Any active duty member of the armed forces, his spouse or minor dependent of the active duty member making application for or purchasing a resident license, preference point, permit or tag shall be required to complete and submit the proof of residency statement; or

(iv) Be issued in accordance with commission rules and regulations specifying the physical limitations which must be met by the disabled hunter and the requirements for the permit holder;

(v) Be issued for a fee established by the commission in an amount not to exceed five dollars (\$5.00).

(n) In order to mitigate detrimental impacts to Wyoming from wildlife species including endangered species, which have been or may be introduced, planted or propagated in Wyoming, excluding Yellowstone National Park, by any federal agency, the commission shall demand reimbursement from the federal government for damages to Wyoming wildlife and wildlife habitat caused by any species, including endangered species, introduced within Wyoming under federal mandates or programs.

(o) The commission may, by rule and regulation, establish an electronic licensing system and prescribe the manner of payment for any electronic payment accepted by the department. For purposes of facilitating the implementation of an electronic licensing system, the commission may:

(i) Enter into agreements with the state treasurer to establish an electronic funds transfer system;

(ii) Permit license selling agents to authorize an electronic funds transfer to a collection account as set forth by commission rule and regulation;

(iii) Charge the license selling agent an additional fee of not more than thirty dollars (\$30.00) for each nonsufficient funds debit from the license selling agent's account; and

(iv) Promulgate all other necessary rules and regulations to effectuate electronic licensing.

(p) The commission may, by rule and regulation, establish a process by which big game licenses, trophy game licenses and

wild bison licenses may be issued by a competitive raffle and prescribe the manner of payment for which raffle chances are sold and the amount of payment for each raffle chance. No more than two (2) licenses for each big game species and trophy game species and no more than two (2) wild bison licenses shall be issued under this subsection. Each license issued for bighorn sheep, moose, mountain goat or grizzly bear through a competitive raffle shall, when applicable, be counted against any nonresident quota. The five (5) year restriction imposed on the receipt of a moose or big horn sheep license by W.S. 23-1-703(b) or the lifetime restriction imposed on the receipt of a grizzly bear or mountain goat license by W.S. 23-1-703(c), and any restriction imposed on the receipt of a wild bison license by W.S. 23-2-107 shall not be applicable in any manner to a license issued pursuant to this subsection. The commission shall issue licenses upon receipt of the proper license fee by the successful competitive raffle winner. Nothing in this subsection shall authorize the issuance of a license to any person whose privilege to procure, purchase or possess a license has been suspended pursuant to this act or by operation of law.

(q) The commission shall, by rule and regulation, establish a process for issuing a resident lifetime fishing license and conservation stamp at no cost to any resident who is permanently and totally disabled. As used in this subsection, "permanently and totally disabled" means the presence of a permanent physical or mental condition that prevents a person from engaging in substantial gainful activity.

(r) The following shall apply to information collected by the commission or the department:

(i) Personally identifiable and geographic information associated with the legal taking of wildlife within this state is solely for the use of the commission, department or appropriate law enforcement office and is not a public record for purposes of W.S. 16-4-201 through 16-4-205;

(ii) Information subject to paragraph (i) of this subsection shall not be released or otherwise publicly disseminated by the commission or department for any purpose unless authorized in writing by the person legally taking wildlife;

(iii) Subject to paragraphs (i) and (ii) of this subsection, information related to legally taking wildlife on private land shall not be a public record for purposes of W.S.

16-4-201 through 16-4-205 and shall not be released or otherwise publicly disseminated by the commission or department unless authorized in writing by the landowner or manager of the land where the taking occurred;

(iv) The department shall promulgate rules necessary to implement this subsection.

23-1-303. Promulgation of orders; closing of hunting areas; promulgation of rules.

(a) All orders of the commission shall be written and the original signed by the presiding officer of the commission. Copies of the orders shall be signed by facsimile signature of the presiding officer of the commission.

(b) All persons authorized to sell licenses and tags shall deliver upon request a copy of the order to each purchaser of a license or tag.

(d) Repealed by Laws 1989, ch. 200, § 2.

(e) Rules and regulations of the commission and department shall be promulgated in accordance with the provisions of the Wyoming Administrative Procedure Act.

23-1-304. Classification of gray wolves.

(a) The commission shall by rule and regulation set seasons and bag limits within those areas where gray wolves are designated as trophy game animals pursuant to W.S. 23-1-101(a)(xii)(B)(I) and (II). The seasons and bag limits shall be set annually in a manner the commission determines, through rule and regulation, as necessary to reasonably ensure at least ten (10) breeding pairs of gray wolves and a total of at least one hundred (100) individual gray wolves are located in this state outside of Yellowstone National Park and the Wind River Indian Reservation at the end of the current calendar year.

(b) Repealed by Laws 2007, Ch. 168, § 5.

(c) For purposes of this section "breeding pair" means an adult male and an adult female gray wolf raising at least two (2) pups of the year until December 31. The number of breeding pairs shall be certified by the department prior to January 31 of each year.

(d) The department shall institute and maintain an active program of population monitoring statewide subject to the following:

(i) Population monitoring shall include techniques that accurately determine the population and movement of gray wolves in areas of the state where gray wolves are designated as trophy game animals;

(ii) The commission is authorized to enter into memoranda of understanding with the United States fish and wildlife service or other federal agencies to ensure accurate and adequate monitoring of wolf population levels and movements;

(iii) In all areas of the state, except where otherwise provided, any person who takes a wolf shall notify the department where the take occurred within ten (10) days;

(iv) In areas of the state where gray wolves are designated as trophy game animals, any person who takes a wolf shall notify the department of the take and where the take occurred within a time period set by rule and regulation, which shall not exceed seventy-two (72) hours;

(v) In areas of the state where gray wolves are designated as trophy game animals, any person who takes a wolf shall submit the wolf or parts thereof, as defined by rule and regulation, to the department for inspection within a time period established by rule and regulation which will not exceed ten (10) days;

(vi) Any information regarding the number or nature of wolves legally taken within the state of Wyoming shall only be released in its aggregate form and no information of a private or confidential nature shall be released without the written consent of the person to whom the information may refer. Information identifying any person legally taking a wolf within this state is solely for the use of the department or appropriate law enforcement offices and is not a public record for purposes of W.S. 16-4-201 through 16-4-205.

(e) The department shall actively monitor big game animal herd populations statewide to determine whether and to what extent the gray wolf is negatively impacting big game animal herds, and thereby hunting opportunities. To the extent permitted by this title, and notwithstanding other provisions of this title by those means authorized by the commission, the department shall manage the gray wolf population as necessary to ensure the long-term health and viability of any big game animal herd that is being threatened in this state.

(f) This section shall apply from and after the date gray wolves are removed from the list of experimental nonessential population, endangered species or threatened species in Wyoming as provided by W.S. 23-1-108.

(g) The commission is authorized, through rule and regulation, to use management techniques including the use of aerial hunting and hazing by the department and issuance of permits to private landowners to take wolves to protect private property including, but not limited to, livestock and other domesticated animals from wolf depredation.

(h) Within forty-eight (48) hours of receiving notification from a landowner or his designee that any gray wolf in those areas of the state where gray wolves are designated as trophy game animals has harassed, injured, maimed or killed livestock or any domesticated animal, the department shall respond and initiate appropriate management actions. The department may use the management techniques authorized under subsection (g) of this section or any other management methods necessary, to minimize the harassing, injuring, maiming or killing of livestock and other domesticated animals in those areas of the state where gray wolves are designated as trophy game animals.

(j) At any time that there exists the number of breeding pairs of gray wolves and the number of individual gray wolves specified in subsection (a) of this section, the department is authorized to take any action necessary to reduce the effects of gray wolf predation on wild ungulate herds in areas of the state experiencing unacceptable impacts from gray wolf predation.

(k) The commission is authorized to enter into memoranda of understanding with any federal agency or other state's wildlife agency to carry out any provision of this section and

Wyoming's wolf management plan, including the use of aerial hunting.

(m) The commission shall promulgate rules and regulations authorizing lethal control of wolves harassing, injuring, maiming or killing livestock or other domesticated animals and for wolves occupying geographic areas where chronic wolf predation occurs. The rules and regulations shall provide that nonlethal control actions will be used if lethal control could cause relisting of wolves under the endangered species act or if requested by the livestock or domesticated animal owner or agent.

(n) The commission shall promulgate rules and regulations providing for issuance of permits to landowners or livestock owners for removing wolves which are harassing, injuring, maiming or killing livestock or other domesticated animals and for wolves occupying geographic areas where chronic wolf predation occurs. Permits issued or renewed under this subsection shall be valid for not more than forty-five (45) days from issuance or renewal. The permits shall be issued as long as the removals authorized by such permits could not reduce the numbers of gray wolves below ten (10) breeding pairs or a total of one hundred (100) individual gray wolves within the state and outside of Yellowstone National Park and the Wind River Indian Reservation. The rules shall provide for suspending the issuance of permits or cancelling existing permits if further lethal control could cause the numbers of gray wolves to be reduced below ten (10) breeding pairs or a total of one hundred (100) individuals in the state outside of Yellowstone National Park and the Wind River Indian Reservation.

(o) The commission shall promulgate rules and regulations establishing a fair compensation program to compensate for wolf predation on livestock as provided in W.S. 23-1-901.

(p) Repealed by Laws 2008, Ch. 44, § 2.

23-1-305. Closure of elk feedgrounds; alternative feeding sites; reporting requirement.

(a) Except as authorized by subsection (b) of this section, any elk feedground authorized or administered by the commission as of July 1, 2021 and in accordance with W.S. 23-1-302(a)(ix), shall only permanently cease operations or be subject to closure by the department or commission upon a recommendation for a feedground closure by the commission and

subsequent order of the governor. Any closure order issued by the governor shall only be valid and lawful upon satisfaction of the following conditions:

(i) The commission shall provide its recommendation to the governor for the closure of the elk feedground and concurrently to the Wyoming livestock board. Upon receipt of the commission's recommendation, the board shall provide its opinion to the governor on whether the board believes the closure of the elk feedground is appropriate;

(ii) The commission, in consultation with the Wyoming livestock board, shall conduct not less than one (1) public meeting in a location that is reasonably calculated to foster the most public participation by the people directly impacted by the proposed closure and by other vested stakeholders. The public meeting shall be held after the commission and the board have acted as required under paragraph (i) of this subsection. The commission shall compile the comments received as a result of the public meeting and provide those comments to the governor for the governor's consideration on whether to issue an elk feedground closure order.

(b) Any elk feedground authorized or administered by the commission may be temporarily closed by order of the governor due to emergency circumstances for a period not to exceed six (6) months after which the feedground shall only remain closed in accordance with subsection (a) of this section.

(c) The commission is authorized to contract or lease private lands or lands owned by the state for the purpose of relocating an elk feedground authorized or administered under W.S. 23-1-302(a)(ix), which would otherwise be subject to closure under this section.

(d) For any elk feedground authorized or administered under W.S. 23-1-302(a)(ix), which utilizes federal public lands, the department shall report to the joint travel, recreation, wildlife and cultural resources interim committee upon the department receiving notice that the federal authorization permitting the use of the federal public lands will not be reissued or will be revoked. The report required by this subsection shall include draft contingency plans, including associated costs with implementing the plans, identifying any appropriate private lands, lands owned by the commission or lands otherwise owned or under the authority of the state of Wyoming for the purpose of supplementing or relocating the

feedground operation that is affected by the expiration of any federal public land authorization. The office of state lands and investments shall cooperate with the commission in identifying any alternative feedground sites consistent with this section.

(e) Nothing in this section shall be construed to prohibit the department from continuing to administer authorized elk feedground operations, including:

(i) Commencing and ending annual elk feedground operations on dates determined by the department; and

(ii) Conducting emergency elk feeding operations when deemed necessary by the department.

The commission is authorized to perform such lawful acts as may be necessary in its opinion to the conduct and establishment of cooperative wildlife restoration projects in Wyoming as defined in and in compliance with the preceding act of congress. (a) The commission with the advice of the director shall appoint agents to sell game, bird and fish licenses. Any vendor engaged in the commercial sale of sporting goods and equipment who holds a valid sales tax license issued by the department of revenue under W.S. 39-15-106 may apply to the commission and shall be appointed as an agent to sell game, bird and fish licenses, permits and stamps. At the end of each year, the commission shall renew the appointment of agents who had combined game, bird and fish license, permit and stamp sales during that year of not less than one thousand dollars (\$1,000.00). Renewal of the appointment of agents selling fish licenses only or agents serving remote locations shall not be subject to the one thousand dollar (\$1,000.00) minimum sales requirement. The commission shall provide bonding for agents for the purpose of selling game, bird and fish licenses, permits and stamps. Bonding shall be provided upon receipt of a nonrefundable annual fee of fifty dollars (\$50.00). The fees shall be deposited in a bond pool fund except in any month when

the bond pool fund contains one hundred thousand dollars (\$100,000.00) or more the fees shall be deposited in the game and fish fund. The fee shall be paid to the commission before December 1 preceding the year for which the bond shall be in effect. Newly appointed agents shall pay the same fee immediately upon appointment by the commission to receive bonding for the remainder of the calendar year in which the agent was appointed. All claims against an agent's bond shall be paid from the bond pool account.

(b) Each license selling agent shall charge a fee as provided in this subsection for each license, permit or stamp he sells or distributes pursuant to this act. The fee shall not be charged if this act specifies that the issuance shall be without fee or fails to establish a fee for the issuance of the license, permit or stamp. Each license, permit or stamp sold or distributed under this act shall display the total amount only of all fees and other charges required under this act or otherwise provided by law. Each selling agent shall retain two dollars (\$2.00) for each license and fifty cents (\$.50) for each stamp or permit he sells. For failure to comply with this section, selling agents shall not be entitled to retain the amounts specified in this subsection and shall be liable on their bond. No employee of the commission shall receive any commission on licenses, stamps or permits sold, but the department shall charge the additional fee specified in this subsection, or otherwise provided by law, for each license, stamp or permit sold by commission employees. The fee charged under this subsection shall be in addition to the amount otherwise established by this act for the license, permit or stamp and shall be as follows:

(i) Two dollars (\$2.00) for each license, except that this additional fee shall not be charged for licenses under W.S. 23-1-705(e) or (k), 23-2-101(j)(xi), (xvi), (xvii), (xx), (xxi), (xxxii), (xxxiii), (xliv) or (xlv), 23-2-201(d)(iii) or (iv) or (f) or 23-2-301(c)(xiii);

The commission by rule may authorize the distribution of interstate game tags by taxidermists, meat processing plants or other businesses as the commission determines. The commission by rule may set the commissions for the sale of interstate game tags not to exceed the commissions paid to license selling agents for the sale of licenses. The commission by rule may also set the reporting requirements for businesses authorized to distribute interstate game tags. Interstate game tags shall be furnished through the chief game warden for distribution to the game wardens, and such game tag distributors as the commission may designate. Game wardens and game tag distributors shall collect and remit to the department the proper fee for each Wyoming interstate game tag.

(f) Repealed by Laws 1987, ch. 156, § 2.

(g) License selling agents under this section shall be considered representatives of the game and fish department for the purpose of charging fees for costs of processing payments for sales of licenses, permits or stamps. In addition to fees under subsection (b) of this section a license selling agent may charge and collect from the person tendering payment a fee for the cost of processing the payment in the same manner and amount as established by commission rule for sales directly from the game and fish department.

23-1-702. Duplicate license upon loss or destruction of original; issuance; fees.

When any license issued under this act has been lost or destroyed, the licensee may secure a duplicate of the original license from any district office or any authorized personnel of the department upon the presentation of satisfactory proof that the original license was lost or destroyed. Prior to issuing the duplicate license and in accordance with rule and regulation of the commission, the department may assess a fee of not more than five dollars (\$5.00) plus the fees charged under W.S. 23-1-701. Duplicate licenses shall be issued in accordance with procedure established by commission order.

23-1-703. Limitation of number of certain licenses; reservation of certain licenses; reservation of certain unused licenses.

(a) The commission may limit the number of resident or nonresident big or trophy game animal licenses to be sold in any calendar year and may designate dates after which one (1) or more classes of licenses will not be sold except as authorized by the commission.

(b) Except as specifically provided under this subsection, subsection (f) of this section or W.S. 23-1-705(a), no person may apply for and receive more than one (1) moose or one (1) ram bighorn sheep license in any consecutive five (5) year period. Effective for the 1995 hunting season and each hunting season thereafter, licenses issued under this subsection shall be based upon the number of points assigned to each applicant for a particular species. Effective January 1, 2000, licenses issued under this subsection shall be issued partially through a preference point drawing and partially through a random drawing of all remaining unsuccessful applicants for that year. The department shall assign points to each license applicant for a specific species by multiplying the number of years the applicant has unsuccessfully applied for a license times one (1). The calculation used to assign points to an applicant for a particular species under this subsection shall include any year the applicant does not apply for a big or trophy game animal hunting license for that species, provided in the case of a resident the applicant pays the fee specified in W.S. 23-2-101(k) and in the case of a nonresident the applicant pays the appropriate fee established by the commission under W.S. 23-2-101(m). License applicants within each hunt area for a species shall be grouped according to the number of assigned points for that species. Not less than seventy-five percent (75%) of available licenses within any hunt area shall be randomly selected through a preference point drawing from among the group of applicants with the largest number of assigned points and shall continue until all applicants within that group have been exhausted or until all available licenses have been issued, whichever first occurs. If any applicant grouping has been exhausted and licenses remain available within that hunt area, selection shall continue from among the group of applicants with the next largest number of assigned points. After the selections through the preference point drawing have been completed within a hunt area, the remaining licenses available from that drawing and the licenses available for the

random drawing for that hunt area will be issued through a random selection from among all applicants in the hunt area who were not selected for issuance of a license for the species through the preference point drawing in that hunt area. For purposes of assigning points under this subsection, any unsuccessful license applicant failing to apply for a license, or pay the applicable fee in lieu of applying, during the second calendar year shall be considered to be a first year applicant for any subsequent calendar year in which the applicant submits license application for that particular species.

(c) For the 1995 hunting season and each hunting season thereafter, except as provided in subsection (f) of this section or by rule of the commission, no person who is issued a hunting license for a grizzly bear or for a mountain goat shall be eligible to apply for or receive a hunting license for that particular species in any future year.

(d) Repealed By Laws 1997, ch. 24, § 2.

(e) The commission shall reserve eighty percent (80%) of the moose and seventy-five percent (75%) of the ram and ewe and lamb bighorn sheep, mountain goat and grizzly bear licenses to be issued in any one (1) year for resident hunters. The commission shall determine the allocation of resident and nonresident mountain lion harvest.

(f) Notwithstanding W.S. 23-1-704, 23-2-101(j) and 23-2-107(e), any person who is issued and purchases a license listed in paragraph (i) of this subsection, but who does not use the license, may reserve a license for the particular species and sex of animal designated on the unused license for use during the immediately succeeding hunting season by applying to the commission in accordance with commission rules as provided in this subsection. Upon receipt of an application that establishes the conditions listed in paragraphs (i) through (iv) of this subsection, the commission shall cancel the initial license and prior to the subsequent season opening date for the designated species and sex of animal, issue to the applicant at an administrative cost of ten dollars (\$10.00), a license for the designated animal valid for that season. A person may apply for and reserve a license under this subsection only if all the following conditions exist:

(i) The license is one (1) of the following:

(A) A limited quota, full price big game animal license;

(B) A trophy game animal license;

(C) An any wild bison license;

(D) A female or calf wild bison license.

(ii) The person is unable to use the license in the year for which it was issued and good cause, as defined in commission rule and regulation, exists for the person's inability to use the license in the year for which it was issued;

(iii) The person submits an application to the commission that demonstrates eligibility under this subsection before the closing date of the season for which the initial license was issued;

(iv) The person submits the initial license with the application.

(g) In addition to the authority granted under subsection (b) of this section, the commission may through rule and regulation develop and implement a preference point program for nonresident antelope, nonresident deer and nonresident elk licenses which are limited in quota and would otherwise be issued through a random drawing. A program established pursuant to this subsection may be implemented for all or selected hunt areas and may be applied to all or portions of licenses for any particular species. The commission may charge nonresident license applicants a nonrefundable fee to accumulate preference points under the program as provided in W.S. 23-2-101(m).

(h) Rules and regulations shall be promulgated by the game and fish commission to carry out subsections (a) through (f) of this section and may be promulgated as provided in subsection (g) of this section.

23-1-704. Licenses; expiration.

All licenses issued on or after January 1, 2019, expire as provided in commission rules except as otherwise provided in this title.

23-1-705. Complimentary licenses; pioneer licenses; antelope hunt licenses; gunpowder and buckskin hunt licenses; gratuitous licenses; donated licenses.

(a) At the request of the governor, the commission shall annually issue up to twenty-five (25) complimentary hunting and twenty-five (25) complimentary fishing licenses. Not more than five (5) big horn sheep, five (5) moose and five (5) wild bison licenses shall be issued under this subsection. The five (5) year restriction imposed on the receipt of a moose or big horn sheep license by W.S. 23-1-703(b) and any restriction imposed on taking of wild bison under commission rule and regulation shall not be applicable in any manner to a license issued pursuant to this subsection. Except as provided under subsection (g) of this section, no complimentary licenses may be issued at the request of the appointed commissioners. Immediately upon issuance of any of these licenses, the commission shall submit to the secretary of state for maintenance as a public record, the name and address of each licensee and the type of license issued.

(b) In addition the commission may, upon payment of proper fees, issue up to one hundred sixty (160) antelope licenses each year for the exclusive use of not more than two (2) antelope hunts, provided that:

(i) Not more than eighty (80) of these licenses are issued for a single antelope hunt event;

(ii) Resource management requirements shall be considered in determining the total amount of licenses that are issued under this subsection each year.

(c) In addition the commission may, upon payment of deer license fees, issue up to twenty-five (25) licenses each year for the exclusive use of gunpowder and buckskin hunts.

(d) The department shall issue without charge lifetime bird, small game and fish licenses that shall remain valid so long as the licensee remains a Wyoming resident to:

(i) Any resident who is over sixty-five (65) years and who has resided in Wyoming for at least thirty (30) total years. No year of residence prior to the resident's tenth birthday shall be counted toward the thirty (30) year requirement imposed by this paragraph;

(ii) Any honorably discharged resident veteran who is one hundred percent (100%) disabled as determined by the United States department of veteran affairs;

(iii) Any honorably discharged resident who is a United States military purple heart medal recipient with document proof thereof.

(e) The department shall issue:

(i) For a fee of two dollars (\$2.00) a resident deer, antelope or wild turkey license and for a fee of five dollars (\$5.00) an elk license to any resident who is at least seventy-five (75) years of age prior to the issuance of the license and who has continuously resided in Wyoming for at least the fifty (50) years immediately preceding application for the license;

(ii) For a fee established by rule of the commission a resident deer, antelope, wild turkey or elk license to any resident who is at least seventy (70) years of age prior to the issuance of the license and has continuously resided in Wyoming for at least fifty (50) years immediately preceding application for the license. The fee established for a license under this paragraph shall be not more than sixty-five percent (65%) nor less than sixty percent (60%) of the resident fee specified in W.S. 23-2-101 for the particular species;

(iii) Without charge a resident elk or deer license in any hunt area not subject to prescribed means of competitive public issuance, a resident game bird and a resident small game license to any resident who is on active duty in the United States military deployed to a combat zone who is home on leave during the applicable hunting season. Application under this section shall include proof of residency required under W.S. 23-2-101(a), certification of the applicant's active duty deployment to a combat zone and other information required by rule and regulation of the commission. For purposes of this paragraph, a combat zone is any area which the president of the United States designates by executive order as an area in which the armed forces of the United States are engaged in combat;

(iv) Without charge a resident archery license to any resident who is at least seventy-five (75) years of age prior to the issuance of the license and has continuously resided in Wyoming for at least fifty (50) years immediately preceding application for the license;

(v) A pioneer resident trapping license for furbearing animals in accordance with the fee specified in W.S. 23-2-301(c) (xiv), to any resident who is at least sixty-five (65) years of age prior to the issuance of the license and has resided in Wyoming for at least thirty (30) years.

(f) Applicants for licenses specified in subsections (b) and (c) shall apply in person to any authorized department personnel.

(g) In addition to complimentary licenses under subsection (a) of this section, each appointed commissioner may cause to be issued at cost not more than a total of eight (8) elk, deer or antelope designated licenses per year. All licenses issued under this subsection shall be designated to nonprofit charitable organizations. As a condition of accepting the license, the organization shall agree to auction or otherwise bid the license to the highest bidder or to raffle the license to members of the public.

(h) In addition the commission may, upon receipt of payment of fees at a cost equal to the resident antelope license fee specified under W.S. 23-2-101(j) (xxx), issue up to a total of fifty (50) antelope licenses each year for the exclusive distribution by nonprofit organizations dedicated to providing hunting opportunities to individuals with disabilities for use by those individuals for hunting opportunities.

(j) In addition the commission may issue upon payment of proper fees any number, set by rule and regulation, of antelope licenses, deer licenses, elk licenses and turkey licenses each year for the exclusive use by persons twenty (20) years of age or younger with life threatening illnesses who are sponsored by a nonprofit charitable organization with a mission to provide opportunities and experiences to persons with life threatening or serious illnesses. As a condition of issuing the license, the sponsoring organization shall pay the appropriate license fee on behalf of the licensee and at no cost to the licensee.

(k) The holder of any valid big game animal license, trophy game animal license, an any wild bison license or a female or calf wild bison license may surrender said license to the department for reissuance to a veteran with disabilities or a person with a permanent disability who uses a wheelchair as established by commission rule and regulation selected and sponsored by a nonprofit charitable organization providing hunting opportunities for disabled veterans or persons with

permanent disabilities who use wheelchairs. Any license reissued in accordance with the provisions of this subsection shall be for the same species, area and license type as the license donated. The license shall be reissued by the department to a qualifying person at no fee. Any license donated and reissued under the provisions of this subsection shall not be sold, traded, auctioned or offered for any monetary value and shall not be issued to, or used by, any person other than a qualifying person under the provision of this section and in compliance with commission rule and regulation. Licenses reissued to persons pursuant to this subsection shall not be subject to residency, drawing or fee requirements under W.S. 23-2-101 or 23-2-107. The five (5) year restriction imposed on the receipt of a moose or big horn sheep license by W.S. 23-1-703(b), the lifetime restriction imposed on the receipt of a grizzly bear or mountain goat license by W.S. 23-1-703(c) or the restrictions imposed on the harvest of a wild bison under W.S. 23-2-107(f) shall not be applicable in any manner to a license issued pursuant to this subsection.

23-1-706. Game and fish licenses; confidentiality.

The commission shall establish a process by which an applicant for any game and fish license, permit or tag authorized by this act may designate as public personally identifiable information required for the applicant to purchase the license, permit or tag. Unless designated as public by the applicant or as otherwise provided by law, personally identifiable information submitted for any game and fish license, permit or tag is solely for the use of the department or appropriate law enforcement offices and is not a public record for purposes of W.S. 16-4-201 through 16-4-205. As used in this section, "personally identifiable information" includes an applicant's electronic mail address, date of birth, telephone number, driver's license number, social security number, passport number, sportsperson identification number or tax identification number or any part of any of the preceding information.

ARTICLE 8 - RECIPROCAL FISHING AGREEMENTS

23-1-801. Reciprocal fishing agreements with adjoining states authorized; stamps for licenses.

The commission is authorized to enter into reciprocal agreements with corresponding state officials of adjoining states for purposes of providing for the licensing for fishing of residents of this state and adjoining states upon artificial impoundments

of water forming the boundary between this state and adjoining states. The agreements may include provisions by which each state shall honor the license of the other only when the licensee has purchased a stamp or authorization signifying purchase of a stamp from the other state, the charge for the stamp being set by mutual agreement of the states.

23-1-802. Reciprocal fishing agreements with adjoining states authorized; authorizing use of equipment otherwise prohibited.

Notwithstanding any other law of Wyoming, in order to effect conformity with the laws and regulations of an adjoining state which is a party to such an agreement, the commission may, by order, authorize the use of fishing devices and equipment, otherwise prohibited by Wyoming law, in water forming the subject of any agreement.

23-1-803. Reciprocal fishing agreements with adjoining states authorized; water subject to agreements.

It is the primary purpose of this article to provide a method whereby the fishing opportunities afforded by lakes or reservoirs located upon the boundaries of this state and adjoining states may be mutually enjoyed by the residents of Wyoming and the residents of adjoining states.

23-1-804. Reciprocal fishing agreements with adjoining states authorized; implementing orders.

The commission is authorized to establish orders as provided in this act to implement any agreements under this article.

ARTICLE 9 - DAMAGE CAUSED BY GAME ANIMALS OR GAME BIRDS

23-1-901. Owner of damaged property to report damage; claims for damages; time for filing; determination; appeal; arbitration.

(a) Any landowner, lessee or agent whose property is being damaged by any of the big or trophy game animals or game birds of this state shall, not later than fifteen (15) days after the damage is discovered by the owner of the property or the representative of the owner, report the damage to the nearest game warden, damage control warden, supervisor or commission member.

(b) Any landowner, lessee or agent claiming damages from the state for injury or destruction of property by big or trophy game animals or game birds of this state shall present a verified claim for the damages to the Wyoming game and fish department not later than sixty (60) days after the damage or last item of damage is discovered. The claim shall specify the damage and amount claimed. As used in this subsection, "verified claim" means a claim which the claimant has signed and sworn to be accurate before a person authorized to administer oaths.

(c) The department shall consider the claims based upon a description of the livestock or bees damaged or killed by a trophy game animal, the damaged land, growing cultivated crops, stored crops including honey and hives, seed crops, improvements and extraordinary damage to grass. The commission is authorized to establish by rule, methods, factors and formulas to be used for determining the amount to compensate any landowner, lessee or agent for livestock damaged as a result of, missing as a result of, or killed by trophy game animals. Claims shall be investigated by the department and rejected or allowed within ninety (90) days after submission, and paid in the amount determined to be due. In the event the department fails to act within ninety (90) days, the claim, including interest based on local bank preferred rates, shall be deemed to have been allowed. No award shall be allowed to any landowner who has not permitted hunting on his property during authorized hunting seasons. Any person failing to comply with any provision of this section is barred from making any claim against the department for damages. Any claimant aggrieved by the decision of the department may appeal to the commission within thirty (30) days after receipt of the decision of the department as provided by rules of practice and procedure promulgated by the commission. The commission shall review the department decision at its next meeting following receipt of notice of request for review. The commission shall review the investigative report of the department, and it may approve, modify or reverse the decision of the department.

(d) Within ninety (90) days after receiving notice of the decision of the commission, the claimant may in writing to the department call for arbitration. Within fifteen (15) days after the department receives the call for arbitration, the claimant and the department shall each appoint a disinterested arbitrator who is an elector residing in the county where the damage occurred and notify each other of the appointment. Within twenty (20) days after their appointment, the two (2) arbitrators shall

appoint a third arbitrator possessing the same qualifications. If the third arbitrator is not appointed within the time prescribed, the judge of the district court of the county or the court commissioner in the absence of the judge shall appoint the third arbitrator upon the application of either arbitrator.

(e) At least twenty (20) days before the hearing, the board of arbitrators shall provide the claimant and department notice of the time and place in the county when and where the parties will be heard and the claim investigated and decided by the board. A written copy of the decision shall be promptly served upon each party. Within ten (10) days after receipt of the decision, either party may apply to the board for modification of the decision under W.S. 1-36-111. Either party may apply to the district court for vacation of a decision under W.S. 1-36-114(a) or correction or modification of a decision under W.S. 1-36-115 within thirty (30) days after receipt of the decision or within twenty (20) days after action by the board on an application for modification under W.S. 1-36-111.

(f) If no applications under subsection (e) of this section are made after receipt of the decision, the commission shall promptly pay the amount, if any, including interest based on local bank preferred rates, awarded by the board. Within thirty (30) days after the award is final, the board's reasonable service and expense charges shall be paid by:

(i) The claimant if the award is no greater than the amount originally authorized by the commission;

(ii) Otherwise, the commission.

(g) For purposes of this section, eligibility for damage compensation shall include gray wolves located in:

(i) The area described in W.S. 23-1-101(a)(xii)(B)(I) or (II) regardless of the date on which the damage occurs;

(ii) Subject to subsection (h) of this section, an area of land designated by the commission in rule which is adjacent to the area described in W.S. 23-1-101(a)(xii)(B)(I) or (II) regardless of the date on which the damage occurs.

(h) The commission shall establish in rule a process for persons to request that an area of land adjacent to the area described in W.S. 23-1-101(a)(xii)(B)(I) or (II) be designated as an area where property owners are eligible for damage

compensation for damage caused by gray wolves. The rules shall provide that:

(i) The adjacent area of land is outside the area described in W.S. 23-1-101(a)(xii)(B)(I) or (II);

(ii) The adjacent area of land is part of a contiguous tract of land a portion of which is currently located within the boundaries described in W.S. 23-1-101(a)(xii)(B)(I) or (II);

(iii) The adjacent area of land is privately owned;

(iv) The private landowner of the adjacent area of land consents to the designation;

(v) The designation of the adjacent area of land shall not subtract from or diminish the area described in W.S. 23-1-101(a)(xii)(B)(I) or (II).

ARTICLE 10 - GRIZZLY BEAR RELOCATION

23-1-1001. Grizzly bear relocation.

(a) Upon relocating a grizzly bear or upon receiving notification that a grizzly bear is being relocated, the department shall provide notification to the county sheriff of the county to which the bear is relocated within five (5) days of each grizzly bear relocation and shall issue a press release to the media and sheriff in the county where each grizzly bear is relocated.

(b) The notice and press release shall provide the following information:

(i) The date of the grizzly bear relocation;

(ii) The number of grizzly bears relocated; and

(iii) The location of the grizzly bear relocation, as provided by commission rule and regulation.

(c) No later than January 15 of each year the department shall submit an annual report to the joint travel, recreation, wildlife and cultural resources interim committee. The annual report shall include the total number and relocation area of each grizzly bear relocated during the previous calendar year.

The department shall also make available the annual report to the public.

CHAPTER 2 - LICENSES; FEES

ARTICLE 1 - GAME ANIMALS AND GAME BIRDS

23-2-101. Fees; restrictions; nonresident application fee; nonresident licenses; verification of residency required.

(a) Any qualified person may purchase a hunting license from the department or its authorized selling agents except as otherwise provided. Purchase of a license entitles the licensee to take any animal, bird or fish provided on the license within Wyoming at the time, in a place, in a manner and in an amount as provided by law and the orders of the commission. At the time of application for a resident license under this section, the applicant shall provide a valid Wyoming driver's license or a copy thereof, or other proof of residency. The commission shall promulgate reasonable rules and regulations stating what proof of residency is required so that only bona fide Wyoming residents, as defined in W.S. 23-1-102(a)(ix), receive resident licenses. For purposes of purchasing a lifetime resident license under subsection (j) of this section, an applicant shall have been a resident as defined in W.S. 23-1-102(a)(ix) continuously for a ten (10) year period immediately preceding the application date.

(b) Repealed by Laws 1999, ch. 92, § 2.

(c) The resident's or nonresident's license must bear the signature of the landowner, lessee, or agent of the owner on whose private property he is hunting or the legitimate proof as evidence that permission to hunt has been granted.

(d) The commission may issue big or trophy game licenses in areas in which all licenses initially authorized were not purchased or in which additional harvest is desired, allowing a licensee to take a big or trophy game animal of such sex or age as designated by the commission. The fee for the license may be reduced by the commission to the level necessary to achieve the desired management objectives, but in no case shall a resident or nonresident license fee be less than the landowner's coupon fee.

(e) Resident and nonresident license applicants shall pay an application fee in an amount specified by this subsection

upon submission of an application for purchase of any limited quota drawing for big or trophy game license or wild bison license. The resident application fee shall be five dollars (\$5.00) and the nonresident application fee shall be fifteen dollars (\$15.00). The application fee is in addition to the fees prescribed by subsections (f) and (j) of this section and by W.S. 23-2-107 and shall be payable to the department either directly or through an authorized selling agent of the department. At the beginning of each month, the commission shall set aside all of the fees collected during calendar year 1980 and not to exceed twenty-five percent (25%) of the fees collected thereafter pursuant to this subsection to establish and maintain a working balance of five hundred thousand dollars (\$500,000.00), to compensate owners or lessees of property damaged by game animals and game birds.

(f) Forty percent (40%) of available nonresident elk licenses, forty percent (40%) of available nonresident deer licenses and forty percent (40%) of available nonresident antelope licenses for any one (1) calendar year shall as established by the commission, be offered to nonresident applicants upon receipt of the fee prescribed by this subsection. Seventy-five (75) of the nonresident deer licenses set aside pursuant to this subsection shall be used for a national bow hunt for deer. The licenses authorized by this subsection shall be offered by drawing to nonresident applicants prior to the drawing for the remaining nonresident licenses issued. The licenses offered under this subsection shall be issued in a manner prescribed by rules and regulations promulgated by the commission. Nothing in this subsection shall prohibit any unsuccessful applicant for a nonresident license pursuant to this subsection from submitting an application for any licenses remaining after the drawing during the calendar year in which the application under this subsection was submitted. The following fees shall be collected by the department and are in addition to the nonresident license fee for the appropriate big game species imposed under subsection (j) of this section and the application fee imposed under subsection (e) of this section:

(i) Nonresident elk license \$576.00 in addition to the license fee imposed under paragraph (j) (xix) of this section;

(ii) Nonresident deer license \$288.00 in addition to the license fee imposed under paragraph (j) (xv) of this section;

(iii) Nonresident antelope license \$288.00 in addition to the license fee imposed under paragraph (j) (xxxi) of this section.

(g) In promulgating rules and regulations for the taking of bighorn sheep and moose, the commission shall not discriminate between residents and nonresidents regarding the maturity, horn size or sex of the animals which may be taken. Nothing in this subsection shall be construed as prohibiting the commission from issuing a different number of licenses for residents and nonresidents, from requiring a preference point fee from nonresidents only pursuant to subsection (m) of this section or from issuing reduced price ewe and lamb bighorn sheep licenses as provided in subsection (d) of this section.

(h) In addition to other fees under this section, persons applying for a license or tag under this section may pay a voluntary fee of two dollars (\$2.00) or any greater amount to fund search and rescue activities in the state. The department shall provide information on the license or tag application form that the applicant may pay the fee under this subsection. Any voluntary fees collected under this subsection shall be deposited in the search and rescue account created by W.S. 19-13-301.

(j) Subject to W.S. 23-2-101(f), 23-1-705(e) and the applicable fee under W.S. 23-1-701, the following hunting licenses and tags may be purchased for the fee indicated and subject to the limitations provided:

(k) Any resident qualified to purchase a moose or ram big horn sheep hunting license under subsection (j) of this section may pay a fee of seven dollars (\$7.00) in lieu of applying for a moose or ram big horn sheep hunting license. Payment of the fee for a particular species under this subsection shall authorize the person to accumulate points under W.S. 23-1-703(b) for that year in the same manner as if he had unsuccessfully applied for a hunting license for that species. Payment of the fee shall be made in compliance with application dates.

(m) Subject to the provisions of this subsection, as part of any preference point program for nonresident antelope, nonresident ram bighorn sheep, nonresident moose, nonresident deer or nonresident elk, the commission may establish a nonrefundable fee to be either withheld from the license fee remitted or submitted separately when application for a license or preference point is made through electronic licensing, and may also establish a fee to be paid in lieu of applying for licenses that are limited in quota. Retention of the established fee or payment of the fee in lieu of applying shall authorize the person to accumulate a preference point for future drawings for licenses that are limited in quota for the applicable species in accordance with rules of the commission.

The rules may provide for the loss of all accumulated points for persons failing to apply or to pay the in lieu fee in two (2) consecutive calendar years. The fee for any program under this subsection for antelope, deer or elk shall be established by rule and shall not exceed seventy-five dollars (\$75.00) per species. Payment of the fee shall be made in compliance with application dates. Nothing in this subsection authorizes the commission to establish or retain a fee for resident moose or resident ram bighorn sheep license preference points in addition to the fee established by subsection (k) of this section or to establish rules for ram bighorn sheep or moose preference point drawings in conflict with the provisions of W.S. 23-1-703(b). For nonresident ram bighorn sheep and nonresident moose licenses, the commission may establish by rule a nonrefundable preference point fee to be withheld from either the license fee remitted or submitted separately when application for a license or preference point is made through electronic licensing and may establish a fee in lieu of making application in an amount greater than that established under subsection (k) of this section, but neither fee shall exceed one hundred fifty dollars (\$150.00). Fees established under this subsection may be set at lower amounts for youth license applicants.

(n) In addition to other fees under this section, persons applying for a license or tag under this section may pay any whole dollar amount to fund the purchase of access easements by the commission to provide access to public and private lands.

CHAPTER 5 - GAME BIRD FARMS; FISHING PRESERVES

ARTICLE 1 - GAME BIRD FARMS

23-5-101. Compliance with provisions prerequisite to establishment of game bird farm.

Any person who owns, or any person who holds or controls fee land, by lease or otherwise which holding, controlling or lease shall be for a period of five (5) years beyond the time of compliance with this act, any continuous tract of land within the state suitable for game birds upon complying with the provisions of this act, may, establish, operate and maintain a game bird farm for the purpose of breeding, propagating, killing, hunting, and selling game birds.

23-5-102. Department to issue licenses.

The department shall issue licenses for game bird farms, and for the propagation, breeding, possession, use, releasing, killing, hunting, and sale of licensed birds therefrom. No license shall authorize any of the acts specified in this section for greater sage grouse unless the licensee has been certified under W.S. 23-5-111.

23-5-103. Applicant for license to file verified declaration.

An owner or lessee desiring to establish, operate, and maintain a game bird farm in conformity with this act shall file with the department a verified declaration, describing the purpose for, and proposed methods of breeding, propagating, hunting and sale of licensed game birds and setting forth the number of acres embraced in the tract to be so used, together with the legal description of the tract.

23-5-104. Investigation of applicant; issuance of license; purchase or replacement of birds; marking of birds.

(a) Upon the filing of the declaration the department shall investigate and require the applicant to produce satisfactory evidence of the facts stated in the declaration. The licensee shall purchase or replace to the state all game birds within the boundaries of the proposed farm and to effect this purpose, the department shall appoint one (1) man, the applicant one (1) man, and these two (2) shall select a third man, the three (3) to act as a board to go upon the lands embraced within the proposed license and determine as nearly as possible the number of wild game birds occupying the proposed tract. The determination shall be made within thirty (30) days after the date of the application for a license. The necessary expense of all of the members of the board shall be paid by the licensee. Within thirty (30) days after the date of the determination of the number of occupying game birds the licensee shall pay to the department a specified sum per bird as determined by the department or replace to the state an equivalent number of birds.

(b) The department shall issue a license to the applicant describing the lands, and certifying that the licensee is lawfully entitled to use the lands for the breeding, propagating, hunting, killing, and selling of licensed game birds thereon according to the provisions of this act if upon such examination it appears:

(i) The applicant is the owner or lessee of the lands;

(ii) The applicant intends in good faith to establish, operate, and maintain a commercial game bird farm, and raise and release additional game birds into the wild;

(iii) The area to be licensed is enclosed by a legal fence and posted as a "private game bird farm"; and

(iv) The applicant has paid to the department the specified sum for game birds on the premises or replaced to the state an equivalent number of game birds.

(c) When a license has been granted, the licensee becomes the owner of all offspring of the game birds actually produced and remaining thereon. No person shall entice game birds into the licensed premises by baiting, artificial feeding or by any other means. All adult game birds released on the licensed premises shall be marked by identifying leg or wing bands. After three (3) years of continuous operation and licensure for the same location, the licensee shall not be required to mark adult game birds with identifying leg or wing bands. To be qualified as a licensee under this act, each licensee shall release a minimum of one hundred (100) game birds each year on the licensed premises, which number may be a combination of any species of game birds. Failure to release the minimum number of birds is cause for revocation of the license. The commission shall not limit by rule and regulation or policy the number or species of game birds a licensee may raise, possess, confine, transport or dispose of in accordance with the provisions of this chapter.

23-5-105. License fee; expiration; renewal of license.

Applicants for the license shall pay the proper fee. The license, if issued on or after January 1, 2019, expires as provided in commission rules, but may be renewed each year in the discretion of the department upon the payment of the proper fee.

23-5-106. Rights of licensee generally.

The game bird farm license is prima facie evidence in all courts and proceedings of the lawful right of the licensee therein named, his or its successor or assigns, for the term of license, to establish and operate a game bird farm upon the premises, and entitles the licensee therein named or his successors or assigns, to the exclusive right for and during the term to breed, propagate, hunt, kill, and sell the licensed game birds thereon. For game bird species other than greater sage grouse, the licensee shall not shoot or kill over ninety-six percent (96%) of the birds reared or released on his premises. No licensee shall undertake any of the acts specified in this

section for greater sage grouse unless the licensee holds a current certification under W.S. 23-5-111, and the acts are taken in accordance with W.S. 23-5-111 and rules adopted pursuant thereto.

23-5-107. Receipt to be given for removal of birds from licensed premises.

Before any bird may be removed from the licensed premises, the licensee or operator shall issue to the person removing birds a receipt. The receipt shall be dated and shall contain information as to the number of birds, the sex, and species being removed from the licensed premises.

23-5-108. Hunting restricted to established seasons; license required; exceptions.

(a) No person shall take game birds on any licensed game bird farm area at any time except during the established season for game bird farms and unless:

(i) The person has in his possession at the time a license authorizing the hunting of game birds; or

(ii) The person is participating in a special competitive game bird hunt as defined by commission regulation conducted on a licensed game bird farm.

23-5-109. Bird license; fee; license not required of commercial purchasers.

All game bird farm licensees are authorized selling agents of the commission, may issue a bird license on forms prescribed by the commission to any person who does not have in his possession a license authorizing the hunting of game birds as required by this act, and shall comply with all provisions of this act. Bird licenses issued on or after January 1, 2019, expire as provided in commission rules and are valid for use only on the premises of the licensee selling the license. The appropriate fee for the bird license shall be paid to the department. The licensee may charge such additional fee for his personal services as he feels his operations may dictate, or he may sell directly to a commercial operator or restaurant operator, live or dressed game birds without their having to be killed by the purchaser, provided they are properly receipted, in which case the purchaser is not required to possess a valid game bird hunting license.

23-5-110. Season required; exceptions.

Game bird farms shall have a season commencing the first day of August and ending the last day of March. Each initial application or annual application for renewal shall submit the opening and closing dates of the season for approval by the commission. Special competitive game bird hunts as defined by commission regulation may take place throughout the year with the approval of the department.

23-5-111. Game bird farm-certification to raise greater sage grouse; authorization; requirements; limitations.

(a) No person shall possess live greater sage grouse or propagate, breed, sell, raise or release greater sage grouse unless licensed as a game bird farm and certified to be in compliance with the requirements of this section.

(b) The commission shall promulgate rules and regulations for the administration of this section. The rules and regulations shall establish a system to certify game bird farm licensees to possess, propagate, breed, raise, sell, gather eggs of and release greater sage grouse and to take greater sage grouse within the boundaries of the game bird farm. A licensee shall be issued an annual certificate of compliance under this section by providing evidence to the department that:

(i) The licensee has successfully raised from eggs or chicks at least two (2) other species of game bird in accordance with this act for not less than three (3) consecutive years;

(ii) An adequate enclosure exists at the game bird farm to confine and handle greater sage grouse physically separated from other game birds;

(iii) The enclosures for greater sage grouse include vegetation consistent with the needs of the grouse;

(iv) The facility is disease free; and

(v) The licensee demonstrates the capacity to meet requirements specified in this section and commission rule for continuing operation as a certified greater sage grouse facility.

(c) To maintain certification under this section the licensee shall:

(i) Submit an annual national poultry improvement plan certificate and annual avian influenza free certification by a licensed Wyoming veterinarian to the department;

(ii) Report within the time period established by rule the detection of any disease at the game bird farm to the department and undertake and report to the department remedial acts taken to mitigate the effects of any disease.

(d) Before release, greater sage grouse shall be banded for identification in accordance with rules and regulations of the commission and held in a holding pen separate from any sage grouse not being released and separate from any other game bird species for at least thirty (30) consecutive days immediately prior to release. Any greater sage grouse that dies within the release holding pen during this period shall be reported to the department within the time period and in accordance with the procedures established by rule shall be sent to the Wyoming state veterinary laboratory for necropsy at the expense of the licensee. Any release of greater sage grouse within the state and not within the boundaries of the game bird farm shall be in coordination with the department. Commission rules may restrict areas of release as necessary to protect existing wild populations of greater sage grouse.

(e) A game bird farm licensee holding a current certification under this section may collect greater sage grouse eggs for the purpose of establishing a captive breeding population, subject to the following restrictions:

(i) All collections shall be conducted by the licensee or his agent under the supervision of a professional wildlife biologist and in coordination with the department;

(ii) No more than two hundred fifty (250) eggs may be collected by any game bird farm licensee in any calendar year;

(iii) No more than forty (40) nest sites in a single collection area may be disturbed by the game bird farm licensee in any calendar year; and

(iv) Eggs may only be collected in April and May;

(v) Rules shall establish:

(A) Time of day and restrictions on methods of collection of eggs;

(B) The number of licensees authorized to collect eggs;

(C) The areas approved for collection of eggs;
and

(D) Other limitations on egg collections, including the complete suspension of egg collections as determined by the commission to be beneficial to prevent the listing of or facilitate the removal of greater sage grouse as a candidate species under the Endangered Species Act.

(f) The department may suspend, revoke or not renew any certification issued to a licensee under this section if, after notice and opportunity for a hearing, the department finds:

(i) The licensee has violated any provision of this act or any rule promulgated under this act which relates to the licensee's game bird farm operations;

(ii) The licensee's facilities no longer provide secure holding facilities to contain and separate game bird species as required under this section;

(iii) The licensee's facility has not remained disease free and the department reasonably believes the native greater sage grouse population of this state may be harmed thereby.

(g) The requirements of this section for game bird farm certification for greater sage grouse are in addition to all other licensing requirements of this article.

(h) A licensee whose certification under this section has been revoked may not reapply for a new certification within eighteen (18) months of the date of revocation.

(j) Commission rules may provide for the forfeiture to the state or for other disposition of greater sage grouse at any facility whose certification under this section has been revoked. Certifications under this section shall expire as of December 31, 2022. Commission rules shall provide for disposition of all greater sage grouse held by a licensee

pursuant to this section as of that date. No licensee shall be entitled to any reimbursement from or other claim against the state for any greater sage grouse owned by the licensee at the expiration or revocation of a certification and all certifications issued pursuant to this section shall so provide.

ARTICLE 2 - FISHING PRESERVES

23-5-201. Department authorized to issue licenses.

The department upon application and payment of the proper fee shall issue licenses for fishing preserves permitting the acquisition, possession, and rearing of fish therein.

23-5-202. "Fishing preserve waters" defined.

"Fishing preserve waters" means any artificial or man-made body of water not exceeding one hundred (100) surface acres, lying wholly within the boundaries of privately owned lands, operated for the purpose of permitting the owner to provide fishing facilities for fishermen. It does not include natural streams, natural ponds or waters impounded by the damming of natural streams with a normal stream flow in excess of five (5) second feet. It is unlawful to use such natural waters as a fishing preserve. The sources of water for fishing preserve waters are limited to surface runoff, natural springs, wells, or waters lawfully diverted from a natural stream, or the damming of natural streams with a normal stream flow of five (5) second feet or less.

23-5-203. Issuance of license; separate license required for each body of water; contents of license.

(a) The department shall, after application and payment of the proper fee, issue to an owner of fishing preserve waters a fishing preserve license permitting the holder to manage the fishing preserve waters and to possess, rear and to take or permit others to take therefrom, fish acquired from any legal source. A separate license is required for each body of water defined in this act as fishing preserve waters. Two (2) or more ponds under one (1) ownership, supplied by one (1) common water source and located on one (1) continuous parcel of land, shall be considered as one (1) body of water requiring one (1) license.

(b) The license so issued shall:

(i) Specify the species of fish authorized to be stocked therein;

(ii) Specify the source of acquisition of fish stocked therein;

(iii) Specify the means, if any, to be used to trap the fish below the licensed waters.

23-5-204. Permission to take fish from licensed waters; fee or dues; fishing license not required; receipts for removal of fish.

Any licensee, during the term of his license, may grant permission to other persons to take fish in or from the licensed fishing preserve waters and to charge a fee for fishing, or if a club, to impose dues permitting such angling by members of the club. No fishing license is required to fish in any licensed fishing preserve waters. The licensee shall issue a receipt to any person removing fish from licensed premises. The receipt shall be provided by the department.

(e) The director or his designee shall also maintain or cause to be maintained in connection with every game and fish citation issued a record of the disposition of the charge by the court.

23-6-107. When citation deemed a lawful complaint.

In the event the form of citation provided hereunder includes information and is sworn to as required under the general laws of this state in respect to a complaint charging commission of the offense alleged in the citation to have been committed, then the citation when filed with the proper court is a lawful complaint for the purpose of prosecution under this act.

23-6-108. Record of game and fish cases; report of convictions to department.

(a) Every judge of any court shall keep or cause to be kept a record of every game and fish complaint, game and fish citation, or other legal form of game and fish charge deposited with or presented to the court, and shall keep a record of every official action by the court, including a record of every conviction, forfeiture of bail, judgment of acquittal, and the amount of fine or forfeiture resulting from every such complaint or citation deposited with or presented to the court.

ARTICLE 3 - WILDLIFE VIOLATOR COMPACT

23-6-301. Short title.

This act shall be known and may be cited as the "Wildlife Violator Compact."

23-6-302. Execution of Compact.

The legislature hereby approves and the governor is authorized to enter into a compact on behalf of this state with any other state or states legally joining therein in the form substantially as follows:

Article I

Findings, Declaration of Policy and Purpose

(a) The participating states find that:

(i) Wildlife is managed by the respective states for the benefit of all residents and visitors;

(ii) The protection of the wildlife of a state is materially affected by the degree of compliance with state statutes, laws, regulations, ordinances and administrative rules relating to the management of those resources;

(iii) The preservation, protection, management and restoration of wildlife contributes immeasurably to the aesthetic, recreational and economic aspects of those natural resources;

(iv) Wildlife is valuable without regard to political boundaries; therefore, every person should be required to comply with wildlife preservation, protection, management and restoration laws and ordinances and administrative rules and regulations of the participating states as a condition precedent

to the continuance or issuance of any license to hunt, fish, trap or possess wildlife as determined by local law;

(v) Violation of wildlife laws interferes with the management of wildlife and may endanger the safety of persons and property;

(vi) The mobility of many wildlife law violators necessitates the maintenance of channels of communication among the various states;

(vii) In most instances, a person who is cited for a wildlife violation in a state other than his home state:

(A) Is required to post collateral or a bond to secure appearance for a trial at a later date;

(B) Is taken into custody until the collateral or bond is posted; or

(C) Is taken directly to court for an immediate appearance.

(viii) The purpose of the enforcement practices set forth in paragraph (vii) of this article is to ensure compliance with the terms of a wildlife citation by the cited person who, if permitted to continue on his way after receiving the citation, could return to his home state and disregard his duty under the terms of the citation;

(ix) In most instances, a person receiving a wildlife citation in his home state is permitted to accept the citation from the officer at the scene of the violation and immediately continue on his way after agreeing or being instructed to comply with the terms of the citation;

(x) The practices described in paragraph (vii) of this article cause unnecessary inconvenience and, at times, a hardship for the person who is unable at the time to post collateral, furnish a bond, stand trial, or pay a fine, and thus is compelled to remain in custody until some alternative arrangement is made; and

(xi) The enforcement practices described in paragraph (vii) of this article consume an undue amount of law enforcement time.

(b) It is the policy of the participating states to:

(i) Promote compliance with the statutes, laws, ordinances, regulations and administrative rules relating to management of wildlife in their respective states;

(ii) Recognize the suspension of wildlife license privileges of any person whose license privileges have been suspended by a participating state and treat the suspension as if it had occurred in their state;

(iii) Allow a violator, except as provided in subsection (b) of article III, to accept a wildlife citation and, without delay, proceed on his way, whether or not a resident of the state in which the citation was issued, provided that the violator's home state is party to this compact;

(iv) Report to the appropriate participating state, as provided in the compact manual, any conviction recorded against any person whose home state was not the issuing state;

(v) Allow the home state to recognize and treat convictions recorded against its residents, which convictions occurred in a participating state, as though they had occurred in the home state;

(vi) Extend cooperation to its fullest extent among the participating states for enforcing compliance with the terms of a wildlife citation issued in one participating state to a resident of another participating state;

(vii) Maximize effective use of law enforcement personnel and information; and

(viii) Assist court systems in the efficient disposition of wildlife violations.

(c) The purpose of this compact is to:

(i) Provide a means through which participating states may join in a reciprocal program to effectuate the policies enumerated in subsection (b) of this article in a uniform and orderly manner; and

(ii) Provide for the fair and impartial treatment of wildlife violators operating within participating states in

recognition of the violator's right to due process and the sovereign status of a participating state.

(d) A participating state may withdraw from participation in this compact by official written notice to each participating state, but withdrawal shall not become effective until ninety (90) days after the notice of withdrawal is given. The notice
