permit a student to possess and self-administer within any school of the district medication required for potentially life threatening conditions if a written statement is submitted to the district containing applicable:

(i) Parental verification that the student is responsible for and capable of self-administration and parental authorization for self-administration of medication required for potentially life threatening conditions;

(ii) Health care provider identification of the prescribed or authorized medication required for potentially life threatening conditions and verification of the appropriateness of the student's possession and self-administration of the medication required for potentially life threatening conditions.

(b) The written statement shall be prescribed by the department of education, with the assistance of the department of health, and shall require the signatures of the parent or guardian of the student and the student's physician or physician's representative.

21-4-315. Applicability; no civil liability created; immunity.

This article shall not be interpreted to prevent a victim from seeking redress pursuant to any other applicable civil or criminal law. This article does not create or alter any civil cause of action for monetary damages against any person or school district nor shall it constitute grounds for any claim or motion raised by either the state or defendant in any proceedings, except that the defense of immunity shall be retained and may be asserted in any action arising under this act.

21-4-316. Administration of stock epinephrine auto-injectors.

(a) A district board may adopt and implement a policy whereby the district may acquire, maintain and dispense to schools within the district a supply of epinephrine auto-injectors. Upon authorization by the board, school nurses and assigned school personnel may administer a stock epinephrine auto-injector to a student that the school nurse or assigned school personnel in good faith believes is experiencing a severe allergic reaction. A district board shall not be required to obtain a prescription to acquire, maintain or dispense to schools within the district a supply of epinephrine auto-injectors under this section. A district board may enter into arrangements with manufacturers or third-party suppliers of epinephrine auto-injectors to obtain the epinephrine auto-injectors at fair market, free or reduced prices.

(b) A district board that decides to acquire, maintain and dispense a supply of epinephrine auto-injectors shall:

(i) Implement a plan based on the guidelines developed pursuant to this section for the management of students with life threatening allergies enrolled in the schools within the district;

(ii) Make the plan available on the school district's website or the website of each school within the district, or if such websites do not exist, make the plan publicly available through other practicable means as determined by the board.

(c) Not later than December 31, 2014, the department of education, in consultation with the department of health, shall develop and make available to all schools guidelines for the
management of students with life threatening allergies. The guidelines shall include, but not be limited to:

(ix) Requirements for school nurses and assigned school personnel to confirm completion of a training program approved by the department of education, in consultation with the department of health.

(d) A school that possesses and makes available stock epinephrine auto-injectors and those persons specified in this subsection shall not be liable for damages for any injuries that result from the administration of, self-administration of, or failure to administer epinephrine auto-injectors that may constitute ordinary negligence. This immunity applies regardless of whether authorization was provided by the student's parent or guardian or by the student's health care
provider. This immunity does not apply to acts or omissions constituting gross, willful or wanton negligence. The administration of stock epinephrine auto-injectors in accordance with this section is not the practice of medicine. The immunity from liability provided under this section is in addition to and not in lieu of that provided under W.S. 1-1-120. The immunity provided in this subsection extends to:

(i) A district board, school nurses, employees, agents and volunteers of the district;

(iv) "Provide" means the supply of one (1) or more stock epinephrine auto-injectors;

(v) "Stock epinephrine" means injectable medications used for the treatment of severe, life-threatening allergies that schools or districts buy and keep on-site for emergency use.

(f) Nothing in this section shall be held to apply to or affect W.S. 21-4-310.

ARTICLE 4
ISOLATION
21-4-401. Transportation or maintenance for isolated pupils.

(a) The board of trustees of any school district within the state shall provide transportation or maintenance for isolated elementary, middle, junior high or high school pupils resident within the district, whenever it would be in the best interests of the affected children to provide transportation or maintenance than to establish a school to serve these pupils, and for those isolated pupils resident within the district who are attending a school in another district pursuant to W.S. 21-4-502. Amounts paid under this section shall be subject to subsections (d) and (e) of this section and shall not exceed the actual costs incurred by parents or pupils.

(b) The state superintendent shall adopt reasonable rules and regulations pertaining to residence requirements establishing eligibility under this section and for provision of tuition and transportation or maintenance. No person is eligible as an isolated pupil under this section unless the pupil's parents or legal guardians demonstrate to the local school board that the family's residing in the isolated location is necessary for the family's financial well being. The burden shall be on the parent or guardian to demonstrate that the family's residing in the isolated location is necessary for the family's financial well being. The final decision as to eligibility shall be made by the district board of trustees.

(c) The rights accorded under this section shall be enforceable by writ of mandamus, and in such event the district shall pay all costs and legal expenses of a petitioner successful in obtaining such writ.

(d) To receive transportation payments under this section, the parent or legal guardian of any isolated pupil eligible under this section shall file a transportation reimbursement claim with the district on a form provided by the district specifying the total round trip miles traveled each day to and from the bus stop or the school, as applicable. The total round trip miles shall be multiplied by the applicable mileage rate prescribed under W.S. 9-3-103(a)(iii) to compute the daily mileage reimbursement amount. Where combined transportation is provided for two (2) or more isolated pupils being transported to the same school, only one (1) reimbursement shall be made. Payments to parents or guardians for transporting students to and from school shall be computed excluding the first two (2) miles traveled each way. No payments shall be paid to a parent
or guardian for transportation of students unless the pupil resides in an isolated location as specified under subsection (b) of this section.

(e) Monthly maintenance payments may be paid under this section in lieu of transportation payments if the pupil resides at a location near the school rather than the isolated location. The amount paid shall be the lesser of the amount of maintenance payments claimed or the transportation payments that would have been payable under subsection (d) of this section. Monthly maintenance payments under this section shall reimburse the isolated student's parent or legal guardian for additional reasonable living expenses for only those months school is in session. A district shall be reimbursed for the full amount of isolation or maintenance payments it makes under this section. Reimbursement shall be made as if the district's total foundation program amount computed under W.S. 21-13-309(p) was increased by the amount of isolation or maintenance payments made during the preceding year.

21-4-402. Instruction for hospitalized or homebound pupils.

(a) The board of trustees of each school district shall offer homebound instruction for each pupil in the district who is hospitalized or homebound for more than one (1) week because of injury or illness.

(b) The board shall also offer homebound instruction for each pupil in the district who is hospitalized or placed in a state accredited or state certified treatment facility for more than one (1) week in a hospital or facility located in another Wyoming school district because of injury or illness. The board shall either provide instruction directly or contract with the school district in which the pupil is hospitalized or placed in a facility to provide this instruction. This subsection does not apply to pupils who:

(i) Are hospitalized or placed due to a mental, physical or psychological disability and who are receiving educational services under W.S. 21-2-501; or

(ii) Have been placed in a psychiatric residential treatment facility who are receiving educational services pursuant to W.S. 21-13-315 or 21-13-336.
TUITION

21-4-501. Payment of tuition for children resident in districts which maintain no high school; admission of children to high schools in other districts; state board approval for out-of-state placements; duties of admitting districts; tuition amount.

(a) Any district which does not maintain a high school shall pay tuition, in addition to transportation or maintenance, for any child resident therein who has successfully completed the course offered therein and desires to attend high school, at any public school within or subject to the approval of the state board of education, without the state, which the district board may designate in the best interest, welfare and convenience of the child. Application for attendance at a high school outside the state shall be filed by the nonunified district board with the state department of education. If the nonunified district provides evidence that the amount of tuition assessed by the out-of-state district for the out-of-state placement shall not exceed one hundred twenty-five percent (125%) of the actual per pupil cost as determined under subsection (c) of this section, state board approval shall be waived under this subsection.

(b) The board of trustees of any school district within the state which maintains a high school shall admit, upon payment of tuition, pupils of districts which do not maintain a high school; provided that nothing in this section shall be construed to require a district to admit nonresident pupils, when to do so would overcrowd the facilities of the admitting district or in any way work a definite hardship upon the educational program offered by the admitting district. The admitting district shall:

(i) Include any pupil admitted under this section among its average daily membership (ADM) for purposes of computing the foundation program under W.S. 21-13-309; and

(ii) Account separately for the portion of the tuition received pursuant to this section which is related to school buildings and facilities, as determined by the district and reported to the state department, and deposit that portion in its debt service account. The remainder shall be reported as revenues for purposes of W.S. 21-13-310(a)(ix).

(c) The amount of tuition assessed under this section shall be determined by dividing the total operating cost of the
district for the previous year, plus the cost of bond redemption and interest for the previous year, by the total of the district's average daily membership for the previous year.

(d) Subject to state board approval if an out-of-state placement as required under subsection (a) of this section, nonunified school districts shall be reimbursed from the school foundation program account for tuition paid under subsection (a) of this section as if the district's total foundation program amount for that year as computed under W.S. 21-13-309(p) was increased by the amount of the tuition paid during the preceding year.

(e) Any out-of-state placement under subsection (a) of this section shall include within the agreement with the out-of-state school district, that district's agreement to provide student transcripts as required under W.S. 21-16-1308(a)(ii). The agreement shall also require the out-of-state school district to cooperate with the department of education to identify those courses provided by the out-of-state school district which satisfy the success curriculum requirements established under W.S. 21-16-1307.

21-4-502. Attendance in another district when convenient or desirable; admission of pupils resident in other districts; attendance for ADM computations specified.

(a) The board of trustees of every school district within the state may provide for the enrollment of any pupil resident therein in a school within another district if the pupil desires to attend the school and if attendance in such other district would be more convenient or is desirable because of services available in the other district. Except as provided under subsection (c) of this section, the district providing for the enrollment of the pupil in a school within another district shall not include the pupil within its average daily membership (ADM) for purposes of the foundation program under W.S. 21-13-309.

(b) Any district within the state may admit pupils resident in other districts of the state unless the admission overcrowds the classrooms of the admitting district. No district within the state shall be required to admit a pupil who has been suspended or expelled by the board of trustees or designated disciplinarian of any other district located in or outside the state. Except as provided under subsection (c) of this section, the district admitting a pupil under this subsection shall not
assess tuition payments upon the district wherein the pupil resides, but shall include the pupil within its average daily membership (ADM) for purposes of determining its foundation program amount under W.S. 21-13-309.

(c) Any district within the state may allow pupils enrolled in another school district in the state to receive a portion of a pupil's education pursuant to an agreement with the district in which the pupil is enrolled. The agreement shall be in writing with a copy kept on file by both districts. The district providing for the enrollment of the pupil shall include the pupil within its average daily membership (ADM) for purposes of the foundation program under W.S. 21-13-309. The district providing a portion of the pupil’s education may assess the district providing for the enrollment of the pupil tuition for the classes the pupil attends. The tuition shall be equal to or less than the per ADM amount for the district providing a portion of the pupil’s education prorated to reflect the number of classes attended by the pupil.

21-4-503. Repealed By Laws 1999, ch. 110, § 103.

21-4-504. Cost of maintaining pupil attending school outside district of residence.

A school district admitting a pupil from a nonunified school district in the state under W.S. 21-4-501 or providing for the enrollment of a pupil in a school within a school district in another state under W.S. 21-4-505 shall, in accordance with rules and regulations of the state department, be reimbursed from the school foundation program account for expenditures for maintaining that pupil in the admitting district for any length of time the pupil is required to reside in the admitting district. Reimbursement under this subsection shall be subject to and reported in accordance with rule and regulation of the state department and shall be administered as if the district's total foundation program amount computed under W.S. 21-13-309(p) is increased by the amount of the expenditure for maintenance during the preceding year for a school district admitting a pupil from a nonunified school district in the state under W.S. 21-4-501 and in the current school year for pupils attending a school in another state under W.S. 21-4-505.

21-4-505. Payment of tuition for pupil attending school in another state; admission of out-of-state pupils.
Whenever it shall appear to the board of trustees of any school district within the state that instruction for any pupil residing in the district can be more advantageously or economically furnished by a public school maintained by another state, the board of trustees of such Wyoming district may enter into an agreement for the instruction of such pupils at rates of tuition specified in the agreement. The Wyoming district shall be reimbursed for the full amount of tuition assessed by the out of state district during the current school year subject to the following:

(i) Effective school year 2017-2018 and each year thereafter, the Wyoming school district shall submit a report to the department of education in the manner and form and at times specified by department rule and regulation, documenting the number of pupils attending a public school maintained by another state and verifying payments to such districts for educational services;

(ii) From amounts appropriated by the legislature from the public school foundation program account for purposes of this subsection, the department of education shall distribute payments to eligible districts in accordance with this subsection on or before May 15 of the applicable school year, together with the district's foundation payment under W.S. 21-13-313(c), if applicable;

(iii) The district shall not include a pupil attending a school within an out of state school district within its average daily membership (ADM) for purposes of computing its foundation program amount under W.S. 21-13-309.

Any school district within the state may enter into agreements to admit pupils from out of state at the rate of tuition at least as high as the actual per pupil cost of the Wyoming district computed as provided in W.S. 21-4-501(c). The admitting district shall:

(i) If it requires payment of tuition at least as high as provided under W.S. 21-4-501(c), include the admitted out of state pupil within its average daily membership (ADM) for purposes of computing its foundation program amount under W.S. 21-13-309; and

(ii) Account separately for the portion of the tuition received pursuant to this subsection which is related to school buildings and facilities, as determined by the district
and reported to the state department, and deposit that portion in its debt service account. The remainder shall be reported as revenues for purposes of W.S. 21-13-310(a)(ix).

(c) Any out-of-state placement under subsection (a) of this section shall include within the agreement with the out-of-state school district, that district's agreement to provide student transcripts as required under W.S. 21-16-1308(a)(ii). The agreement shall also require the out-of-state school district to cooperate with the department of education to identify those courses provided by the out-of-state school district which satisfy the success curriculum requirements established under W.S. 21-16-1307.

21-4-506. Participation in activities by students not enrolled in the district; limitation on fees.

(a) Any school age child who is a resident of a school district, who is not under suspension or expulsions by a Wyoming school district and who is not enrolled as a full-time student in the district in which he resides, shall be permitted by the district to participate in any activities which are sanctioned by the Wyoming high school activities association and which are offered by the district subject to the following:

(i) The district may require the student to pay any fees for participation which are required by the Wyoming high school activities association;

(ii) The district may charge that student an additional fee for participating, but that fee shall be no more than any fee for participating charged to full-time students of the district. The district shall not require that student to pay tuition or to pay any other fees or charges as a condition of participation;

(iii) As a condition of participation, the student shall be required to comply with all other rules and policies of the district or any school activities association applicable to all students participating in the activity and not related to the assessment of fees or charges.

ARTICLE 6
AMERICAN INDIAN EDUCATION PROGRAMS

21-4-601. Education programs on the Wind River Indian Reservation.
(a) The legislature finds that, through education programs provided by the Eastern Shoshone and the Northern Arapaho Indian Tribes to school age Indian children residing on the Wind River Indian Reservation, the state can address conditions of unemployment, poverty and lack of adequate job skills which exist on the reservation. Maintenance of these education programs unique to Indian students is of mutual benefit to the tribes and the state, reducing future financial needs of those students as tribal members and as Wyoming residents for public education, job services, substance abuse services and income supplements.

(b) Subject to amounts appropriated by the legislature, the state superintendent of public instruction shall enter into negotiations with the individual or joint business councils of the Eastern Shoshone and Northern Arapaho Indian Tribes to determine the appropriate contractual arrangements for the provision of education programs and services addressing Indian students at risk of failure in school and other programs and services essential to the success and welfare of these students as specified under subsection (a) of this section. Contractual arrangements entered into under this subsection shall include a requirement that the expenditure of contractual amounts, as verified annually in writing, is for programs tied to improvement of student performance on the statewide assessment. For purposes of this section, the state superintendent shall include an amount within his biennial budget request which is computed in accordance with subsection (c) of this section to provide a per student amount that when nonstate funding sources are considered, is comparable to per student amounts provided for public schools under the Wyoming education resource block grant model.

(c) To arrive at a biennial funding amount for purposes of subsection (b) of this section, an estimate shall be computed as follows:

(i) Determine a combined average per student funding level under the Wyoming education resource block grant model for Fremont County school districts number fourteen (14), number twenty-one (21) and number thirty-eight (38);

(ii) Multiply the per student amount determined under paragraph (i) of this subsection by the number of students enrolled in education programs and services provided by the
joint business council pursuant to subsection (a) of this section;

(iii) Subtract from the amount computed under paragraph (ii) of this subsection all Federal Bureau of Indian Affairs funds for K-12 programs received by the joint business council for education programs and services provided under subsection (a) of this section.

(d) The joint business council of the Eastern Shoshone and the Northern Arapaho Indian Tribes shall annually report to the governor and the state superintendent of public instruction on the expenditure of contractual amounts as required under subsection (b) of this section.

21-4-602. American Indian educational program.

(a) The state board through the department of education shall, in cooperation with tribes of the region including the Eastern Shoshone and Northern Arapaho Indian tribes, evaluate and review existing state social studies content and performance standards to ensure the cultural heritage, history and contemporary contributions of American Indians are addressed in the Wyoming social studies content and performance standards.

(b) The department shall, in consultation with tribes of the region including the Eastern Shoshone and Northern Arapaho Indian tribes, make available materials and resources on the department's official web site to assist school districts in meeting social studies benchmarks within Wyoming social studies content and performance standards relating to the study of American Indian tribes.

COUNTY FINANCIAL SUPPORT

(b) On or before September 1 of each year, the state department of education shall notify the treasurer of each county of the percentage proportion to be allocated from the countywide six (6) mill school levy to each school district in
his respective county. The computation of the distribution of the countywide six (6) mill levy shall be made by the department of education on the basis of the average daily membership (ADM) for the previous year. This number, for each district, shall be converted into a percentage of the total average daily membership (ADM) for all school districts within the county. The county treasurer shall distribute the revenue arising from the countywide six (6) mill levy among the school districts of the county according to the percentage computed above and pursuant to W.S. 21-13-207.

All fines, penalties, and forfeitures provided by the school laws may be recovered by an action by any citizen in the name of the people of the state of Wyoming for the use of the proper school district or county, and when they accrue, shall belong to the school district or county in which they have accrued and shall be deposited with the county treasurer.

permanent land income fund for the use of the public schools in the state treasury, the state treasurer shall, after making any distributions necessary under W.S. 21-15-108(a), distribute the income in the account to the school foundation program. The state treasurer may make distributions to the school foundation program under this section at such times and in such amounts as may be advantageous for the state’s investment program and cash management, but all income shall be credited to the school foundation program not later than June 30 of each year.

(a) For the support of the public elementary and secondary schools of the state, there shall be assessed and levied each year a state tax of twelve (12) mills on the dollar of the assessed valuation of the property within the state as certified on August 10 under W.S. 39-11-102.1(c)(v) except as provided in subsection (c) of this section. The tax is in addition to any and all other taxes authorized by law.

(c) Between July 1 and July 10 of each year the state auditor and the state treasurer shall determine if the unobligated average daily general fund balance over the preceding fiscal year exceeds twenty percent (20%) of the amount of the general fund appropriations for the present biennium. If the unobligated average daily general fund balance exceeds twenty percent (20%) of the amount appropriated, the excess is appropriated and shall be transferred into the foundation program account as soon as possible. The auditor and treasurer shall immediately notify the state board of equalization of the amount to be transferred. Based on the current assessed valuation of the state, the board shall compute the estimated amount of revenue to be produced by a twelve (12) mill levy, subtract the amount transferred to the foundation program account and then compute the mill levy necessary to produce the difference. The board shall certify the recomputed mill levy to the county assessors to be levied and collected in lieu of the twelve (12) mill state levy for the next tax year.

21-13-304. State treasurer to keep separate account.
The state treasurer shall keep a separate account and except as otherwise provided by law all monies appropriated for school purposes shall be kept in such account.

(i) Employed and compensated teachers for not less than nine (9) school months during the previous year and has actually employed and is compensating at least one (1) teacher for the current year, except that a newly organized district need not have employed any teachers during the previous year in order to qualify for its first year of operation;
(ii) Operated all schools for a term of at least one hundred eighty-five (185) days or the number of days or equivalent hours authorized under an alternative schedule approved by the state board during the previous school year. If the school term of any school in a district was less than one hundred eighty-five (185) days or less than the total number of days authorized under an alternative schedule approved by the state board, the amount allotted per average daily membership (ADM) under W.S. 21-13-309 for the school shall be in proportion to the length of the term the school actually operated, unless caused by closures of schools:

(A) Due to fuel shortages, fire, construction problems, weather, civil disturbance or threatened civil disturbance, days of national recognition, widespread illnesses; or

(B) Whenever necessary to protect the health, safety or welfare of students, teachers and other employees and closures are approved by the state superintendent or are the result of presidential or gubernatorial executive orders.

(b) Each district shall provide financial reports to the department on forms and in such manner required by the department under W.S. 21-2-203 and by rules and regulations promulgated by the state superintendent of public instruction pursuant to this article. In administering this article, the state superintendent may conduct audits of information submitted by districts under this article as necessary to administer and perform computations pertaining to the cost components within the education resource block grant model, and may, after consulting and negotiating with the school district, correct the information reported by districts under this article to fairly and accurately reflect the data type, classification and format necessary to perform computations required to administer the school finance system established under this article.

(iv) Based upon reports from each district on schools operating within that district for the current school year and on grade configurations contained within each reported school during that school year, compute the average daily membership (ADM) for each reported school and each grade within each reported school in accordance with identified grade configurations subject to the following:

(A) If the district's average ADM for the three (3) immediately preceding school years is greater than the district's ADM from the previous school year, each reported school shall be computed based upon the average of the school's ADM counts completed at the end of the three (3) immediately
preceding school years, otherwise each reported school within the district shall be computed based on the school's ADM for the previous school year;

(B) For each school year, the configuration of grades for each school shall be based upon the ADM reported for each grade in which students were enrolled for the immediately preceding school year;

(C) Repealed By Laws 2012, Ch. 99, § 2.

(v) Based upon ADM computations and identified school configurations within each district pursuant to paragraph (iv) of this subsection, compute the foundation program amount for each district as prescribed by the education resource block grant model adopted by the Wyoming legislature as defined under W.S. 21-13-101(a)(xiv), as contained within the spreadsheets and accompanying reports referenced under W.S. 21-13-101(a)(xvii). A student shall be counted only once for purposes of computing school at-risk student populations even though that student may simultaneously be eligible to participate in the free and reduced price lunch program, in programs serving students with limited English proficiency or is defined as a mobile student;

(B) Alternative schools qualifying for separate consideration under the education resource block grant model may be established by a school district for offering educational programs to students with educational needs which the district finds are not appropriately met by other schools in the district, excluding charter schools established under W.S. 21-3-301 through 21-3-314. Alternative schools included within a district's configuration of schools identified under paragraph (iv) of this subsection shall for purposes of the education resource block grant model:
(I) Be approved as an alternative school by
the department of education prior to July 1, 2006;

(II) Repealed By Laws 2007, Ch. 147, § 102.

(III) Unless otherwise authorized by the
state superintendent, be restricted to not more than one (1)
alternative school within any school district;

(IV) Except as otherwise provided in
subdivision (V) of this subparagraph, on and after July 1, 2014,
and if not qualifying under subdivision (I) of this
subparagraph, be approved by the state superintendent subject to
the following:

(1) Completion of a formal evaluation
of the school district's at-risk programs to ensure provision of
a continuum of learning supports and classroom interventions
addressing the needs of at-risk children within the district
which is comprised of the following:

   a. Criteria for identifying
   at-risk students in accordance with and subject to
   research-based indicators;

   b. Use of individual learning
   plans for each identified at-risk student or an equivalent
   school-wide plan that defines interventions, programs and
   services required to address special needs. The plans shall be
   continuously monitored by the district;

   c. Use of quality learning
   supports and classroom interventions based upon the special
   needs of the student population served by the district and the
   supports and interventions are supported by and based upon
   research-based practices and strategies;

   d. Data based predictors to
   identify students at-risk of dropping out of school after
   reaching the age of compulsory attendance pursuant to W.S.
   21-4-102 and learning supports and classroom strategies to
   address this student population.

(2) A formal evaluation is conducted
by the district not less than once every two (2) years of the
school's programs, comprised of the continuum of learning
supports and classroom interventions specified under subdivision (IV)(1) of this subparagraph. The evaluation shall measure the effectiveness of the school's programs in meeting the needs of those student populations attending the school. Formal evaluations conducted under this subparagraph shall be reported to and approved by the district board and reported to the state superintendent together with action plans addressing necessary program improvements;

(3) Student achievement within the school is reported annually by the district to the state superintendent, as measured by quality indicators specified by rule and regulation of the department which reflect the components of the continuum of learning supports and classroom interventions specified under subdivision (IV)(1) of this subparagraph;

(4) Educational space for the school is provided through facilities operated and maintained by the district and approved by the state construction department as meeting statewide adequacy standards. After two (2) evaluations by the state superintendent under subdivision (IV)(3) of this subparagraph that demonstrate academic progress or success of an alternative school's educational program, the alternative school shall be included in the district's five (5) year plan under W.S. 21-15-116 and the school's long-term facility needs shall be evaluated by the state construction department. Notwithstanding subparagraph (m)(vi)(C) of this section, the state construction department shall not approve any district plan which includes educational space for the alternative school within a separate facility unless the district provides sufficient documentation and evidence that the school cannot be collocated within a facility containing educational space for another school with similar grade configurations operated by the district.

(V) Not be included for purposes of the block grant model if established on or after March 15, 2017 and before June 30, 2019. No new alternative school shall be approved by the department on and after March 15, 2017 and before July 1, 2019.

(C) Salaries for all school and district level staffing categories, including teachers, principals and assistant principals, central office administrators, secretarial and clerical staff, operations and maintenance staff and aides and media technicians, shall be based upon average statewide
salary levels calibrated under "Attachment A" for each staffing category, adjusted under subsection (o) of this section, including the experience, education and responsibility level as appropriate and as computed for each staffing category. The statewide average for each staffing category shall be adjusted for each district based upon the district experience, education and responsibility level relative to the statewide average for that category. District experience, education and responsibility level by appropriate staffing category shall be updated each year such that district adjustments reflect the prior school year staffing information. The district adjusted average salary for each staffing category shall be further adjusted for regional cost differences as measured by the greater of the hedonic wage index or the Wyoming cost-of-living index computed by the division of economic analysis, department of administration and information, with a minimum of one hundred (100) index value, as prescribed by the education resource block grant model. For purposes of the education resource block grant model, the version of the Wyoming cost-of-living index used by the division shall be based upon the unrecalibrated housing cost index weights unless otherwise determined by the legislature based upon recommendation of the joint education interim committee. In addition, the version of the Wyoming cost-of-living index applied under this subparagraph for any school year shall be the average of the six (6) consecutive semi-annual index reports completed by January 1 of the immediately preceding school year;

(D) Career-vocational education computations within the education resource block grant model shall be based upon:

(I) The number of students enrolled in grades nine (9) through twelve (12) participating in career-vocational education programs on a full-time equivalency (FTE) basis, as computed in accordance with guidelines established by the department of education;

(II) Career-vocational education programs offered in grades nine (9) through twelve (12) consisting of a sequence of three (3) or more vocational courses in an occupational area or career cluster that provides students with the technical knowledge, skills or proficiencies necessary to obtain employment in current or emerging occupations or to pursue advanced skill training. To qualify under this subdivision, a vocational course shall be offered pursuant to W.S. 21-9-101(b)(i)(J) and aligned with state content and
performance standards prescribed by the state board of education under W.S. 21-2-304(a)(iii), and except as provided under W.S. 21-2-202(a)(xxvii), shall be provided by a teacher certified by the Wyoming professional teaching standards board for the vocational subject area associated with the course;

(III) The number of full-time equivalent (FTE) vocational education teachers within the school, as computed in accordance with guidelines prescribed by the department, providing career-vocational education instruction in grades nine (9) through twelve (12) and except as provided under W.S. 21-2-202(a)(xxvii), certified by the Wyoming professional teaching standards board to provide instruction at the high school level for vocational education courses comprising career-vocational education programs. Nothing in this subdivision shall require a district to employ teachers certified for high school vocational education instruction on a full-time basis or to require teachers to teach only high school vocational education courses on a full-time basis.

(E) Amounts computed under the education resource block grant model for each school district based upon amounts generated by each school within the district and based upon amounts generated at the district level for that district within the block grant model, shall be adjusted by adding the following amounts:

(I) An amount for district transportation of school children as provided under W.S. 21-13-320;

(II) An amount for district special education programs and services as provided under W.S. 21-13-321;

(III) An amount for any extra compensation payments to district teachers as provided under W.S. 21-13-324;

(IV) An amount for any isolation and maintenance payments by the district as provided under W.S. 21-4-401;

(V) An amount for any tuition and maintenance payments made by the district pursuant to W.S. 21-4-501(d) and 21-4-504.

(F) Amounts provided within the model for health insurance shall be based upon:
(I) Prior year statewide average district weighted actual participation in district health insurance plans as to the proportion of employee only, split contracts, employee plus spouse or children and family coverage;

(II) The annualized state contribution rate as of January 1 of the preceding school year, on behalf of each employee and official enrolled in the state group health insurance plan, for employee only, split contracts, employee plus spouse or children and family coverage except as provided in subdivision (III) of this subparagraph; and

(III) For school year 2020-2021 and school year 2021-2022, the amount provided to a school district for health insurance shall be calculated using the annualized state contribution rate as of January 1, 2019 for employee only, split contracts, employee plus spouse or children and family coverage based on district weighted actual participation in district health insurance plans for the 2018-2019 school year, plus additional funding as calculated pursuant to 2020 Senate File 0001, Section 334(b) as enacted into law.

(G) Amounts within the block grant model for maintenance and operations shall be based upon actual gross square footage of school buildings and facilities subject to the following:

(I) Actual gross square footage of school buildings and facilities shall be separated into education and noneducation space categories by school and by district, including leased square footage but excluding square footage not used for delivering the required educational program and the square footage of any building or facility closed and not operational as provided under W.S. 21-15-109(c)(iv);

(II) Actual gross square footage of education space shall be the gross square footage prescribed by statewide building adequacy standards promulgated pursuant to W.S. 21-15-115. (vi) Except for charter schools established under W.S. 21-3-301 through 21-3-314 and alternative schools approved under subdivision (v)(B)(IV) of this subsection, any alteration of the configuration of grades within a district, school or school facility which differs from the configuration of grades during the immediately preceding school year as reported under paragraph (iv) of this subsection shall be considered a reconfiguration and shall be documented by the district and reported to the state superintendent and the director of the state construction department. Following review and evaluation, the state superintendent and the director of the state construction department shall, each acting independently, approve or deny the reconfiguration for purposes of application to the education resource block grant model and the determination of school facility needs and remedies. The following shall apply:

(A) Approval under this paragraph shall be based upon the appropriate delivery of the required educational program, the cost effectiveness of the proposed grade reconfiguration for delivery of adequate educational services to students with block grant resources, district wide capacity of school educational facilities as defined under W.S. 21-15-109(a)(ii) and any extraordinary circumstances related to the safe and efficient delivery of the education program to students;

(B) Approval under this paragraph shall be required prior to receiving state funds for adding any new school within a district;

(C) Effective for the school year commencing after July 1, 2012, and each school year thereafter, no reconfiguration of grades within any district, school or facility shall differ from the previous school year such that more than one (1) school is included within any one (1) school facility to be reported under paragraph (iv) of this subsection for purposes of determining the foundation program amount for that district;
(D) As used in this paragraph, "configuration" means the approved combination of grades served within a district, school or school facility as reported for purposes of determining the foundation program amount for that district under this section.

(n) Repealed By Laws 2002, Chapter 76, § 3; 2006, Chapter 37, § 2.

(o) To the extent specifically provided by the legislature, and between periods of model recalibration required under subsection (t) of this section, the amount computed for each district under subsection (m) of this section shall be adjusted to provide for the effects of inflation, excluding those amounts specified under subparagraphs (m)(v)(E) and (F) of this section and the assessment component contained in paragraph (b)(xxvii) of "Attachment A" as referenced in W.S. 21-13-101(a)(xvii). The adjustment under this subsection shall not be applied until the expiration of the school year immediately following the first school year of application of the recalibrated model, and shall be adjusted on a cumulative basis each school year thereafter and until the first school year of application of a subsequent model recalibration. Following analysis of information reported under subsection (u) of this section, the joint appropriations interim committee shall submit a recommendation to the legislature and the governor not later than November 1 of each applicable year on an external cost adjustment for purposes of this subsection.

(i) Repealed By Laws 2006, Chapter 37, § 2.

(ii) Repealed By Laws 2006, Chapter 37, § 2.

(p) Except as otherwise provided by law and following the computation and application of any adjustment under subsection (o) of this section, the amount computed for each school within each district shall be combined with the amount computed and provided on a district level for that district, as prescribed by the education resource block grant model, to determine the foundation program amount for each district.

(q) Repealed By Laws 2006, Chapter 37, § 2.

(r) Repealed By Laws 2006, Chapter 37, § 2.

(s) Repealed By Laws 2006, Chapter 37, § 2.
(t) Not less than once every five (5) years, the legislature shall provide for the recalibration of the education resource block grant model to determine if modifications are necessary to ensure it remains cost-based in light of changing conditions and modifications to law.

(u) To ensure model components specified under the education resource block grant model defined under W.S. 21-13-101(a)(xiv), as enumerated and enacted by the legislature and included in "Attachment A" referenced in W.S. 21-13-101(a)(xvii), remain resourced at cost-based levels between periods of model recalibration required under subsection (t) of this section, and prior to adjustment for the effects of inflation for any school year under subsection (o) of this section, the joint education interim committee shall annually receive and review reports in accordance with this subsection and report to the joint appropriations interim committee as required by this subsection. The legislative service office shall assemble information necessary to develop a model monitoring process and other reports for the committee using data maintained by the department of education and other state agencies. For this purpose, the department shall annually update and compile information, in a format contained within reports provided during 2010 model recalibration, reported at the model component level, on school district allocation of model resources, as well as other information provided for purposes of developing and completing the 2010 cost of education studies. Each year excluding the first school year of application of any model recalibration performed under subsection (t) of this section, the information and analysis assembled by the legislative service office under this subsection shall be reported to the joint education interim committee in sufficient time to allow committee review of and deliberation on the report and the submission of recommendations to the joint appropriations interim committee by October 15 of the applicable school year. Report recommendations shall be used by the joint appropriations interim committee in its determination of legislative recommendation on model adjustment under subsection (o) of this section.

educational programs under W.S. 21-2-304(a)(ii), the revenues specified under this subsection shall be deemed state revenues and shall be considered in determining the amount to be distributed to each district under W.S. 21-13-311. A district shall make an annual computation of the following revenues:

(i) The revenue collections to be received by each district during the school year as its proportionate share of the county six (6) mill levy imposed under W.S. 21-13-201(a) as certified on August 10 under W.S. 39-11-102.1(c)(v) for that school year;

goods or services, such as rental fees and the price paid for admission into any place for recreation, entertainment or an athletic event. Upon application of a district, the department shall exclude from this paragraph revenue received by the district if the department finds that the revenue could not be used by the district to provide educational services to students.

(b) On or before July 10 of each year the county treasurer of each county shall certify to the state superintendent, in such form as the state superintendent shall provide, a report of monies distributed by him to each district within the county during the previous school year.

(c) Annually, commencing on July 30, 1984, the state board of equalization, when determinable, shall certify to the department of education whether or not the level of local assessments for any category in each county is in accord with the requirements of the board of equalization and, if not, the percent by which the assessments are below the board's requirements.

(d) As used in this section, assessed valuation means the assessed valuation certified on August 10 under W.S. 39-11-102.1(c)(v).

(e) Repealed by Laws 1989, ch. 260, § 3.

(g) Repealed by Laws 1993, ch. 107, § 2.

21-13-311. Determination of amount to be distributed to each district from foundation account; undistributed balance; prohibition on expenditures.

(a) The amount of money which shall be distributed to each district from the foundation account shall be determined by subtracting the sum of the district revenues computed in accordance with W.S. 21-13-310 from the total amount of the foundation program computed in accordance with W.S. 21-13-309.

(b) Repealed By Laws 1997 Special Session, ch. 3, § 304.

(c) The amount of the foundation account which is not distributed in any year, for any reason, shall be held in the
foundation account for distribution in subsequent years in accordance with this article.

(d) Effective school year 2011-2012 and each school year thereafter, no foundation program funds distributed under subsection (a) of this section shall be expended by any district for conducting random drug testing of students within the district without prior approval of the student's parents.

21-13-312. Prorating payments when income from foundation account insufficient.

(a) To preserve the integrity of the foundation account for the biennium and so that payments can be made during the full school year for each year of the biennium, if it appears to the state superintendent that the income available to the foundation program account is not sufficient to meet the payments as provided by law:

(i) The state superintendent shall determine a uniform percentage by which the amount guaranteed to each district under W.S. 21-13-309 shall be reduced so that available revenues in the foundation program account for that school year are as nearly as possible equal to the amount necessary to fund payments to districts under W.S. 21-13-313; and

(ii) The revenue to be rebated by a district under W.S. 21-13-102(b) shall be adjusted based upon the guaranteed amount for that district determined under paragraph (a)(i) of this section.

21-13-313. Distribution of funds from foundation account; property tax and cash reserve adjustment; regulations.

(a) For each school year the state auditor, on the certification of the state superintendent, shall draw warrants on the state treasurer for the amount of money which shall be distributed to each district from the foundation account as computed under W.S. 21-13-311. The warrants, payable to the treasurer of the district concerned, shall be delivered to the state superintendent for distribution to the several school districts.

(b) The state superintendent shall determine on or before August 15 of each year the tentative allotment of foundation funds to which each district is entitled under this article. In making this determination, the state superintendent may, if
current fiscal information required by law to compute the tentative allotment is not available for any district by August 1 of that year, use fiscal information available to the state superintendent from the foundation program computations of the previous school year for that district. The previous year's fiscal information shall be adjusted to reflect current fiscal changes and other information known by or available to the state superintendent. Upon receiving actual fiscal information from a district, the state superintendent shall accordingly adjust future foundation program determinations for that district such that foundation program payments appropriately reflect current fiscal information for the applicable school year.

(c) Fifteen percent (15%) of each district's entitlement shall be paid to the district on or before August 15 of each year and subject to any adjustment under subsections (d) and (e) of this section, ten percent (10%) of each district's entitlement shall be paid on or about the fifteenth day of each month through April of each year. The final payment for the balance of each district's entitlement shall be distributed on or before May 15 of each year. If, after March 1 and before April 1, the state superintendent determines that the entitlement to be paid to a district for that school year is not accurate, the state superintendent shall adjust payments to or from that district as necessary to correct the inaccuracy as soon as practicable. Except as provided under W.S. 21-2-202(e), after March 31 of any school year, the state superintendent shall not adjust any district's entitlement or fiscal information used to compute a district's entitlement for that school year, and the entitlement or fiscal information shall only be adjusted thereafter in accordance with audit review pursuant to W.S. 9-1-513.

(d) On or before August 15 of the succeeding fiscal year, each school district shall report the amount of revenue it received during the preceding fiscal year attributable to levies provided by W.S. 21-13-102(a)(i)(A) and (ii)(A) and 21-13-201 regardless of the assessment year, but not to include assessments from years prior to July 1, 1991. If those revenues reported are less than the revenues estimated under W.S. 21-13-310(a)(i) and (ii) for that fiscal year, as applicable, and if the district's total revenues computed under W.S. 21-13-310 for that fiscal year continue to be less than the total foundation program amount computed under W.S. 21-13-309, the school district shall be paid the difference by October 15 from the foundation program account. No amount in excess of the total foundation program amount computed for any district for
that fiscal year shall be paid from the foundation program account for purposes of this subsection. Any amount paid under this subsection shall not thereafter be relevant to or used for future foundation program calculations. If those revenues reported are greater than the revenues estimated under W.S. 21-13-310(a)(i) and (ii) for that fiscal year, as applicable, the excess shall be included as revenues of the district under W.S. 21-13-310 in computing the foundation entitlement for the succeeding fiscal year.

(e) Not later than January 31 of each fiscal year, the department shall compute the amount by which each district's operating balance and cash reserves at the end of the preceding fiscal year exceed fifteen percent (15%) of the total foundation program amount computed under W.S. 21-13-309 for the preceding fiscal year. In making this calculation, the entire operating balance and cash reserves for each district for the fiscal year ending June 30, 1997, as computed by the department, shall be separately accounted for and excluded, until it has been completely expended by the district. Revenues from settlements of protested amounts attributable to levies assessed under W.S. 21-13-102(a)(i)(A) and (ii)(A) and 21-13-201, regardless of the assessment year, shall be accounted for and excluded from the calculation under this subsection for a period of not more than one (1) year following that fiscal year in which the revenue was received by a district, as verified in writing by the district and certified by the county treasurer. Except as otherwise provided in 1997 Special Session Laws, chapter 3, section 306(e), as amended, and except as excluded under this subsection, that excess shall be deemed to be a state revenue under W.S. 21-13-310(a) for the purpose of determining distributions under W.S. 21-13-311 and amounts to be rebated under W.S. 21-13-102. The department shall promulgate rules, including reporting requirements and procedures for districts, to implement this subsection. As used in this section, "operating balance and cash reserves" means those financial resources of the district which are not encumbered by the district board of trustees for expenditure to meet an existing legal obligation or otherwise restricted by law or regulation for expenditure on specific educational programs. For purposes of this subsection, any balance within a district's separate account established under W.S. 21-15-109(e) for major building and facility repair and replacement shall be deemed restricted by law for expenditure as provided by W.S. 21-15-109(e) and shall not be considered an operating balance and cash reserve under this section.
(g) In addition to subsections (b) and (c) of this section, the state superintendent shall, for any district subject to W.S. 21-13-102(b) as determined by the department for any school year, or for any district not subject to W.S. 21-13-102(b) whose entitlement amount determined under W.S. 21-13-311(a) for any school year is equal to or less than twenty percent (20%) of the foundation program amount computed under W.S. 21-13-309(p), and upon demonstration by the district of financial need as documented by cash flow analysis, provide payments from the school foundation program account in an amount not to exceed one-fifth (1/5) of the foundation program amount computed for that district for that school year in accordance with W.S. 21-13-309. The computed amount shall be paid to each eligible district on or before September 1 based upon tentative computations under W.S. 21-13-309, for which the department may use fiscal information available from foundation program computations for the previous school year in the manner provided under subsection (b) of this section. Any district receiving a payment under this subsection shall repay the foundation program account not later than December 15 of that school year.

21-13-315. Costs of court ordered placement of children in private residential treatment facilities, group homes, day treatment programs and juvenile detention facilities.

(a) The department of family services shall establish an account to pay residential and treatment costs excluding educational and medical costs of court ordered placements of children in private residential treatment facilities and group homes located in Wyoming. Programs providing education services including programs for children with disabilities provided by a board of cooperative educational services, shall bill the department of education directly for educational costs of court ordered placements. In addition, costs of all services provided pursuant to a student's individualized education program, including special education services, related services and supplementary aids and services for children with disabilities and costs of education assessment for other children incurred as a result of court order prior to any placement, shall be billed directly to the department of education. The department of family services shall promulgate reasonable rules and regulations to provide procedures for implementing subsection (m) of this section. If the court rejects an in-state placement
recommendation of the predisposition report or multidisciplinary team under W.S. 14-6-227 or 14-6-427, the court shall enter on the record specific findings of fact relied upon to support its decision to deviate from the recommended disposition. No court shall order an out-of-state placement unless:

(i) Evidence has been presented to the court regarding the costs of the out-of-state placement being ordered together with evidence of the comparative costs of any suitable alternative in-state treatment program or facility, as determined by the department of family services pursuant to paragraph (d)(vii) of this section, whether or not placement in the in-state program or facility is currently available;

(ii) The court makes an affirmative finding on the record that no placement can be made in a Wyoming institution or in a private residential treatment facility or group home located in Wyoming that can provide adequate treatment or services for the child; and

(iii) The court states on the record why no in-state placement is available.

(b) Except to the extent costs are covered under subsection (n) of this section, the department of education using federal or foundation funds, or both, shall pay for the allowable education costs of juvenile and district court ordered placements of children residing in private treatment facilities and group homes where a fee is charged, including court ordered placements in programs for children with disabilities provided by a board of cooperative educational services. No district shall receive funds, either directly or indirectly, from any facility or home receiving payment under this section for providing education programs and services to children placed and residing in the facility or home, but the district may count the children among its average daily membership if the district provides education services directly to the children or pays another district to provide education services to the children pursuant to contract. The department of education shall adopt reasonable rules and regulations prescribing standards and allowable costs for educational program services funded under this section. Standards shall be subject to W.S. 21-9-101 and 21-9-102 and rules and regulations of the state board and shall be designed to fit the unique populations of residential centers, group homes, programs and services provided by boards of cooperative educational services and out of state placement facilities.
(c) Costs shall be billed monthly by the program provider to:

(i) The department of family services account for residential and treatment services; and

(ii) Except to the extent costs are covered under subsection (n) of this section, the department of education for approved educational services specified under subsection (b) of this section.

(d) If a placement of a child is to be made and funded under this section, the predisposition study required by W.S. 14-6-227 or 14-6-427 shall include:

(i) A description of efforts to provide services to the child in the home prior to placement;

(ii) Contact with other agencies involved with the child. At a minimum, those contacted shall include the child's school and the field office of the department of family services;

(iii) The presence of any preexisting and identified handicapping conditions;

(iv) A review of the financial resources of the child's parent or guardian;

(v) A certification by the department of family services that funding for the placement is available within the appropriation. The placement of the child shall not be funded under this section if the department of family services is unable to make the certification. The department of family services shall make the certification only if unencumbered funds are available within the appropriation making allowance for the costs for children already placed. Funds shall not be certified available if an adequate, less restrictive, less expensive placement is available;

(vi) The names of persons and agencies contacted in preparing the report; and

(vii) If an out-of-state placement is under consideration, the name, address, program description and costs of each Wyoming institution and each private residential
treatment facility and group home located in Wyoming that the department of family services has determined can provide adequate treatment or services for the child, and whether placement in the in-state institution, treatment facility or group home is available.

(e) If at any time the placement is found to be educationally inappropriate or not the least restrictive placement available, the placement shall be referred back to the court with a recommendation on what would be a suitable placement.

(f) Only group homes and residential treatment facilities certified by the department of family services are eligible to receive funding for residential and treatment services under this section. Costs for education services shall be paid by the department of education under this section only if the educational program of the group home or residential treatment facility or the program provided by the board of cooperative educational services meets the standards of subsection (b) of this section and has been approved by the department. The department of family services and the department of education shall provide the courts with a list of approved facilities and services. The court shall determine the parents' or the guardian's contribution to the court ordered placement for all costs excluding necessary education costs based on the parents' or guardian's ability to pay as provided by W.S. 14-6-236 or 14-6-435.

(g) Repealed by Laws 1987, ch. 221, § 2.

(h) In the placement order the court shall declare the child's school district or school districts of residency in any district or districts which it deems proper in the best interests of the child. The declaration by the court shall be binding upon the school districts.

(j) In the placement order the court shall determine that adequate efforts were made to maintain the child in the child's home prior to placement.

(k) Except as otherwise provided by law, this section applies to children who are at least five (5) years of age as of September 15 of the applicable school year but who are under twenty-one (21) years of age.

Note: Effective 8/1/2021 this section will read as:
Except as otherwise provided by law, this section applies to children who are at least five (5) years of age as of August 1, or September 15 if pursuant to an approved request under W.S. 21-3-110(a)(xxxviii), of the year in which they may register in kindergarten as provided in W.S. 21-4-302(b) but who are under twenty-one (21) years of age.

(m) The department of family services shall regularly monitor the amount of unencumbered funds available within the appropriation making allowance for the costs for children already placed. If the projected costs exceed the amount available, the division shall terminate its contracts for services under this section after notice of thirty (30) days and reduce the rates it pays to all providers by a uniform percentage. The percentage shall be determined by the division and shall bring the costs and projected fund availability into balance. The division shall readjust rates dependent upon change in availability of funds.

(n) Prior to billing the department of education under paragraph (c)(ii) of this section, program providers shall bill the department of health for costs of approved educational services covered under the school health program under the Wyoming Medical Assistance and Services Act pursuant to W.S. 42-4-103(a)(xxx).

21-13-316. Interfund borrowing.

(a) The state treasurer may utilize interfund loans to the school foundation program account to ensure statutory payments are made when dedicated revenues are not yet received. Interfund loans under this subsection may be made from the legislative stabilization reserve account or, to the extent insufficient funds exist in the legislative stabilization reserve account, the common school account within the permanent land fund. Any interfund loans executed pursuant to this section shall be repaid in whole or in part periodically as soon as school foundation program account revenues permit.

(b) Repealed by Laws 1988, ch. 82, § 2.

21-13-319. Repealed By Laws 2002, Ch. 76, § 3.

21-13-320. Student transportation; amount within school foundation program formula for transportation maintenance and operations expenditures and school bus purchases; district reporting requirements.

(a) The amount provided for the transportation of school children within the education resource block grant model pursuant to W.S. 21-13-309(m)(v)(E)(I) shall be computed in accordance with this section.

(b) There shall be an amount computed for each school district equal to the base price amount for bus purchase and lease payment expenditures made by the district during the previous school year pursuant to subsection (g) of this section and for the amount actually expended by the district during the previous school year for:

(i) The maintenance and operation of transportation routes for transporting school children to and from school; and

(ii) The transportation of students to and from student activities authorized by department of education rules. For the purpose of this paragraph, student activities means athletic and nonathletic activities sanctioned by the Wyoming high school activities association and school sponsored athletic and nonathletic activities in grades preceding high school which directly correspond to those high school activities sanctioned by the Wyoming high school activities association. No reimbursement shall be made for transportation expenses for student activities for expenses for transportation in excess of one hundred fifty (150) miles from the Wyoming border into another state.

(c) Repealed by Laws 2019, ch. 204, § 4.

(d) Repealed By Laws 2004, Chapter 74, § 1.

(e) Repealed By Laws 2002, Ch. 76, § 3.

(f) The department of education shall adopt necessary rules and regulations to implement and enforce state standards established under this section and to administer this section. District expenditures computed under subsection (b) of this section shall not include expenditures for employee contributions to the Wyoming retirement system exceeding five
and fifty-seven hundredths percent (5.57%) of any member employee's salary. In addition, the department shall, in accordance with procedures prescribed by department rule and regulation, establish a base price for each school bus type or other student transportation vehicle type for the applicable fiscal period that complies with minimum state standards for vehicle specifications and equipment. The department shall also establish a process including competitive bidding which guarantees the acquisition of school buses and other student transportation vehicles approved for reimbursement and complying with state minimum standards and district fleet size restrictions at the established base price for the applicable fiscal year. Department rules shall establish appropriate restrictions on how and under which conditions a school district may procure a school bus or other student transportation vehicle, either through purchase or lease, to ensure that the procurement method used is the most cost effective. School districts shall notify the department of school bus and other student transportation vehicle needs and requirements for the appropriate fiscal year in the manner and within the times prescribed by department rule and regulation, and shall report expenditures, purchases and lease arrangements for the applicable reporting period, including vehicles replaced by purchases and leases, as required by department rule and regulation. The department shall annually review and conduct audits as necessary of information submitted under this section. As authorized under W.S. 21-13-307(b), the department may correct the information reported by districts under this section as necessary to fairly and accurately reflect the data type, classification and format required to administer this section in accordance with law and department rules and regulations.

(g) In addition to subsection (b) of this section and for purchases and leases conducted in a manner consistent with department rules, the transportation adjustment for each district under this section shall include an amount computed under this subsection for the purchase or lease of school buses and other vehicles used primarily for the transportation of students to and from school and to and from school activities. Computations of amounts reimbursed under this subsection shall be based upon the base price established by the department under subsection (f) of this section for the student transportation vehicle type. Amounts included within the adjustment under this subsection shall be subject to the following:

(i) Buses and other vehicles used primarily for student transportation, for which reimbursement is authorized,
shall meet state minimum standards for vehicle specifications and equipment and shall be subject to vehicle replacement schedules specified by department rule and regulation;

(ii) The number of buses and other student transportation vehicles comprising a district's fleet shall comply with fleet size standards established by rule of the department, which shall be established to ensure safe and efficient student transportation;

Districts participating in a combined service arrangement may agree to apportion reduced expenditures among themselves for the purposes of paragraph (ii) of this subsection;

(ii) This additional incentive shall be equal to fifty percent (50%) of the total savings but shall not exceed fifty thousand dollars ($50,000.00) for any one (1) combined service arrangement; and

(d) A district that provides educational services directly to the student, or contracts with another district to provide the educational services, shall continue to count the student among its ADM. A district shall eliminate students from its ADM if the psychiatric residential treatment facility provides the educational services pursuant to this section.

(e) Educational programs provided by psychiatric residential treatment facilities shall be certified and approved by the department of education prior to the facility billing the department for any educational services provided under this section. 21-13-501. Board of trustees of any school district authorized to hold election; building or repayment fund generally.

(a) The board of trustees of any school district may, whenever a majority thereof so decide, submit to the electors of the district the question whether the board shall be authorized to start a building fund of a certain amount, to be raised within a certain number of years, for the purpose of acquiring land, erection, enlargement, and equipping of school buildings, teacherages, garages or other such buildings as may be needed for school purposes therein, or submit the question of whether the board is authorized to direct the county treasurer to annually levy against the property of the district to pay off existing school district or school facility authority refunding bonds of a certain amount, not to exceed four percent (4%) on the assessed value of the taxable property therein as shown by the last preceding general assessment. The fund and any interest accruing thereto shall be held by the county treasurer for the purposes herein specified and shall be used for no other purpose. The fund may be voted and raised in addition to the existing bonded indebtedness of the district.

(b) The authority for levies to pay off existing refunding bonds as specifically authorized by this section is only effective for school districts receiving voter approval on or before September 15, 1982.

(a) The election in connection with the question under W.S. 21-13-501 shall be held on a date and in the manner prescribed for elections on the issuance of school bonds, except that the ballots must contain the words "building fund, yes" and
"building fund, no" or "levy against the property of the district to pay off existing refunding bonds, yes" and "levy against the property of the district to pay off existing refunding bonds, no". If the majority of the votes at the elections are "building fund, yes" or "levy against the property of the district to pay off existing refunding bonds, yes", the clerk of the district shall immediately notify the board of county commissioners and the county treasurer, and the board of county commissioners shall thereafter levy annually the tax necessary to raise the fund in the number of years specified. The funds as raised shall be kept in the custody of the county treasurer until sufficient funds have been raised to commence the building or to commence the payoff of the existing refunding bonds contemplated by the school district. The board of trustees may require the county treasurer to invest the funds raised under this section as permitted by law and the interest accruing from the investment shall be retained in the building fund and to make payments as directed by the board of trustees.

(b) The authority for levies to pay off existing refunding bonds as specifically authorized by this section is only effective for school districts receiving voter approval on or before September 15, 1982.

21-13-503. Election on issuance of bonds; discontinuance of tax levy.

At any time after the raising of a building fund has been commenced by any school district, the board of school trustees may submit to the electors of the district, as provided for bond elections by the Political Subdivision Bond Election Law, W.S. 22-21-101 through 22-21-112, the question whether the board shall be authorized to issue coupon bonds of the district, but in no case shall the amount of bonds exceed the bonded indebtedness permitted by law. BOND ISSUES

21-13-701. Submission of question to electors authorized; purposes for which indebtedness may be created; required public hearing on bonding proposition; reserve fund for maintenance required.

(a) The board of trustees of a school district may, after conducting at least two (2) public hearings as required under subsection (c) of this section and subject to subsection (d) of this section, submit to the qualified electors of the district on a date authorized under W.S. 22-21-103, the question of creating an indebtedness for the purpose of:
(i) Acquiring or improving land;

(ii) Acquiring or erecting buildings;

(iii) Enlarging, improving, remodeling, repairing or adding to buildings;

(iv) Equipping and furnishing buildings;

(v) Repair and maintenance; and

(vi) Any combination of the above.

(b) The purposes for which an indebtedness may be created shall be broadly construed. It is the intention of the legislature that school districts be empowered to create indebtedness under this section for any purpose which, directly or indirectly, enables the district to provide facilities which are in excess of the statewide standards for the adequacy of school buildings and facilities.

(c) Prior to submitting a bonding proposition to district voters in accordance with subsection (a) of this section, the school district board of trustees shall hold at least two (2) public hearings within the district at which the board provides an explanation of the need to obtain district funding for building and facility features that are in excess of state standards for buildings and facilities.

(d) In addition to subsection (a) of this section and for any bond proposition submitted to district voters on or after July 1, 2007, the proposition shall provide that not less than three percent (3%) of bond proceeds be used for the creation of reserves or sinking funds for the maintenance and repair of any buildings or facilities or any building or facility features in excess of state building and facility adequacy standards which are to be constructed or otherwise acquired through the bond issue.

21-13-702. Construction of school building on leased land; state and its agencies authorized to enter into leases.

A school building may be constructed on leased land provided that the lease shall be for a term of years not less than the economic life of the building as determined by the board. The state of Wyoming and any board, commission, department, corporation, instrumentality, or agency thereof may enter into
such a lease with a school district notwithstanding any other provision of law limiting the term of such a lease.

21-13-03. Limits on indebtedness.

Each school district actually and physically operating within its boundaries a school shall have a limit on outstanding indebtedness of ten percent (10%) of the assessed value of the taxable property therein. Nothing in this section shall be construed as permitting any combination of school districts embracing common territory to incur a bonded indebtedness of more than ten percent (10%) of the assessed value of the taxable property therein. The amount in any sinking fund available for the payment of outstanding indebtedness may be deducted for the purpose of computing the debt-incurring power of such district. For this purpose, any general assessment for a particular district shall become effective when the county assessor shall have received notice from the state board of equalization of its final approval of the county valuations; provided, however, that if the county assessor receives such notice after the district has entered into an enforceable contract for the sale of bonds, a new lower assessed valuation shall not become effective until the day following the date of delivery of such bonds.

If a proposed issue of bonds has been approved in the election and issuance thereof has been authorized by the school district board of trustees as provided by this article, the bonds shall thereafter at one (1) time or from time to time be sold at public or private sale. All costs and expenses incident to the issue and sale of the bonds may be paid out of the proceeds of the sale of the bonds. If the bonds are to be sold at public sale, the school district board of trustees shall give notice of sale by at least one (1) insertion of such notice in some newspaper of general circulation in the district of its intention to sell the bonds. The notice shall briefly describe the bonds and the time and place where the sale thereof will take place. If there is no newspaper of general circulation in the district, the board may publish the notice of sale in any newspaper published in the county seat of any county in which the district is wholly or partially located. Publication shall be made not less than ten (10) days nor more than thirty (30) days prior to the date designated for the sale of the bonds.

21-13-05. Printing and numbering of bonds.
After ascertaining the best terms upon, and the lowest interest at which said bonds can be sold, the board of trustees shall cause said bonds to be suitably printed or lithographed, with coupons, if any, attached, and thereafter shall have said bonds consecutively numbered and otherwise properly prepared and executed.

(a) Said bonds shall be signed by the chairman of the board of trustees and countersigned by the county treasurer. The coupons, if any, shall be signed by the county treasurer. The clerk of the board shall endorse a certificate upon every bond, that the same is issued pursuant to law and is within the lawful debt limit of the district. The county treasurer may authorize his deputy to sign any bond or coupon on his behalf. The board of trustees may authorize another member of the board to sign any bond or certificate in place of the chairman or clerk. It shall not be necessary for any bond to bear the seal of the district. Said bonds and coupons shall otherwise be in such form as the board may determine; provided, that the board may, at its option, utilize a statutory form of bond which shall include the following details:

(i) The name of the district and the date of the bond;

(ii) The principal amount thereof and interest rate or rates applicable thereto;

(iii) The place or places and time or times of payment of principal and interest;

(b) A bond delivered to the purchaser thereof in the optional statutory form shall:

(i) Be payable in lawful money of the United States of America without deduction for exchange or collection charges;
(ii) Be conclusively presumed to have been issued for value;

(iii) Be payable upon presentation and surrender of the bond and the attached coupons as they severally become due;

(iv) If not paid upon presentation at maturity, continue to draw interest until the principal thereof is paid in full;

(v) Be presumed to have been issued by the proper officers of the district under and by virtue of and in full conformity with the constitution of the state of Wyoming, this article, any amendments thereto, and all other laws thereunto enabling; and

(vi) Be incontestable as hereafter provided.

(c) Any resolution of a school district board of trustees authorizing bonds may provide that each bond therein authorized shall recite that it is issued under the authority of this article. Such recital shall conclusively impart full compliance with all the provisions hereof, and all bonds issued containing such recital shall be incontestable for any cause whatsoever after their delivery for value.

21-13-707. Record of bonds sold and delivered.

A record of any bonds sold and delivered by the district shall be kept by the county treasurer in a public book provided for that purpose, and therein shall be stated the number, date, amount, time and place of payment, rate of interest, number of coupons attached, if any, and any other proper description thereof for future identification.

21-13-708. Terms of bonds; negotiability.

Bonds issued by school districts pursuant to the provisions of this article shall bear interest payable annually or semiannually, and evidenced by one (1) or two (2) sets of coupons, if any, except that the first coupon may evidence interest for a period not in excess of one (1) year, and the bonds may be in one (1) or more series, may bear a date or dates, may mature at a time or times not exceeding twenty-five (25) years from their respective dates, may be in a denomination or denominations, may be payable in a medium of payment, in a
place or places, within or without the state, including, but not limited to the office of the county treasurer of a county in which the district is wholly or partially located, may carry registration privileges, may be subject to prior redemption in advance of maturity in an order, or by lot, or otherwise, at a time or times with or without premium, may bear privileges for reissuance in the same or other denominations, may be so reissued (without modification of maturities and interest rates), and may be in a form, either coupon or registered, as may be provided by resolution of the school district board of trustees. Except as the board may otherwise provide, the bonds and interest coupons attached thereto, if any, shall be fully negotiable, within the meaning of and for all purposes of the Uniform Commercial Code-Investment Securities. The holder of a bond or coupon, by accepting the bond or coupon, is conclusively deemed to have agreed that the bond or coupon (except as otherwise provided) is and shall be fully negotiable within the meaning and for all purposes of the Uniform Commercial Code-Investment Securities.

The various annual maturities shall commence not later than the third year after the date of the bonds. All bonds shall mature serially, at the option of the board of trustees, in substantially equal annual installments of principal, or upon an amortization plan for the bonds of said series, or upon an amortization plan for the proposed bonds and all outstanding bonds of the district, or in any other manner as the board may determine.

21-13-710. Sale to be conducted by board of trustees; disposition of proceeds.

The sale of the bonds shall be conducted by the school district board of trustees. Proceeds from the sale of the bonds shall be paid to the school district treasurer for deposit in the school district treasury.

The bonds may be sold at, above or below the par value thereof as determined by the board of trustees, but the bonds shall be sold at a price such that the net effective interest rate for the issue of bonds does not exceed the maximum net effective interest rate approved by the voters in the election authorizing
the bonds. The board is authorized to reject any and all bids and to waive any informality or irregularity in any bid.

The full faith, credit, and all taxable property lying within the school district are solemnly pledged for the payment of the principal and the interest of all bonds issued pursuant to this article.

21-13-713. Tax levy.

Subject to W.S. 21-15-105, the board of county commissioners shall cause to be levied annually upon all taxable property of the school district, in addition to other authorized taxes, a sufficient sum to pay the principal and interest on school district bonds as the payments thereon become due. All taxes for the repayment of bonded indebtedness shall be levied, assessed, and collected in the same manner as other taxes for school purposes. The taxes shall be levied in the manner prescribed above until the principal and interest of the bonds are fully paid.

21-13-714. Payment of bonds before collection of tax levy.

In the event that the tax for the payment of the principal or interest on any bonds issued at any time under the provisions of this article is not levied or collected in time to meet such payment, the principal or interest shall be paid out of any monies in the general or other funds of the district, and the monies so used for such payment shall be repaid to the fund from which so taken, out of the first monies collected from district taxes.

21-13-715. County treasurer to pay bonds and report payment to board of trustees.

The county treasurer shall pay the principal and interest of any bonds issued under this article by such school district, when the same becomes due, and all amounts so paid must be reported to the school district board of trustees at its next meeting thereafter.

21-13-716. Penalty for misappropriation of funds by trustees.
If any member of the school district board of trustees fraudulently fails or refuses to pay into the proper county treasury the money arising from the sale of any bonds provided for by this article, he shall be deemed guilty of a felony; and upon conviction thereof, be punished by imprisonment in the state penitentiary for a term of not less than one (1) year, nor more than ten (10) years.

21-13-717. Additional surety by county treasurer.

The school district board of trustees shall require the said county treasurer to give said district a separate bond in such sum as said board may deem proper, with two (2) or more sufficient sureties, conditioned upon the faithful performance of the duties required of him by this article, and the faithful accounting for the monies deposited with him and realized from the sale of said bonds, as herein provided for, and such bonds shall be approved by said board and shall be and remain in the custody of said district board.

The bonds and any coupons bearing the signatures of the officers in office at the time of the signing thereof, shall be valid and binding obligations of the school district, notwithstanding that before delivery and/or payment thereof, any or all of the persons whose signatures or facsimiles appear thereon shall have ceased to fill respective offices.

Any person herein authorized or permitted to sign any bonds or interest coupons, may utilize a facsimile signature in lieu of his manual signature provided that the signature on the certificate required by section 8, article 16, of the constitution shall be manually executed. Such officer may adopt as and for his own signature the facsimile signature of his predecessor in office in the event that such facsimile signature, having been executed by an officer then authorized to do so, appears upon the bonds or coupons, if any. It shall not be necessary for such officer to file any certificate with the secretary of state or any other board or officer.

Any bonds heretofore or hereafter issued by a school district of this state may be refunded, without an election, by the district which issued said bonds, or any district which has assumed the obligation of said bonds in the manner and subject to the conditions provided by the General Obligation Public Securities Refunding Law, as from time to time amended.

All bonds of any school district in this state outstanding on the effective date of this article, the right to the payment of which has not been barred by any pertinent statute of limitations, and all acts and proceedings heretofore had or taken, or purportedly had or taken by or on behalf of such district under law or under color of law preliminary to and in the authorization, execution, sale, issuance and payment of all such bonds, are hereby validated, ratified, approved and confirmed, including but not necessarily limited to the terms, provisions, conditions, and covenants of any resolution appertaining thereto, the redemption of bonds before maturity and provisions therefor, and the levy and collection of taxes to pay such bonds, notwithstanding any lack of power, authority, or otherwise, and notwithstanding any defects and irregularities in such bonds, act, and proceedings, and in such authorization, execution, sale, issuance, and payment. Such outstanding bonds are and shall be binding, legal, valid, and enforceable obligations of the school district issuing them in accordance with their terms and the authorizing proceedings.

CHAPTER 15
CAPITAL CONSTRUCTION PROJECTS

21-15-108. Revenue bonds for grants and loans; refunding revenue bonds.

(a) Before distribution to the school lands mineral royalties account under W.S. 9-4-305(b), sufficient revenues for the purposes of this section shall be deducted therefrom and credited to a bond repayment account pursuant to the terms of the resolution, indenture or other appropriate proceeding authorizing the issuance of revenue bonds under this section. The revenues deducted shall be used as provided by this section. The balance of the revenues shall be credited to the school lands mineral royalties account as provided under W.S. 9-4-305(b). After available revenues under W.S. 9-4-305(b) have been used, revenues under W.S. 21-13-301 shall also be credited, as necessary, to the bond repayment account and shall be used as provided by this section.

(b) The school facilities commission may borrow money in a principal amount not to exceed one hundred million dollars ($100,000,000.00) by the issuance from time to time of one (1) or more series of revenue bonds. The commission may encumber revenues under subsection (a) of this section for bonds in total amounts not to exceed one hundred million dollars ($100,000,000.00) issued for school capital construction projects and assistance as determined by the commission and
approved by the legislature under W.S. 21-15-119. Any bonds issued under this section, together with any interest accruing thereon and any prior redemption premiums due in connection therewith, are payable and collectible solely out of revenues authorized under this section. The bondholders may not look to any general or other fund for payment of the bonds except the revenues pledged therefore. The bonds shall not constitute an indebtedness or a debt within the meaning of any constitutional or statutory provision or limitation. The bonds shall not be considered or held to be general obligations of the state but shall constitute its special obligations and the commission shall not pledge the state's full faith and credit for payment of the bonds.

(c) Bonds issued under this section shall be in a form, issued in a manner, at, above or below par at a discount not exceeding ten percent (10%) of the principal amount of the bonds, at public or private sale, and issued with recitals, terms, covenants, conditions and other provisions not contrary to other applicable statutes, as may be provided by the commission in a resolution authorizing their issuance and in an indenture or other appropriate proceedings.

(d) Any bonds issued under this section shall:

(i) Be of denominations of five thousand dollars ($5,000.00) or multiples thereof;

(ii) Be fully negotiable within the meaning of and for all purposes of the Uniform Commercial Code, W.S. 34.1-1-101 through 34.1-10-104;

(iii) Mature at a time or serially at times in regular numerical order at annual or other designated intervals in amounts designated and fixed by the commission, but not exceeding thirty (30) years from their date;

(iv) Bear interest payable annually, semiannually or at other designated intervals, but the first interest payment date may be for interest accruing for any period not exceeding one (1) year;

(v) Be made payable in lawful money of the United States at the office of the state treasurer or any commercial bank or commercial banks;

(vi) Repealed By Laws 2002, Ch. 99, § 3.
(vii) Be additionally secured by a reserve fund created from revenues deposited within the school lands mineral royalties account under W.S. 9-4-305(b) or from the proceeds of the bonds, or both, in an amount determined by the commission but not to exceed an amount equal to ten percent (10%) of the revenue bonds outstanding.

(e) Before any contract is entered into by the commission to retain the services of a financial advisor or to sell the bonds to an underwriter, whether by competitive or negotiated bid, a full disclosure of the terms of the contract including fees to be paid shall be submitted to the management council through the legislative service office.

(f) The commission may issue refunding revenue bonds:

(i) To refund and discharge and extend or shorten the maturities of all or any part of any outstanding bonds issued under this section including any interest thereon in arrears or about to become due;

(ii) For the purpose of reducing interest costs on bonds issued under this section or effecting other economics; or

(iii) For the purpose of modifying or eliminating any contractual limitations or provisions contained in any indenture or other proceedings authorizing outstanding bonds issued under this section.

(g) Any refunding permitted by this subsection shall be accomplished in the manner prescribed by W.S. 16-5-101 through 16-5-119, except any refunding revenue bonds authorized by the commission under this subsection shall not constitute an indebtedness or a debt within the meaning of any constitutional or statutory provision or limitation or be considered general obligations of the state. The commission shall not pledge the state's full faith and credit to the payment of the refunding revenue bonds. The refunding revenue bonds shall constitute special obligations of the state and may be payable only from the sources authorized in this section for the payment of the bonds refunded. The principal amount of any bonds which have been refunded need not be taken into account in computing compliance with the maximum amounts of bonds authorized to be issued under this section.
21-15-109. Major building and facility repair and replacement payments; computation; square footage allowance; use of payment funds; accounting and reporting requirements.

(iii) "Major building and facility repair and replacement" means the repair or replacement of complete or major portions of school building and facility systems at irregular intervals which is required to continue the use of the building or facility at its original capacity for its original intended use and is typically accomplished by contractors due to the personnel demand to accomplish the work in a timely manner, the level of sophistication of the work or the need for warranted work. The term includes the following categories as hereafter defined:

(A) "Code compliance" means system improvements or site improvements that are mandated in writing by an authority having jurisdiction for the continued use of a school building or facility;

(B) "Site improvements" means the repair, replacement or upgrade of those components or equipment of school district buildings and facilities that are not system improvements, including the repair, replacement or upgrade of:

(II) Parking lots;

(III) Athletic tracks;

(IV) Playground features;

(V) Outdoor security features;

(VI) Landscaping;
(VII) Drainage systems; or

(VI) Windows;

(VII) Information technology systems; or

(VIII) Similar components or equipment.

(iv) "Office building" means a school building or facility primarily used in connection with or for the purpose of district administrative functions, the major purpose or use of which is not dedicated to the provision of educational programs offered by the district in accordance with law. "Office building" shall include maintenance facilities and storage buildings in which supplies are stored;

(v) "Portable building" means any prebuilt, factory constructed and assembled school building or facility which is transported in an assembled condition to the location on which the building or facility is to be situated and which is acquired and used by the district for temporary purposes only;

accomplished by contractors such as elevator or other specialized equipment or building system maintenance;

(vii) "Teacherage" means housing provided by and owned by a school district for use as living quarters of a teacher or other school district employee;

(viii) "Warehouse building" means a school building or facility primarily used for storage of equipment, materials and other district property and supplies, including facilities in which school buses are stored, maintained or serviced.

(b) To the extent funds are available, the state construction department shall, based upon square footage computations computed from the prior school year, distribute the estimated major building and facility repair and replacement payments in quarterly installments to each school district from the school capital construction account. The department shall distribute the first quarterly payment on July 1 of each fiscal year, with the remaining payments distributed on October 1, January 2 and April 1. Payments shall be made as equal as reasonably possible. If funds within the account are not sufficient for any quarterly payment, the department shall reduce all district payments for that quarter by a uniform percentage. The department shall also increase or reduce a subsequent school district payment, as appropriate, in the event a school district receives an excessive or deficient distribution. Major building and facility repair and replacement payments shall be computed in accordance with subsection (c) of this section.

(c) To compute the major building and facility repair and replacement payment for each district, the department shall:

(i) Determine the total number of gross square feet of school buildings and facilities within the district from the prior school year according to guidelines prescribed by rule and regulation of the commission, subject to the following:

(A) The gross square footage of any school building or facility within the district which is not used for purposes of delivering the required educational program shall not be included within the district's total gross square footage computed under this section, except for the square footage of any district school building or facility which would otherwise be treated as a closed building under paragraph (c)(iv) of this section, is determined to be surplus by the department or the
building or facility is being used for the provision of one (1) of the programs specified in subdivisions (I) through (III) of this subparagraph and the district complies with subdivisions (IV) through (VI) of this subparagraph:

(I) Child care programs certified to operate in Wyoming under W.S. 14-4-101 through 14-4-111; or

(II) Developmental preschool programs receiving state financial assistance for program operations; or

(III) Educational programs and services provided through a board of cooperative educational services under W.S. 21-20-101 through 21-20-111 in which the district is a participant in the cooperative agreement; and

(IV) The district incorporates this use of closed or surplus buildings into its facility plans required under W.S. 21-15-116; and

(V) The district reports any fees or payments received or collected for this use of closed or surplus buildings as a local resource for purposes of foundation program computations under W.S. 21-13-310(a)(xv); and

(VI) The district limits the lease agreement for the use of the closed or surplus building to not more than one (1) year subject to termination by the district at any time prior to expiration of the one (1) year period if necessary for provision of district educational programs.

(B) The gross square footage of any school building or facility leased by a district, including but not limited to the gross square footage of any school building or facility leased by a charter school operating pursuant to W.S. 21-3-301 through 21-3-314, shall not be included within the district's total gross square footage computed under this section, unless the district's lease agreement is by or with any nonprofit or governmental agency providing educational programs which have been approved by the department of education, the department of health or another state or educational credentialing agency and the leased space is incorporated into the district's facility plans required under W.S. 21-15-116(a)(vi);

(C) Repealed by Laws 2018, ch. 35, § 2.
(D) No gross square footage created by any district enhancement shall be included within the district's gross square footage computed under this section unless the enhancement or any portion thereof is determined to be included within the state adequacy standards pursuant to this act.

(ii) Of the total gross square feet for all school buildings and facilities computed under paragraph (c)(i) of this section, determine the total gross square feet for each of the following building categories:

(A) Office buildings;

(B) Repealed By Laws 2001, Ch. 191, § 2.

(C) Educational buildings, including buildings used for the provision of certified child care, developmental preschool or cooperative education programs pursuant to subparagraph (c)(i)(A) of this section, and including portable buildings provided portable buildings do not exceed more than ten percent (10%) of the total gross square feet computed for all school buildings and facilities under paragraph (c)(i) of this section, and excluding teacherages;

(D) Warehouse buildings.

(iii) Except as otherwise provided by this paragraph, adjust the total amount of gross square footage determined for educational buildings under subparagraph (c)(ii)(C) of this section by excluding from computations under this section the square footage for those educational buildings closed and not operational as provided for under paragraph (c)(iv) of this section and any amount including the gross square footage of portable buildings, which exceeds capacity levels specified by this paragraph which are above the statewide minimum gross square footage criteria as prescribed by the statewide building and facility adequacy standards promulgated under W.S. 21-15-115(a). For the purpose of adjusting the gross square footage of educational buildings under this paragraph, the gross square footage of buildings used for the provision of certified child care, developmental preschool and cooperative education programs pursuant to subparagraph (c)(i)(A) of this section shall not be excluded. For purposes of this section, per student gross square footage criteria prescribed by the statewide building adequacy standards shall be based upon an average daily membership (ADM) computed as defined under W.S. 21-13-101(a)(i) for the prior school year. For purposes of computations under
this section, the allowable capacity in educational building gross square footage for each district including portable buildings but excluding buildings used for the provision of certified child care, developmental preschool and cooperative education programs pursuant to subparagraph (c)(i)(A) of this section, shall be as follows:

(A) Repealed by Laws 2018, ch. 36, § 2.

(B) Repealed by Laws 2018, ch. 36, § 2.

(C) For school year 2009-2010 and each school year thereafter, up to one hundred fifteen percent (115%) of the prescribed per student gross square footage criteria.

(iv) The square footage of any district building or facility which is closed and not operational, is not being replaced under a district's facility plan under W.S. 21-15-116, is not determined surplus by the department and is specified as a closed building within the district's facility plan as a cost efficient means to address future district building needs, shall be segregated from the square footage of other district buildings and facilities and multiplied by the replacement value under paragraph (c)(v) of this section for the appropriate building category. The resulting amount shall then be multiplied by an exterior closure factor established by the department based upon the most current edition of the Whitestone Building Maintenance and Repair Cost Reference Index and added to the total amount determined for the district under paragraph (c)(viii) of this section. This paragraph shall not apply to any school year during which the building or facility is reopened and becomes operational for purposes of delivering the required educational program within the district or to any school year during which the building or facility is used to provide certified child care, developmental preschool or cooperative education programs pursuant to subparagraph (c)(i)(A) of this section;

(v) Multiply the adjusted square footage amount for each district's educational buildings determined under paragraph (c)(iii) of this section and the amount determined under paragraph (c)(ii) of this section for all remaining building categories of that district, times a replacement value cost factor established for each building category by the department computed using data from August 1 of the prior school year based upon the median estimate in the most current edition of a nationally recognized, quarterly published construction cost
index that provides cost indices for elementary schools, junior high schools, high schools, offices and warehouses by city or town, as modified to reflect current Wyoming construction costs determined by the department of administration and information, division of economic analysis;

(vi) Multiply the amount computed under paragraph (c)(v) of this section for the adjusted square footage of the district's educational buildings times two and one-half percent (2.5%) for school year 2001-2002, three percent (3%) for school year 2002-2003, and by two percent (2%) for school year 2003-2004 and each school year thereafter;

(vii) Multiply the sum of the amounts obtained under paragraph (c)(v) of this section for the building categories identified under subparagraphs (c)(ii)(A) and (D) of this section times two and one-half percent (2.5%) for school year 2001-2002, three percent (3%) for school year 2002-2003, and by two percent (2%) for school year 2003-2004 and each school year thereafter, adjusted as follows:

(A) Determine the proportion that the sum of the square footage for these building categories within the district bears to the educational building square footage computed under subparagraph (c)(ii)(C) of this section, as adjusted pursuant to paragraph (c)(iii) of this section, excluding any square footage included under paragraph (c)(iv) of this section;

(B) If the proportion is ten percent (10%) or less, the district is entitled to one hundred percent (100%) of the amount computed under this paragraph;

(C) If the proportion is greater than ten percent (10%) but less than sixteen percent (16%), the district is entitled to ninety percent (90%) of the amount computed under this paragraph;

(D) If the proportion is sixteen percent (16%) or greater but less than twenty-one percent (21%), the district is entitled to eighty percent (80%) of the amount computed under this paragraph;

(E) If the proportion is twenty-one percent (21%) or greater, the district is entitled to seventy percent (70%) of the amount computed under this paragraph.
(viii) Total the amounts computed under paragraphs (c)(iv), (vi) and (vii) of this section.

(d) Repealed By Laws 2004, Chapter 114, § 2.

(e) Amounts distributed under subsection (b) of this section shall be deposited by the recipient district into a separate account, the balance of which may accumulate from year-to-year. Except as specified under subsection (f) of this section, expenditures from the separate account, including any interest earnings on the account, shall be restricted to expenses incurred for major building and facility repair and replacement as defined in subsection (a) of this section and shall be in accordance with the district's facility plan under W.S. 21-15-116. Account expenditures may include the expenses of district personnel performing work described under paragraph (a)(iii) of this section if approved by the department and if documented within the district's facility plan. The district's facility plan shall clearly specify proposed major maintenance expenditures for addressing district major building and facility repair and replacement needs on a building-by-building basis, updated for the applicable reporting period, which shall be aligned to the statewide adequacy standards and prioritized based upon the impact of the building or facility on the district's ability to deliver the required educational program. The district shall include plans for maintaining any district building or facility which is under a lease agreement, specifying lease revenues available to the district for maintenance of facilities to the level required by statewide adequacy standards. No expenditures shall be made from the separate account unless the repair or replacement of the building or facility systems for which the expenditure is to be made is clearly specified within the district's facility plan or otherwise approved by the department. In a manner and form required by commission rule and regulation, each district shall annually report to the department on the expenditures made from the separate account during the applicable reporting period, separating account expenditures on a building-by-building basis. The department shall annually review account expenditures and shall report expenditures to the commission and the select committee on school facilities established under W.S. 28-11-301. The department shall compile reported building-by-building expenditure information for each district and the district facility plan and include this information in its annual report to the select committee pursuant to W.S. 21-15-121. If any district expends funds within the separate account for purposes not authorized by this subsection or by rule and regulation of
the commission, the payments for that district shall be reduced by the amount of the unauthorized expenditure in the school year following the year in which the expenditure was discovered or the school year in which notification was provided by the department, whichever first occurs.

(f) Notwithstanding subsection (e) of this section, a district may expend up to ten percent (10%) of the amount distributed during any school year under subsection (b) of this section for major building and facility repair and replacement needs of the district which are not specified in the district's facility plan, including expenditures for maintenance of district enhancements. Expenditures shall be made under this subsection only after the district's building and facility repair and replacement needs specified in its facility plan have been addressed in accordance with subsection (e) of this section and the department has approved the district's proposed expenditures under this subsection. Amounts not expended for purposes of this subsection during any school year may be accumulated by a district and earmarked within the separate account established under subsection (e) of this section for expenditure under this subsection in subsequent school years, provided the unexpended amount during any school year to be accumulated does not exceed ten percent (10%) of the amount distributed to the district under subsection (b) of this section for that school year. Each district shall include expenditures under this subsection and any amounts accumulated from year-to-year under this subsection within the annual report required under subsection (e) of this section. Nothing in this subsection shall prohibit or limit the application of subparagraph (c)(i)(D) of this section in computing a district's building and facility gross square footage for purposes of determining payment amounts under this section. If any school district exceeds expenditure limitations prescribed by this subsection or fails to comply with expenditure levels for facility adequacy needs identified within its facility plan, the payments for that district in the immediately succeeding year shall be reduced by the excess expenditure amount including any excess expenditure of amounts accumulated under this subsection.

(a) As used in this act, unless the context requires otherwise:
(i) "Capital construction account" or "school capital construction account" means the account into which revenues are deposited pursuant to W.S. 9-4-601(a)(vii), (b)(i) and (iv), into which the proceeds from any revenue bonds are credited under W.S. 21-15-108, and into which any other funds are appropriated to the account for purposes of this act. If a building owned by a district meets the applicable standards under this subsection for use by the district to educate students and was previously used for the purpose of educating students, no municipal or county zoning requirements shall be construed or applied so as to prevent the district from using the building for the purpose of educating students, or to require the district to make any modification to the building as a condition of using the building for the purpose of educating students. The uniform standards shall at minimum include:

(i) Requirements for educating students in a safe environment including all applicable building, health, safety and environmental codes and standards required by law for all public buildings;

(ii) Building site requirements;

(vi) Inventory of exterior and interior building and facility space.

(c) The commission shall not less than once every four (4) years, review and evaluate the building and facility adequacy standards established under subsection (a) of this section. Review and evaluation of the standards shall include the identification of local enhancements to buildings and facilities during this review and evaluation period, and based upon criteria and procedures developed by the commission, a determination as to whether and how any local enhancements should be incorporated into the statewide standards. The review and evaluation under this subsection shall extend to components of the annual evaluation of school buildings, the facility remediation schedule and the needs prioritization process established by the commission under W.S. 21-15-117. Findings and
recommendations pursuant to this subsection shall be reported to
the select committee on school facilities before the next
convening date of the legislative session immediately following
completion of the review and evaluation, and shall specifically
address any need to expand the needs assessment, to conduct a
reassessment of building and facility adequacy or to modify the
needs prioritization process.

(d) The commission shall not hinder or curtail the right
of a school district to undertake local enhancements to
buildings and facilities which are in excess of state building
adequacy standards, as permitted by law.

21-15-116. School district facility plans; development,
review and approval; plan criteria; administrative review;
collaborative committee process.

(a) In accordance with rules and regulations of the
commission, long range comprehensive school building and
facility plans for each school district shall be developed by
the department in coordination with the applicable district,
which address district wide building and facility needs. The
facility plan shall identify building and facility needs aligned
with the statewide adequacy standards, actions to remediate
building and facility needs including construction, renovation
and major building and facility repair and replacement
expenditures, and any local enhancements to buildings and
facilities beyond statewide adequacy standards. The facility
plan shall include a response to each school building and
facility need identified on a building-by-building,
space-by-space basis. The plan shall also review, and to the
extent practical, identify and prioritize nonconstruction
alternatives to school building and facility needs such as
building closure, modification of school boundaries,
modification of school grade configurations and similar
approaches. Demolition or use, lease or other methods of
disposition of surplus buildings and facilities shall be
incorporated as part of the district plan, including the
disposition of any existing land owned by the district. The plan
shall not include the abandonment or demolition of any school
facility or building unless there has first been a public
hearing on the issue. The plan shall also specify identified
alternative methods of building disposition, proposed allocation
of costs incurred or revenues resulting from disposition and
allocation of disposition revenues to offset any costs paid by
the department. In addition, district facility plans shall
include:
(i) Student enrollment projections for a period of five (5) years commencing on the date as determined by the commission of anticipated completion of project construction using commission approved measures and techniques, including a description of the methods used in making projections. The commission may adjust projections computed under this paragraph as necessary to reflect more precise analysis and evaluation of historical, economic, social and other data impacting the community in which the buildings are or are to be located;

(ii) A description of proposed new schools or additions and remediations to existing schools necessary to meet building adequacy standards, including:

(A) The grade levels and the total number of pupils that the proposed school or school addition or remediation is intended to serve;

(B) The year in which it is necessary to commence operations of the proposed new school or school addition;

(C) The timeline for the planning and construction of the new school or school addition or remediation.

(iii) Projections for new land required for new schools including land purchase, acquisition and site analysis;

(iv) Appropriate cost estimates;

(v) A plan for addressing district major building and facility repair and replacement needs as required under W.S. 21-15-109(e);

(vi) An inventory of buildings and facilities to be leased by the district during the planning period, either as lessee or lessor, including the purpose for which the leased buildings and facilities are to be used and if any of this leased space will involve any district buildings or facilities included within the statewide school facilities database maintained by the department under W.S. 21-15-123(f)(iv);

(vii) Other information required by the department to evaluate each district's plan.
(b) Repealed By Laws 2008, Ch. 93, § 2.

(c) Repealed By Laws 2008, Ch. 93, § 2.

(d) At least once every two (2) years, the commission shall review and approve each plan developed by the department under this section to ensure each plan:

(i) Complies with state adequacy standards;

(ii) Reduces building and facility needs in the most efficient and cost effective manner in order to deliver quality educational services;

(iii) Considers nonconstruction alternatives;

(iv) Provides facilities capable of supporting the provision of the statewide educational program required by law of public schools.

(e) Any school district aggrieved by a decision of the department or the commission under this act may seek review in accordance with the Wyoming Administrative Procedure Act. In accordance with W.S. 16-3-112, review of a decision of the department shall be before the commission.

(f) In carrying out this act and in accordance with policies adopted by the commission, the commission or the department shall consult with the affected school districts and shall provide districts the opportunity to informally review facility plans, remedies and projects with the department or the commission before districts pursue administrative review under subsection (e) of this section.

(g) In expending funds appropriated by the legislature for projects submitted by the commission under W.S. 21-15-119, and commensurate with school district efforts undertaken in facility planning required under subsection (a) of this section, the state construction department shall require school district boards of trustees to incorporate a collaborative committee process, advisory to the board, which assists the school district with planning district remedies for school buildings, ranging from site selection to project planning and design. The collaborative committee process for remedy development may include project stakeholders comprised of students, parents, teachers, principals, district administration, school board of trustee members, representative legislators, at-large members of
the community and others. Although advisory to district boards, the collaborative committee shall assist the boards with informing the respective community and in developing community-based input into project development.

21-15-117. Annual evaluation of school buildings and facilities; remediation schedule; needs prioritization; combining facilities; implementation of remedy.

(a) Through the identification of school building and facility conditions and needs provided by the assessment conducted and maintained under W.S. 21-15-115, and a comparison of the identified conditions and needs with the established statewide building adequacy standards and the district facility plans developed under W.S. 21-15-116, the commission shall, based upon reports provided by the department and in coordination and cooperation with the districts, evaluate the adequacy of school buildings and facilities within local school districts. Based upon this evaluation, the commission shall establish a schedule for building and facility remediation. Remediation shall bring all buildings and facilities to conditions such that over time, only routine maintenance is required to maintain building adequacy. The schedule shall identify and prioritize building and facility remedies on a statewide basis, based upon a building condition score developed by the commission subject to the following:

(i) Criteria and measures for building condition which incorporate educational suitability and technology readiness, specifically taking into consideration appropriate and up-to-date standards for air quality, illumination and appropriateness of the student environment, as established by commission rule and regulation and compiled under the building systems condition reference guide, which over time bring statewide buildings and facilities to targeted adequate levels prescribed by the commission, reviewed annually, based upon assessment results and findings, broken down by educational and noneducational building category;

(ii) Repealed By Laws 2011, Ch. 71, § 2.

(iii) Analysis of student enrollment changes, as based upon commission approved enrollment projection methodology, to determine the need for changes in building capacities for compliance with statewide adequacy standards over a five (5) year projection period commencing on the date of anticipated completion of project construction. The commission
may adjust projections computed under this paragraph as necessary to reflect more precise analysis and evaluation of historical, economic, social and other data impacting the community in which the building is or is to be located. Analysis under this paragraph shall prioritize remediation for those buildings requiring additional space to comply with statewide adequacy standards;

(iv) Priority shall be given to educational buildings and to conditions in those buildings which impede the delivery of the prescribed statewide educational program;

(v) A methodology and process for identifying the most critical building and facility needs, which independently provides full consideration to each of the measures provided in paragraphs (i) through (iv) of this subsection.

(b) The commission shall for each building and facility remedy scheduled under subsection (a) of this section, ensure the adoption of the most cost effective method of remediation of building and facility needs to deliver quality educational services and ensure compliance with the statewide adequacy standards. The commission shall only request capital outlay for a building with capacity needs identified under paragraph (a)(iii) of this section after consideration of all other remedies for that building. For any scheduled remedy for which major building and facility repair and replacement payments under W.S. 21-15-109 are not sufficient to remedy the scheduled need, as determined by the commission, the commission shall determine if the remedy requires capital outlay.

(i) Repealed By Laws 2008, Ch. 93, § 2.

(ii) Repealed By Laws 2008, Ch. 93, § 2.

(c) In determining the most cost effective method in meeting capital construction needs in order to deliver quality educational services, the commission in consultation with the select committee on school facilities, may recommend consolidating educational facilities within, between or among school districts. The legislature shall approve any consolidation of educational facilities between two (2) or more school districts.

(d) In determining building and facility remedies under subsection (b) of this section, in developing criteria and procedures for site analysis under W.S. 21-15-114(a)(xii) and in
approving district facility plans under W.S. 21-15-116 and otherwise administering this act, the commission shall adopt the remedy that is in the best financial and educational interests of the state, taking into consideration the recommendations of the department and the most efficient and cost effective approach in order to deliver quality educational services and address building and facility need. Expenditures from the school capital construction account shall be for necessary and related costs to implement efficient and cost effective building and facility remedies required to deliver quality educational services. In making determinations under this paragraph, the commission shall take into consideration the effects of the proposed activity on the local community. The commission shall implement this subsection in carrying out building and facility remedies and shall, giving proper consideration to the prevention of unnecessary delays in proceeding with a remedy, establish a process to work with other political subdivisions of the state in implementing this subsection.

(e) For any building subject to paragraph (a)(iii) of this section, and when prioritizing buildings and facilities based upon condition pursuant to subsection (a) of this section, the commission shall consider criteria for building capacity established by commission rule and regulation which include:

(i) A comparison of the existing and projected student population served by each building to square footage guidelines established by the commission under W.S. 21-15-115(a) for that building;

(ii) An analysis of the number of classrooms within the building including an examination of the building square footage devoted to classrooms compared to the building total square footage;

(iii) An analysis of the building's square footage per student;

(iv) An examination of loading and utilization factors for that building to encourage the efficient use of classrooms with a factor of eighty-five percent (85%) of the instructional area applied to middle and high school level buildings, and a factor of one hundred percent (100%) of the home room instructional area applied to elementary school buildings; and
(v) Total acreage of the site on which the building is situated.

(a) Upon determination by the commission following review under W.S. 21-15-117, and appropriation by the legislature in accordance with W.S. 21-15-119, the department shall proceed with projects as follows:

(i) Repealed By Laws 2008, Ch. 93, § 2.

(ii) If a capital outlay remedy:

(A) With the assistance of the involved school district, develop and approve the necessary schematic design documents;

(B) Conduct a value engineering analysis of the project;

(C) Perform an energy efficiency assessment of the project;

(D) Conduct a safety and security assessment of the project;

(E) Enforce the requirements under subparagraphs (a)(ii)(B) through (D) of this section and may waive any of these requirements if determined not necessary or if provided within any one (1) of the other requirements specified under this paragraph.

(b) If required, the department shall provide for temporary space for any scheduled building remedy by means of portable buildings creating capacity or by other means available to the department.

(c) The projects shall be managed and all necessary contracts related to the projects shall proceed in accordance with commission rules and regulations promulgated and adopted pursuant to W.S. 21-15-114(a)(xv).

Note: Effective 10/1/2020 this section will read as:
The projects shall be managed and all necessary contracts related to the projects shall proceed in accordance with rules adopted pursuant to W.S. 9-2-3004(c)(ii) and commission rules and regulations promulgated and adopted pursuant to W.S. 21-15-114(a)(xv).

(a) Notwithstanding W.S. 9-2-1012, the commission shall annually, not later than September 1, develop and submit a recommended budget for projects and school capital construction financing to the governor, through the budget division of the department of administration and information and to the select committee on school facilities. The department shall prepare and provide information as requested by the commission. The commission shall include with its recommended budget to the select committee the comprehensive assessment specified in W.S. 21-15-115(b), the prioritized list of projects specified in W.S. 21-15-117 including the amounts allocated to each project and the annual building status report specified under W.S. 21-15-121. The recommended budget submitted by the commission shall include:

(i) The estimated costs and proposed funding amounts for all projects determined under W.S. 21-15-117 and 21-15-118 and proposed for that budget period, together with estimated expenditures for major building and facility repair and replacement program payments under W.S. 21-15-109 for the same budget period;

(ii) Financing alternatives for funding the recommended budget, which uses any combination of the following financing alternatives:

   (A) Direct payment from the school capital construction account;

   (B) Proceeds from state revenue bonds issued under W.S. 21-15-108;

   (C) Real property leasing under W.S. 21-15-112. Any payments for real property leasing shall be made from the school capital construction account subject to W.S. 21-15-112. For the purpose of this section, real property leasing includes payments sufficient for the exercise of a purchase option under the lease.
(iii) In odd-numbered years, the commission's recommendation on September 1 shall be for expenditures during the two (2) succeeding fiscal years. The recommendation for the second year shall be based on estimates of expenditures and payments. In even-numbered years, the commission's recommendation on September 1 shall be for expenditures during the succeeding fiscal year. As it determines to be necessary in any year, the commission's recommendation on September 1 may contain a recommendation for revised expenditures during the current fiscal year.

(b) The department may enter into agreements under which the department may make payments on behalf of a school district with respect to the district's lease of school facilities under W.S. 21-15-112. The department may also enter into any agreement with a nonprofit corporation or other entity necessary to ensure that a district can lease facilities under W.S. 21-15-112.

(c) Budgets submitted by the commission under subsection (a) of this section and recommended by the select committee under W.S. 28-11-301 shall be attached to specified projects for the applicable budget period, which projects shall be referred to as planning and design phase projects and construction phase projects. With the approval of the governor, the department may transfer up to fifteen percent (15%) of the total funds appropriated between project phases. Any modification of appropriation expenditures between project phases shall be reported to the select committee in accordance with W.S. 28-11-301(c)(iv). Additionally, the commission may for any budget period specify amounts within its budget which are recommended to cover inflation, unanticipated costs, off-site infrastructure costs and other such contingency or special project costs provided the additional costs are reported and approved in accordance with W.S. 28-11-301(c)(iv). Amounts appropriated by the legislature shall not be construed to be an entitlement or guaranteed amount and shall be expended by the department in accordance with facility guidelines to ensure adequate, efficient and cost effective school buildings and facilities as required by W.S. 21-15-114(a)(vii).

(a) The commission shall promulgate rules under which an emergency shall be determined to exist with respect to the adequacy of the school buildings and facilities of any school district such that the ability of the district to provide educational programs required by law is immediately and
substantially impacted and no reasonable alternative exists to address it other than emergency funding under this section.

(b) Upon a finding that an emergency exists under subsection (a) of this section, the commission shall in accordance with rules and regulations promulgated by the commission under this subsection and to the extent funds are available within the school capital construction account or otherwise made available by the legislature, acquire facilities and equipment, undertake school building and facility repairs, fund additional operating expenses incurred in providing temporary measures and other responses to the emergency situation including necessary investigative and qualified contract assistance expenses incurred by the commission, as necessary to enable the district to provide educational programs required by law on a temporary basis until permanent action can be taken to address school building and facility adequacy.

21-15-121. Annual school building status report to select committee on school facilities.

(a) Not later than September 1 of each year, the commission shall submit a report to the select committee on school facilities on progress being made under the school capital facilities system established under this act. The report shall be incorporated into the proposed budget submitted to the select committee under W.S. 21-15-119 and shall include:

(i) Building and facility needs determined under W.S. 21-15-115, identifying progress made in the year reported;

(ii) Building and facility needs addressed under this act or otherwise by districts including any building or facility which is closed or otherwise removed from operation during that year, and relating this paragraph to progress made in building and facility condition under paragraph (i) of this subsection;

(iii) Use of major building and facility repair and replacement funds which have addressed buildings and facilities identified under W.S. 21-15-115, including the impact of expenditures of these funds, as quantified pursuant to the statewide needs assessment rating scores undertaken in accordance with W.S. 21-15-115, on building condition as reported under paragraph (i) of this subsection and on the capacity, educational suitability and technology readiness of these buildings and facilities;
(iv) Amounts of funds expended to address building and facility needs for the period of time addressed in the report together with historical amounts;

(v) The impact of expenditures on the building and facility scores for condition, educational suitability and technology readiness, including computed building capacity;

(vi) Repealed By Laws 2008, Ch. 93, § 2.

(vii) Repealed By Laws 2008, Ch. 93, § 2.

(viii) Any expenditures for emergency school building and facility needs under W.S. 21-15-120.

21-15-123. State construction department; duties and authority relating to school facilities.

(c) Repealed by Laws 2016, ch. 105, § 4.

(e) The director of the state construction department or his designee shall review and evaluate school district requests for the alteration of grade configurations pursuant to W.S. 21-13-309(m)(vi), and shall evaluate the request in the best financial and educational interests of the state, taking into consideration the most efficient and cost effective approach in order to deliver quality educational services.

(f) The state construction department shall:

   (i) Implement policies, guidelines and standards as adopted by the commission for school district facility plans required under W.S. 21-15-116;

   (ii) Subject to W.S. 21-15-117(a)(iii), establish a consistent, systematic research approach for student enrollment projections used by districts in developing district facility plans and forecasting building and facility needs to comply with statewide building adequacy standards;
(iii) Develop cost per square foot guidelines to be used in estimating the cost of constructing, renovating and otherwise remediating buildings and facilities to comply with statewide adequacy standards, which shall account for demonstrated differences among regions and communities within the state;

(iv) Establish a statewide school facilities database comprised of building and facility specific condition, suitability, accessibility, capacity, inventory and site data;

(v) Enter into or approve construction or renovation project agreements with school districts, as appropriate. Each agreement shall:

(A) Require the district to make arrangements for appropriate professional supervision and management of the project;

(B) Provide for the review and approval by the department of project plans and specifications;

(C) Provide for review and approval by the department of project changes and change orders provided that:

(I) The agreement may specify parameters identifying the circumstances under which changes and change orders may also be approved;

(II) All changes and change orders shall be approved by the district or its representative.

(D) Establish payment schedules involving state funds;

(E) Assure the state is not responsible or liable for compliance with construction or renovation project schedules or completion dates;

(vi) Review district proposals for the disposition or demolition of buildings and facilities made surplus by an approved construction or renovation project or by changes in school population, including allocation of resulting costs and revenues and report the proposals to the commission. Disposition shall include options for use, lease, sale and any other means of disposing of the surplus building or facility. The costs and revenues incurred by the disposition or demolition of the building or facility shall be accounted for in each district's school facility plan and considered in any building or facility remedy for that district, including the allocation of revenues resulting from the disposition of property rendered surplus to offset property demolition costs. The department shall report this review to the commission. The commission, after receiving a report of the review by the department, shall approve the proposal related to disposition or demolition submitted pursuant to this paragraph unless the commission determines that the proposal does not protect the financial interests of the state or is not otherwise in the public interest. Any revenues resulting from property disposition under this paragraph shall not be considered or counted under W.S. 21-13-310(a)(xiv) or (xv);

(vii) Authorize, subject to commission review, the purchase and acquisition of sites for any project within the approved district facility plan if state funds are to be expended for the acquisition;

(viii) Review any proposed sale of existing land owned by a district, which land is within the scope of the district's facility plan, and determine the impact of the land disposition upon that plan. The department shall report the review to the commission. The commission, after receiving a report of the review by the department, shall approve the proposal related to a sale submitted pursuant to this paragraph unless the commission determines that the proposal does not protect the financial interests of the state or is not otherwise in the public interest. If the commission determines land
disposition adversely impacts the cost-effectiveness of the district's facility plan, the revenues resulting from land disposition shall be considered by the commission in any future building or facility remedy for that district and, notwithstanding paragraph (vi) of this subsection, the commission may direct the department of education to consider or count those revenues under either W.S. 21-13-310(a)(xiv) or (xv).

(g) The department may contract with appropriate expertise and professionals, including auditors, in administering this act and performing duties imposed under this act.

Article I

Whereas, the future of this nation and of the western states is dependent upon the quality of the education of its youth; and

Whereas, many of the western states individually do not have sufficient numbers of potential students to warrant the establishment and maintenance within their borders of adequate facilities in all of the essential fields of technical, professional, and graduate training, nor do all of the states have the financial ability to furnish within their borders institutions capable of providing acceptable standards of training in all of the fields mentioned above; and

Whereas, it is believed that the western states, or groups of such states within the region, cooperatively can provide acceptable and efficient educational facilities to meet the needs of the region and of the students thereof:

Now, therefore, the states of Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming, and the territories of Alaska and Hawaii do hereby covenant and agree as follows:

Each of the compacting states and territories pledges to each of the other compacting states and territories faithful cooperation in carrying out all the purposes of this compact.

The chairmen may call such additional meetings and upon the request of a majority of the commissioners of three (3) or more compacting states or territories shall call additional meetings.

(d) The commission shall submit a budget to the governor of each compacting state and territory at such time and for such period as may be required.

The commission shall not be subject to the audit and accounting procedure of any of the compacting
states or territories. The commission shall provide for an independent annual audit.

(a) It shall be the duty of the commission to enter into such contractual agreements with any institutions in the region offering graduate or professional education and with any of the compacting states or territories as may be required in the judgment of the commission to provide adequate services and facilities of graduate and professional education for the citizens of the respective compacting states or territories. The commission shall first endeavor to provide adequate services and facilities in the fields of dentistry, medicine, public health, and veterinary medicine, and may undertake similar activities in other professional and graduate fields.

In conducting such studies the commission may confer with any national or regional planning body which may be established. The commission shall draft and recommend to the governors of the various compacting states and territories, uniform legislation dealing with problems of higher education in the region.

This compact shall become effective as to any additional states or territories adopting thereafter at the time of such adoption.

Article XI

This compact may be terminated at any time by consent of a majority of the compacting states or territories. Consent shall be manifested by passage and signature in the usual manner of legislation expressing such consent by the legislature and governor of such terminating state. Any state or territory may at any time withdraw from this compact by means of appropriate legislation to that end. Such withdrawal shall not become effective until two (2) years after written notice thereof by the governor of the withdrawing state or territory accompanied by a certified copy of the requisite legislative action as received by the commission. Such withdrawal shall not relieve the withdrawing state or territory from its obligation hereunder accruing prior to the effective date of withdrawal. The withdrawing state or territory may rescind its action of withdrawal at any time within the two (2) year period. Thereafter, the withdrawing state or territory may be reinstated by application to and the approval by a majority vote of the commission.

Article XII

(a) If any compacting state or territory shall at any time default in the performance of any of its obligations assumed or imposed in accordance with the provisions of this compact, all rights, privileges and benefits conferred by this compact or
agreements hereunder shall be suspended from the effective date of such default as fixed by the commission.

(b) Unless such default shall be remedied within a period of two (2) years following the effective date of such default, this compact may be terminated with respect to such defaulting state or territory by affirmative vote of three-fourths of the other member states or territories.

(c) Any such defaulting state may be reinstated by:

(i) Performing all acts and obligations upon which it has heretofore defaulted; and

(ii) Application to and the approval by a majority vote of the commission.

21-16-202. When binding; notice of ratification; power of governor to appoint commissioners; powers of commissioners generally; appropriation of monies.

(a) The compact shall become operative and binding at the time provided, and in accordance with article X of the compact. The governor of Wyoming shall give notice of the approval, ratification and adoption of the compact by the legislature of the state of Wyoming, to the governors of each of the states and territories named in article X of the compact. The governor shall appoint the commissioners for which provision is made in the compact and the commissioners shall have the power and authority specified in the compact, and such other power and authority as may hereafter be prescribed by law.

(b) In addition to those powers granted to the commissioners in the compact, the commissioners are directed and empowered:

(II) Repay all amounts expended by the state of Wyoming on the student's education through the WICHE program, together with interest which shall begin accruing after the student's graduation or residency, whichever is later, but in no event later than eight (8) years after the student enters into an agreement, upon terms specified by the commission. However, interest shall begin to accrue when the student has withdrawn from the professional school or a residency program as determined by the commission or is otherwise not making satisfactory progress toward completion of the degree program as determined by the commission. Money expended under this paragraph shall accrue at an annual interest rate equal to that charged for federal Stafford loans at the time interest begins to accrue, which rate shall be adjusted annually to equal the federal Stafford loan rate. In no event shall the interest rate be greater than eight percent (8%).

(B) Upon application of the student, the commission may relieve a student of the obligation to repay amounts expended under subparagraph (A) of this paragraph, in whole or in part, where repayment would cause undue hardship. The commission shall annually report the number of students relieved from repayment under this subparagraph to the joint
labor, health and social services interim committee not later than October 1;

(C) Any amounts paid by medical, podiatry, osteopathic, occupational therapy, physical therapy, optometry, physician assistant or dental students in accordance with the contractual arrangements authorized under this paragraph shall be credited to a WICHE program repayment account which shall be expended upon appropriation by the legislature;

(D) The provisions of this paragraph shall not apply to the field of veterinary medicine.

(c) All monies appropriated for the purposes of the compact shall be appropriated to the board of trustees of the University of Wyoming for administration as directed by the commissioners.

ARTICLE 3

COMPACT FOR EDUCATION

Article I

(a) It is the purpose of this compact to:

(i) Establish and maintain close cooperation and understanding among executive, legislative, professional, educational and lay leadership on a nationwide basis at the state and local levels.

(ii) Provide a forum for the discussion, development, crystallization and recommendation of public policy alternatives in the field of education.

(iii) Provide a clearinghouse of information on matters relating to educational programs and how they are being met in different places throughout the nation, so that the executive and legislative branches of state government and of local communities may have ready access to the experience and
record of the entire country, and so that both lay and professional groups in the field of education may have additional avenues for the sharing of experience and the interchange of ideas in the formation of public policy in education.

(iv) Facilitate the improvement of state and local educational systems so that all of them will be able to meet adequate and desirable goals in a society which requires continuous qualitative and quantitative advance in educational opportunities, methods and facilities.

(b) It is the policy of this compact to encourage and promote local and state initiative in the development, maintenance, improvement and administration of educational systems and institutions in a manner which will accord with the needs and advantages of diversity among localities and states.

(c) The party states recognize that each of them has an interest in the quality and quantity of education furnished in each of the other states, as well as in the excellence of its own educational systems and institutions, because of the highly mobile character of individuals within the nation, and because the products and services contributing to the health, welfare and economic advancement of each state are supplied in significant part by persons educated in other states.

Article II

As used in the compact, "state" means a state, territory or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

Article III

(a) The education commission of the states, hereinafter called "the commission", is hereby established. The commission shall consist of seven (7) members representing each party state. One (1) of such members shall be the governor; two (2) shall be members of the state legislature selected by its respective houses and serving in such manner as the legislature may determine, Wyoming's legislative members are to be appointed one (1) by the president of the senate and one (1) by the speaker of the house; and four (4) shall be appointed by the governor and may be removed by the governor as provided in W.S. 9-1-202. If the laws of a state prevent legislators from serving on the commission, six (6) members shall be appointed
and serve at the pleasure of the governor, unless the laws of the state otherwise provide. In addition to any other principles or requirements which a state may establish for the appointment and service of its members of the commission, the guiding principle for the composition of the membership on the commission from each party state shall be that the members representing such state shall, by virtue of their training, experience, knowledge or affiliations be in a position collectively to reflect broadly the interests of the state government, higher education, the state education system, local education, lay and professional, public and nonpublic educational leadership. Of those appointees, one (1) shall be the head of a state agency or institution, designated by the governor, having responsibility for one (1) or more programs of public education. In addition to the members of the commission representing the party states, there may be not to exceed ten (10) nonvoting commissioners selected by the steering committee for terms of one (1) year. Such commissioners shall represent leading national organizations of professional educators or persons concerned with educational administration.

(b) The members of the commission shall be entitled to one (1) vote each on the commission. No action of the commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the commission are cast in favor thereof. Action of the commission shall be only at meetings at which a majority of the commissioners are present. The commission shall meet at least once a year. In its bylaws, and subject to such directions and limitations as may be contained therein, the commission may delegate the exercise of any of its powers to the steering committee or the executive director, except for the power to approve budgets or requests for appropriations, the power to make policy recommendations pursuant to article IV and adoption of the annual report pursuant to subsection (k) of this article.

(c) The commission shall have a seal.

(d) The commission shall elect annually, from among its members, a chairman, who shall be a governor, a vice-chairman and a treasurer. The commission shall provide for the appointment of an executive director. Such executive director shall serve at the pleasure of the commission, and together with the treasurer and such other personnel as the commission may deem appropriate shall be bonded in such amount as the commission shall determine. The executive director shall be secretary.
(e) Irrespective of the civil service, personnel or other merit system laws of any of the party states, the executive director subject to the approval of the steering committee shall appoint, remove or discharge such personnel as may be necessary for the performance of the functions of the commission, and shall fix the duties and compensation of such personnel. The commission in its bylaws shall provide for the personnel policies and programs of the commission.

(f) The commission may borrow, accept or contract for the services of personnel from any party jurisdiction, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of two (2) or more of the party jurisdictions or their subdivisions.

(g) The commission may accept for any of its purposes and functions under this compact any and all donations, and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any state, the United States, or any other governmental agency, or from any person, firm, association, foundation, or corporation, and may receive, utilize and dispose of the same. Any donation or grant accepted by the commission pursuant to this paragraph or services borrowed pursuant to paragraph (f) of this article shall be reported in the annual report of the commission. Such report shall include the nature, amount and conditions, if any, of the donation, grant, or services borrowed, and the identity of the donor or lender.

(h) The commission may establish and maintain such facilities as may be necessary for the transacting of its business. The commission may acquire, hold, and convey real and personal property and any interest therein.

(j) The commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The commission shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto, with appropriate agency or officer in each of the party states.

(k) The commission annually shall make to the governor and legislature of each party state a report covering the activities of the commission for the preceding year. The commission may make such additional reports as it may deem desirable.
Article IV

(a) In addition to authority conferred on the commission by other provisions of the compact, the commission shall have authority to:

(i) Collect, correlate, analyze and interpret information and data concerning educational needs and resources.

(ii) Encourage and foster research in all aspects of education, but with special reference to the desirable scope of instruction, organization, administration, and instructional methods and standards employed or suitable for employment in public educational systems.

(iii) Develop proposals for adequate financing of education as a whole and at each of its many levels.

(iv) Conduct or participate in research of the types referred to in this article in any instance where the commission finds that such research is necessary for the advancement of the purposes and policies of this compact, utilizing fully the resources of national associations, regional compact organizations for higher education, and other agencies and institutions, both public and private.

(v) Formulate suggested policies and plans for the improvement of public education as a whole, or for any segment thereof, and make recommendations with respect thereto available to the appropriate governmental units, agencies and public officials.

(vi) Do such other things as may be necessary or incidental to the administration of any of its authority or functions pursuant to this compact.

Article V

(a) If the laws of the United States specifically so provide, or if administrative provision is made therefor within the federal government, the United States may be represented on the commission by not to exceed ten (10) representatives. Any such representative or representatives of the United States shall be appointed and serve in such manner as may be provided by or pursuant to federal law, and may be drawn from any one (1) or more branches of the federal government, but no such representative shall have a vote on the commission.
(b) The commission may provide information and make recommendations to any executive or legislative agency or officer of the federal government concerning the common educational policies of the states, and may advise with any such agencies or officers concerning any matter of mutual interest.

Article VI

(a) To assist in the expeditious conduct of its business when the full commission is not meeting, the commission shall elect a steering committee of thirty-two (32) members which, subject to the provisions of this compact and consistent with the policies of the commission, shall be constituted and function as provided in the bylaws of the commission. One-fourth of the voting membership of the steering committee shall consist of governors, one-fourth shall consist of legislators, and the remainder shall consist of other members of the commission. A federal representative on the commission may serve with the steering committee, but without vote. The voting members of the steering committee shall serve for terms of two (2) years, except that members elected to the first steering committee of the commission shall be elected as follows: sixteen (16) for one (1) year and sixteen (16) for two (2) years. The chairman, vice-chairman, and treasurer of the commission shall be members of the steering committee and, anything in this paragraph to the contrary notwithstanding, shall serve during their continuance in these offices. Vacancies in the steering committee shall not affect its authority to act, but the commission at its next regularly ensuing meeting following the occurrence of any vacancy shall fill it for the unexpired term. No person shall serve more than two (2) terms as a member of the steering committee; provided that service for a partial term of one (1) year or less shall not be counted towards the two (2) term limitation.

(b) The commission may establish advisory and technical committees composed of state, local, and federal officials, and private persons to advise it with respect to any one (1) or more of its functions. Any advisory or technical committee may, on request of the states concerned, be established to consider any matter of special concern to two (2) or more of the party states.

(c) The commission may establish such additional committees as its bylaws may provide.
Article VII

(a) The commission shall advise the governor or designated officer or officers of each party state of its budget and estimated expenditures for such period as may be required by the laws of that party state. Each of the commission's budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states.

(b) The total amount of appropriation requests under any budget shall be apportioned among the party states. In making such apportionment, the commission shall devise and employ a formula which takes equitable account of the populations and per capita income levels of the party states.

(c) The commission shall not pledge the credit of any party states. The commission may meet any of its obligations in whole or in part with funds available to it pursuant to article III(g) of this compact, provided that the commission takes specific action setting aside such funds prior to incurring an obligation to be met in whole or in part in such manner. Except where the commission makes use of funds available to it pursuant to article III (g) thereof, the commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

(d) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established by its bylaws. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a qualified public accountant, and the report of the audit shall be included in and become part of the annual reports of the commission.

(e) The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the commission.

(f) Nothing contained herein shall be construed to prevent commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

Article VIII
(a) This compact shall have as eligible parties all states, territories, and possessions of the United States, the District of Columbia, and the commonwealth of Puerto Rico. In respect of any such jurisdiction not having a governor, the term "governor", as used in this compact, shall mean the closest equivalent official of such jurisdiction.

(b) Any state or other eligible jurisdiction may enter into this compact and it shall become binding thereon when it has adopted the same; provided that in order to enter into initial effect, adoption by at least ten (10) eligible party jurisdictions shall be required.

(c) Adoption of the compact may be either by enactment thereof or by adherence thereto by the governor; provided that in the absence of enactment adherence by the governor shall be sufficient to make his state a party only until December 31, 1967. During any period when a state is participating in this compact through gubernatorial action, the governor shall appoint those persons who, in addition to himself, shall serve as the members of the commission from his state, and shall provide to the commission an equitable share of the financial support of the commission from any source available to him.

(d) Except for a withdrawal effective on December 31, 1967, in accordance with paragraph (c) of this article, any party state may withdraw from this compact by enacting a statute repealing the same. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

Article IX

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any state or of the United States, or the application thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating therein, the compact shall remain in full force and effect as to the state affected as to all severable matters.

All obligations issued under this article are deemed to be negotiable instruments under the laws of the state unless expressly stated to the contrary on the face of the obligations.

(b) The principal of and interest and premium, if any, on the obligations shall be payable solely from the sources provided by this article for payment. The obligations of each issue shall be dated, shall bear interest at rates including variable rates, shall mature at times not to exceed twenty (20) years from their date, as determined by the authority, and may be made redeemable before maturity at the option of the authority, at a price and under terms and conditions as may be fixed by the authority prior to issuance of the obligations.

(c) The authority shall determine the form and the manner of execution of the obligations, including any interest coupons to be attached thereto, and shall fix the denomination of the obligations and the place of payment of principal and interest, which may be any financial institution or trust company within or without the state.

(d) The authority may sell the obligations in any manner, either at public or private sale and for a price as it may determine will best effectuate the purposes of this article. The authority may pay legal fees, expenses, premiums and commissions which it finds necessary or advantageous in connection with the issuance and sale.

21-16-708. Revenue obligations; security.

(a) In any resolution authorizing the issuance of obligations, the authority shall pledge or assign as security therefore:

   (i) Payments received on student loans including principal, interest and penalties and other income rendered in connection with student loans;

   (ii) Proceeds of insurance, earnings and profits on investments of funds and from sales, purchases, endorsements of student loans and other contract rights;

   (iii) Any funds, rights, proceeds of insurance or other benefits acquired pursuant to any federal law or contract to the extent not in conflict therewith;

   (iv) Money recovered through the enforcement of any remedies or rights; and

   (v) Any other funds or things of value becoming the property of the authority, which in the determination of the authority, may enhance the marketability of its revenue obligations.

(b) The holders of obligations shall not look to any general or other fund for payment of the obligations except the revenues pledged or assigned under subsection (a) of this section.

(c) Revenue obligations shall not constitute an indebtedness or a debt of the state within the meaning of any constitutional or statutory provision or limitation. The
obligations shall not be considered or held to be general, special or limited obligations of the state but shall constitute the special obligations of the authority for which the state shall not pledge its full faith and credit for payment on the obligations.

(d) The resolution or trust indenture under which the revenue obligations are authorized and any other instrument may contain agreements and provisions for:

(i) The creation and maintenance of special funds from revenues; and

(ii) The rights and remedies available in the event of default.

(e) Each pledge, agreement or other instrument made for the benefit or security of any obligations of the authority is valid and binding from the time made. The revenues, receipts, monies and assets pledged are immediately subject to the lien of the pledge without delivery or further act. The lien is valid and binding against persons having claims of any kind against the authority whether or not the persons have actual notice of the lien. Neither the resolution nor the indenture or other instrument by which a pledge is created need be recorded or filed.

(f) Any resolution or trust indenture under which obligations of the authority are authorized may contain provisions for vesting in a trustee the properties, rights, powers and duties in trust as the authority determines.

21-16-709. Debt service reserve funds; use of monies.

(iii) Payment of interest on the obligations of the authority; or
(iv) Payment of any redemption premium required to be paid when the obligations are redeemed prior to maturity.

(b) The interest earned on the amount deposited in any reserve fund may be used for defraying the cost of the operations of the authority. Money in any debt service reserve fund shall not be withdrawn if it would reduce the amount of the fund to less than the amount which is pledged in the proceedings authorizing the issuance of the obligations secured by the debt service reserve fund, except for paying principal and interest on obligations maturing and becoming due and for the payment of which other monies of the authority are not available.

21-16-710. Disposition of monies received.

Monies received pursuant to this article, whether as proceeds from the sale of obligations or as revenues, receipts or income, shall be held as trust funds to be applied solely as provided in the proceedings under which the obligations are authorized. The trustee shall hold and apply the monies for purposes authorized by this article and by the proceedings authorizing the obligations and included in the resolution or indenture providing for the issuance of the obligations.

21-16-711. Notice of default; authority to pay unpaid balance of principal to financial institutions; financial institutions to deliver note to authority.

The authority may from time to time decrease this percentage in furtherance of this plan. In order for a loan to qualify for default coverage by the authority under this article, the financial institution shall deposit the loan reserve fee into reserve funds established by the authority under this section. The authority shall establish procedures for the collection and deposit of the loan reserve fee and for the payment of defaults on secured loans. The loan reserve fee is not a finance charge for purposes of any state or federal consumer credit law.
(b) In the event of a default on any loan owned by the authority or security obligation of the authority, the authority shall take all lawful steps to collect on all loans acquired, administered or financed pursuant to this article and in accordance with commercially reasonable terms and subject to any applicable state or federal statutes, may contract with a private collection agent for loan collection.

(c) In the event of a default on any loan not owned by the authority but administered or financed pursuant to this article, the authority shall as soon as practicable after receipt of demand by a financial institution containing a statement of the nature and the reason for the default, pay, from the loan reserve funds established pursuant to this article, to the financial institution one hundred percent (100%) of the unpaid balance of the principal on the note. Upon payment, the financial institution shall endorse, without recourse or warranty, and deliver to the authority the note, together with all of the rights of the financial institution under any guaranty or endorsement of the note and with respect to any security for the payment of the note.

21-16-712. Age discrimination prohibited; full legal capacity of minors.

Any student qualifying for a loan under this article is not disqualified by reason of being a minor. For the purpose of applying for, receiving and repaying a loan, any student has full legal capacity to act and all the rights, powers, privileges and obligations of an adult with respect thereto.

21-16-713. Information sharing.

Colleges in this state shall furnish to the authority and to financial institutions information necessary to properly administer this article. Upon request, the authority may regularly furnish information on higher education student loan transactions to colleges.

21-16-714. Investment of state funds in insured, guaranteed or other higher education loans.

(a) Subject to approval of the governor and advice of the attorney general, the state treasurer may enter into standby commitment agreements for a commercially reasonable fee with the authority under which the state agrees to purchase loans held by the authority at any time the authority is unable to pay
interest on or principal of any of its outstanding obligations on any regularly scheduled interest or principal payment date, or at maturity, whether by acceleration, redemption or otherwise. One (1) condition of the agreement shall require the loan program to be designed for statewide participation and benefits. If the commitment is incurred, the investment shall be made from the Wyoming permanent mineral trust fund or permanent land fund and shall not exceed one hundred seventy-five million dollars ($175,000,000.00).

(b) If loans are sold, the authority shall, as partial consideration for the sale, retain the responsibility for collection and procedural processing of the loans at its sole expense with the exception of servicing fees as specified in the standby commitment agreement. In no case shall the state be obliged to administer loans purchased from the authority. The portion of any payment reflecting a return of corpus shall be credited to the permanent mineral trust fund or permanent land fund and the balance of the payment shall be credited to the general fund or the permanent land income fund, as applicable.

21-16-715. Exemptions from taxation; exceptions.

The exercise of the powers granted by this article constitutes the performance of an essential governmental function. 21-16-717. State pledge not to impair rights and remedies of holders of obligations.
The state pledges to the holders of any obligations issued under this article that the state will not limit or alter the rights vested in the authority to fulfill the terms of agreements made with the holders, or in any way impair the rights and remedies of the holders until the obligations, together with interest, with interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceeding by or on behalf of the holders, are fully met and discharged. The authority is authorized to include this pledge of the state in any agreement with the holders of the obligations.

21-16-718. Investment and management of funds; audit.

(a) In investing and managing its funds, the authority shall exercise the judgment and care which persons of prudence, discretion and intelligence would exercise under similar circumstances in managing the permanent disposition of their funds, considering the probable income and the probable safety of their capital, and may:

(i) Invest funds in securities in which state funds may be invested as provided by law or in savings certificates of savings and loan associations and certificates of deposit of financial institutions to the extent they are fully insured by a federal agency or are fully secured by a pledge of assets as provided by law;

(ii) Sell securities it has purchased; and

(iii) Deposit funds in any financial institution if secured by obligations authorized as permissible security for state investments.

(b) Notwithstanding this section, the authority may contract with the holders of any of its obligations for the custody, collection, securing, investment and payment of any monies of the authority, of any monies held in trust or otherwise for the payment of obligations and may carry out the contract. Monies held in trust or otherwise for the payment of obligations or in any way to secure obligations and deposits of monies may be secured in the same manner as monies of the authority and all financial institutions and trust companies are authorized to give security for these deposits.

(c) Subject to agreements with holders of its obligations, the authority shall prescribe a system of accounts in accordance with generally accepted accounting principles.
(d) The authority shall employ a certified public accountant to examine the books and accounts of the authority including its receipts, disbursements, contracts, reserve funds, sinking funds, investments and any other matters relating to its financial standing. The examination shall be conducted at least once each year and copies of the examination report shall be filed with the secretary of state, the director of the state department of audit and the legislative service office.

21-16-719. Assistance by state agencies.

(a) Upon request of the authority, any state agency may temporarily assign to the authority officers and employees necessary to assist the authority in carrying out its functions and duties under this article. Assigned state officers and employees shall not lose status or rights as state employees.

(b) Upon request of the authority, any state agency may lend technical assistance, render advice and attend meetings with the directors and employees of the authority as the authority requires in carrying out its functions and duties.

(c) The authority shall compensate the state for any assistance received.

(b) The authority shall submit its budget for review as provided by W.S. 9-2-1010 through 9-2-1014.1.

(c) This section shall not impair or affect any pledge of special funds of the authority for payment of obligations authorized under this article nor shall any funds of the authority be deemed state funds and subject to appropriation hereby.

21-16-721. Conflicts of interest.

(a) The authority shall not purchase from, sell to, borrow from, loan to, contract with or otherwise deal with any corporation, trust, association, partnership or other entity in which any director of the authority has a financial interest.

21-16-901. University of Wyoming endowment challenge program.

The University of Wyoming endowment challenge program is created.

21-16-902. Definitions.

(a) As used in this article:

(i) "Challenge account" means the university endowment challenge account established under W.S. 21-16-903;

(ii) "Permanent endowment funds managed by the University of Wyoming foundation" means the endowment funds that are invested by the University of Wyoming foundation on a permanent basis and regarding which earnings on those investments are dedicated to be expended exclusively to benefit and promote the mission, operation or any program or activity of the University of Wyoming, including but not limited to professorships and student scholarships, increases to the corpus of the endowment and defraying reasonable costs of endowment administration;

(iii) "Substantial endowment gift" means an irrevocable gift or transfer to the University of Wyoming foundation of money or other property by a donor where:
(A) The gift or the foundation's interest in the property is conditioned on it being used by the foundation exclusively for endowment purposes;

(B) Except as provided by W.S. 21-16-904(a)(ix) for fallen heroes endowments, the gift or property transferred has a fair market value of at least fifty thousand dollars ($50,000.00); and

(C) The following apply:

(I) The gift was received or the transfer occurred on or after March 1, 2001. Payments are not eligible to be matched if they are part of a gift for which some payment was received prior to March 1, 2001;

(II) If a commitment to make the gift or transfer is made in writing to the university foundation on or after March 1, 2001, to qualify for the match, the gift shall actually be received or the transfer shall actually occur not later than December 31 of the fifth calendar year following the calendar year in which the written commitment was made to the university foundation;

(III) Members of a single family may aggregate their individual gifts to meet the minimum dollar threshold required for matching funds. Gifts from nonfamily members in memory of a deceased individual may also be aggregated to meet the minimum dollar threshold required for matching funds.

21-16-903. University endowment challenge account.

(a) The university endowment challenge account is created.

(b) The state treasurer shall invest amounts deposited within the account in accordance with law, and all investment earnings shall be credited to the general fund. Notwithstanding W.S. 9-2-1008, 9-2-1012(e) or 9-4-207, other funds within the account shall not lapse or revert until directed by the legislature and shall remain available for distribution as provided in this article.

21-16-904. Endowment challenge fund matching fund program; matching payments; agreements with university foundation; annual reports; reversions of appropriations; legislative oversight.
The state treasurer shall administer the matching fund program established under this section. The following shall apply to the program:

(i) To the extent that funds are available in the challenge account, the state treasurer shall match each substantial endowment gift actually received by the University of Wyoming foundation by transferring from the challenge account to the university an amount equal to the amount of the substantial endowment gift. Prior to the receipt of any substantial endowment gift, the donor shall be notified by the foundation that there may or may not be any state matching funds available for the gift. If funds are not available within the account, the amount of substantial endowment gifts to the foundation may be accumulated until such time as matching funds become available. Endowment gifts made directly to the university shall be endowment gifts to the foundation for purposes of this section. The university shall manage both the endowment gifts and the matching funds in the same manner as other endowment funds, but otherwise subject to the provisions of this section;

(ii) The state treasurer shall make transfers to the university under this section not later than the end of the calendar quarter following the quarter during which the gift is received. Matching funds shall only be available for expenditure to the extent cash or cash equivalent contributions are actually received by the University of Wyoming. Where a gift is made through a series of payments or transfers, except as provided in paragraph (ix) of this subsection, no matching funds shall be transferred by the state treasurer until the total value of all payments or transfers actually received toward the gift totals at least fifty thousand dollars ($50,000.00). Thereafter, matching funds shall be transferred as payments or transfers toward that gift are received by the foundation. Nothing in this paragraph prohibits the university foundation from accumulating substantial endowment gifts until such time as state matching funds become available;

(iii) The university shall immediately transfer all matching funds received to the university foundation to be permanently invested. The university shall enter into a new agreement or modify its existing agreement with the University of Wyoming foundation under which the foundation shall manage the matching funds it receives in the same manner as other permanent endowment funds managed by the University of Wyoming foundation subject to the provisions of this section.
Expenditures may be made from that portion of the funds attributable to endowment gifts received in accordance with the Uniform Prudent Management of Institutional Funds Act. Notwithstanding that act, only the earnings from the investment of state matching funds may be expended for purposes other than reasonable costs of administration. All expenditures shall be used exclusively for the purposes of the endowment, including reasonable costs of administration. Earnings also may be reinvested to increase the balance of the corpus. Reasonable costs of administration shall not exceed an annual rate of one percent (1%) of the fair value of each state matching fund account held by the foundation that is associated with a substantial endowment gift received by the foundation under W.S. 21-16-902(a)(iii). The costs of administration shall be assessed quarterly at one-fourth (1/4) the annual rate as specified in this subsection or as otherwise specified by law. The fair value of each state matching fund account held by the foundation shall be determined by the foundation as of the last day of the preceding quarter. Any modification of costs of administration allowed shall be effected through a footnote to the University of Wyoming's general appropriation in the general government appropriations bill or in a 300 section of the general government appropriations bill. Upon the modification of any costs of administration to an amount above one percent (1%), the University of Wyoming foundation shall submit to the joint appropriations interim committee a detailed financial accounting of all costs of administration incurred during the fiscal year;

(iv) The state treasurer shall distribute funds or encumber funds for future distribution in the case of a written commitment, to match a substantial endowment gift based on the order in which each substantial endowment gift is actually received or in which a written commitment to make a substantial endowment gift is received by the foundation. Matching funds shall not be distributed or encumbered in excess of the amount in the challenge account. In no event shall matching funds be transferred to the university except to match substantial endowment gifts actually received or to match gifts actually received and accumulated. The state treasurer shall rescind an encumbrance if the university notifies him that a donor who made a commitment will not make a substantial endowment gift that qualifies for matching funds under this section;

(v) If the president of the university determines that the purpose of a substantial endowment gift to the foundation is not consistent with mission or capability of the
university, the gift shall not qualify for the matching program under this section;

(vi) For the purpose of calculating the matching amount only, the state treasurer shall use the value of a substantial endowment gift based on its fair market value at the time the gift is received by the university foundation. The university shall provide evidence of fair market value as the state treasurer requires for each substantial endowment gift. The state treasurer's office shall not bear any costs associated with providing evidence;

(vii) The University of Wyoming shall on or before October 1 of each year submit a report to the state treasurer from the foundation regarding the endowment matching program established under this section for the preceding fiscal year. The report shall include a financial summary and a review of the accomplishments resulting from endowment program expenditures. The state treasurer shall distribute the report to the governor and the legislature;

(viii) Repealed By Laws 2009, Ch. 52, § 3.

(ix) To the extent funds are available in the challenge account, the state treasurer shall distribute matching funds not to exceed five thousand dollars ($5,000.00) for each fallen heroes endowment as follows:

(A) Two thousand dollars ($2,000.00) for the first one thousand dollars ($1,000.00) actually received in a fallen heroes endowment; and

(B) Three thousand dollars ($3,000.00) for an additional one thousand dollars ($1,000.00) received in a fallen heroes endowment, excluding any funds deposited in a fallen heroes endowment pursuant to this paragraph.

(b) Any funds appropriated to a university endowment fund by the legislature shall be credited to the university fund endowment challenge account under W.S. 21-16-903.

(c) Nothing in this section obligates the legislature to match accumulated substantial endowment gifts as authorized under subsection (a) of this section. The legislature reserves the right to modify or terminate the matching program at any time.
(d) As used in this section "earnings from the investment of state matching funds" means that amount of net appreciation, realized and unrealized, in the fair value of assets of the endowment fund attributable to all state matching funds which exceeds the total amount of those state matching funds when distributed by the state treasurer to the university.

(iv) " Permanent endowment funds managed by a Wyoming community college foundation" means the endowment funds that are invested by the respective Wyoming community college foundation on a permanent basis and the earnings on those investments are dedicated to be expended exclusively to benefit and promote the mission, operation or any program or activity of the respective community college, including but not limited to professorships and student scholarships, increases to the corpus of the endowment and defraying reasonable costs of endowment administration.

21-16-1103. Wyoming community college endowment challenge fund.

(a) The Wyoming community college endowment challenge fund is created and shall consist of seven (7) separate accounts, one (1) account for each Wyoming community college.

(b) The state treasurer shall invest funds within the fund created under subsection (a) of this section and shall deposit the earnings from fund investments to the general fund.
Notwithstanding W.S. 9-2-1008, 9-2-1012(e) or 9-4-207, other funds within the fund shall not lapse or revert until directed by the legislature and shall remain available for distribution as provided in this article.

21-16-1104. Endowment challenge fund matching program; matching payments; agreements with foundations; annual reports.

(a) To the extent funds are available in the separate account of any community college within the endowment challenge fund, the state treasurer shall match endowment gifts actually received by that community college's foundation. Except as provided in subsection (k) of this section, a match shall be paid under this subsection by the state treasurer at the time any accumulated amounts actually received by a community college foundation total ten thousand dollars ($10,000.00) or more. Matching funds shall only be available for expenditure to the extent cash or cash equivalent contributions are actually received by the community college. Endowment gifts actually received by a community college foundation may also be accumulated until such time as state matching funds become available. The match shall be made by transferring from the separate challenge fund account to the appropriate community college an amount equal to the amount accumulated by its foundation. The recipient community college shall immediately transfer matching funds received under this subsection to the community college foundation.

(b) Each community college district shall enter into an agreement with its foundation under which the foundation shall manage the matching funds received under subsection (a) of this section in the same manner as other permanent endowment funds are managed by its foundation, including the permanent investment of funds, maintenance of the fund corpus as inviolate and the expenditure of fund earnings for endowment purposes only.

(c) Earnings from endowment funds established with matching funds under this section shall be expended only for the purpose of the endowment, including increasing the balance in the fund corpus and reasonable costs of administration.

(d) Except as provided in subsection (k) of this section, to the extent funds are available to the separate account of any community college, the state treasurer shall make transfers to the appropriate community college under this section not later than the end of the calendar quarter following the quarter
during which foundation gifts total at least ten thousand dollars ($10,000.00). Prior to the receipt of any substantial endowment gift, the donor shall be notified by the foundation that there may or may not be any state matching funds available for the gift. If funds are not available for any community college account, the amount of gifts to that foundation may be accumulated until such time as matching funds become available. Except as provided in subsection (k) of this section, if gifts are made through a series of payments or transfers, no matching funds shall be transferred under this section until the total value of all payments or transfers actually received totals at least ten thousand dollars ($10,000.00).

(e) Except as provided under subsection (f) of this section, matching funds paid under this section shall not be distributed to or encumbered by any community college foundation in excess of the amount in the challenge fund account for that college. Except to the extent authorized under subsection (f) of this section, matching funds shall not be transferred to any community college by the state treasurer except to match gifts actually received by its foundation.

(f) Notwithstanding subsection (e) of this section, matching funds may be distributed to or encumbered by a community college foundation in excess of the amount within the challenge fund account of that college if:

(i) Endowment gifts for that college exceed the amount within its challenge fund account;

(ii) The college enters into a written agreement with another college having unencumbered amounts remaining within its challenge fund account;

(iii) The college with unencumbered amounts within its account agrees to transfer any portion of its unencumbered amount to that college;

(iv) Matching funds transferred by the state treasurer for amounts transferred between colleges pursuant to this subsection shall be divided equally between the colleges participating in the agreement.

(g) If the president of any community college determines that the purpose of an endowment gift to the community college's foundation is not consistent with the mission or capability of
that college, the gift shall not qualify for matching funds under this section.

(h) For the purpose of computing the matching amount, the state treasurer shall use the value of an endowment gift based upon its fair market value at the time the gift is received by the community college foundation. The community college shall provide evidence of fair market value for any gift if requested by the state treasurer and shall fund the cost of providing any requested evidence.

(j) Each community college shall on or before October 1 of each year submit a report from its foundation to the state treasurer and the community college commission on the endowment matching program under this section for the preceding fiscal year. The report shall include a financial summary and a review of the accomplishments resulting from endowment program expenditures.

(k) To the extent funds are available in the separate account of any community college within the endowment challenge fund, the state treasurer shall distribute matching funds not to exceed five thousand dollars ($5,000.00) for each fallen heroes endowment as follows:

(i) Two thousand dollars ($2,000.00) for the first one thousand dollars ($1,000.00) actually received in a fallen heroes endowment; and

(ii) Three thousand dollars ($3,000.00) for an additional one thousand dollars ($1,000.00) actually received in a fallen heroes endowment, excluding any funds deposited in a fallen heroes endowment pursuant to this paragraph.

(m) Nothing in this section obligates the legislature to match accumulated endowment gifts authorized under this section. The legislature reserves the right to modify or terminate the matching program at any time.

An exception under this subparagraph shall be granted only if:

(I) The student's custodial parent or lawful guardian is a Wyoming resident at the time of application for a scholarship under this article and was a Wyoming resident during the student's attendance at the eligible high school;

(II) The student's absence from this state was due to the custodial parent's or lawful guardian's employment requirements or was necessitated by other conditions beyond the reasonable control of the parent or guardian; and

For students graduating prior to their senior year the GPA used to preliminarily determine eligibility shall be based upon the student's official high school transcript as of the end of the semester immediately prior to the last semester before the student's graduation. High school GPAs for final eligibility determinations for students initially applying for a scholarship under this article shall be based upon the student's complete high school academic record. community college lists, shall provide the lists to the
department and shall certify to the department the amount each
college is to receive under this article. Students attending
more than one (1) eligible institution shall enter into a
consortium agreement with the multiple institutions whereby the
student shall designate a home institution to be paid the entire
Hathaway scholarship amount for which the student qualifies;

(v) The department shall determine and certify to the
state treasurer the amount which is equal to seventy-five
percent (75%) of the total amount the eligible institution
received during the preceding semester under this subsection.
Not later than September 1 for the fall semester and not later

shall pay from the scholarship expenditure account the amount
certified by the department. The department shall review the
lists provided under paragraph (iv) of this subsection,
determine whether there is any duplication of students, and
determine and certify to the state treasurer the balance of the
amount due under this article to each institution for the
semester. For any duplication, the department shall determine
whether the student is attending more than one (1) eligible
institution. If the student is attending multiple eligible
institutions payment of the Hathaway scholarship for which the
student qualifies shall be made only to the institution
designated as the home institution by the student. The state
treasurer shall pay from the scholarship expenditure account the
balance of the amount due. Payments of the balance due under
this paragraph shall be made not later than seventy-five (75)
days after the institution’s semester has commenced. Payments
to the university shall be made directly to the university.
Payments to the community colleges shall be made directly to
each college and be reported by the state treasurer to the
community college commission. Should a prepayment under this
paragraph exceed the amount actually due the institution for any
semester, the excess amount shall be calculated by the
department and deducted from the next payment made. For
purposes of this subsection, payments due for summer terms shall
be included within the calculations and payments for the
subsequent fall semester.

The report shall describe the extent to which the university and community colleges have included within regular written or electronic communications transmitted to alumni of the institutions, information on the progress of the scholarship programs established under this article and information on making contributions to the Hathaway student scholarship endowment account. The University of Wyoming and the community college commission shall include the reports within the respective biennial budget requests submitted under W.S. 9-2-1013.

21-16-1312. Hathaway expand Wyoming scholarship; eligibility requirements and conditions; selection.

(b) Each year up to two (2) students from each state contiguous to Wyoming may be awarded a Hathaway expand Wyoming scholarship, not to exceed an aggregate of twenty-four (24) active awards at any time. Awards of Hathaway expand Wyoming scholarships shall be contingent on available funds and anticipated revenue to the Hathaway expand Wyoming scholarship expenditure account. Minimum initial qualifications for a
Hathaway expand Wyoming scholarship shall be all initial requirements applicable to a Hathaway honor scholarship, other than Wyoming residency and graduation from a high school located in Wyoming. In addition to those requirements, recipients shall have:

(i) A minimum cumulative high school GPA of 3.75 and a score equal to or greater than the 2015-2016 national percentile rank of ninety-seven (97) on an examination administered throughout the United States and relied upon by institutions of higher education to determine acceptance of students for attendance;

(c) A Hathaway expand Wyoming scholarship shall be for the student's cost of attendance at an eligible institution, but not to exceed the maximum dollar amount provided to students receiving a trustee scholarship at the University of Wyoming and subject to reduction in accordance with W.S. 21-16-1309(a). No student shall be eligible for a Hathaway expand Wyoming scholarship for more than the equivalent of eight (8) full-time semesters. Minimum continuing eligibility and reinstatement eligibility requirements for a Hathaway expand Wyoming scholarship shall be the same as requirements for a Hathaway honors scholarship. These minimum requirements may be increased by rule of the department to requirements no more stringent than those imposed by the University of Wyoming for recipients of a trustee scholarship. Hathaway expand Wyoming scholarships may be reduced in the same manner and to lower levels as provided for Hathaway honor scholarships for failure to meet continuing eligibility requirements.

(d) Hathaway expand Wyoming scholarships shall not be subject to the provisions of W.S. 21-16-1308, but shall be administered by the department in accordance with the provisions of this section and the following:

(i) The department shall, in consultation with University of Wyoming and community college admissions officers and financial aid officers, promulgate rules necessary to implement this section. The consultation shall include development of a means for informing students in contiguous
states of the availability of Hathaway expand Wyoming scholarships;

(ii) Eligible institutions shall provide information required by the department as necessary to fulfill its duties under this section;

(iii) Students shall apply for Hathaway expand Wyoming scholarships with the department at the time of applying for admission or at an earlier time as established by rule of the department. The application shall contain information required by rule of the department. The application shall require each applicant to verify under penalty of false swearing under W.S. 6-5-303, that the applicant has not been convicted of a felony in this state or another jurisdiction;

(iv) The department shall determine and certify to the state treasurer the amount of scholarships awarded under this section for attendance at each eligible institution not later than September 1 for the fall semester and not later than January 15 for the spring semester. Upon receipt of the certification the state treasurer shall pay from the scholarship expenditure account the amount certified by the department;

(v) The same information required to be reported under W.S. 21-16-1308 for Hathaway opportunity, performance and honor scholarships shall be reported for Hathaway expand Wyoming scholarships awarded.

(e) Before awarding a Hathaway expand Wyoming scholarship, the department shall obtain an agreement from each student, or the student's guardian, under which the student agrees to:

(i) Actively engage in work in Wyoming for one (1) year or attend graduate school at the University of Wyoming for one (1) year, for every four (4) academic semesters or portions thereof in which a Hathaway expand Wyoming scholarship was received. The department shall establish by rule the commencement of the period for undertaking the requirements of this paragraph, which period shall begin not later than one (1) year after the completion of the last semester in which a Hathaway expand Wyoming scholarship was received; or

(ii) Repay all Hathaway expand Wyoming scholarship amounts, together with interest which shall begin accruing four (4) years after execution of the agreement. However, interest shall begin to accrue immediately upon the department
determining that the student has withdrawn from the Wyoming institution of higher education or is otherwise not making satisfactory academic progress toward completion of a degree or program. Money expended under this section shall accrue at an annual interest rate equal to that charged for federal direct student loans at the time interest begins to accrue, which rate shall be adjusted annually to match the federal direct student loan rate. In no event shall the interest rate be greater than eight percent (8%). Any amounts repaid by Hathaway expand Wyoming scholarship recipients shall be deposited to the Hathaway expand Wyoming scholarship endowment fund created by W.S. 9-4-204(u)(viii).

(f) The Hathaway expand Wyoming scholarship expenditure account is created to consist of earnings from the Hathaway expand Wyoming scholarship endowment fund created by W.S. 9-4-204(u)(viii) and such other funds appropriated by the legislature to the expenditure account. No state funds shall be appropriated to the expenditure account or used for scholarships under this section. The monies deposited to the expenditure account under this subsection shall be available for scholarships under this section. Monies within the expenditure account are continuously appropriated to the state treasurer for distribution to eligible institutions based on scholarships awarded under this section. All unexpended and unencumbered monies within the expenditure account at the end of each fiscal year shall be deposited by the state treasurer to the Hathaway expand Wyoming scholarship endowment fund.

(ii) "Qualifying contribution" means a transfer of money or other property of a value of not less than twenty-five thousand dollars ($25,000.00) to the University of Wyoming foundation to be expended exclusively for university academic facilities as approved by the university president and board of trustees. The commitment for a qualifying contribution or the contribution itself shall be made in writing on or after October
1, 2005. The contribution shall be actually received by the University of Wyoming foundation on or before December 31 of the fifth calendar year following the calendar year in which the written commitment was made. Members of a single family may aggregate their individual gifts to meet the minimum dollar threshold required for matching funds. Gifts from nonfamily members in memory of a deceased individual may also be aggregated to meet the minimum dollar threshold required for matching funds.

21-16-1402. University academic facilities challenge account.

(a) The university academic facilities challenge account is created.

(b) The state treasurer shall invest amounts deposited within the account in accordance with law. All investment earnings shall be credited to the general fund. Notwithstanding W.S. 9-2-1008, 9-2-1012(e) or 9-4-207, other funds within the account shall not lapse or revert until directed by the legislature and shall remain available for distribution as provided in this article.

21-16-1403. Academic facilities challenge matching program; state treasurer to administer program account; matching payments; conditions; annual reports; reversion of appropriations.

(a) The state treasurer shall administer the university academic facilities challenge account established under this article. The following shall apply:

(i) To the extent that funds are available in the challenge account, the state treasurer shall match each qualifying contribution actually received by the University of Wyoming foundation by transferring from the challenge account to the university an amount equal to the amount of the qualifying contribution. Qualifying contributions made directly to the university shall be considered qualifying contributions to the foundation for purposes of this article. The university shall expend both the qualifying contributions and the matching funds solely for the cost of establishing new or renovating existing university academic facilities as approved by the university president and board of trustees for which private fundraising is deemed to be feasible. Authorized expenditures for academic facilities include but are not limited to all expenditures
necessary for planning, designing, procuring contractors, construction management and actual construction;

(ii) The state treasurer shall make transfers to the university under this section not later than the end of the calendar quarter following the quarter during which the qualifying contribution is received. Matching funds shall only be available for expenditure to the extent cash or cash equivalent contributions are actually received by the University of Wyoming. Thereafter, matching funds shall be transferred as payments or transfers toward that qualifying contribution are received by the foundation;

(iii) The state treasurer shall distribute funds or encumber funds for future distribution in the case of a written commitment, to match a qualifying contribution based on the order in which each qualifying contribution is actually received or in which a written commitment to make a qualifying contribution is received by the foundation. Matching funds shall not be distributed or encumbered in excess of the amount within the challenge account. No matching funds shall be transferred to the university except to match qualifying contributions actually received. The state treasurer shall rescind an encumbrance if the university notifies him that a donor who made a commitment will not make a qualifying contribution that is eligible for matching funds under this section;

(iv) For the purpose of calculating the matching amount only, the state treasurer shall use the value of a qualifying contribution based on its fair market value at the time the contribution is received by the university foundation. The university shall provide evidence of fair market value as the state treasurer requires for each qualifying contribution. The state treasurer's office shall not bear any costs associated with providing evidence;

(v) The University of Wyoming shall on or before October 1 of each calendar year submit a report to the state treasurer from the university foundation regarding the matching program established under this section for the preceding fiscal year. The report shall include a financial summary and a review of the accomplishments resulting from program expenditures. The

For purposes of subsection (h) of this section, it shall be conclusively presumed that the person suffered a qualifying disability if:

(i) The person's disability was caused by a specific injury or disease which results primarily from a specific act or occurrence determinable by a definite time or place, from a physical or mental trauma which arises from the nature and in the course of the person's scope of employment;
(ii) The disabled person is unable to continue in the performance of his duties; and

(iii) The person is receiving retirement benefits for partial or total disability incurred in the scope of employment, including payments made pursuant to W.S. 9-3-431(f), 9-3-432(h)(i), 9-3-611(a) or 15-5-308(a) or the Wyoming Worker's Compensation Act.

Qualifying contributions made directly to the university shall be considered qualifying contributions to the foundation for purposes of this article. The university shall expend both the qualifying contributions and the matching funds solely for the Wyoming reclamation and restoration center. Any investment earnings credited to the account shall be separately accounted for and may be expended by the university to support the center without a qualifying contribution. To the greatest extent practicable, expenditures for the center shall be made for energy related reclamation projects so that qualifying contributions and matching funds support the work of the center through June 30, 2019. The university shall rescind an encumbrance if a donor who made a commitment will not make a qualifying contribution that is eligible for matching funds under this section;
(iv) For the purpose of calculating the matching amount only, the university shall use the value of a qualifying contribution based on its fair market value at the time the contribution is received by the university foundation;

(v) The university shall on or before October 1 of each calendar year submit a report to the governor, joint appropriations interim committee and the joint education interim committee from the university foundation regarding the matching program established under this section for the preceding fiscal year. The report shall include a financial summary and a review of the accomplishments resulting from expenditures.

The securities shall not constitute an indebtedness or a debt within the meaning of any constitutional or statutory provision or limitation, if any limitation appertains thereto. (b) None of the covenants, agreements, representations and
warranties contained in any resolution authorizing the issuance
of bonds or other securities under this act or in any other
instrument appertaining thereto, in the absence of any breach
thereof, shall ever impose or shall be construed as imposing any
liability, obligation, or charge against the board, except the
special funds pledged therefor, or against its general credit,
payable out of its general fund, or out of any funds derived
from taxation.

(c) Before any securities are actually issued payable from

sufficient to pay an amount representing one hundred ten percent
(110%) of the combined maximum annual principal and interest
requirements to be paid during the twelve (12) months, calendar
year or fiscal year of any outstanding securities payable from
and constituting a lien upon the net pledged revenues and the
securities proposed to be issued excluding any reserves therefor

No holder of an outstanding bond may be compelled to surrender the bond for refunding prior to its stated maturity or optional date of prior redemption expressly reserved therein even though the refunding might result in financial benefit to the board or university.

Principal may also then be increased to that extent.

Refunding bonds may be made payable from any pledged revenues which might be legally pledged for the payment of bonds being refunded at the time of the refunding or at the time of the issuance of the bonds being refunded, as the board may determine, notwithstanding the revenue sources or the pledge of the revenues for the payment of the outstanding bonds being refunded is hereby modified.

21-17-443. Refunding and refunding bonds; issuance of refunding or other bonds.

(c) The powers conferred by this act shall be in addition and supplemental to, and not in substitution for, and the limitations imposed by this act shall not affect the powers conferred by, any other law.

(e) No part of this act repeals or affects any other law or part thereof, it being intended that this act shall provide a
separate method of accomplishing its objectives and not an exclusive one.

21-17-450. *Liberal construction.*

This act being necessary to secure the public health, safety, convenience and welfare, shall be liberally construed to effect its purposes.

21-17-451. *Contingent authorization for the university to acquire the national center for atmospheric research supercomputer center facility.*

(a) Subject to the terms and conditions of this section, the University of Wyoming board of trustees is authorized to acquire the facility housing the national center for atmospheric research supercomputer center constructed and operated in accordance with the memorandum of understanding and final contract entered into pursuant to 2007 Wyoming Session Laws, Chapter 136, Section 336. (c) An election for increasing the tax levy shall be held on a date authorized under W.S. 22-21-103 and otherwise conducted in all respects the same as a board election.

(f) If the qualified electors of any community college district have previously approved a tax levy of four (4) mills for the regular support and operation of a community college, the community college district board may submit to the electors of the district a proposition calling for an additional levy of not to exceed five (5) mills on the assessed value of the district for community college purposes. For elections held pursuant to this subsection on or after April 1, 2007, the additional mills may be used for the regular support and operation and for the capital outlay needs of a community college as provided under subsection (h) of this section. Following the election, each county clerk of the counties involved shall immediately give notice of the election result to the county commissioners and:

(i) If the additional levy is approved by the district electors, each involved board of county commissioners shall levy the additional tax and the same proposition shall be submitted at each second general election following approval of the additional levy until the proposition is defeated. The tax shall be levied and collected separate from the four (4) mill levy imposed under W.S. 21-18-304(a)(vii), and any levy imposed under W.S. 21-18-303(b), and for elections held pursuant to this
subsection before April 1, 2007, shall be distributed in accordance with subsection (g) of this section;

(ii) If the additional levy is defeated, the proposition shall not again be submitted to the district electors for at least eleven (11) months. If the proposition is defeated at any general election following initial adoption of the additional levy, the additional tax is repealed effective December 31 of that calendar year in which defeated and the levy imposed by the county commissioners for the following calendar year shall not exceed the levy authorized under W.S. 21-18-303(b) and 21-18-304(a)(vii).

(E) Funding specific district program needs.

(ii) Repealed by Laws 1993, ch. 95, § 2.
(h) The county treasurer shall distribute revenues collected under any additional levy authorized under subsection (f) of this section at an election held on or after April 1, 2007, to the treasurer of the appropriate community college district board of trustees in the same manner as revenues from the levy imposed under W.S. 21-18-304(a)(vii). Revenues distributed pursuant to this subsection shall be included within the district's estimated and reportable revenues for purposes of the biennial funding report of the district under W.S. 21-18-205(b) but shall not be restricted by the commission in any manner. The revenues may be used for the regular support and operation of a community college and subject to approval of the commission and legislature pursuant to W.S. 21-18-205(g), for purposes of capital outlay for district capital facility repair, maintenance, construction and renovation needs.

(c) The application for the formation of a community college district shall be submitted in the form prescribed by the commission and subscribed by not less than five hundred (500) or twenty-five percent (25%), whichever is the smaller number of qualified electors residing within each of the counties situated in the area sought to be organized into a community college district.

need for the community college in the state, the financial ability of the proposed district to support a college, the educational soundness of the proposed community college plan and any other matters which might assist the commission in the disposition of the application. The county commissioners of the area within the proposed community college district shall reimburse the community college commission for all reasonable expenses incurred in making the survey. If the proposed district embraces more than one (1) county the costs of the survey shall be shared proportionately by the counties involved, according to population within the proposed district.

(e) The commission shall approve or disapprove the petition within ninety (90) days of receipt thereof. The commission shall furnish the legislature a copy of its survey findings and recommendations and shall notify the county commissioners of the county wherein the proposed community college is to be located of its findings and recommendations.

(f) After receipt of notice that a petition for establishment of a community college has been approved by the commission, the county clerk of the county wherein the proposed community college is to be located shall conduct an election to determine the question of creation of a community college district with authority to levy a tax not to exceed four (4) mills and to elect the initial members of the community college district board. The election shall be held on the next election date authorized under W.S. 22-21-103 which is not less than sixty (60) days after the receipt of the notice by the county clerk. The publication shall be made no more than thirty (30) days nor fewer than fifteen (15) days prior to the date set for the election. The notice shall state that the purpose of the election is to determine the question of creation of a community college district with
authority to levy a tax not to exceed four (4) mills on the
dollar of assessed valuation of property located within the
proposed district and to elect members of the initial community
college district board.

(h) The county clerk, in conducting an election to
determine the establishment of a community college district, has
substantially the same duties and responsibilities as in the
conduct of a regular college election except as otherwise
provided.

(j) Nominations to the initial community college district
board are submitted on forms provided by the county clerk of the
county wherein the proposed community college is to be located
to be substantially the same as those required for the
nomination of a candidate in a regular district board member
election. All names so filed shall be printed in alphabetical
order, without designation of party name or election
subdistrict, on the ballot to be furnished the electors at each
polling place on the day of the election by the county clerk of
the county wherein the proposed community college is to be
located. The names of all persons filing as candidates shall be
published in a newspaper of general circulation in the proposed

district) to be known as .... Community College District for the
operation and maintenance of a community college to be located

(b) Except as otherwise provided bonds shall be payable solely out of a special fund to contain the net revenues to be derived from the operation of the dormitories, dining halls, and recreational facilities, the revenues being defined as those remaining after paying the cost of maintaining and operating the facilities. Bonds shall contain an irrevocable pledge of and lien on net revenues and are not general obligations of the districts issuing the bonds within the meaning of any
constitutional or statutory provisions, and the face of each bond issued shall so state. Bonds shall not be secured by mortgage on property but the net income on such property may be pledged for the payment of principal and interest thereon. The governing board of said community college district may, by resolution, pledge and pay into the special fund any or all of the revenue of the district, excluding the revenue derived from ad valorem taxes and student fees paid as tuition, and including, without limiting the generality of the foregoing, all other fees, rates, and charges in any manner derived from the operation of the college district to the extent necessary to provide for the payment of principal and interest on the bonds authorized to be issued.

(c) Bonds shall be authorized by a resolution adopted by the community college district board, shall mature serially within a period not exceeding forty (40) years from their date and shall bear interest payable annually or semiannually. The resolution authorizing the issuance of the bonds shall provide the details thereof, including provisions for their disposition, payment and redemption. The resolution shall provide for the accumulation of net revenue for a reserve fund of not less than seven percent (7%) of bond proceeds in addition to any amounts accumulated under subsection (e) of this section, for the maintenance and repair and for facility obsolescence and depreciation of any building or facility to be constructed or otherwise acquired through the bond issue, and it shall contain other or further covenants and agreements as may be determined by the governing board for the protection of bondholders.

(d) Before issuing any revenue bonds, the governing board shall by resolution declare the purpose for which the proceeds of the bonds proposed to be issued shall be expended and shall specify the maximum amount of bonds to be issued or sold for that purpose. The governing board may not issue or sell bonds in an amount exceeding the specified maximum amount except with the consent of the bondholders and by amendment or modification of the indenture. The governing board may amend the resolution prior to the issuance of the bonds authorized thereby to increase or decrease the maximum amount of bonds to be issued or sold. The governing board may include in a single resolution or authorization the issuance of bonds for one (1) or more projects.

(e) The governing board of a community college district shall establish and collect charges and rentals for services and facilities furnished, acquired, constructed, or purchased from
the proceeds of the bonds, sufficient to pay the principal or the interest on the bonds as they become due and payable, together with such additional sums as may be deemed necessary for accumulating a reserve pursuant to subsection (c) of this section, providing for obsolescence and depreciation and paying the expenses of operating and maintaining the facilities. The governing board shall establish all other charges, fees and rates to be derived from the operation of the facilities.

(f) The governing board of a community college district may insure against the loss of revenues from any cause. The proceeds of the insurance shall be used exclusively for the payment of bonds and the interest thereon. If loss of revenue is brought about as a result of the destruction of one (1) or more of the facilities constructed, acquired, or purchased from the proceeds of the bonds, then and in that event the proceeds of insurance may be used for the replacement of the facilities.

(g) The governing board of a community college district may enter into agreements and contracts with the United States government and any of its agencies for the construction and operation of facilities and revenue bonds to be issued therefor. The governing board of the community college may comply with conditions that the federal government may impose to secure the full benefits of federal statutes pertaining to loans or grants to educational institutions for housing and other facilities, all other provisions of this act to the contrary notwithstanding.

(h) Bonds issued pursuant to this act are eligible for investment by banking institutions and for estate, trust, and fiduciary funds, and the bonds and the interest thereon shall be exempt from taxation by this state and any subdivision thereof. The state treasurer of the state of Wyoming, with the approval of the governor and the attorney general, may invest any permanent state funds available for investment in the bonds to be issued hereunder.

(j) The governing board of a community college district has plenary powers and responsibility for the acquisition, construction, and completion of all projects authorized by the governing board by the resolution to issue revenue bonds.

(k) The governing board of a community college district may insure such facilities authorized by the governing board against public liability or property damage.
(m) The governing board may provide for the replacement of destroyed, lost, or mutilated bonds or coupons.

(n) All costs and expenses incident to the issuance and sale of the revenue bonds may be paid out of the proceeds of the sale of the bonds. Interest on bonds may be paid out of the proceeds of the sale of the bonds during the actual construction of any facilities for which the bonds were issued. Provision for the payment of interest under such circumstances shall be made in the indenture.

(o) Revenue bonds may be sold at either public or private sale. The community college district board may establish terms and conditions for the sale or other disposition of an authorized issue of bonds. The board may authorize, by resolution, the sale of bonds at less than their par or face value.

(p) The governing board may provide for the execution and authentication of revenue bonds by the manual, lithographed, or printed facsimile signature of officers of the governing board of the community college district if at least one (1) signature shall be manually inscribed.

(q) Revenue bonds are callable upon such terms, conditions, and notice as the governing board may determine and upon the payment of such premium as may be fixed by the board in the proceedings for the issuance of the bonds. No bond is subject to call or redemption prior to its fixed maturity date unless the right to exercise the call is expressly stated on the face of the bond.

(r) The community college district board may provide for the issuance, sale, or exchange of refunding bonds issued under the provisions authorizing the board to issue revenue bonds. All provisions of this act applicable to the issuance of revenue bonds by community college districts are applicable to the funding or refunding of revenue bonds and to the issuance, sale, or exchange thereof.

(s) The governing board of a community college district may issue funding or refunding bonds in a principal amount sufficient to provide funds for the payment of all bonds funded or refunded thereby, and in addition for the payment of all expenses incident to the calling, retiring, or paying of the outstanding bonds, and the issuance of the funding or refunding bonds.
(t) Any balance remaining in any fund established to pay the principal and interest on bonds after payment of all charges, costs and expenses authorized to be expended therefrom may be allocated and used for the acquisition, construction, equipping, and furnishing of buildings and sites for community college purposes.

(u) The obligation and liability of the community college district board, severally and individually, to the holders of the bonds is limited to applying proceeds of the special fund to the payment of principal and interest on the bonds and the bonds shall contain a provision to that effect. In the event of default in the payment of bonds or the interest thereon, and in the event that the board is misusing special funds or not using them as provided by this act, then the holders, or any of them, may bring suit against the board in the district court of the county wherein the community college is located for the purpose of restraining the board from using the funds for any purpose other than the payment of the principal and interest on the bonds as provided by this act.

21-18-314. Bond issues; general obligation bonds; bond elections; bond tax levy.

(a) A majority of the community college district board may submit to the electors of the district the question of whether the board shall issue bonds of the district not to exceed four percent (4%) of the assessed valuation of the community college district:

(i) For the purchase, erection, remodeling, or completion of a building or buildings for community college purposes and the equipment and suitable site therefor;

(ii) For the purchase of equipment and facilities, including laboratories, libraries, and other such facilities as may be deemed necessary and proper for the college;

(iii) For fees and costs attendant to the services of attorneys, architects, and engineers, and for the cost of publications, the printing of bonds and prospectus.

(b) Bonds may run for a period of twenty-five (25) years or less and bear interest. In addition, not less than seven percent (7%) of the bond proceeds shall be used for the maintenance and repair and for facility obsolescence and
depreciation of any building or facility to be constructed or otherwise acquired through the bond issue. The four percent (4%) limitation in subsection (a) of this section shall be separate and apart from and in addition to the ten percent (10%) limitation of indebtedness as provided for by the constitution and laws of Wyoming for school districts. The levy for payment thereof is separate and apart from and in addition to the operating levy of not to exceed four (4) mills, and additional levy imposed under W.S. 21-18-303(b) and any additional operating levy imposed under W.S. 21-18-311(f) of not to exceed five (5) mills, unless the bond election question provides otherwise.

(c) An election on the question of the issuance of bonds by a community college district shall be held on the dates and in the manner prescribed in the Political Subdivision Bond Election Law, W.S. 22-21-101 through 22-21-112.

(d) If the proposed issue of bonds is approved in the election and issuance thereof is authorized by the community college district board the bonds may be sold at either public or private sale. All costs and expenses incident to the issue and sale of the bonds made may be paid out of the proceeds of the sale of the bonds. If the bonds are sold at public sale the community college district board must give at least one (1) notice by publication in some newspaper of general circulation in the community college district, and also in some newspaper published in the capital of this state, of its intention to sell the bonds, briefly describing same, and the time and place where the sale will take place. The publication shall be made not less than fifteen (15) days, nor more than thirty (30) days prior to the date designated for the sale of the bonds.

(e) After ascertaining the best terms upon, and the lowest interest at which the bonds can be sold, the community college district board shall cause the bonds to be suitably printed or lithographed, with coupons, if any, attached, and thereafter shall have the bonds consecutively numbered and otherwise properly prepared and executed. Bonds may be in such form as the board may direct but must bear the signature of the president of the community college board of trustees, be countersigned by the secretary of the board, bear the district seal and be countersigned by the county treasurer. Bond coupons, if any, must be signed by the president and secretary of the board and by the county treasurer. The secretary of the community college board shall endorse a certificate upon every bond that it is issued pursuant to law and is within the debt
limit of the issuer. Bonds shall be registered by the county treasurer in a public book provided for that purpose stating the number, date, amount, time and place of payment, rate of interest, number of coupons attached, if any, for each bond so entered and any other proper description thereof for future identification.

(f) Bonds issued by community college districts pursuant to this section shall bear interest payable annually or semiannually, and evidenced by one (1) or two (2) sets of coupons, if any, except that the first coupon may evidence interest for a period not in excess of one (1) year, and the bonds may be in one (1) or more series, may bear a date or dates, may mature in an amount or amounts, serially or otherwise, at a time or times not exceeding twenty-five (25) years from their respective dates, may be in a denomination or denominations, may be payable in a medium of payment, in a place or places, within or without the state, including, but not limited to the office of the county treasurer of the county in which the college is located, may carry such registration privileges, may be subject to terms or prior redemption in advance of maturity in order, or by lot, or otherwise, at a time or times with or without premium, may bear privileges for reissuance in the same or other denominations, may be so reissued without modification of maturities and interest rates and may be in a form, either coupon or registered, as may be provided by resolution of the community college district board. Except as the board may otherwise provide, bonds and interest coupons attached thereto, if any, are fully negotiable, within the meaning of and for all purposes of the Uniform Commercial Code, W.S. 34.1-8-101 through 34.1-8-603. A holder of each bond, by accepting the bond, shall be conclusively deemed to have agreed that the bond is and shall be fully negotiable within the meaning and for all purposes of the Uniform Commercial Code, W.S. 34.1-8-101 through 34.1-8-603.

(g) Whenever the issuance of bonds by a community college district may be lawful, the community college district board having authority to issue said bonds may, at its discretion, divide such issues into series so that substantially equal amounts of the indebtedness shall mature annually, or so that substantially equal tax levies shall be required for the payment of principal and interest of such bonds, or that substantially equal tax payments shall be required for the payment of principal and interest of all outstanding bonds of the district issuing said bonds, the bonds of each such series being made due
and payable at a definite date within the period permitted by law for the discharge of such indebtedness.

(h) The sale of bonds must be conducted by the community college district board. All proceeds from the sale of bonds shall be paid to the treasury of the county in which the college is located to the credit of the community college district and shall be made immediately available to the community college district upon order of the community college district board. Bonds shall not be sold for less than par value, and the board is authorized to reject any bids. The faith, credit, and all property lying within the community college district are solemnly pledged for the payment of the interest and the redemption of the principal of all bonds issued pursuant to this section.

(j) The board of county commissioners shall cause to be levied annually upon all taxable property of the community college district, in addition to other authorized taxes, a sufficient sum to pay the principal and interest on bonds as the payments thereon become due to be levied, assessed, and collected in the same manner as other taxes for school purposes. The tax shall be known as "District bond tax of .... Community College District" and shall be levied until the principal and interest of the bonds are fully paid. If the tax for the payment of interest on any bonds issued under this act at any time is not levied or collected in time to meet payment, the interest shall be paid out of any monies in the general fund of the district and the monies so used for payment shall be repaid to the fund from which taken out of the first monies collected from district taxes.

(k) The county treasurer shall pay out of any monies belonging to the community college district tax fund, the interest upon any bonds issued under this section by the college district when due upon presentation at his office of the proper coupon, which must show the amount due, and the number of the bond to which it belonged. All coupons paid must be reported to the community college district board at its meeting thereafter.

(m) If any member of the community college district board fraudulently fails or refuses to pay into the proper county treasury the money arising from the sale of any bonds provided for by this act, he is guilty of a felony and upon conviction thereof shall be punished by imprisonment in the state penitentiary for a term of not less than one (1) year nor more than ten (10) years.
(n) The community college district board shall require the county treasurer to give the district a separate bond in such sum as the board deems proper, with two (2) or more sufficient sureties, conditioned upon the faithful performance of the duties required of him by this section and the faithful accounting for the monies deposited with him and realized from the sale of said bonds, as herein provided for. Bonds shall be approved by the board and shall be and remain in the custody of the district board.

(o) The bonds and any coupons bearing the signatures of the officers in office at the time of the signing thereof are valid and binding obligations of the community college district board, notwithstanding that before delivery or payment thereof, any or all of the persons whose signatures or facsimiles appear thereon have ceased to fill their respective offices.

(p) Any officer of the board authorized or permitted to sign any bonds, including revenue bonds, refunding bonds, and bonds specified in this section, or interest coupons at the time of its execution, upon the execution and filing of a signature certificate, may execute or cause to be executed with a facsimile signature in lieu of his manual signature any bonds and coupons, if any, issued pursuant to the provisions of this act and may adopt as and for his own signature the facsimile signature of his predecessor in office in the event that the facsimile signature, having been executed by an officer then authorized to do so, appears upon the bonds or coupons. When the seal of the district is required in the execution of a bond or instrument of payment, the secretary of the community college district board may cause the seal to be imprinted, engraved, stamped, or otherwise placed in facsimile thereon.

21-18-315. Bond issues; refunding.

(a) Any bonds issued by any community college district may be refunded, without an election, by the district which issued the bonds, in the name of the district, but subject to the provisions concerning their payment and to any other contractual limitations in the proceedings authorizing their issuance or otherwise appertaining thereto, for any of the following purposes:

(i) To extend the maturities of outstanding bonds for which payment is in arrears, or which there is not, or it is
certain that there will not be, sufficient money to pay the principal or interest on outstanding bonds as due;

(ii) To reduce interest costs or effecting other economies;

(iii) To reorganize all or any part of the outstanding bonds of the district in order to equalize tax levies;

(iv) To refund any bonds which were issued payable from a limited mill levy.

The educational program shall be of the duration and intensity as may be deemed appropriate by the community college district board and the Wyoming state board of nursing and shall lead to an associate degree in nursing and prepare each student for licensure as provided by law. Approval of the Wyoming state board of nursing is required prior to the establishment of the nursing education.

21-18-318. Student electronic writings and other electronic communications; expectation of privacy.

(a) No ownership rights to any electronic writing or other electronic communication created by a student shall be conveyed, transferred or otherwise affected solely as a result of the writing or other communication being stored on an electronic device paid for in whole or in part by a community college within the state or transmitted or stored on a community college's network.

(b) Students at a community college in the state shall have an expectation of privacy in the electronic writings and other electronic communications created by the student regardless of whether the writing or other communication is
stored on an electronic device paid for in whole or in part by the community college or transmitted or stored on the community college's network. A community college shall not require a student to waive or limit the student's expectation of privacy specified under this subsection. This subsection shall not apply to writings or other communications:

(i) Publicly disclosed, released or conveyed by the student or otherwise made available for observation by the student in such a manner that a person would not reasonably expect the writing or other communication would remain undisclosed to others;

(ii) Accessed by a community college in cases where there is a technological requirement to support and maintain the community college's electronic device or network. Writings or other communications viewed during the technological support or maintenance of the electronic device or network shall be limited to only those writings or other communications required to address the specific technical issue and shall not be used or distributed to any other person or entity unless otherwise mandated by federal or state law.

(c) The property rights and expectation of privacy provided in subsections (a) and (b) of this section do not apply to a writing or other communication created by a student who is simultaneously employed by and enrolled at a community college if the writing or other communication is created when the person is acting in an official capacity as an employee of the community college. Nothing in this subsection shall be construed to diminish the property rights or expectation of privacy of persons acting in the capacity of an employee of a community college.

(d) Nothing in this section shall be construed to:

(i) Impose, by operation of law, or require a community college to accept or prohibit a community college from accepting any liability or responsibility for collecting, maintaining, storing or otherwise recording writings and other communications created by a student;

(ii) Require a community college to establish or prohibit a community college from establishing standards on the retention and destruction of student writings and other communications.
For purposes of this section, "student" means any person currently enrolled full time or part time at a community college in the state.

21-18-319. Student dormitory capital construction loans; rulemaking; requirements; reporting; definition.

(a) The state loan and investment board may negotiate and make loans from the permanent Wyoming mineral trust fund to community college districts for capital construction of student dormitories, including the purchase of land, buildings, facilities and necessary rights-of-way. The aggregate sum of all outstanding loans made under this section shall not exceed sixty million dollars ($60,000,000.00). The board shall adopt rules as it deems advisable or necessary to administer the loans authorized in this section.

(b) In making loans authorized in this section, the board shall establish in rule the requirements and standards which it determines to be advisable or necessary and in accordance with the following:

(i) To qualify for a loan a community college district shall demonstrate in its application:

(A) A commitment to adequately maintain the student dormitory for which the loan is requested for the full term of the loan or for the period in which there remains an outstanding loan balance;

(B) That all costs for the construction of the student dormitory will be funded at the time of receipt of the loan, with funding sources specified in the application.

(ii) The determination of whether to make a loan shall include consideration of:

(A) The community college district's need for the student dormitory and the financial needs of the community college district in relation to the student dormitory;

(iii) Any community college district with a significant demonstrated need to increase student dormitory capacity on campus shall be granted first priority for loans;
(iv) Loans shall be at an interest rate of one percent (1%) plus seventy-five thousandths of one percent (.075%) for each year of the loan term in excess of five (5) years;

(v) Loans shall be for an initial term of not fewer than five (5) years and not greater than twenty-five (25) years for repayment;

(vi) Adequate security for loans shall be required and may include:

(A) A pledge of the revenues from the student dormitory for which the loan was granted;

(B) A pledge of other revenues available to the community college district receiving the loan;

(C) Any other security device or requirement deemed advantageous or necessary by the board.

(vii) Annual financial statements shall be required from any community college district receiving a loan. In addition, the expenditures and progress of the project related to the loan shall be reported to the board at least annually or more frequently if deemed advisable by the board. At the end of the term of the loan, the community college district shall provide to the board a comprehensive report that shall, at minimum, include a financial review and a list of the accomplishments as a result of the loan;

(viii) No loan shall be made without the written opinion of the attorney general certifying the legality of the transaction and all documents connected therewith. An election by the qualified electors of the community college district approving the construction of student dormitories and borrowing of funds under this section shall be required only if the attorney general determines an election is otherwise required by law;

(ix) A loan origination fee of one-half of one percent (0.5%) of the loan amount shall be paid by the community college district to the board to be credited to a loss reserve account, which is hereby created:
(A) Revenues received by the board for deposit in the loss reserve account shall be transmitted to the state treasurer for deposit to the account;

(B) Funds in the loss reserve account shall be used to pay the administrative and legal expenses of the board in making collections and foreclosing on loans made pursuant to this section;

(C) If, as a result of default in the payment of any loan made under this section there occurs a nonrecoverable loss either to the corpus of, or interest due to the permanent Wyoming mineral trust fund, the board shall restore the loss to the fund using any funds available in the loss reserve account. If the funds in the loss reserve account are insufficient to restore the full amount of the loss, the board shall submit a detailed report of the loss to the legislature and shall request an appropriation to restore the balance of the loss to the permanent Wyoming mineral trust fund.

(x) The board, whenever it deems necessary for the better protection of the permanent Wyoming mineral trust fund, may refinance any delinquent loan made under this section and reamortize the loan over not more than twenty-five (25) years from the date of refinancing. All costs of refinancing the loan shall be paid by the community college district that is delinquent on the original loan and no loan shall be refinanced where it appears refinancing will jeopardize the collection of the loan. A fee of one-half of one percent (0.5%) of the refinanced loan amount shall be paid by the community college district to the board to be credited to a loss reserve account created by paragraph (ix) of this subsection. The rate of interest for any refinanced loan shall be at the same rate specified under paragraph (iv) of this subsection.

(c) Loans to a community college district under this section shall not be used for any other infrastructure need of the community college district that is not directly associated with the development and construction of student dormitories.

(d) On or before June 30 of each year, the board shall report information on the administration of loans made pursuant to this section to the joint appropriations committee, the joint minerals, business and economic development interim committee and the joint education interim committee. The report shall include a list of all loan requests made in the previous twelve (12) months, the amount approved by project, expenditures by
project and the progress of each project as of the date of the report, including outstanding loan amounts, repayment schedules and any delinquencies.

ARTICLE 4
WYOMING WORKS PROGRAM

This article may be cited as the "Wyoming works program".

(a) As used in this article:

(i) "Academic term" means the fall semester or term, the spring semester or term, summer school, or other defined period of time within a term or semester in which the approved credential program or course is offered. In this article, "term" and "semester" have the same meaning. If an approved credential program or course encompasses a defined period of less than a full semester or term the beginning of the defined period shall be considered the beginning of the term or semester for that program or course;

(ii) "College" or "community college" means an institution established under the Wyoming Community College System Code;

(iii) "Commission" means the Wyoming community college commission;

(iv) "Consortium" means two (2) or more colleges sharing or jointly delivering credential programs in more than one (1) geographic location, by sharing resources or otherwise collaborating in order to more efficiently provide access to credential programs for students;
(v) "Cost of attendance" means the sum cost of tuition, mandatory fees, room and board, books and supplies, travel and personal expenses to attend a community college as determined annually by the college in accordance with W.S. 21-18-404(b);

(vi) "Credential" means a license, permit, certificate or other government or industry recognized qualification for working in a trade or occupation in this state, including, but not limited to, drivers of commercial motor vehicles, welders, machine shop operators or other workforce training programs. College academic credit and an applied science degree or certificate may be earned in a credential program, but college academic credit shall not be a requirement for a credential program;

(vii) "Unmet financial need" means the cost of attendance minus the sum of expected family contribution and all federal, state, local, institutional and privately funded scholarships or grants received by the student, all as determined by the community college. The college shall use the most recent federal free application for federal student aid form to determine expected family contribution and shall do so annually in accordance with W.S. 21-18-404.

21-18-403. Wyoming works program created; eligibility requirements.

(a) There is created the Wyoming works program for Wyoming community college students.

(b) Under the Wyoming works program, subject to the availability of funds as determined by the legislature, the state may provide grant funds pursuant to this article on behalf of an eligible student who has been accepted by and enrolled in a community college to pursue a credential program approved by the commission for the Wyoming works program, who has demonstrated Wyoming residency as determined by the community college at which the student is enrolled and who is not ineligible under subsection (c) of this section. No college shall require a high school diploma or high school equivalency certificate as a prerequisite for admission to a credential program funded in whole or in part with monies under this article, unless the credential program is included within a college academic credit program requiring the diploma or equivalency certificate and the college provides the student assistance in achieving the diploma or equivalency certificate.
(c) No student shall be eligible for a grant under this article for more than six (6) academic terms. A student is not eligible for a grant under this article if he:

(i) Is not a United States citizen or a permanent resident alien who meets the definition of an eligible noncitizen under federal Title IV requirements or requirements of a subsequent similar federal enactment;

(ii) Has not complied with United States selective service system requirements for registration, if the requirements are applicable to the student;

(iii) Is in default on a federal Title IV education loan. Nothing in this paragraph prohibits a student who is otherwise eligible for a grant under this article and has fully repaid a defaulted loan or is no longer in default, from receiving a grant for future academic terms;

(iv) Owes a refund under a federal Title IV student financial aid program or a subsequently enacted similar federal student financial aid program, or a student financial aid program administered through the state. Nothing in this paragraph prohibits a student who is otherwise eligible for a grant under this article and has fully paid the refund owed, from receiving a grant for future academic terms;

(v) For continued enrollment in a credential program if he fails to make satisfactory academic progress as required for the credential program by commission rule;

(vi) Is currently receiving a scholarship under the Hathaway scholarship program established in W.S. 21-16-1301 through 21-16-1311.

21-18-404. Student grants; amounts.

There shall be made available student grants under the Wyoming works program. The grant amount shall not exceed the amount provided for two (2) semesters under the Hathaway provisional opportunity scholarship pursuant to W.S. 21-16-1305(a)(i)(A), in any one (1) academic year, unless the credential program is in an economic sector determined by the commission to fulfill a critical workforce need. For credential programs in such economic sectors, the grant amount shall not exceed the amount provided for two (2) semesters under the Hathaway honor
scholarship pursuant to W.S. 21-16-1304(a)(iii)(A) in any one (1) academic year. One-half (1/2) of the annual award shall be provided to the student at each fall and spring academic term of qualification, unless the credential program or course is for a defined period of less than a full semester or the student elects to reserve any portion of the annual award for attendance at a subsequent summer school term. For credential programs of one (1) term or less, cost of attendance and unmet financial need shall be calculated on a projected annual basis, but the annual award amount shall be provided in full in the term of attendance, on a prorated basis.

21-18-405. Administration; rules and regulations.

(a) Distribution of funds for student grants shall be administered by the commission in accordance with the following:

(i) Distributions shall be made from funds available in the Wyoming works student grant account. Distributions for students grants shall not exceed two million dollars ($2,000,000.00) in appropriated state funds in any academic year;

(ii) Student grants shall be limited to students enrolled in an approved credential program;

(iii) Colleges shall apply to the commission for grant funds to be expended by the college on eligible students for approved credential programs. The commission shall provide student grant funding to each college based upon the actual or projected enrollment in the approved program and the commission's prioritization of program funding in accordance with this article and rule of the commission;

(iv) Students shall apply for grants under this article with the community college at the time of applying for admission or prior to the beginning of the academic term for the applicable credential program at the college. The application shall contain information required by rule of the commission;

(v) For students transferring from a community college to another community college and making application for continuance of a grant, the college from which the student is transferring shall at the student's request provide a list of all academic terms of attendance in which a Wyoming works grant was received by the student;
(vi) Each community college receiving an application from a student applying for a Wyoming works grant shall determine the student's eligibility for the grant. Each community college shall certify to the commission not later than thirty (30) days after the academic term or program commences, a list of students enrolled at the college who qualify for a grant under this article, including the maximum amount of each grant. The executive director of the community college commission shall verify within ten (10) days after receiving a list from a community college whether there is any duplication of students on the community college list with previously submitted student grant lists and shall certify to the commission the maximum amount a college would be eligible to receive for student grants under this article for an approved program;

(vii) For students attending more than one (1) community college the commission may distribute any student grant funds provided on a proportionate basis as determined by rule of the commission;

(viii) Following each spring semester, each college shall refund to the commission the difference, if any, between the amounts distributed to colleges for student grants under this section for the spring term and the previous fall and summer terms and the amount actually expended by colleges on those student grants. Colleges shall refund the difference not later than August 1. The commission shall deposit all payments under this paragraph to the Wyoming works student grant account.

(b) The commission, in consultation with each community college, shall by rule designate a date or dates for each academic year upon which each college shall make the final computation for unmet need for students eligible to receive a grant under this section, consistent with each college's schedule for determining actual cost of attendance for students at that college.

(c) The commission shall, in consultation with community college admissions officers and financial aid officers, promulgate rules and regulations necessary to implement student grant provisions under this article, including:

(i) A means for informing potential students of the availability of the grants under this article;
(ii) Applications, forms, financial and program audit procedures, eligibility and other matters related to efficient operation;

(iii) Any other rules and regulations necessary for the implementation and administration of student grants under this article.

(d) The commission may conduct an audit of any college participating in the student grant program under this article to determine compliance with any student grant provision of this article.

21-18-406. Student grant limitations.

To the extent a student grant under this article would, when combined with any grant or scholarship from a student financial aid program administered through the state or any state institution, in any academic term exceed the cost of attendance at the community college, the grant under this article shall be reduced by the amount necessary to not exceed the cost of attendance. The commission shall by rule require that student grant funds under this article shall be provided for unmet financial need and only after all other public or private grants, scholarship or other financial aid available for the student's enrollment in the credential program have been applied.

21-18-407. College program grant funds; distribution by community college commission; matching funds requirements.

(a) From monies within the Wyoming works program account the commission shall distribute to colleges funds for instructor positions and to acquire instructional and resource materials and classroom equipment necessary to support the Wyoming works program. The community colleges may collaborate on the use of funds received from the Wyoming works program account, including entering into consortium agreements for operation of credential programs.

(b) Funds distributed under this section shall be subject to the following:

(i) The funds shall be designated as Wyoming works program funding, accounted for separately from funding provided under the allocation model under W.S. 21-18-205(c) and special
purpose funding under W.S. 21-18-205(e) and shall not be transferred to or expended for any other purpose;

(ii) The funds shall be expended only for credential programs approved by the commission. The commission shall develop by rule criteria under which to approve credential programs and to determine the amount of funding provided. The process for approving programs for funding shall reflect the primary goals of the Wyoming works program to develop technical skills most in demand in a college's service area or colleges' combined service areas and to fund programs which are most able to immediately respond to that demand by making grant funds available to students able to acquire the credential needed. The criteria for funding amounts shall include, at a minimum, the need for the program in the community, the region's workforce needs and the contribution of the program to the state's overall economic development. Priority shall be given to programs developed and delivered through consortia and partnerships of colleges, to those programs which, based upon enrollment and projected enrollment, are most able to respond to industry training needs in the community and region. Colleges shall make application for funding of credential programs to the commission at times determined by rule of the commission;

(iii) Funds shall only be distributed if matched in the ratio of two dollars ($2.00) of Wyoming works program account funds to not less than one dollar ($1.00) of matching nonstate funds. The commission shall distribute matching funds at the time any accumulated matching funds actually received by or pledged to the community college or consortium of community colleges total ten thousand dollars ($10,000.00) or more. Matching nonstate funds under this paragraph include but are not limited to the following:

(A) Cash or cash equivalents;

(B) The fair market value, as determined by the commission, of in-kind donations of facilities, equipment or services to support approved credential programs, including donations actually received prior to the effective date of this section but after June 30, 2018.

(iv) Any amount of funding distributed under this section which remains unexpended or unencumbered at the end of the biennial budget period for which it was distributed shall revert to the Wyoming works program account.
21-18-408. Accounts created.

(a) The Wyoming works program account is created. The account shall consist of funds appropriated by the legislature, gifts and grants accepted by the state and such other funds as directed by law. Monies within the account are continuously appropriated to the commission for distribution to colleges as provided in this article. Interest and other earnings on funds within the account shall be credited to the account. Unexpended and unencumbered monies within the account at the end of each fiscal year shall not lapse but shall remain in the account.

(b) The Wyoming works student grant account is created. The account shall consist of funds appropriated by the legislature, gifts and grants accepted by the state and such other funds as directed by law. Monies within the account are continuously appropriated to the commission for distribution as provided in this article. Interest and other earnings on funds within the account shall be credited to the account. Unexpended and unencumbered monies within the account at the end of each fiscal year shall not lapse but shall remain in the account.

(c) Appropriated state funds within the Wyoming works student grant account and within the Wyoming works program account shall be accounted for separately from all other funds within each account.

21-18-409. Legislative oversight and authority; reporting.

(a) Nothing in this article shall be construed to constitute an entitlement to a grant established and funded by the legislature. Wyoming works grants shall be subject to legislative appropriation and the legislature reserves the right to modify or terminate the program established under this article at any time.

(b) The Wyoming community college commission shall report to the legislature by October 1 of each year the colleges, programs, industries and total number of students served by the Wyoming works program in the preceding school year. The report shall specify the funding provided to each college from the Wyoming works student grant account and the Wyoming works program account. The commission may require information from each college as necessary to provide the report required by this section.

This act shall be known and cited as "The Wyoming Higher Education Retirement Act".

(a) Except as provided in subsections (b), (c) and (d) of this section, the governing body of any lawfully established community college or of the University of Wyoming may establish and administer a retirement plan for the benefit of certain employees of its institution by the use of a portion of the employer and employee contributions required under the provisions of the Wyoming Retirement Act.

(b) Except for participation on and after January 1, 1994, pursuant to subsection (d) of this section, any employee who is initially employed by an institution after June 30, 1985, shall elect to participate in either the institution's retirement plan or the Wyoming retirement system but shall not participate in any manner in both retirement plans.

(c) Prior to January 1, 1994, any employee participating in a retirement plan pursuant to this chapter but who is not a member of the Wyoming retirement system, by written notice to his employer, may elect to discontinue participation under the institution's plan and become a member of the Wyoming retirement system, or if an employee is participating in the Wyoming retirement system as a limited member, he may elect to transfer his limited contributions and matching employer contributions, plus regular interest, from the Wyoming retirement system to one (1) of the plans authorized by this section.

(d) Prior to January 1, 1994, any employee of an institution shall elect to participate in either the retirement plan offered by the employing institution or the Wyoming retirement system. Each employee shall prior to January 1, 1994, provide written notice to the employing institution and the Wyoming retirement board of his election under this subsection. If an employee fails to notify the employing institution which retirement plan he selects, the institution shall notify the retirement board of this omission and the retirement board shall serve notice on the employee by registered mail return receipt requested that participation in the retirement system shall be
cancelled effective January 1, 1994. All retirement contributions made on and after January 1, 1994 by any employee, together with matching employer contributions on his behalf, shall be made to the elected plan. Educational services provided under this act by or in cooperation with public schools shall be subject to the standards for educational
programs imposed under W.S. 21-9-101 and 21-9-102, and by rule and regulation of the state board.

21-20-104. Board of cooperative educational services; generally.

(a) If two (2) or more boards of trustees desire to establish a board of cooperative services for the purpose of providing cooperative educational services and if the services can be provided more effectively through a cooperative effort, the boards of trustees of the interested districts, a majority of whose members respectively vote in favor of doing so, may enter into an agreement to form a board of cooperative educational services. The agreement shall specify among other things the length of term of the agreement, the rights, responsibilities and obligations of each participating district, the types of services to be rendered, the procedure for the establishment of additional services and the procedure for the inclusion of additional districts within the cooperative educational services program. The agreement shall also provide a method for the amendment and dissolution of the agreement with the consent of each participating district. The amount of contributions paid under W.S. 9-3-211 for each employee electing coverage shall be deducted from the employee's monthly salary in accordance with W.S. 9-3-211. Nothing in this paragraph shall be construed to limit the board's authority to provide insurance for its employees as otherwise provided by law.

21-20-109. Special school district tax for board of cooperative educational services; election not required; determination of levy amount.

(a) For the purpose of maintaining programs offered by a board of cooperative educational services, the school districts comprising the board may levy a special school district tax not to exceed one-half (1/2) mill on the assessed value of the member districts. The vote of the electors within the member districts shall not be required for the tax levy.

(b) The amount of the mill levy shall be determined on the basis of a predetermined formula based upon a participating district's total enrollment, ascertained by the board and ratified by at least three-fourths (3/4) of the participating boards. The assessment shall raise only the necessary funds to meet the financial requirements of programs and services offered.

(c) Repealed by Laws 1989, ch. 248, §§ 2, 3.
21-20-110. Additional special school district tax; election; limitations; special community college district levy.

(a) The school districts comprising any board of cooperative educational services established under this act and providing post secondary education services may impose an additional special school district levy not to exceed two (2) mills on the assessed value of the member districts. Any additional levy imposed under this section is in addition to any tax levied under W.S. 21-20-109.

(b) Except as provided by subsection (h) of this section, no additional tax shall be levied under this section until a proposition to impose the levy is submitted to a vote of the qualified electors of the member school districts comprising the board and a majority of all votes cast within the member districts vote in favor of imposing the additional tax levy. The proposition to impose the additional levy shall be submitted at an election held on a date authorized under W.S. 22-21-103. The board shall publish notice of the election within a newspaper of general circulation in the affected districts and the election shall be conducted in accordance with the procedures provided by W.S. 22-22-301 through 22-22-304. Each member school district shall pay all costs incident to the election within its district or if a concurrent election, an equally proportioned share of the costs as determined by the county clerk.

(c) At the election, the ballot shall contain the words "for the .... mill (not to exceed two (2) mills) additional special school district tax for maintenance of post secondary education services offered by the .... Board of Cooperative Educational Services" and "against the .... mill (not to exceed two (2) mills) additional special school district tax for maintenance of post secondary education services offered by the .... Board of Cooperative Educational Services".

(d) Each county clerk of the counties involved shall immediately give notice of the election results to the county commissioners and if the proposition is authorized by the electors of all participating school districts, each involved county commission shall levy the additional special school district tax in the manner provided by law.

(e) If the additional tax levy is approved, the proposition of continuing the additional special school district levy shall be submitted by the board at each second general
election following approval of the proposition until the proposition for continuing the additional levy is defeated. The ballot shall contain the words "for continuing the .... mill (not to exceed two (2) mills) additional special school district tax for maintenance of post secondary education services offered by the .... Board of Cooperative Educational Services" and "against continuing the .... mill (not to exceed two (2) mills) additional special school district tax for maintenance of post secondary education services offered by the .... Board of Cooperative Educational Services".

(f) If the proposition to impose or continue the increased tax is defeated, the proposition shall not again be submitted to electors of the member school districts for at least eleven (11) months. If the proposition is defeated at any general election following initial adoption of the additional tax, the tax is repealed effective December 31 of that calendar year in which defeated and the levy imposed by the county commissioners for the following calendar year shall not exceed the levy authorized under W.S. 21-20-109.

(g) Revenues generated from any additional special school district levy under this section shall not be:

(i) Considered as a part of any local revenues to be included in any community college district budget or as a part of the operating budget of the University of Wyoming, except for tuition and fees collected for post secondary education services offered by and included within the budget of any community college or the University of Wyoming. The revenues shall be identified in the community college biennial funding report under W.S. 21-18-205(b); or

(ii) Used for building any capital construction project.

(h) In addition to subsection (a) of this section, the board of trustees of any community college district participating in an agreement under W.S. 21-20-104 may levy a special levy of not to exceed one-half (1/2) mill on the assessed value of the district for a period not to exceed two (2) years. Any levy imposed under this subsection shall be used solely for purposes of maintaining programs offered by the board of cooperative educational services of which the district is a participant and when combined with any levy imposed under subsection (a) of this section, shall not exceed two (2) mills. A determination by the board to impose the levy shall be made at
a regular or special meeting following a public hearing announced by the board. Any tax imposed under this subsection may be renewed by the board for an additional two (2) years subject to public hearing requirements specified under this subsection. Revenues collected under this subsection shall be identified as district revenue in the biennial funding report of the district under W.S. 21-18-205(b) but shall not be restricted by the commission in any manner.

21-20-111. Special school district taxes; in addition to existing district tax limitations; distribution of tax revenues; withdrawal from participation.

(a) Any special school district tax imposed under W.S. 21-20-109 and any additional special school district tax imposed under W.S. 21-20-110 shall be in addition to the tax limitations imposed under W.S. 21-13-102.

(b) Revenues generated from any special school district tax levy imposed under W.S. 21-20-109 and 21-20-110 shall be distributed to the appropriate board of cooperative educational services and shall be deducted from the total operating costs when assessing tuition and maintenance costs for participating districts. In addition and in accordance with W.S. 21-20-110(g), revenues generated under any additional tax levied under W.S. 21-20-110 shall be restricted to necessary operating expenses connected with maintaining post secondary education services.

(c) One (1) year advance notice shall be provided by any participating school district board of trustees before withdrawing from funding any cooperative educational services.

Effective
for the 2011-2012 school year and each school year thereafter, the post secondary education enrollment options agreement shall comply with minimum educational standards defined by the commission in consultation with the department of education, community colleges and the University of Wyoming, including post secondary education enrollment options provided by means of distance education. Additional student eligibility requirements for program participation shall be based upon criteria established by the university or the community college in collaboration with the department of education, which address the high school grade level, uniform prior curricula requirements, academic achievement levels and national examination performance indicators.

(b) An eligible student may, according to the agreement between the school district and the university or community college, enroll in a postsecondary education program offered at:

(i) The university, a community college, an off-campus center or at a site meeting safety and accessibility requirements under the instruction of a faculty member;

(c) A student participating in a postsecondary education enrollment options program pursuant to this section shall upon successfully completing any course offered under the program, receive academic credit by the resident school district which shall be counted towards the graduation requirements of the district. Evidence of successful completion of each course, the secondary credits granted and a statement that the credits were earned through program participation shall be made a part of the participating student's records maintained by the district. In addition, the participating student shall receive postsecondary education credit for any course successfully completed under the program.

(d) The school district and the university or community college district entering into an agreement for purposes of this
section shall, if there are any fees within the agreement, establish fees to be assessed to the school district for student participation under the program, the payment schedule for the established fees and other necessary arrangements to facilitate fee payment and collection. Any textbooks, materials or equipment purchased under the established fees shall be addressed within the agreement entered into between the university or college and the school district. The university or community college shall not directly assess and collect any fee from the participating student for textbooks, materials, student services or any other fees otherwise assessed and collected from students attending the institution.

(e) A student participating in the program shall be counted within the average daily membership of the resident school district as defined under W.S. 21-13-101(a)(i) and concurrently by the participating higher education institution for its full-time equivalent enrollment count. Effective September 1, 2012 and each September 1 thereafter, any school district or institution participating in an enrollment options program agreement under this section, including any board of cooperative educational services established under W.S. 21-20-104 and involved in the program, shall file a report with the community college commission on student participation and completion and on revenues and expenditures attributable to program activities for the immediately preceding school year. The report shall be based upon policy and guidelines developed by the statewide discussions conducted pursuant to section 2 of 2010 Senate File 39 as enacted into law. Not later than October 1 of each school year, the commission shall report to the joint education interim committee, the community colleges, the department of education and the University of Wyoming on statewide program revenues, expenditures and student participation and completion.

(f) If the postsecondary education options program is offered at a facility operated by the university or participating community college which is located at a reasonable distance from the high school at which the participating student is enrolled, the district may provide for the transportation of the student between the high school and the location at which the program is offered. Costs incurred by the district under this subsection shall be included as part of the district transportation expenses as used in computing the district foundation program amount under W.S. 21-13-309.
(g) Nothing in this section prohibits a high school student from taking a college or university course apart from agreements outlined in this section if the student bears the cost.

(h) Each school district board of trustees shall in conjunction with the University of Wyoming, community college district boards of trustees or other post secondary education institutions accredited by recognized and accepted accrediting agencies, make post secondary education options programs pursuant to this section reasonably accessible to eligible students.

      (A) Exit or end-of-course exams required for graduation from the sending state;

      (B) National norm-referenced achievement tests;

   or

   (iii) Should a military student transferring at the beginning or during his senior year be ineligible to graduate from the receiving local education agency after all alternatives
have been considered, the sending and receiving local education agencies shall to the extent possible ensure the receipt of a diploma from the sending local education agency, if the student meets the graduation requirements of the sending local education agency. Members of the executive committee shall serve a one (1) year term. Members of the executive committee shall be entitled to one (1) vote each. The executive committee shall have the power to act on behalf of the interstate commission, with the exception of rulemaking, during periods when the interstate commission is not in session. The executive committee shall oversee the day-to-day activities of the administration of the compact including enforcement and compliance with the provisions of the compact, its bylaws and rules and other such duties as deemed necessary. The United States department of defense shall serve as an ex-officio, nonvoting member of the executive committee;

(vi) Establish bylaws and rules that provide for conditions and procedures under which the interstate commission shall make its information and official records available to the public for inspection or copying. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the interstate commission;

(ix) Shall collect standardized data concerning the educational transition of the children of military families under this compact as directed through its rules which shall specify the data to be collected, the means of collection and data exchange and reporting requirements. Such methods of data collection, exchange and reporting shall, in so far as is reasonably possible, conform to current technology and coordinate its information functions with the appropriate custodian of records as identified in the bylaws and rules;

(x) Shall create a process that permits military officials, education officials and parents to inform the interstate commission if and when there are alleged violations of the compact or its rules or when issues subject to the jurisdiction of the compact or its rules are not addressed by the state or local education agency. (iii) If the defaulting state fails to cure the default, the defaulting state shall be terminated from the compact upon an affirmative vote of a majority of the member states and all rights, privileges and benefits conferred by this compact shall be terminated from the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of the default;

(iv) Suspension or termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the interstate commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states;

(v) The state which has been suspended or terminated is responsible for all assessments, obligations and liabilities incurred through the effective date of suspension or termination including obligations, the performance of which extends beyond the effective date of suspension or termination;

(vi) The interstate commission shall not bear any costs relating to any state that has been found to be in default or which has been suspended or terminated from the compact, unless otherwise mutually agreed upon in writing between the interstate commission and the defaulting state;

(i) The interstate commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact;

(ii) The interstate commission, may by majority vote of the members, initiate legal action in the United States district court for the District of Columbia or, at the discretion of the interstate commission, in the federal district where the interstate commission has its principal offices, to enforce compliance with the provisions of the compact, its promulgated rules and bylaws, against a member state in default. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary the prevailing party shall be awarded all costs of such litigation including reasonable attorney's fees;

(iii) The remedies herein shall not be the exclusive remedies of the interstate commission. The interstate commission may avail itself of any other remedies available under state law or the regulation of a profession.
