(b) Each member state may formulate and put in effect a forest fire plan for that state.

ARTICLE IV

Aid to Other Member States

If the state forest fire control agency of a member state requests aid from the state forest fire control agency of another state in combating, controlling, or preventing forest fires, the state forest fire control agency of that state may render all possible aid to the requesting agency, consonant with the maintenance of protection at home.

(a) If the forces of any member state are rendering outside aid pursuant to the request of another member state under this compact, the employees of the state shall, under the directions of the officers of the state to which they are rendering aid, have the same powers (except the power of arrest), duties, rights, privileges and immunities as comparable employees of the state to which they are rendering aid.

ARTICLE 2 - APPEALS

36-2-201. Questions may be reserved to district court.

Whenever an important or difficult matter of law or fact is to be decided in a contest or other proceeding pending before the board of land commissioners, or whenever in the judgment of the members of said board any of its members are for any reason disqualified from considering and deciding the questions or issues involved in any contest or other proceeding before such board, then and in that event, the board of land commissioners may on the motion of either party interested, or upon its own motion, cause the said contest or other proceeding to be reserved and sent to the district court for the county in which the land in controversy is situated.

36-2-202. Certified copies of papers to be sent to court; docket fee.

When a contest or other proceeding is reserved and ordered sent to a district court, the director shall transmit certified copies of all the papers in the case in his possession and in his office to the clerk of the said district court and the board

If the issues in said reserved contest or proceeding have been made up before the same shall have been removed, then in that case the said contest or proceeding when so removed shall be deemed ready for hearing; provided, however, that the judge of said district court may grant amendments to the pleadings already filed.

36-2-204. When issues not made up before removal.

If the issues in said contest or proceeding have not been made up at the time the same is so removed to the district court then in that case the date when said contest or proceeding is filed in said district court shall be deemed the date of the filing of the petition of the contestant, and all of the proceedings thereafter shall be in accordance with the rules governing the trial of civil cases, including the making up of the issue, the trial of the case and an appeal from the judgment of the district court.

36-2-205. Determination, certification, recordation and effect.

When such case is reserved to the district court the same shall be tried and determined by such court, and its findings and judgments thereon shall be certified by the clerk of said court, to the director and he shall record the same in the record of the proceedings of the board of land commissioners, and when so recorded, such findings and judgments shall have the same force and effect as though rendered by said board.

36-2-206. Appeals to district court.

Any party who may feel himself aggrieved by the decision of the board of land commissioners rendered in any contest proceeding held before said board, may have an appeal from such decision to the district court sitting within and for the county in which the land in controversy is situated. All persons joining in the appeal shall be joined as appellants, and all persons having interests adverse to the parties appealing, or any of them, shall be joined as appellees; and upon said appeal being perfected, said contest proceeding shall stand to be heard and for trial de novo, by said court.

36-2-207. Written notice of intent to appeal; bond.

36-2-208. Transmission of evidence to district court; hearing on appeal.

Upon notice of intention to appeal having been filed with the director, he shall at once transmit to the clerk of the district court to which such appeal has been taken, a certified copy of all papers and documents in evidence in the case together with a transcript of all orders and journal entries concerning the same and a certified copy of the decision appealed from. Unless otherwise ordered by the court, said appeal shall be heard upon the pleadings filed before the board of land commissioners and at the trial of such appeal, evidence shall be taken and other proceedings had as in the trial of a civil action before said court.

36-2-209. Notice of perfected appeal; proof of service.

Upon the approval of the bond as aforesaid, the clerk of the district court shall immediately issue a notice to the director and to said appellees and each of them that said appeal has been perfected; such notice may be served personally upon the appellees or their attorneys of record by any appellant or his attorney of record, or by registered mail, by the clerk of the district court. Proof of service may be made by the affidavit of the person making the service and also by the return registry receipt where service is made by registered mail.

36-2-210. Hearing and trial upon appeal; appeal to supreme court.

At the expiration of the time for the appearance of the appellees, the case is to be deemed ready for hearing; and it shall be heard and tried the same in all respects as civil cases are tried in said district court; and an appeal from the judgment, finding and decree of said court shall lie to the supreme court the same in all respects as prescribed by law for appeals and proceedings in error from the district courts to the supreme court of this state.

(ii) Recommend to the joint appropriations committee and the select committee that funds be transferred from the income account to the trust account.

(h) No board member shall vote or otherwise participate in any matter regarding a contract or project in which the board member has a financial or personal interest. When such interest appears, the board member shall make such interest known, and shall thenceforth refrain from voting on or otherwise participating in the particular matter involving such interest.

(j) The board shall annually report to the governor, the joint appropriations committee, the select committee and the joint travel, recreation, wildlife and cultural resources interim committee no later than October 1 with respect to all federal grants, state appropriations and other contributions, grants, gifts, bequests and donations received and credited to the trust account or income account during the preceding fiscal year. (b) Grants by the board shall not provide a supplement to, or replacement of, the operating budget of any governmental entity or nonprofit organization except as those funds are directly related to the purposes of the grant.

(c) No grants shall be awarded under this act until rules and regulations adopted by the board pursuant to W.S. 36-4-204(f) have become effective.

36-4-206. Audits.

For the renewal of outstanding leases for grazing and agricultural lands under this subsection, the office of state lands and investments shall have the following duties:

(B) Identify the deficiencies in the application for lease renewal or provide notice that no application for renewal has been filed;

(C) Provide the lessee not less than thirty (30) days from receipt of the notice to file a lease renewal application or to remedy all deficiencies in the lessee's renewal application;

(D) Provide notice that the lessee's failure to submit a renewal application or to remedy all deficiencies in the lessee's renewal application before expiration of the lease may result in the leased lands becoming vacant.

(b) Any conflicting application to lease grazing and agricultural lands under any existing lease shall be filed in the office of state lands and investments not earlier than one hundred twenty (120) days prior to, and not later than, ninety (90) days prior to the expiration date of the existing lease. Upon receipt of a conflicting lease application the office of state lands and investments shall notify the current lessee via certified mail that a conflicting lease application has been received and shall provide the current lessee not less than thirty (30) days from receipt of notice to file a lease renewal application together with payment of the first year's rental that meets the highest bid offered by another qualified applicant as provided in W.S. 36-5-105(c). For renewal of outstanding leases for grazing and agricultural lands under this subsection, the office of state lands and investments shall have the following duties:

(i) The office shall provide notice of a deficient application for lease renewal to the lessee not later than ten (10) days after the filing of a lease renewal application by an existing lessee. The notice required by this paragraph shall:

(B) Identify the deficiencies in the application for lease renewal;

(C) Provide the lessee not less than twenty (20) days from receipt of the notice to remedy all deficiencies in the lessee's renewal application;

(c) For good cause shown and at the written request of the current lessee, the director shall grant a current lessee thirty (30) additional days past the expiration date of their existing lease to submit an application to renew the lease.

36-5-105. Criteria for leasing; preferences; assignments, subleases or contracts; lands taken for war purposes; mineral lands excepted; agricultural lands.

(a) All state lands leased by the state board of land commissioners, for grazing and other agricultural purposes shall be leased in such manner and to such parties as shall inure to the greatest benefit to the state land trust beneficiaries.

(b) No applicant shall be qualified to lease vacant lands unless that applicant is qualified under the provisions of W.S. 36-5-101, has or can gain access to the land and offers to pay an annual rental at not less than fair market value, as determined by the economic analysis pursuant to W.S. 36-5-101(b), for the same or similar use of the land for a period of ten (10) years and who has not been found to have significantly violated any laws or regulations related to state lands. Also in leasing vacant lands:

(i) Preference shall be given to applicants who are the owners, lessees or lawful occupants of adjoining lands, unless the board determines that the preference should not be recognized for good cause. The preference shall be administered as set forth in this paragraph:

(A) In instances where one (1) applicant is eligible for the preference and a competing bidder is not, the applicant eligible for the preference may elect to meet the highest bid of the applicants not eligible for the preference;

(B) When two (2) or more applicants are eligible for the preference, in determining to which applicant to award the lease, the director shall request a final bid from the applicants eligible for the preference in a manner as directed by the director to determine the successful applicant;

(C) When two (2) or more applicants are eligible for the preference and one (1) or more applicants are not eligible for the preference, those applicants who are eligible for the preference may elect to match the highest bid. If two (2) or more applicants who are eligible for the preference elect to meet the highest bid, the lease shall be awarded pursuant to subparagraph (B) of this paragraph.

(ii) Before accepting applications to lease vacant land, the director shall provide notice on the website of the office, directly to each adjoining private landowner as recorded within the county assessor's office and by any other means as prescribed by rule;

(iii) If the board determines good cause exists not to recognize a preference under paragraph (i) of this subsection, the board shall issue written notice to the applicant who is not being given a preference. The notice shall include the board's statement of good cause not to recognize the preference and the opportunity to request a hearing to appeal the determination in accordance with the Wyoming Administrative Procedure Act. The board shall have the burden to demonstrate the good cause not to recognize the preference;

(iv) As used in this subsection:

(A) "Preference" means the elevated position of an applicant to participate in the vacant land bidding process as described in paragraph (i) of this subsection above applicants who are not the owners, lessees or lawful occupants of adjoining lands in good standing with the board;

(B) "Vacant land" means land not currently subject to a grazing and agricultural lease from the board.

(c) An applicant who is the holder of an expiring lease, and has paid the rental when due, and is not currently in violation of the provisions of the lease, and is qualified under the provisions of W.S. 36-5-101, shall have a preferred right to renew such lease by meeting the highest bid offered by another qualified applicant whose bid is not less than the minimum fair market value as determined by the board for the same or a similar use of land using the formula developed pursuant to W.S. 36-5-101(b) and not more than one hundred twenty percent (120%) of the maximum fair market value as determined by the board based on the previous year's values for the state, district or

county, whichever is most localized and available, as determined by the national agricultural statistics service utilizing:

(i) The private land lease rate per animal unit month for Wyoming grazing leases; or

(ii) The private land irrigated or nonirrigated cropland lease rate, as applicable, for Wyoming cropland leases on irrigated or nonirrigated cropland; and

(iii) A downward adjustment of twenty percent (20%) to reasonably reflect lessee contributions typically provided as a part of a private land grazing lease rate or a private cropland lease rate, as applicable.

(d) If the lessee of state lands shall assign, sublease or contract all or any part of the lease area, the lease shall be subject to cancellation unless the director approves the assignment, sublease or contract subject to criteria established by the board of land commissioners provided that:

(i) Approval shall not be arbitrarily or unreasonably withheld;

(ii) All action upon each application shall inure to the greatest benefit of state land trust beneficiaries;

(iii) In no event shall the lands be subleased unless one-half (1/2) of the excess rental is paid to the state;

(iv) A lessee of state lands whose lease authorizes grazing on the state lands shall not be required to obtain the approval of the director to allow livestock the lessee does not own to graze on the state lands provided that:

(A) The ratio of owned to non-owned livestock grazed by the lessee does not exceed one to one (1:1) for more than two (2) years in any ten (10) year period;

(B) The lessee provides documentation on the lessee's grazing of non-owned livestock to the office of state lands and investments; and

(C) The lessee retains full management responsibility of the livestock that grazes on the state lands.

(v) Use of state lands as provided by paragraph (iv) of this subsection shall not be considered a sublease;

(vi) For purposes of paragraph (iv) of this subsection, "full management responsibility" includes all duties, obligations and liabilities as if the livestock were owned by the lessee.

(e) Repealed By Laws 2007, Ch. 111, § 2.

(f) Provided further, that whenever any state owned lands have been or may hereafter be condemned or acquired by the United States for war purposes and whenever said lands may hereafter be reconveyed to the state of Wyoming by the said United States or any department thereof, then in such event the state board of land commissioners shall give preference to the lessee holding said lands at the time of the taking of said lands by the said United States or any department thereof.

(g) Provided further, that this act shall not be applicable to the leasing of state mineral lands under the provisions of W.S. 36-6-101 through 36-6-105, as amended.

(h) As used in subsection (c) of this section, "preferred right" means the right to renew a lease provided to an existing holder of a grazing and agricultural lease by the board if the existing lease holder is in compliance with subsection (c) of this section.

(j) No applicant shall be qualified to lease state lands for grazing and agricultural purposes without having actual and necessary use of the land for the production of agricultural commodities.

The state lands described in this subsection shall not be otherwise disposed of, and any lease authorized herein shall contain a clause restricting the use of the leased property to grazing purposes only so long as the Oregon Trail State Veterans' Cemetery exists in the adjacent location. The land leased shall be known as the Oregon Trail State Veterans' Cemetery buffer zone.

(c) The state board of land commissioners is hereby authorized to enter into a lease agreement for the portions of land belonging to the state of Wyoming in Johnson county, Wyoming, described as follows: in township 50 north, range 82 west of the sixth principal meridian part of the NE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of section 3, the N $\frac{1}{2}$ and SW $\frac{1}{4}$ and NW $\frac{1}{4}$ of the SE $\frac{1}{4}$ and part of the NE $\frac{1}{4}$ of the SE $\frac{1}{4}$ and part of the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of section 4 and the E $\frac{1}{2}$ of section 5 and in township 51 north, range 82 west of the sixth principal meridian part of lot 7, part of lot 8 and part of lot 6 of section 34, containing 941.74 acres more or less. 36-5-107. Preference in granting leases on exchanged lands.

The holder of a lease of any school, state or institutional land that is offered for exchange under section 8, of the Taylor Grazing Act, shall have preference to lease the land received in such exchange.

36-5-108. Even rental offers.

If two (2) or more qualified applicants under W.S. 36-5-101 shall offer the same annual rental for the same lands, and such offers are the highest offers received and are equal to or above the minimum rental fixed by the board, and no preferred right exists in the old lessee, or if the old lessee does not exercise the preferred right, the director shall grant the lease to the applicant holding title to lands nearest to the lands applied for. When a preferred right exists in the old lessee under the provisions of this act, the old lessee shall be given fifteen (15) days notice by registered mail, and if he fails or refuses to file his acceptance together with the balance of the rental due for the first year, within the time specified, the lease shall be awarded automatically to the applicant offering to pay the highest annual rental, or in the event of even offers, shall be disposed of as hereinbefore provided. As used in this section, "preferred right" means as defined in W.S. 36-5-105(h).

36-5-109. When rental due; procedure upon failure to pay.

Upon notice provided not less than sixty (60) days before the anniversary date of a lease, all rentals accruing to the state by virtue of this act, except those for the first year, shall become due and payable at the office of state lands and investments on the anniversary date of the lease. If the rent is not paid on the anniversary date, the office shall again notify the lessee or the lessee's authorized agent by certified mail that the lease may be cancelled if the rent and a late fee equal to ten percent (10%) of the annual rental is not received within thirty (30) days following the date of the certified notice. If the lease is cancelled, the office shall as soon as possible thereafter, advertise the lands in the county where located, as vacant and subject to lease.

36-5-110. Right to make and remove improvements.

(a) A lessee of state lands shall have the right to construct or make improvements upon state lands in an amount not to exceed four thousand dollars (\$4,000.00) per section for each separate improvement, without first obtaining permission. If the lessee or any other person desires to construct or make

improvements upon state lands in excess of the value of four thousand dollars (\$4,000.00) per section for each separate improvement, he shall file an application for permission to construct or make the improvements with the director, which shall be subject to allowance or rejection as the best interests of the state require. The director shall have authority to grant permission to construct improvements in excess of four thousand dollars (\$4,000.00) per section for each separate improvement for fencing, water development, livestock handling facilities and range enhancements. Any other improvement in excess of four thousand dollars (\$4,000.00) per section for each separate improvement shall be applied for under a special use permit. Unless permission has been obtained in the manner provided by this section or the improvement has been registered as provided in subsection (b) of this section, the owner of any improvement in excess of the value of four thousand dollars (\$4,000.00) per section at the time of construction of the improvement shall not be entitled to compensation therefor as provided by W.S. 36-5-111 and 36-9-105, and upon the expiration of the lease the improvement shall forfeit to and become the property of the state; except, that within one hundred twenty (120) days from the date of the expiration of the lease, the owner may remove the improvement in a manner that minimizes injury to the land.

(b) Notwithstanding subsection (a) of this section, a lessee of state lands may register all improvements made upon state lands which were made prior to June 30, 2010, with or without prior approval by the director. Improvements registered under this subsection may include improvements for which approval was not applied for pursuant to subsection (a) of this section. Improvements for which permission was denied under subsection (a) of this section shall not be eligible for registration under this subsection. Registrations under the provisions of this subsection shall be made not later than June 30, 2014. Improvements registered under this subsection shall be entitled to compensation therefor as provided by W.S. 36-5-111 and 36-9-105.

36-5-111. Payment for or removal of existing improvements.

Any applicant applying to lease state lands upon which there are fences, buildings, reservoirs, ditches, dams, wells, or other improvements of any kind, belonging to or made by another, or for which water rights or proportionate interests in irrigation reservoirs, canals, or systems, have been acquired, shall before receiving the lease, pay to the director for the use and benefit of the owner or maker of any improvements at the time of the

execution of the lease, the current market value of the improvements unless a different value is agreed to between the owner of the improvements and the applicant thereof as finally determined by the board in accordance with its rules and regulations. Alternatively, the owner of the improvements shall, upon giving notice to the director in writing within the time fixed by board rule and regulation, have the right to remove those improvements in a manner which minimizes injury to the land; provided, that the improvements be removed within a period of one hundred twenty (120) days from the date of the expiration of the lease. For purposes of this section, "current market value" means the replacement value of the lessee's improvement at the time of transition of the lease, after the remaining useful life of the improvement is considered.

36-5-112. Form and execution of lease; bond.

The general form of grazing and agricultural lease upon state lands shall be prescribed by the board and shall be signed by the director on behalf of the state. Except in cases where the board deems necessary, leases shall be issued without bond.

36-5-113. Cancellation of leases.

The board shall have the power and authority to cancel leases procured by fraud, deceit or misrepresentation, or for use of the lands for unlawful or illegal purposes, or for the violation of the covenants of the lease, upon proper proof thereof.

36-5-114. Leasing for industrial, commercial, residential and recreational purposes; authority; rental fees; rules and regulations.

(a) The board of land commissioners may lease for a term of not more than seventy-five (75) years state lands for industrial, commercial and recreational purposes.

(b) The board may lease state lands for purposes which shall bring about the compatible use of the surface area and shall inure to the greatest long term benefit of the state land trust. Provided, however, that nothing herein contained shall result in the substantive impairment of existing leases or the preferential right to the renewal thereof.

(c) The board shall fix a rental value based upon not less than the fair market value of each use of the land. If the land to be leased under this subsection was originally acquired by

the state for the benefit of the common school permanent land fund, and is to be used by a Wyoming school district for the construction and maintenance of school buildings and facilities, the board may assess an annual rental fee of one hundred dollars (\$100.00) per acre or not less than fair market value, whichever is less.

(d) The board shall promulgate rules and regulations implementing policies, procedures and standards for the long-term leasing of state lands for industrial, commercial and recreational purposes under the provisions of W.S. 36-5-114 through 36-5-117, including provisions requiring compliance with all applicable land use planning and zoning laws and permitting the board to terminate a lease for good cause shown. When the office of state lands and investments initiates a request for a proposed leasing of state lands, the office shall require not less than thirty (30) days notice be provided:

(i) On the website of the office of state lands and investments;

(ii) In a newspaper of general circulation in the county or counties where the state lands are to be leased; and

(iii) To current lessees of the state lands and owners of adjoining lands by certified mail.

36-5-115. Leasing for industrial, commercial and recreational purposes; "recreational purposes" defined.

As used in W.S. 36-5-114 through 36-5-117 the term "recreational purposes" means land used for cabin sites, public camp sites, public parks and recreation areas, golf courses and any associated residential development, youth groups and ski or winter sports areas.

36-5-116. Leasing for industrial, commercial and recreational purposes; assignment or transfer.

Leases issued under the provisions of W.S. 36-5-114 through 36-5-117 shall not be assignable or transferable except with written consent of the board of land commissioners.

36-5-117. Lessee's liability.

(a) A state lands lessee's liability to users of those lands is limited as specified in W.S. 34-19-101 through 34-19-

107. A state lands lessee's liability to users of improvements upon those lands is limited to the same extent, provided that:

(i) The improvement is properly authorized under W.S. 36-5-110 or has otherwise been authorized by the board of land commissioners; and

(ii) The lessee did not charge the user to use the improvement.

36-5-118. Renewal of state land leases and rental payments.

All state land lease renewal applications and rental payments required under this act that are submitted using a mail service shall be deemed filed on the date of the postmark stamped on the envelope in which the renewal application or rental payment is mailed.

CHAPTER 6 - MINERAL LEASES

ARTICLE 1 - IN GENERAL

36-6-101. Terms of leases; extensions; lessees specified; rules and regulations; rent and royalties; assignment of leases; grazing and agricultural leases; cooperation with United States or its lessees, in cooperative or unit plans.

(a) The board of land commissioners may lease any state or state school lands for oil and gas for a primary term up to ten (10) years and as long thereafter as oil or gas may be produced in paying quantities, and may extend the term of existing oil and gas leases in good standing for as long as oil or gas may be produced in paying quantities.

(b) The board is further authorized to make and establish rules and regulations governing the issuance of oil and gas, coal and other mineral leases and covering the conduct of development and mining operations.

(c) Mineral leases may be issued upon such monthly or annual minimum rental payment basis as shall be fixed by the board, which payment shall be annually applied against such royalty as shall accrue for the same lease year by the terms of such lease, which royalty, as to lands leased for oil or gas shall not be less than five percent (5%) of all oil and gas produced and saved from and not used in operations on the lands

under the lease, and royalty of not less than five cents (\$.05) per ton on coal produced from the lands under any such lease for coal purposes, such royalty to be paid on mine run of coal. No mineral lease issued under the provisions of this section shall be assignable or transferable except with written consent of the director, subject to criteria established by the board, and he shall require the lessee's full compliance with and observance of all rules and regulations adopted by the board and for the lessee's compliance with all other terms of the lease. All mineral leases issued pursuant to this section shall be separate and distinct from each lease of the same land for grazing or agricultural purposes, issued by the board, and rules and regulations adopted by the board as herein authorized, shall provide for joint use of such lands for grazing and agricultural or mineral purposes without undue interference by the lessees under any such class of leases with lessees under any other such class.

(d) The director, subject to criteria established by the board, on behalf of the state, and its lessee or lessees in any such mineral lease are hereby further authorized to join, in the interest of conservation and greater ultimate recovery of oil and gas, in fair and equitable cooperative or unit plans of development or operation of oil and gas pools, with the United States government and its lessees, or permittees, or others, or any of them, and the director, subject to criteria established by the board, is hereby authorized to modify and change any and all terms and conditions of any such oil and gas lease or leases, heretofore or hereafter issued, as mutually agreed by the lessor and lessee in any such lease, as required to conform to the terms of any such lease to such cooperative or unit plan and as required to effectuate proper operations thereunder, which changes may include extension of the term of years otherwise applicable to any such lease, for the full period of time during which such cooperative or unit plan may remain in effect.

(e) When a cooperative or unit agreement is terminated or ceases to be effective as to lands upon which there is no production of oil or gas, the lease covering such lands shall remain in effect for a period of two (2) years from the date such lands ceased to be subject to said agreement, or for the remaining length of the term of the original lease, whichever shall be the greater, and so long thereafter as oil or gas is produced from said lands in accordance with the requirements of the original lease.

(f) The terms of any lease issued under this section for land on which actual drilling operations were commenced prior to the end of its primary term and are being diligently prosecuted at that time shall be extended for one (1) year and so long thereafter as oil or gas is produced in paying quantities.

(g) All natural gas leases executed hereunder shall provide that the state of Wyoming may require the lessee to dedicate all the natural gas produced on lands owned by the state for the use or benefit of the people of the state of Wyoming.

(h) If the state board of land commissioners determines it would benefit the people of the state to have the natural gas dedicated, the board may arrange for the sale of the natural gas for the use of the people of the state or arrange for the exchange of the natural gas produced with producers of natural gas produced from lands not owned by the state if the exchange will benefit the people of the state. If the board determines the dedication would not be in the public interest; or would cause waste as defined by W.S. 30-5-101; or would unreasonably deny the lessee the opportunity to economically market the natural gas, it may waive dedication.

(j) The board shall adopt and promulgate necessary rules and regulations to carry out the provisions of subsections (g), (h) and (j) of this section.

(k) The board, on behalf of the state, and its lessee or lessees in coal and other mineral leases, may approve cooperative mining development plans established for the purpose of development of the mineral resources in an efficient and economical manner and in accordance with sound engineering practice. The board may also modify and change any and all terms and conditions of any coal and other mineral lease or leases, heretofore or hereafter issued, as mutually agreed by the lessor and lessee in the lease. The director, subject to criteria established by the board, may conform the terms of the lease to a cooperative mining development plan required to effectuate proper operations, with changes that may include extension of the term of years otherwise applicable to the lease, for the full period of time during which the cooperative mining development plan may remain in effect. A cooperative development plan may consist of one (1) or more private, state or federal leaseholds or mineral interests. All lands in a cooperative mining development plan shall be under the effective control of

a single operator, capable of being developed and operated as a single operation.

(m) The director, subject to criteria established by the board, may lease any state or state school lands for coal and other mineral purposes for a primary term of not exceeding ten (10) years. Lessee shall have the exclusive right to renew the lease for successive terms of ten (10) years each, if at the time application for renewal is filed:

(i) Coal or other minerals covered by the lease are actually being produced from the leased lands and the lessee is complying with all lease terms; or

(ii) The leased lands are committed to a cooperative mining development plan approved by the board and coal or other minerals are actually being produced from the cooperative mining development plan and the lessee is complying with the plan and all lease terms; or

(iii) The lessee is proceeding in good faith to develop the leased lands; or

(iv) If the lessee shows to the satisfaction of the director or the board that production of coal or other minerals has been delayed by the necessity of obtaining licenses, permits, or other approvals from governmental authorities and that the lessee has used reasonable diligence in an effort to obtain the licenses, permits or other required authorizations.

(n) As used in subsection (m) of this section, good faith development means the substantial expenditures or firm commitments for exploration, engineering, environmental studies, hydrological studies or research and development which is required for development of the lease. To assist the lessee in planning for the orderly development of the lease or leases, the lessee may submit to the board at any time during the term of the lease or leases a schedule and discussion of proposed expenditures or commitments for the development of the lease or leases. After reviewing the schedule and discussion, the board shall issue a ruling in writing within ninety (90) days binding upon the state and the lessee, determining whether or not the proposed expenditures or commitments, when and if actually made by lessee, shall qualify as "substantial expenditures or commitments" so as to constitute "good faith development" within the meaning of subsection (m) of this section.

(o) Any mineral lessee or producer shall report all production including total volume, value and disposition of the mineral production under any lease, unit or communitization agreement in a timely manner and in such form as determined by the board. Any person failing to comply with this subsection shall be subject to penalties enacted by the board or the cancellation of the lease or agreement under which they are operating.

(p) Before issuing a lease of any state lands or state school lands for oil and gas production under this article, the director, subject to criteria established by the board, shall review the highest bid offered by an applicant to determine if the applicant is a qualified oil and gas lease applicant in accordance with rules of the board. If the highest bidder is not a qualified bidder, then the board shall consider the second highest bidder to determine whether that bidder is a qualified applicant, upon which the board may issue the lease if the applicant agrees to lease the lands for the highest amount bid before the disqualified applicant entered the lease auction or process or for the amount that the second highest bidder bid, whichever is lower. Any applicant whose bid is rejected under this subsection because the applicant is not a qualified oil and gas lease applicant shall be subject to a civil penalty in the amount of the applicant's highest bid. The attorney general may bring an action in a court of competent jurisdiction to recover the penalty specified in this subsection from the applicant.

36-6-102. Submission, custody and confidentiality of subsurface log reports.

(a) Contingent upon the leasing of any state or state school lands for coal, uranium or other mineral exploration, the board of land commissioners shall require copies of all electrical, gamma-ray neutron, resistivity or other types of subsurface log reports, and all assay reports for any rock cores or cuttings to be submitted to the office of the state geologist within ninety (90) days after completion of drilling and completion of associated reports. Reports submitted to the oil and gas conservation commission are deemed to satisfy the requirements of this subsection.

(b) All subsurface log reports and assay reports will be held confidential for a period of three (3) years after initial receipt by the state geologist. Confidentiality may be extended in one (1) year increments upon receipt by the state geologist of a written request by certified mail, return receipt

requested, from the person or legal entity requesting that confidentiality be extended. All requests must be received prior to the expiration of the period of confidentiality. All reports filed under this section shall become the property of the state to be retained within the permanent files of the Wyoming geological survey board for the use of the office and public after the period of confidentiality has expired.

36-6-103. Existing oil and gas leases ratified.

The issuance of all oil and gas leases upon any state or school lands heretofore issued by the board of land commissioners for primary terms up to ten (10) years and as long thereafter as oil or gas may be produced in paying quantities, and the granting of all extensions heretofore granted by the board of land commissioners of the terms of existing oil and gas leases upon any state or state school lands for as long after the primary term as oil or gas may be produced in paying quantities, are hereby ratified, confirmed, and validated. Each joinder by the board of land commissioners on behalf of the state of Wyoming in any cooperative or unit plan of development or operation of any oil or gas pool, and all modifications and changes in any of the terms or conditions of any oil or gas lease arising from any such joinder, or incident thereto, and all thereof, are hereby ratified, confirmed, and validated.

36-6-104. Payment for improvements; "improvements" defined.

If mineral lands upon which improvements have been made shall be sold or if such lands shall be leased to other than the owner of the improvements thereon, then such purchaser or such new lessee shall pay to the owner thereof the value of said improvements, at an agreed price with the owner thereof; or if such agreement cannot be reached, then at such price as shall be fixed by appraisalment under the authority of the board of land commissioners. The word "improvements" shall be construed to mean surface improvements, machinery and other equipment used and necessary for the operation of the plant on such land, and work performed in the development of the property for operation and mining when such development work is of practical use in future mineral operations on such land. Wells drilled for oil which do not produce oil in commercial quantities, shafts, tunnels or drifts from which coal or other minerals have been practically exhausted, shall not be considered as improvements.

36-6-105. Inspection reports.

The state geologist or any state coal mine inspector shall, when requested by the board of land commissioners, visit and make a report upon any lands held under coal and mineral leases. Such report shall be made without any fee to the officer making same.

AND SCHOOL DISTRICTS

36-6-201. Authority to lease or otherwise contract.

The governing body of any county, city, town or school district authorized to acquire and hold real property, may, upon determining that such action will be in the best interests of such county, city, town or school district, lease any lands owned in fee by such county, city, town or school district, for the exploration for and development and production of oil, gas or other hydrocarbons, and otherwise contract for such exploration, development and production, upon such terms as such governing body may determine and as are not inconsistent with the provisions of this act; providing the exploration for, development and production of oil, gas or other hydrocarbons shall in no way interfere with the public use of said lands or the purpose for which said lands were acquired.

36-6-202. Power to modify or change leases or contracts.

Any such governing body may, by such lease or contract or by other agreement, include, or provide for the inclusion of, the lands of such county, city, town or school district, or any part or portion of such lands, with other lands in any plan or agreement for cooperative or unit development or operation for oil, gas or other hydrocarbons, and modify and change any and all terms of any lease or contract heretofore entered into or hereafter entered into under the provisions of this act, including the extension of the term of any such lease or contract for the full period of time such cooperative or unit plan or agreement may remain in effect, as required to conform the terms of any such lease or contract to such cooperative or unit plan or agreement.

36-6-203. Rules and regulations; requisites of leases or contracts.

(a) Any such governing body may, in its discretion, make and establish such rules and regulations governing the issuance

of such leases and contracts as are not inconsistent with the provisions of this act. Any such lease or contract:

(i) Shall be entered into pursuant to resolution duly adopted by the governing body;

(ii) May cover parcels of land of such size and shape as the governing body may determine;

(iii) May be for a term not exceeding ten (10) years and as long thereafter as oil, gas or other hydrocarbons shall be, or can be, produced in commercial quantities from the lands included in such lease, except as such term may be extended pursuant to the provisions of W.S. 36-6-202; and

(iv) Shall reserve to the governing body a royalty of not less than one-eighth of all oil, gas or other hydrocarbons produced from said lands.

36-6-204. Existing leases, contracts and agreements validated.

Nothing in this act contained shall operate or be construed as in anywise limiting or affecting the power or authority of the governing body of any county, city, town, or school district, to have entered into any lease or contract for the exploration for the development and production of oil, gas or other hydrocarbons, or any agreement for cooperative or unit development or operation for oil, gas or other hydrocarbons, entered into by such governing body prior to the passage of this act, and all such leases, contracts and agreements previously entered into in substantial compliance with the above provision are hereby validated and confirmed.

The proposal shall be prepared in accordance with the rules of the board and with the regulations of the department of the interior. It shall state the source of water supply, the location and dimensions of the proposed works, the estimated cost thereof, the price and terms per acre, at which perpetual water rights will be sold to settlers on the land to be reclaimed, said perpetual rights to embrace a proportionate interest in the canal or other irrigation works, together with all rights and franchises attached thereto. In the case of incorporated companies, it shall state the name of the company, the purpose of its incorporation, the names and places of residence of its directors and officers, the amount of its authorized and its paid-up capital. If the applicant is not an incorporated company, the proposal shall set forth the name or names of the party or parties, and such other facts as will

enable the board to determine his or their financial ability to carry out the proposed undertaking.

36-7-302. Guaranty; forfeiture.

The board shall have authority to prescribe that each request and proposal shall be accompanied by a certified check in an amount to be designated by the board, the same to be held as a guarantee of the execution of the contract with the state in accordance with its terms by the parties submitting such proposals, in case of the approval of the same and selection of the land by the board and to be forfeited to the state in case of failure of said parties to enter into a contract with the state in accordance with the provisions of this act.

36-7-303. Application for permit to appropriate water.

The person, company of persons, association or incorporated company, making application to the board for the selection of lands by the state, shall have filed with the state engineer an application for a permit to appropriate water for the reclamation of the lands described in the request to the board. This application shall be prepared in conformity with the provisions of W.S. 41-3-613, 41-3-615, 41-4-501 through 41-4-512 and 41-4-517, except that the time for beginning construction, as specified by W.S. 41-4-506 thereof, shall begin within one (1) year from the date the lands, described in the said request to the board, are segregated to the state. The maps showing the proposed irrigation works and the lands to be irrigated shall be prepared in accordance with the regulations of the state engineer's office and the rules of the department of the interior.

36-7-304. Examination.

Immediately upon receipt of any request and proposal, as designated in W.S. 36-7-301, it shall be the duty of the director of the office of state lands and investments to examine the same, and ascertain if it complies with the rules of the board and the regulations of the department of the interior. If it does not, it is to be returned for correction, but if it does so comply, the director shall cause to be examined by an engineer in his office, the maps, plans, specifications and surveys, to determine whether or not the proposed works are feasible, whether the proposed irrigation system is practicable and the best that can be provided for the reclamation of said lands, whether there is sufficient unappropriated water in the

source of supply to furnish an ample supply of water for the irrigation and reclamation of the lands described in such proposal, whether the capacity of the proposed works is adequate to reclaim the lands described, whether or not the proposed cost of construction is reasonable, considering the area of land to be reclaimed, and whether or not the lands proposed to be irrigated are desert in character, and such as may be properly set apart under the provisions of the aforesaid act of congress and the rules and regulations of the department of the interior thereunder. Whenever the director shall deem it necessary to obtain the desired information, he shall cause a field examination of such project to be made by an engineer from his office. The state engineer shall afford to the director or the engineers in his office, every facility to examine the records and files of the state engineer's office to obtain the desired information, and upon request of the director, and without charge, shall furnish all information as to water permits issued, and concerning the water supply for such proposed irrigation system, and furnish such reports as may be called for by the director, or the interior department.

36-7-305. Submission for consideration; approval.

Whenever the director shall have made the investigation of such request and proposal as he deems necessary, he shall submit such request and proposal, with the report of such investigation, to the board for its consideration. In case of approval, the board shall instruct the director to file in the local land office, a request for the withdrawal of the land described in said proposal.

36-7-306. Notification of nonapproval; resubmission.

The parties so notified shall have sixty (60) days in which to submit a satisfactory proposal, but the board may, at its discretion, extend the time to six (6) months.

Division 2. Contracts for Construction of Irrigation Works

36-7-320. Duty to contract; contents; withdrawal of land and filing of bond necessary.

Upon the withdrawal of the land by the department of the interior, it shall be the duty of the board to enter into a

contract with the parties submitting the proposal, which contract shall contain complete specifications of the location, dimensions, character and estimated cost of the proposed ditch, canal or other irrigation work; the price and terms per acre at which such works and perpetual water rights shall be sold to settlers; the price and terms upon which the state is to dispose of the land to settlers; provided, that such price and terms for irrigation works, water rights and for lands to be disposed of by the state to settlers shall, in all cases, be reasonable and just. This contract shall not be entered into on the part of the state until the withdrawal of these lands by the department of the interior and the filing of a satisfactory bond on the part of the proposed contractor for irrigation works, which bond shall be in a penal sum equal to five percent (5%) of the estimated cost of the works, and to be conditioned for the faithful performance of the provisions of the contract with the state.

36-7-321. Terms.

No contract shall be made by the board which requires a greater time than five (5) years for the construction of the canal, works or irrigation system, and all contracts shall be conditioned that active construction work shall begin within six (6) months from the date of the contract, and that at least one-tenth of the construction work shall be completed within one (1) year of the date of the contract; that at least one-third of the construction work shall be completed within two (2) years from the date of the contract, and that construction shall be prosecuted diligently and continuously to completion; and that a cessation of work under the contract with the state for a period of ninety (90) days during the months of May, June, July, August, September, October and November, after the second year will forfeit to the state all rights under the said contract.

36-7-322. Notice upon failure to fulfill; sale of incompleted works; option to complete.

Upon the failure of any parties, having contracts with the state for the construction of irrigation works, to begin the same within the time specified by the contract, or to complete the same within the time or in accordance with the specifications of the contract with the state, it shall be the duty of the director to give such parties written notice of such failure, and if, after a period of sixty (60) days from the sending of such notice, they shall have failed to proceed with the work, or to conform to the specifications of their contract with the

state, unless said parties shall show to the satisfaction of the board good and sufficient reason for such delay and failure to complete said works or conform to said specifications and demonstrate to the satisfaction of said board their financial ability and intentions to proceed with said work in good faith, the bond and contract of such parties and all work constructed thereunder shall be at once and thereby forfeited to the state, and it shall be the duty of the board at once so to declare and to give notice once each week, for a period of four (4) weeks, in some newspaper of general circulation in the county in which the work is situated, and in one (1) newspaper at the state capital, in like manner and for a like period, of the forfeiture of said contract, and that upon a day fixed, proposals will be received at the office of state lands and investments in the capitol at Cheyenne, for the purchase of the incompleated works and for the completion of said contract; the time for receiving said bids to be at least sixty (60) days subsequent to the issuing of the last notice of forfeiture. The money received from the sale of partially completed works under the provisions of W.S. 36-7-321, shall first be applied to the expenses incurred by the state in their forfeiture and disposal; secondly, to satisfying the bond; and the surplus, if any exists, shall be paid to the original contractors with the state; provided, however, that the board may, in its discretion, accept from any parties unable for any reason to fulfill the terms of their contract with the state, the full release, relinquishment and surrender of any rights acquired from the state under and by virtue of said contract, and may thereupon abrogate the same and release said parties from the conditions of the said contract and bond, and may proceed in its discretion to enter into a new contract with other parties, if such there be, for the completion of the works so surrendered.

36-7-323. State not responsible for contractor failures.

Nothing in this act shall be construed as authorizing the board to obligate the state to pay for any work constructed under any contract, or to hold the state in any way responsible to settlers for the failure of contractors to complete the work according to the terms of their contracts with the state.

36-7-324. Maps; lands subject to rights-of-way.

The maps in the office of the board of the lands selected under the provisions of this act, shall show the location of the canals or other irrigation works approved in the contract with the board, and all lands filed upon shall be subject to the

rights-of-way of such canals or irrigation works; said rights-of-way to embrace the entire width of the canals, and such additional width as may be required for their proper operation and maintenance, the width of such rights-of-way to be specified in the contracts provided for in this act.

36-7-325. Inspection of completed systems; application for patent.

Whenever any person, firm or corporation constructing an irrigation system to reclaim lands under the Carey Act, shall notify the director that such irrigation system is completed, and that an ample supply of water is being delivered in a substantial ditch or canal to the lands included in such segregation, or any unit of such lands, the director shall cause an inspection to be made of such constructed system, and if he finds that said irrigation system has been constructed in a substantial manner, and in accordance with the plans and specifications agreed upon, and that an ample supply of water is being delivered to such lands in a substantial ditch or canal, he shall immediately apply to the United States government for patent to such lands, and shall submit to the interior department, proof of the reclamation of such lands.

36-7-326. Assessments for operation; failure to pay; enforcement of lien; costs and fees; injunction bond.

Companies, associations, or corporations operating or controlling irrigation systems, ditches, or reservoirs or other devices for the distribution of water for irrigation shall be authorized to levy and collect such reasonable and necessary assessments for the cost of operation, maintenance, repairs and improvements of such irrigation systems, ditches or reservoirs, and for the purpose of repaying money borrowed for such purposes, as may be authorized by a majority of the members of such companies, or associations, or fixed in the manner provided by the bylaws of such corporation. Payment of such assessments shall be the necessary requisite for the use of such reservoirs, irrigation systems or ditches for the storage or conveyance of water for the lands deeded or described in contracts for or deeds to proportionate interests in such reservoirs, irrigation systems and ditches upon which assessments are made, and in the event such assessments remain due and unpaid more than ten (10) days after the date fixed as the date of payment for the purpose, such companies, associations and corporations are authorized to close down any headgate or other diverting or measuring device used by any delinquent, or by any person in

possession of or using such lands, and to refuse to allow the use of such reservoirs, irrigation systems and ditches for the purpose of storing water for or conveying water to the lands of such delinquents and refuse such delinquents the right to vote at any meeting of such company, association, or corporation, until such repair or maintenance assessment shall have been paid. Such companies, associations and corporations shall have a lien upon the proportionate interest in such reservoirs, irrigation systems and ditches, which shall become a first lien upon the lands deeded or described in contracts for or deeds to such proportionate interests for the amount of any unpaid assessments which may be enforced in a court of competent jurisdiction, as in the case of other liens. In all suits or actions to obtain a judgment on such account and to enforce the lien, when the plaintiff or complainant shall obtain judgment or decree, the costs, together with twenty-five dollars (\$25.00) for attorney's fees, shall be taxed or recovered from the adverse party. No restraining order, or order of injunction shall be issued against any such company, association or corporation unless applicant for same shall file a sufficient bond conditioned upon the immediate payment of all delinquent assessments if such shall be found by a competent court to be reasonable and just. This act [section] shall include all lands under any of the above named systems if water has been used or is being used in any one irrigation season and providing that water is in said canal, reservoir or ditches, subject to use of owners.

ARTICLE 4 - SETTLEMENT OF LANDS

36-7-401. Notice lands open for settlement.

Upon receipt of notice by the contracting company that water for beneficial irrigation can be furnished for all or any part of the lands in any segregation list at stated time, it being shown to the satisfaction of the board that the contracting company will be able to deliver water at the said time, it shall be the duty of the board, by publication, at the expense of the contracting company, in one (1) newspaper in the county in which said lands are situated and such other newspaper or newspapers as may be designated by the contracting company, to give notice that certain lands, generally described, are open for settlement; that the land will be sold at fifty cents (\$.50) per acre by the state and that proportionate interests in the irrigation system for a perpetual water supply can be purchased at the price named and water for beneficial irrigation can be

furnished on the date named, and such other information as the board shall deem advisable.

36-7-402. Proceeds earmarked for reclamation.

Pursuant to the act of congress, approved August 18, 1894 (28 Stat., 372-422), all moneys received by the state of Wyoming from the payments of fifty cents (\$.50) an acre received on lands segregated under what is commonly known as the Carey Act, and all moneys received as fees pursuant to operations of the Carey Act, are hereby appropriated for the purpose of reclaiming school or granted lands belonging to the state of Wyoming, and lands which may be hereafter granted or selected for the said state of Wyoming for any purpose whatsoever.

36-7-403. Application for entry; certificate of location; payments.

Any adult citizen of the United States or any adult person having declared his intention of becoming a citizen of the United States, may make application, under oath, to the board, to enter any of said land in an amount not to exceed one hundred and sixty (160) acres for any one (1) person; and such application shall set forth that the person desiring to make such entry does so for the purpose of actual reclamation, cultivation and settlement in accordance with the act of congress and the laws of this state relating thereto, and that the applicant has never received the benefit of the provisions of this act to an amount greater than one hundred and sixty (160) acres, including the number of acres specified in the application under consideration. 36-8-201. Short title.

This act shall be known and may be cited as the "Wyoming Yellowstone Park Commission Act".

36-8-202. Definitions.

(a) As used in this act, the following words and terms shall have the following meanings, unless the context shall indicate another or different meaning or intent:

(i) The term "commission" shall mean the Wyoming Yellowstone Park commission, created by section 4 of this act, or, if said commission shall be abolished, the board, body or authority succeeding to the principal functions thereof or to whom the powers given by this act to the commission shall be given by law;

(ii) "Recreational area and facilities" shall mean and embrace all of the area and facilities of the commission in Yellowstone National Park constructed or acquired by lease, license, agreement or purchase, including but not limited to cabins, lodges, hotels, restaurants, commissaries, and any other revenue producing facilities in the recreational area;

(iii) "Project" shall be deemed to mean collectively the acquisition or leasing of the recreational area and facilities, the acquisition or the construction of any buildings or other works, together with any incidental approaches, structures, facilities and property reasonably necessary and useful in order to provide new or improved recreational facilities in the recreational area;

(iv) The term "bonds" shall mean the bonds, notes, temporary bonds, interim receipts or other obligations issued by the commission pursuant to this act;

(v) The term "revenues" shall mean all rates, rentals, admission fees, charges and other income derived from the operation of the project by the commission;

(vi) The term "cost" as applied to a project shall include, without being limited to, the cost of acquisition of the project, the cost of construction, the cost of acquisition, leasing or licensing of all land, rights-in-land, property rights, easements and interests by the commission for such construction, the cost of demolishing or removing any buildings or structures on land so acquired, leased or licensed, the cost of all machinery and equipment, financing charges, interest prior to and during construction and for a reasonable period thereafter, cost of estimates and of engineering and legal expenses, plans, specifications, surveys, estimates of cost and revenues, other expenses necessary or incident to determining the feasibility or practicability of constructing and acquiring, leasing or licensing the project, administrative expense, and such other expense as may be necessary or incident to the construction and acquisition of the project, the financing of such construction and acquisition and the placing of the project in operation. Any moneys appropriated by the state for the purpose of the commission and required to be reimbursed by it shall be considered as a part of the cost of the project and shall be reimbursed to the state out of the proceeds of the bonds issued for the project.

36-8-203. Creation; composition; qualification; appointment; terms and removal of members; election of officers; quorum; compensation and expenses.

(a) There is created an agency and instrumentality of the state to be known as the "Wyoming Yellowstone Park commission" and by that name the commission may sue and be sued and plead and be impleaded. The exercise by the commission of the powers conferred by this act [§§ 36-8-201 through 36-8-238] is an essential governmental function of the state. However, the performance of such governmental functions shall not be construed to relieve the commission from liability for personal injuries or property damages incurred by it through its negligence or the negligence of its servants or agents.

(b) The commission shall consist of five (5) members appointed by the governor, by and with the consent of the senate. The members shall be residents of the state and qualified electors therein for a period of at least one (1) year

next preceding their appointment. Members are eligible for reappointment. The governor may remove members of the commission as provided in W.S. 9-1-202.

(c) The commission shall elect one (1) of the members as chairman, another as vice-chairman and another as secretary and treasurer. Three (3) members of the commission constitute a quorum and the vote of three (3) members is necessary for any action taken by the commission. No vacancy in the membership of the commission impairs the right of a quorum to exercise all the rights and perform all the duties of the commission.

(d) The members of the commission shall not receive any compensation for their services, but when actually engaged in the performance of their duties, they shall be paid a per diem for each day of actual service and be reimbursed for their travel expense at the same rate applicable to travel expenses of other state officers. All expenses incurred in carrying out the provisions of this act shall be payable solely from funds provided under the authority of this act or otherwise previously appropriated to the commission, and no liability or obligation shall be incurred by the commission beyond the extent to which monies have been provided under the authority of this act or otherwise previously appropriated.

(vii) To fix, alter, charge and collect rates, rentals, admission fees and other charges for the use of the recreational area and facilities of the project and the services rendered in connection therewith at reasonable and uniform rates, to be determined exclusively by it, for the purpose of providing for the payment of the expenses of the commission, the acquisition, leasing, licensing, construction, improvement, extension, reconstruction, maintenance, repair and operation of the project, the payment of the principal of and interest on its bonds, and to fulfill the terms and provisions of any agreements made with the purchasers or holders of any of its bonds;

act, including contracts, agreements or leases with the United States of America, or any officer or agency thereof, relating to the operation of the commission within the area of Yellowstone National Park and containing such terms and conditions as the commission may deem necessary or desirable, and to employ such management consultants, consulting engineers, attorneys, accountants, construction, appraisal and financial experts, and such other experts, employees and agents as may be necessary in its judgment, and, subject to the provisions of this act, to fix their compensation;

36-8-206. Exercise of powers.

The exercise of the powers granted by this act will be in all respects for the benefit of the people of the state, for the increase of their commerce and prosperity, and for the improvement of their health and living conditions, and as the operation and maintenance of the project by the commission will constitute the performance of essential governmental functions the commission shall not be required to pay any taxes or assessments upon any project or any property acquired or used by the commission under the provision of this act or upon the income therefrom, and the bonds issued under the provisions of this act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free from taxation within the state.

36-8-207. Authority to maintain and operate program.

36-8-209. Revolving account.

There is hereby appropriated and credited to a special revolving account to be set up in the state treasury, to be known as the "Wyoming Yellowstone Park commission revolving account", the sum of fifty thousand dollars (\$50,000.00). Moneys shall be released from said account to the commission for the purpose of studying the feasibility of acquiring and leasing the project and the retaining of necessary consulting engineers, financial consultants, attorneys, appraisers, and other services deemed necessary to complete the study of the project and to determine its feasibility from an economic and financial standpoint. Any sums so advanced out of said revolving account for such purposes shall be repaid to said account without interest to the extent of such advance upon the sale of bonds for the project and the amount of any advances from said account shall be included as a part of the cost of the project.

36-8-210. Repealed By Laws 1999, ch. 149, § 1.

The commission shall have power from time to time whenever it deems refunding

expedient, to refund any bonds by the issuance of new bonds, whether the bonds to be refunded have or have not matured, and may issue bonds partly to refund bonds then outstanding and partly for any of its additional public purposes. The bonds shall be authorized by resolution of the commission and shall bear such date or dates, mature at such time or times, bear interest at such rate or rates payable at such times as may be determined by the commission, and may be made redeemable before maturity, at the option of the commission, at such price or prices and under such terms and conditions as may be fixed by the commission prior to the issuance of the bonds. In case any officer whose signature or facsimile of whose signature shall appear on any bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. All bonds issued under the provisions of this act shall have and are hereby declared to have all the qualities and incidents of negotiable instruments under the negotiable instruments law of the state. The bonds may be issued in coupon or in registered form, or both, as the commission may determine, and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, and for the reconversion into coupon bonds of any bonds registered as to both principal and interest. The commission may sell such bonds in such manner and for such price as it may determine to be for the best interests of the commission.

The commission may also provide for the replacement of any bonds which shall become mutilated or shall be destroyed or lost.

Neither the resolution nor any other instrument by which a pledge is created need be recorded.

In the discretion of the commission any bonds issued under the provisions of this act may be secured by a trust agreement by and between the commission and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the state. Any such trust agreement may pledge or assign the revenues to be received, but shall not convey or mortgage the project or any part thereof. Any such trust agreement or any resolution providing for the issuance of such bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the commission in relation to the acquisition, leasing or licensing of property and the construction, improvement, maintenance, repair, operation and insurance of the project, the rates, admission fees, charges and rentals to be charged, and the custody, safeguarding and application of all moneys, and provision for the employment of managers, and consulting engineers in connection with the construction or operation of the project. Any such trust agreement may set forth the rights and remedies of the bondholders and of trusts, and may restrict the individual right of action of bondholders as is customary in trust agreements or trust indentures securing bonds or debentures of corporations. In addition to the foregoing, any such trust agreement may contain such other provisions as the commission may deem

reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of such trust agreement may be treated as a part of the cost of the operation of the project.

All such revenue bonds shall contain on the face thereof a statement to the effect that neither the state nor the commission shall be obligated to pay the same or the interest thereon except from the revenues and funds of the commission, and that neither the faith and credit nor the taxing power of the state or any political subdivision thereof is pledged or may be pledged, to the payment of the principal of or interest on such bonds.

(b) All expenses incurred in carrying out the provisions of this act shall be payable solely from funds provided under the authority of this act, and nothing in this act contained

shall be construed to authorize the commission to incur indebtedness or liability on behalf of or payable by the state or any political subdivision thereof.

36-8-234. Bonds deemed legal investments and deposits.

Bonds issued by the commission under the provisions of this act are hereby made securities in which the state and all public officers, municipal corporations, political subdivisions and public bodies, all banks, bankers, trust companies, trust and loan associations, investment companies and others carrying on a banking business, all insurance companies and insurance associations and others carrying on an insurance business, and all administrators, executors, guardians, trustees and other fiduciaries may properly and legally invest any funds, including capital belonging to them or within their control. 36-8-235. Pledge by state to bondholders.

The state of Wyoming does pledge to and agrees with the holders of the bonds issued pursuant to this act that the state will not limit or alter the rights herein vested in the commission to acquire, lease, license, construct, improve, extend, reconstruct, maintain, repair and operate the project, to establish and collect the revenues, rates, rentals, admission fees and other charges referred to in this act and to fulfill the terms of any agreements made with the holders of the bonds, or in any way impair the rights and remedies of such bondholders, until the bonds together with interest thereon, interests on any unpaid installments of interest, and all costs and expenses in connection with any action or proceedings by or on behalf of the bondholders are fully met and discharged.

36-8-236. Moneys deemed trust funds.

All moneys received pursuant to the authority of this act, whether as proceeds from the sale of bonds or as revenues, shall be deemed to be trust funds, to be held and applied solely as provided in this act. The resolution authorizing the bonds of any issue or the trust agreement securing such bonds shall provide that any officer to whom, or any bank or trust company to which, such moneys shall be paid shall act as trustee of such

moneys and shall hold and apply the same for the purposes hereof, subject to such regulations as this act and such resolution or trust agreement may provide.

(b) This act without reference to other statutes of the state of Wyoming shall constitute full authority for the fixing, altering, charging and collection by the commission of rates, fees, rentals and other charges for the use of the recreational areas and facilities of the project and the services rendered in connection therewith at reasonable and uniform rates, to be determined exclusively by the commission, and the commission shall have power and authority to fix, alter, charge and collect such rates, fees, rentals and other charges without obtaining the consent or approval of any department, division, commission, board, bureau, agency or officer of the state.

36-8-238. Existing statutory powers.

The foregoing sections of this act shall be deemed to provide an additional and alternative method for the doing of the things authorized thereby, and shall be regarded as supplemental and additional to powers conferred by other laws, and shall not be regarded as in derogation of any power now existing except as in this act specifically provided; provided, however, that the issuance of revenue bonds or revenue refunding bonds under the provisions of this act need not comply with the requirements of any other law applicable to the issuance of bonds.

CHAPTER 9 - SALE OF STATE LANDS

36-9-101. Authority; restrictions.

(a) The board of land commissioners may at any time direct the sale of state lands subject to any lease thereof. Subject to criteria established by the board, any person may request that a parcel of state land be considered for sale by the board, but such lands shall only be nominated for sale by a majority vote of the board. Such lands which have been reserved in any way to the public use, or for the use of public institutions, shall not be sold to any member of the board. The board shall sell such

lands according to the subdivisions of sections as established by the United States survey thereof, or by metes and bounds, as may appear to be to the interest of the state of Wyoming. The board shall sell such subdivisions as it shall deem for the best interests of the state land trust. The board shall not sell state land unless the board finds that the proceeds from the sale are protected from inflationary effects and the proceeds will earn a significantly higher rate of return than can be realized through retention of the surface estate and if the board finds that the sale will:

(i) Make state lands more manageable where the lands are not otherwise manageable;

(ii) Meet a specific need of a school or community for land;

(iii) Better meet multiple use objectives of the beneficiaries of the trust; or

(iv) Realize a clear long term benefit to the trust which substantially exceeds the present and probable future benefit from continued ownership.

36-9-102. Manner of sale; minimum price.

All state lands shall be disposed of only at public auction to the highest responsible bidder after having been duly appraised by the board, and shall be sold at not less than the appraised value thereof, and for not less than ten dollars (\$10.00) per acre.

36-9-103. Appraisers for improvements.

All improvements upon state lands, when such lands are to be sold as provided by W.S. 36-9-102, shall be appraised by three (3) disinterested persons who shall appraise the improvements separately from the lands, though they may be attached thereto. The said appraisers shall upon application of the state land board, be appointed by a judge of the district court of the judicial district wherein the lands are situate.

36-9-104. Advertisement.

All sales of state lands under this act shall be advertised for four (4) consecutive weeks in some newspaper in the county in which such land is situated, if there be such paper; if not,

then in some paper published in an adjoining county. Advertisements of such sales may be made in other papers, as the board may direct. The advertisement shall state the time, place, description of land, and terms of sale, and the price at which the land was appraised by the board for each parcel.

36-9-105. Purchaser to pay owner appraised value of improvements; receipt.

If any state lands are sold upon which surface improvements, including irrigation works of any kind, have been made by a lessee, or for which water rights or proportionate interests in irrigation, reservoirs, canals, or systems, have been acquired, the improvements, irrigation works and water rights shall be appraised under the direction of the board. The purchaser of the lands, upon which improvements and irrigation works have been made, or for which water rights have been acquired as herein provided for, shall pay the owner of such improvements, irrigation works or water rights, as the case may be, the current market value of the improvements unless a different value is agreed to between the owner of the improvements and the applicant thereof, and take a receipt therefor, and shall deliver the receipt to the director before he shall receive a patent or certificate of purchase. All such receipts shall be filed and preserved in the office of state lands and investments. For purposes of this section, "current market value" means the replacement value of the lessee's improvement at the time of transition of the lease, after the remaining useful life of the improvement is considered.

36-9-106. Place of sale; execution of leases.

The interest

rate on all amounts not paid when due shall be established by the board in accordance with current lending practices. The purchaser may pay in full at the time of the sale or payment of any installment may be made at any time if accrued interest is paid to the time of payment.

(b) When school or state lands are sold under an installment contract the state shall insert a provision that the vendee shall pay the taxes upon the fair value of the lands sold from the date of the contract. The provision is binding upon the vendee. The installment contract shall be recorded in the county wherein the lands are situated by the vendee within thirty (30) days following its execution.

36-9-108. "Amortization plan" defined.

The amortization plan is hereby defined, when applied to state land contracts or certificates, as being that plan under which part of the principal is required to be paid each time interest becomes due and payable, and under which this part payment on the principal increases at each succeeding installment in the same amount that the interest payment decreases, so that the combined amount due on principal and interest on each due date remains the same until the loan is paid in full.

36-9-109. Certificate of purchase; issuance and contents.

When any state land shall have been purchased according to law, the board shall make and deliver to the purchaser a certificate of purchase, which shall contain the name of the purchaser, a description of the land purchased, the sum paid, the sum remaining unpaid, the amount of annual payments, which shall include the accrued interest, upon the amortization plan as hereinbefore defined, and the date on which each of the deferred payments falls due. All annual payments shall be due and payable on the first day of December of each year, provided that interest is paid on the full amount of the deferred payments at the rate of four percent (4%) per annum from date of the sale to the first day of December following such date of sale.

(b) The director shall collect in addition to the fees provided by law the sum of two dollars (\$2.00) to be used by him for expenses incidental with transfers as made optional by this act for supplies, extra clerk hire, etc., and any unused portion of same shall be paid to the state treasurer at such time as all transfers have been made.

36-9-111. Certificate of purchase; loss or wrongful detention.

Whenever a certificate of purchase shall be lost, or wrongfully withheld from the owner thereof, the board may receive evidence of such loss or wrongful detention, and upon satisfactory proof of this fact, and such indemnity therefor as the board may prescribe, it may cause a new certificate of purchase or patent, as the case may be, to be issued to such person as shall appear to it to be the proprietor of the land described in the original certificate of purchase.

36-9-112. Granting of patents; reservation of minerals.

(a) Whenever the purchaser of any state land, or his assign, has complied with all the conditions of this act and has paid all the purchase money therefor, together with the lawful interest thereon, he shall receive a patent for the land purchased. Such patent shall run in the name of the state of Wyoming, it shall be signed by the governor, and countersigned by the director, and attested by the seal of the board. Such patent signed and executed as aforesaid shall convey a good and sufficient title to the patentee therein named. A fee interest in any state land may be perfected only as herein provided and only by express grant by the state of Wyoming for that purpose.

(b) Patents issued by the state of Wyoming shall contain a reservation to the state of all the minerals, whether or not now known, or which may be discovered hereafter, together with the right of ingress and egress to prospect for, mine, and remove such minerals. The board of land commissioners is authorized to promulgate rules and regulations necessary to implement the exchange of mineral rights on a value for value basis. The

exchange program may authorize a cash equalization receipt or payment of up to twenty-five percent (25%) of the value of the mineral rights. Any receipt shall be deposited into, and any payment shall be made from, the permanent land fund.

36-9-113. Deposition of moneys.

All moneys arising from the sale or lease of state lands as collected shall be paid by the board to the treasurer of the state, who shall receipt for the money.

The board may establish such rules and regulations as in its opinion may be proper to prevent fraudulent applications being granted.

36-9-116. Trespass.

Any person who shall use or who shall occupy any state land without lease or certificate of purchase, and any person who shall use or occupy state lands for more than thirty (30) days after the cancellation or expiration of his lease, unless he shall be a purchaser thereof, shall be a trespasser; and upon conviction thereof shall be fined not less than twenty-five dollars (\$25.00) and not more than five hundred dollars (\$500.00), and the bondsmen of such lessee shall, upon the bond of such lessee, be equally liable with the lessee for the payment of such fine imposed.

CHAPTER 12 - STATE CONTROL OF CERTAIN LAND

36-12-101. Legislative determinations.

(a) The legislature determines:

(i) The intent of the framers of the constitution of the United States was to guarantee to each of the states sovereignty over all matters within its boundaries except for those powers specifically granted to the United States as agent of the states;

(ii) The attempted imposition upon the state of Wyoming by the congress of the United States of a requirement in the Statehood Act that the state of Wyoming and its people "disclaim all right and title to any lands or other property not granted or confirmed to the state or its political subdivisions by or under the authority of this act, the right or title to which is held by the United States or is subject to disposition by the United States", as a condition precedent to acceptance of Wyoming into the Union, was an act beyond the power of the congress of the United States and is thus void;

(iii) The purported right of ownership and control of the unappropriated public land in the state of Wyoming by the United States is without foundation and violates the clear intent of the constitution of the United States; and

(iv) The exercise of that dominion and control of the public land in the state of Wyoming by the United States works a severe, continuous and debilitating hardship upon the people of the state of Wyoming.

36-12-102. Management.

(a) Upon transfer to the state of Wyoming [of] the jurisdiction and ownership of lands and mineral resources subject to this act, the board shall manage such in an orderly manner in trust for the optimum benefit and use of all the people of Wyoming and in conformity with established concepts of multiple use and sustained yield which will permit the development of uses for agriculture, grazing, recreation, minerals, timber, and the development, production and transmission of energy and other public utility services. It shall be managed in such a manner as to permit the conservation and protection of watersheds and wildlife habitat, and historic, scenic, fish and wildlife, recreational and natural values.

(b) The board of land commissioners shall develop a plan for the transfer and management of lands and minerals subject to this act. This plan will be submitted to the governor and legislature prior to January 1, 1983 and will be subject to their approval. Such a management plan shall consider:

(i) Management of the land pursuant to subsection (a);

(ii) Policy and program regarding disposal, lease or exchange of any lands or resources acquired pursuant to this act;

(iii) Policy and program regarding public access to use of such lands;

(iv) Conservation of lands for wildlife habitat or recreational purposes; and

(v) Program regarding use or transfer of lands to municipalities and other governmental entities for public purposes.

(c) As used in this section:

(i) Sustained yield means the maintenance of a high-level annual or regular periodic output of the various renewable resources of the state lands consistent with multiple use;

(ii) Multiple use means the management of the land in a combination of balanced and diverse resource uses that takes into account the long-term needs for renewable and nonrenewable

resources, including but not limited to recreation, range, timber, minerals, watershed, wildlife and fish, natural, scenic, scientific and historical values, and the coordinated management of the resources without permanent impairment of the productivity of the land or the quality of the environment.

36-12-103. Property of the state.

Subject to valid existing rights of applicants for land, after March 30, 1980, all federal land in the state except as set forth in W.S. 36-12-109 and all water and mineral rights appurtenant not previously appropriated are the exclusive property of the state and subject to its jurisdiction and control.

36-12-104. Existing rights under federal law.

Until equivalent measures are enacted by the legislature, the rights and privileges of the people of this state granted under the provisions of existing federal law are preserved under administration by the board of land commissioners.

36-12-105. Interstate compacts.

Land in the state which has been administered by the United States under interstate compacts will continue to be administered by the state in conformity with those compacts.

36-12-106. Multiple use.

The land shall be used to foster, promote and encourage the optimum development of the state's human, industrial, mineral, agricultural, water, wildlife and wildlife habitat, timber and recreational resources.

36-12-107. Proceeds to the general fund.

The proceeds of sales, fees, rents, royalties or other receipts from the land paid to the state under this act shall be deposited in the general fund.

36-12-109. Definition.

(a) As used in this act "land" means all land and water within the exterior boundaries of the state of Wyoming except land and water:
